# Auditor's Report

San Francisco, Cal., Nov. 21, 1912.

Hon. James Rolph, Jr.,  
Mayor, City and County of San Francisco.

Sir:

In compliance with Article 16, Section 9, of the Charter of the City and County of San Francisco, I have the honor to submit herewith the report of the Auditor for the fiscal year ending June 30, 1912.

Respectfully submitted,

THOS. F. BOYLE,  
Auditor.

# Department of Elections Report

San Francisco, June 30, 1912.

Hon. James Rolph, Jr.,  
Mayor, City and County, San Francisco.

Sir:—In compliance with Section 9, Article XVI of the Charter of the City and County of San Francisco.

The Board of Election Commissioners present herewith their Annual Report for the fiscal year ending June 30, 1912.

The report includes a financial statement of this Department together with a complete statement of votes cast at the Primary Municipal Election held September 26, 1911, and a complete statement of votes cast at the Special Election held October 10, 1911 on Constitutional Amendments and a complete statement of votes cast at the General Municipal Election held November 7, 1911 and a complete statement of votes cast at the Special Election held March 28, 1912 creating a Civic Center (Bonds) and a complete statement of votes cast at the Special Election held March 29, 1912 in-re purchase of telephone system, etc., and also a complete statement of votes cast at the Presidential Primary Election held May 14, 1912.

GEORGE UHL, President.  
THOMAS V. CATOR,  
JOHN P. HARE,  
CHARLES L. QUEEN,  
WILLIAM McDEVITT,  
Board of Election Commissioners.

J. H. ZEMANSKY,  
Registrar of Voters and Secretary of  
Board of Election Commissioners.

SPECIAL ELECTION MARCH 29, 1912.  
PROPOSITION ONE.

An Ordinance determining and declaring that the public interest and necessity require the acquisition, construction, completion and equipment of a public utility, a telephone system, by the City and County of San Francisco; that the cost thereof in addition to the other expenses of the City and County, will exceed the income and revenue provided for the said City and County for any one year, and directing the Board of Public Works to procure through the City Engineer and to place on file with the Board of Supervisors, plans and estimates of the cost of original construction, completion and equipment of such public utility; and determining and declaring that the public interest and necessity require the acquisition by said City and County of San Francisco, of the telephone system of the Bay Cities Home Telephone Company in said City and County of San Francisco; and determining and declaring that public interest and necessity require that any merger of the telephone systems of the said Bay Cities Home Telephone Company and of the Pacific Telephone and Telegraph Company be disapproved, rejected and defeated, and that said Bay Cities Home Telephone Company be not released from any of its contracts or other obligations to said City and County.

## REPORT OF PRESIDENT

San Francisco, August 5, 1912.

To the Honorable James Rolph, Jr.,  
Mayor of the City and County of San Francisco.

Sir:—Pursuant to the provisions of Article XVI, section 9, of the Charter, the Board of Trustees of the Public Library and Reading Rooms presents this report of its activities for the fiscal year ending June 30, 1912.

For the support of the Library during the year the Board of Supervisors levied a tax of .016 cents on each one hundred dollars of the valuation of property assessed for taxation. This produced for our use the sum of \$78,358.18. The necessary current expense of the Library, with its branches and deposit stations, fully exhausts this appropriation. It has, accordingly, been impossible for the Trustees to extend the service by the establishment of additional branches, although, as pointed out in our last report, there is urgent need for one or two more branches. The trustees fully recognize the justice of the requests frequently pressed upon them by the inhabitants of several populous outlying districts, for the installation of branch libraries, but have been unable, for lack of the necessary funds, to comply with such requests. We may mention particularly, in this connection, the Sunset District and Noe Valley, each of which is so situated as to fairly need the facilities of a branch library. In the Richmond District, too, while we now have a branch, the quarters occupied are entirely inadequate, and a new building should be provided. In this connection, we would report that Branch Library No. 6, situated at No. 2435 Sacramento Street, has been materially enlarged and otherwise improved.

Further extension of the service through deposit stations would also be very beneficial, but has, for the reason stated, been impossible to the desired extent. We have, however, been able to add two such stations. Through the exertions of the Polk Street District Improvement Club, and the generous interest of Mr. R. Shapro, a station has been established at 1303 Polk Street, without cost to the city. A downtown station, a convenience long called for, will soon be instituted in the Emporium, the management having agreed to furnish space and to conduct the station without expense to the Library.

Notwithstanding the difficulties referred to, the Library has, during the past year, shown a gratifying gain in several important directions. The total number of volumes in the Library (including branches and deposit stations) on June 30, 1912, was 120,105, as against 107,324 on June 30, 1911. The number of volumes circulated during the year 1911-12 was 821,162, a gain of 10,370 over 1910-11. 19,244 cards were issued during the year, a number somewhat larger than that of the preceding year.

The disbursements of the year amounted to \$79,840.95, distributed as follows:

	Disbursements	
	Amount	Percentages
Books .....	\$15,343.19	19.2
Periodicals .....	1,930.17	2.4
Binding .....	6,124.98	7.7
Furniture and Repairs .....	5,684.79	7.1
Printing and Stationery .....	2,813.54	3.5
Salaries .....	42,754.25	53.6
Miscellaneous .....	5,189.98	6.5
	<u>\$79,840.95</u>	<u>100.00</u>

It will be seen from the above table that nearly thirty per cent of the total income was expended for books, periodicals and binding, a very satisfactory showing, as will appear from an inspection of the reports of libraries in other large cities.

The large collection of music, secured to the Library through the enthusiastic interest and influence of Mr. Julius Weber, has been made useful and available to the public by the preparation and publication of a complete catalogue. A similar catalogue, or finding list of English fiction, and one of French fiction have also been issued.

Mr. Colin M. Boyd, for many years a devoted and valued member of this Board, resigned in September, 1911, on account of failing health. The vacancy was filled by the election of Dr. Washington Dodge.

We have also to report the loss to the Library of our librarian, Mr. William R. Watson. Mr. Watson's health had become impaired to such an extent that he felt obliged to tender his resignation, which the Board, on March 1, 1912, regretfully accepted. No successor has as yet been selected. Mr. Robert Rea, formerly assistant librarian, has in the interim served as acting librarian to the entire satisfaction of the Board.

Our greatest need, for several years past, has been the erection of a Main Library Building, suitable in size, construction and architectural design to the demands of a great and growing city. The number of books owned by the Library, and the use made of the Library by the reading public, have grown to such an extent as to make this need more urgent and imperative than ever. Our stacks are filled to their capacity, and the reference and reading rooms, as well as other parts of the present building, are entirely inadequate to the demands upon them. As your Honor is aware, the unsold balance of the bonds heretofore authorized to be issued for the acquisition of a site and the erection of a main library building thereon, are, by reason of the low rate of interest and the charter provision prohibiting sales of municipal bonds at less than par, not marketable. Enough of the bonds had, however, been sold before the disaster of 1906 to purchase the block upon which the present temporary main library building stands. Various plans for raising the money necessary for the construction of a new building have, from time to time, been suggested. Mr. Andrew Carnegie's offer to give to the city the sum of \$750,000.00 for the erection of main and branch libraries, at least one-third of the sum to be applied to the construction of branches, has been formally accepted by the Board of

Supervisors, and \$500,000.00 of this sum would seem to be available for the proposed main building. In addition, there is, in the treasury, the balance remaining from the sale of bonds of the issue of 1893, amounting to \$123,497.88. The present Board of Supervisors has, within the past few months, instructed this Board to proceed with the erection of a Main Library Building in the civic center, with such funds as may be or may become available. This does not, as the Board understands, authorize the erection of a building upon the site purchased and now held for that purpose. It is no doubt desirable that, in connection with the general scheme for beautifying the city by the creation of a civic center, the Library building should be so designed and placed as to harmonize with and become a part of the group of public buildings to be erected. If this object is to be accomplished, it will be necessary that the Board of Library Trustees be provided with a new site within or adjacent to the civic center. A committee of this Board has been in consultation with the architectural commission, and has reached a tentative agreement for the selection of a block of land as a site for the Library in lieu of the present site. The acquisition of a part of this block will require action by the Board of Supervisors beyond that already taken for the condemnation of lands for the civic center. It is suggested, therefore, that this matter, together with the question of the proceedings necessary to authorize the transfer of the main Library building from the block already acquired for the purpose to a new site, be referred to the City Attorney for his advice. For particulars regarding the income and expenditures of the Library and the work of its employees, we beg to refer to the accompanying reports of the Secretary and of the Acting Librarian.

Respectfully submitted, by order of the Board of Trustees of the Public Library and Reading Rooms.

M. C. SLOSS, President.

#### REPORT OF THE SECRETARY.

To the Trustees of the San Francisco Public Library and Reading Rooms:

Gentlemen:—Following is a statement showing the Receipts and Expenditures for the year ending June 30, 1912:

#### RECEIPTS.

## REPORT OF THE ACTING LIBRARIAN

To the Trustees of the Public Library and Reading Rooms of the City and County of San Francisco:

Gentlemen:—I have the honor to submit herewith the report of the Acting Librarian for the fiscal year ending June 30, 1912:

While it is only by statistics that we are able to ascertain the growth and use of the Library, it is to be regretted that no official record is kept of the immense volume of work handled through our reference department, the efficiency of which is recognized by all. This, as well as all other departments, has shown a steady growth. The greater part of the circulation of books for home use is still delivered through the medium of our branches and deposit stations, which, in conjunction with the Main Library, have delivered 821,162 volumes. This is 9063 less than the largest circulation ever recorded by the Library before its destruction in April, 1906, when the general collection had 40,352 volumes more to draw from than at present. There has been a gain of 980 card holders over last year, making a total of 38,454 cards in force.

The opening of the information desk at the Main Library has added greatly to the efficiency of the service, as well as relieving other departments from work that can be handled more expeditiously from this source.

It has been found necessary to move the classes of biography and history to the second floor of the stack room, and while this gave temporary relief to the congested condition of our shelves, it is now almost impossible to find space to place the recent additions to the Library. The stacks were built originally to accommodate 60,000 volumes of ordinary size, and as the main collection now amounts to 61,499 volumes, many of which are large and bulky, you can readily see that a new tier to the stack is imperative.

The automobile service to the branches and deposit stations, while not long in use, has proved a success from the beginning, the delivery being more prompt and not divided as has been necessary in the past, when the load was too large to be handled by the messenger. There has also been a great saving to the binding of books which were damaged by the necessity of the pack being tightly strapped and the wear and tear received by the hauling on and off street cars.

Some of the branch librarians have spent a month at the Main Library, working in different departments with a view to being more fully acquainted with the books of the main collection and the systems in vogue in the various departments. This has already shown beneficial results by the splendid co-operation now existing between the branches and the Main Library.

All of the music collection has been bound and catalogued, and is now available to our patrons. Mr. Julius Weber, through whose kindness this department was made possible, has given much of his valuable time and assistance during the year in the compilation of the catalogue.

## ACCESSIONS AND GIFTS.

The large increase in volumes added to our collection has been partly due to the generosity of the late Mr. P. N. Lilienthal, whose library amounting to 1540 volumes has been one of the most valuable additions to our shelves, supplying as it does many classes that have hitherto been neglected through the want of funds. A number of volumes of this collection that were already to be found at the Main Library were sent to the branches, where they were greatly appreciated.

Another gift has been that of Mr. J. P. Barrett, who kindly presented the Library with 351 volumes of general literature and history, very few titles of which the Library had. Numerous other gifts have been extended to the Library during the year, a list of which will be found in appendix IX to this report.

There were 18,413 volumes added and 5,682 worn out and withdrawn, leaving a net gain of 12,731 and a total of 120,105 volumes in the general collection. Although more headway was made this year in replacing our destroyed collection, the larger part of the \$15,343.19 expended for books was for publications of recent issue and the replacing of worn out volumes.

#### PRINTING AND BINDING.

Three finding lists were printed and bound during the year, besides the monthly bulletin and index. The finding list of French fiction has supplied a want that has been felt for some time and it is to be hoped that in the near future it will be possible to publish a finding list of all books in foreign languages. A finding list of English fiction has been issued and has been of much service, not only to the Main Library, but to the branches and deposit stations, where they now have a record of what may be procured from the main collection. The finding list of music and literature of music was issued in the early part of June and while the compilation of this catalogue has taken an immense amount of labor and time, it will prove to be of permanent value to the Library, as few musical collections of this size are available to the public.

There were 8868 volumes sent to the bindery, a decrease of 764, which was caused by the large amount of music bound the year before. With the increased cost of binding it has been found impossible with the funds at hand to bind the large accumulation of valuable pamphlets received from various institutions.

#### CATALOGUE DEPARTMENT.

The number of volumes catalogued during the year was 17,709.

	New Titles	Additional Copies	Replacement Copies	Total.
Main Library .....	4,519	1,689	1,112	7,320
Branches .....	5,645	1,039	3,705	10,389
Totals .....	10,164	2,728	4,817	17,709

The crowded condition of the catalogue has made it necessary to add a 54-tray section to the cabinet. The official shelf list for the branches at the Main Library is being replaced by a special form of card, allowing room for the records of eight branches and deposit stations, in place of the old system which could only accommodate four branches on a card. This work has been progressing very rapidly, two-thirds of the work having been already accomplished. A finding list of French fiction, containing about 550 titles, was issued early in the year and a supplementary list of 133 titles published in the monthly bulletin of January, 1912, has brought this up to date. A finding list of English fiction, by author and title, containing about 9,150 entries was issued early in March. This is being kept up to date by filing the additions in a special cabinet, to be printed as a supplement to the main catalogue at such time as it may be found necessary. A finding list of music and the literature of music, amounting to 2,650 entries, has been issued, which has been divided into two parts, part one containing musical compositions and part two the literature of music. The preparation of this list has involved much time and work, as it was found necessary to re-classify and catalogue the greater part of the music collection. A supplement to this list has been kept up to date for the reference of the public and the printing of a supplementary list.

## BRANCHES AND DEPOSIT STATIONS.

While there has been a general demand from all parts of the city for branches and deposit stations, it has not been found feasible with our limited appropriation to extend the Library service. A station was opened in March, at 1303 Polk Street, in the store of Mr. R. Shapro, without cost to the city, and for the four months circulated 1503 volumes. There are now twelve stations, which have circulated through the year 78,173 volumes. While the service at these stations is not up to the standard of our branches, where we have trained assistants, they do exceptional work with the facilities that they have. There have been circulated from the six branches 564,903 volumes, Mission Branch, No. 1, having issued 138,455. McCreery Branch, No. 2, with its splendid collection of books, circulated 93,071 volumes. Some much needed repairs have been made to the building. North Beach Branch, No. 3, still maintains its regular circulation, having delivered 44,387 volumes during the year. It has been well supplied with foreign literature, as it derives much of its circulation through this source. Richmond Branch, No. 4, in its cramped quarters, has made greater strides than any other branch. In the year 1904-5 it circulated 32,231 volumes, which now has more than doubled by its delivery of 77,079 for the year. There is great need of a new building for the branch. Park Branch, No. 5, has kept the high standing made from its opening, having circulated 115,284 volumes. A number of the volumes of the Lilienthal collection were placed in this branch. Fillmore Branch, No. 6, circulated for home use 96,627 volumes. The adding of the much needed shelf room and floor space has made this branch exceedingly attractive and comfortable.

## REFERENCE DEPARTMENT.

There is an immense volume of general reference work accomplished by this department, which has, in addition, the care of maps, patent reports, periodicals and current newspapers. The unbound pamphlets, which in the past have been indexed by the Catalogue Department, were transferred to this department, as it was found they could be handled to better advantage here. Among the many duties of the reference librarian has been that of compiling the reading listes appearing in the Monthly Bulletin.

## THE STAFF.

An examination of sixteen applicants for positions in the Library service was held on May 18 and 25. Of this number nine passed successfully and have been working the probationary period of four weeks at the Main Library and branches. From reports at hand it would seem that they will prove valuable assistants. The questions asked at these examinations may be found in appendix VIII to this report.

The resignation of Miss Page, assistant at Branch No. 2, and the death of Mrs. Loveland, who for many years was librarian of the Phelan branch, and at the time of her death had charge of the Park Branch, have deprived the Library of two valuable assistants. These vacancies were filled by the appointment of Miss Young and Miss Burns as general assistants.

I cannot speak too highly of the spirit shown by the members of the staff in their endeavors to promote the usefulness of the Library, and the obliging and courteous treatment shown to the public.

Respectfully submitted,

ROBERT REA, Acting Librarian.

APPENDIX I  
CARDS ISSUED—1911-1912

## APPENDIX VIII.

Questions asked at examination of applicants for positions in Library Service, held May 18 and 25, 1912.

## LITERATURE AND ART, MAY 18, 1912

Answer groups, 1, 2, 12 and any seven of the others.

1. Name two biographies, two histories, and two books of travel that you have read for pleasure or instruction that were not required or read in your course at school.

Name the class of literature in which you are most interested, and give the title and author of three individual books in that class which you have read and deem instructive.

2. Give the names of:

- (a) Three American writers of fiction prior to 1850, and the titles of some books written by each.
- (b) Ten writers of fiction since 1850—English or American—whose works are in your opinion additions to English literature, and the title of some book written by each.
- (c) Five writers of English history, and five writers of American history, with the epochs treated by each.
- (d) Five female writers of English literature, with the title of some work written by each.

3. Give the names of the English humorists of the eighteenth century who are discussed by Thackeray in his lectures on that subject.

Give the names of two English publications in the eighteenth century similar in character to *The Spectator*.

Give the sources of two of Shakespeare's plays. Who were the Lake poets? What, and in what years was the Oxford movement? Give the names of two persons who were prominent in it.

4. Give the author, approximate date (i.e. century) and language in which the following were written, and the class of literature to which each respectively belongs:

Antigone, Faust, Aeneid, Divine Comedy, Jerusalem Delivered, Imitation of Christ, Phaedra, The Lusiad, War and Peace, The Complete Angler, Canterbury Tales, Magda, Gosta Berling, Faerie Queen, Cesar Birotteau. (Answer 10).

5. In what language and at what period, approximately, did the following authors write?

Hans Christian Andersen, Josephus, Rabelais, Cervantes, Lope de Vega, Schiller, Petrarch, Ovid, Plutarch, Juvenal, Aesop, Voltaire, The Venerable Bede, Pepys, Froissart. (Answer 10.)

6. Give the names of the authors of ten of the following:

Lead Kindly Light, Crossing the Bar, Star Spangled Banner, Hail Columbia, Carcassonne, Nearer My God to Thee, Abou Ben Adhem, Rime of the Ancient Mariner, Lalla Rookh, The Lost Leader, Marseillaise, Pied Piper of Hamelin, Bingen on the Rhine, Recessional, Rubaiyat, Lycidas, Godiva, Ingoldsby Legends, Bab Ballads.

7. Give the authors of ten of the following, and the title of some other writing by each author:

Rise of Silas Lapham, Emma, The Deserted Village, Sir Charles Grandison, Swallow Barn, Moby Dick, Areopagitica, Peer Gynt, Pere Goriot, Revolt of a Tartar Tribe, Lady Baltimore, Joseph Vance, Rest Harrow, Representative Men, Blithedale Romance, Ethan Frome, Count Hannibal, Sesame and Lilies, Garden of Allah, Trilby.

8. Give the names of the books, and their authors, in which the following characters are found:

Abdiel, Nydia, Mrs. Malaprop, Sanchia, Meg Merrilies, Hester Prynne, Scrooge, Caliban, The Fotheringay, My Uncle Toby, Donatello, Roderick Dhu, Rosinante, Ichabod Crane, Doctor Sangrado. (Answer 10.)

9. Characterize and locate in history, fable or myth, five of the following:

Erlking, Mambrino's Helmet, Sword of Damocles, Ring of Canace, Gyges' Ring, Shirt of Nessus, Yggdrasil, Excalibur, Talus, Slough of Despond, Circe, Open Sesame, The Valkyrie, Bed of Procrustes, Lorelei.

10. What associations are suggested by the following terms?

Mermaid Tavern, Cheshire Cheese, Elgin Marbles, Hilda's Tower, Brook Farm, Rosetta Stone, Oberammergau, Runnymede, Black Hole of Calcutta, Tabard Inn. (Answer 5.)

11. By whom were the principal pictures in the Sistine Chapel painted? What is a mural painting? Give the name of one such painting by an early artist and one by a modern artist.

Name the artists and locations of five of the following:

Horse Fair, Venus de Milo, Night Watch, Last Supper, The Angelus, Lion of Lucerne, Sistine Madonna, Bacchante, Saul, Mona Lisa, Shaw Monument.

12. In not less than 150 words give an outline of one of Shakespeare's plays; or discuss either of the following:

(a) The Huguenots, their character, history and influence; (b) the fiction of the eighteenth century compared with modern fiction; (c) the life and work of either Julia Howe, Robert Louis Stevenson, Charlotte Bronte, Edgar Allan Poe, or Nathaniel Hawthorne.

#### HISTORY, CURRENT EVENTS AND GENERAL INFORMATION,

MAY 25TH, 1912

1. From what sources, in what manner, and at what dates has the United States acquired additional territory since its organization in 1789?

How many States are there in the Union at present? Give the names of the original thirteen.

With what foreign nations has the United States been at war since the close of the Revolutionary War, and at what dates?

When did the Civil War begin and when did it end?

Give the names of the Presidents of the United States since the commencement of the Civil War.

Who is the present Speaker of the House of Representatives?

What officers compose the President's Cabinet?

2. In what respects are the following associated with the history of California?

John D. Sloat, Donner Party, Junipero Serra, Sir Francis Drake, Portola, Vigilance Committee, James W. Marshall, Peter H. Burnett, Thomas O. Larkin, Jonathan D. Stevenson, John A. Sutter. (Answer 5.)

To what different sovereignties has California been subject?

At what date was it annexed to the United States? At what date was it admitted as a State?

3. With what purpose did President Taft take steps for terminating the treaty between Russia and the United States?

In what relation was Morgan Shuster connected with the government of Persia? Under what circumstances was he compelled to leave that country?

What domestic disturbance in England has recently been quieted?

What is proposed by the provisions of the Home Rule bill in England?

Which nations of the world are at present engaged in foreign war? Which in domestic war?

4. Which nations of Europe are of Celtic origin; which of Slavic; which of Teutonic; which of Latin, or Italic?

Give the names of the Tudor sovereigns; of the Medici Popes; of the present Pope.

What was the Edict of Nantes?

What is meant by the "open door" in relation to China?

What is the Monroe Doctrine? When was it first promulgated?

5. Give the name and title of the sovereign or chief executive in each of the following countries:

England, France, Germany, Norway, Denmark, Spain, Italy, Russia, Sweden. What is the form of government, i. e. absolute monarchy, limited monarchy or republic, in each of these countries?

6. Give the names of ten prominent newspapers in the United States outside of California, with their places of publication.

Name ten of the leading statesmen of the United States at the present time.

Give the names and locations of ten prominent colleges or universities in the United States, stating also which of them are open to women as well as to men. Give the names of three prominent colleges which are exclusively for women.

In what years, and in what places, and in commemoration of what events have expositions been held in the United States?

7. Marathon, Chalons, Tours, Hastings, Blenheim, Saratoga, are counted among the decisive battles in the world's history. Give the dates on which they were fought and the names of the contending forces.

What was the issue contended for in each, and what effect would a different result have had upon the history of the world? (Answer 2.)

8. What is suggested by the following?

Ides of March, Modernism, Hull House, Spanish Armada, Lewis and Clarke, Pitcairn Island, Fort Sumter, Blue Laws, Bear Flag, Northwest Passage, (Answer 5.)

9. Give the names of the inventors of the Cotton Gin, Telegraph, Phonograph, Telephone, Steamboat, Vulcanized Rubber, Automatic Air Brake, Sewing Machine, Wireless Telegraph, Linotype?

10. Give briefly the particulars which have given prominence to the following persons:

Zeppelin, Lloyd George, Florence Nightingale, John Redmond, Admiral Togo, Mary Lyon, Christopher Wren, Lord Kitchener, Clara Barton, Cyrus W. Field, Lord Cromer, Witte, Frances E. Willard, Stolypin. (Answer 10.)

11. Group the following persons according to their respective vocations or lines of study and research, stating also the appropriate designation of each group:

Roentgen, Curie, Tyndall, Koch, Amundsen, Charcot, Vedder, Thorwaldsen, Pasteur, Abbey, St. Gaudens, Shackleton, Rodin, Sargent, Alfred Russel Wallace, Burne-Jones, Edison.

12. Give the location and purpose of the following structures:

Parthenon, Pantheon, Castle of St. Angelo, Taj Mahal, La Scala, Old Bailey, Faneuil Hall, Madeleine, St. Paul's, Campanile, Bridge of Sighs, St. Sophia, Kremlin, Hall of Fame, Escorial. (Answer 10.)

Anonymous donations: 19 volumes, 13 pamphlets.

# Report of Civil Service Commission

San Francisco, July 31, 1912.

To His Honor, The Mayor.

Sir:—In accordance with the provisions of Section 9, Article XVI of the Charter, the Civil Service Commissioners present herewith a report of the operations of their department for the fiscal year ended June 30, 1912.

During said fiscal year the Commission held ninety-two regular meetings and sixty-seven special meetings. The applications of thirteen hundred and fifty-one laborers were registered, and eleven examinations were held in which a total of twenty-five hundred applicants were examined.

Following is a schedule of the examinations held and date thereof:

Name of Examination.	Examined.	Passed.	Failed.	Appointed.
Asphaltworkers; Sept. 28 and 29.....	123	114	9	98
Railroad Trackmen; Oct. 3 and 4.....	181	163	18	54
Quarry Drillers; Oct. 10 and 13.....	107	89	18	72
Surveyors' Field Assistants; Oct. 28.....	102	40	62	10
Market Inspectors; Nov. 4.....	90	3	87	3
Surveyors; Nov. 11.....	33	5	28	5
Experienced Clerks, Board of Public Works; Nov. 18.....	315	34	281	17
District Foremen of Street Sweeping and Cleaning; Nov. 25.....	157	46	111	10
Hostlers; Nov. 27.....	238	227	11	20
Hydrantmen; Dec. 30.....	127	5	122	3
Firemen, (Div. G, Class VIII); Feb. and March, 1912 .....	1,027	410	617	70

The scopes of the foregoing examinations were as follows:

Asphaltworkers:

Subject.	Weight.
Plant work .....	1
Spreading .....	1
Finishing .....	1
Rolling .....	1
Shovelling .....	1
Physical ability .....	2
Experience .....	3
<b>Total weight .....</b>	<b>10</b>

## Railroad Trackmen:

Subject.	Weight.
Tie setting .....	1
Track laying and spiking .....	1
Track gauging .....	1
Track surfacing .....	1
Tamping .....	1
Track lining .....	1
Physical ability .....	2
Experience .....	2
<hr/>	
Total weight .....	10

## Quarry Drillers:

Subject.	Weight.
Striking .....	1
Blasting .....	2
Drilling .....	1
Physical ability .....	3
Experience .....	3
<hr/>	
Total weight .....	10

## Surveyors' Field Assistants:

Subject.	Weight.
General experience .....	10
Local experience .....	10
Arithmetic and Mensuration .....	30
Field work and knowledge of duties.....	50
<hr/>	
Total weight .....	100

## Market Inspectors:

Subject.	Weight.
General knowledge of duties .....	5½
Writing of report .....	2
General experience .....	2
Special experience .....	½
<hr/>	
Total weight .....	10

## Surveyors:

Subject.	Weight.
General knowledge of duties .....	60
Mathematics .....	30
Local experience .....	7
General experience .....	3
<hr/>	
Total weight .....	100

## Experienced Clerks, Board of Public Works:

Subject.	Weight.
General knowledge of duties.....	5
Arithmetic .....	1½
Grammar and Spelling .....	1
Penmanship and neatness .....	1
General clerical experience .....	1
Special clerical experience .....	½
<hr/>	
Total weight .....	10

District Foremen of Street Sweeping and Cleaning:

Subject.	Weight.
General knowledge of duties.....	5 ½
Writing of report .....	2
Arithmetic .....	1
General experience .....	1
Special experience .....	½
Total weight .....	10

Hostlers:

Subject.	Weight.
General knowledge of duties .....	5
Experience .....	3
Physical ability .....	2
Total weight .....	10

Hydrantmen:

Subject.	Weight.
General knowledge of duties.....	7
Writing of report .....	2
Experience .....	1
Total weight .....	10

Firemen, (Division G, Class VIII):

Subject.	Weight.
Athletic test .....	5
General knowledge of duties .....	1 ½
Writing of report .....	1
Arithmetic .....	½
General experience .....	2
Total weight .....	10

In the examination for Firemen, forty-seven per cent of the candidates were rejected in the medical examination, leaving from a total of ten hundred and twenty-seven participants, only five hundred and forty-two eligible to take the mental and athletic tests. The medical examination was conducted under the supervision of the Commission, by the following doctors:

Board of Medical Examiners:—G. H. Richardson, Paul Castlehun, Alexander Keenan, Albert Wheeler, Frederick C. Muller.

Assistant Medical Examiners:—Edmund D. Shortlidge, Henry F. Horn, James T. Watkins, Thomas D. Maher, R. L. Ochsner, B. A. Mardis, W. O. Montgomery, Frank S. Emmal, James B. Hannah, R. B. Tupper, Henry L. Curtis, George D. Culver, Joseph Butler, J. A. Kuykendall, N. D. Morgan, Harry P. Robarts, A. W. Collins.

From July 1, 1911 to June 30, 1912, fourteen hundred and fifty-four certifications, covering both permanent and temporary appointments, were made by the Commission as follows:

The total number of city employes under Civil Service on June 30, 1912, including the members of the Police and Fire Departments who came in with the Charter, was 3,036. Of this number, 2,660 were appointed through Civil Service examinations.

Since the beginning of the present calendar year, the Commission has revised its rules and classifications. Many new printed forms have been adopted, and preparations have been made for the installation of a new card index system in the office of the Commission.

A new plan has been devised for the handling of applications. The old application forms have been discarded, and new and more elaborate forms are now in use. In order that the medical certificate and vouchers contained in the application shall be of recent date, the application forms for examinations are not distributed until the date for the holding of the examination has been set. Any person, however, desiring to participate in an examination for which the date

has not been set, may file notice to that effect upon one of the new forms known as "Request for Application." This form is so arranged that the name and address written thereon serves as the name and address for the transparent envelope used therewith in sending application form and circular of information to the applicant.

About four thousand old applications that had been filed at various times since the great fire of April 18, 1906, have been cancelled, and the persons affected have been sent "Request for Application" blanks to file in their stead.

A Labor Board has been appointed to conduct weekly physical tests of laborers, and the purging of the register for this class, containing over seven thousand names, is nearly completed. Every person who registers as a laborer must, in order to establish his status as a laborer, appear before the Labor Board and pass the physical test.

The Commission intends to hold about one hundred examinations during the fiscal year 1912-1913, and expects to fill, within that time, every vacancy now existing.

The following examinations will be held during the coming July and August: Inspectors of Streets and Sewers (Div. F., Class V.); Engineering Draughtsmen (Div. B., Class IV.); Assistant Civil Engineers (Div. B., Class II.); Pilots (Div. P., Class I.); Marine Engineers (Div. N., Class XXXII.); Marine Stokers (Div. N., Class XXXIII.); Engineers of Stationary Steam Engines (Div. N., Class XXIX.); Firemen of Stationary Steam Engines (Div. N., Class XXX.); Engineers of Electrical Engines (Div. N., Class XXXI.); Machinists (Div. N., Class XXXV.); Locksmiths (Div. N., Class XXXIV.); Blacksmiths (Div. N., Class XXXVIII.); Blacksmiths' Helpers (Div. N., Class XXXIX.); Horse-shoers (Div. N., Class XL.); Boilermakers (Div. N., Class XXXVII.); Steam-fitters (Div. N., Class XVII.); Steamfitters' Helpers (Div. N., Class XVIII.); Harnessmakers (Div. N., Class XLI.); Tanners (Div. N., Class XIII.); Tanners' Helpers (Div. N., Class XIV.); Granite Cutters (Div. N., Class IV.); Bricklayers (Div. N., Class IX.); Hodcarriers (Div. N., Class X.); Carriage and Wagon Painters (Div. N., Class XXIII.); Varnishers and Polishers (Div. N., Class XLVII.); Cement Finishers (Div. N., Class XI.); Cement Finishers' Helpers (Div. N., Class XII.); Elevator Operators (Div. P., Class VI.).

Accompanying this report is a copy of our Publication No. 13, showing the Civil Service rules and classifications as revised to date.

Yours very respectfully,

B. B. ROSENTHAL,  
Commissioner.

HARRY E. MICHAEL,  
Commissioner.

E. A. WALCOTT,  
President.

Attest: JAS. J. MAHER,  
Chief Examiner and Secretary.

# Juvenile Detention Home

Honorable James Rolph, Jr.  
 Mayor of the City and County of San Francisco,  
 State of California.

Sir:—I beg to submit herewith the Annual Report of the Juvenile Detention Home, for the fiscal year ending June 30th, 1912, as per Section 9, Article XVI, of the Charter of the City and County of San Francisco.

# Fire Commissioners' Report

San Francisco, July 1, 1912.

Hon. James Rolph, Jr.,  
Mayor of the City and County of San Francisco.

Dear Sir:—In compliance with the provisions of Section 9, Article XVI, of the Charter of the City and County of San Francisco, the Board of Fire Commissioners of said City and County do hereby submit and present its annual report for the fiscal year ending June 30, 1912, containing a statement of the expenditures of the Fire Department and a report of the Chief Engineer showing the condition of the department, etc.

## ORGANIZATION.

The department, as it is now constituted, consists of a Board of Fire Commissioners of four members, a Secretary, a Chief Engineer, one first assistant chief engineer, one second assistant chief engineer, twelve battalion chiefs, forty-five fire engine companies, twelve hook-and-ladder companies, ten chemical companies, two water tower companies, three monitor batteries, two fire boat companies and three relief engine companies, and employes of the corporation yard repair shops, department stables and auxiliary high pressure water system numbering in all 870 men, of which number 782 constitute the present uniform force of the department.

## BOARD OF FIRE COMMISSIONERS.

HENRY U. BRANDENSTEIN, President .....	Term expires, January 8, 1916
JAMES E. DILLON.....	Term expires, January 8, 1915
EUGENE E. PFAEFFLE.....	Term expires, January 8, 1914
JOHN DONOHUE .....	Term expires, January 8, 1913
FRANK T. KENNEDY.....	Secretary.

## DETAILS OF ORGANIZATION.

(Salaries provided by Charter or by Ordinance.)

No.		Salary Per Annum
4	Commissioners, each .....	\$1,200
1	Secretary .....	2,400
1	Chief Engineer .....	5,000
1	First Assistant Chief Engineer .....	3,600
1	Second Assistant Chief Engineer .....	3,000
12	Battalion Chiefs, each .....	2,700
15	Chiefs' Operators, each .....	1,500
45	Captains of Engine Companies, each .....	1,860
45	Lieutenants of Engine Companies, each .....	1,710

## FIRE COMMISSIONERS

45	Engineers of Engine Companies, each .....	1,680
45	Drivers of Engine Companies, each .....	1,440
45	Stokers of Engine Companies, each .....	1,440
270	Hosemen of Engine Companies, each .....	1,440
2	Captains of Relief Engine Companies, each .....	1,860
2	Lieutenants of Relief Engine Companies, each .....	1,710
12	Hosemen of Relief Engine Companies, each .....	1,440
1	Engineer of Relief Engine Company .....	1,680
12	Captains of Hook-and-Ladder Companies, each .....	1,860
12	Lieutenants of Hook-and-Ladder Companies, each .....	1,710
12	Drivers of Hook-and-Ladder Companies, each .....	1,440
12	Tillermen of Hook-and-Ladder Companies, each .....	1,440
96	Truckmen of Hook-and-Ladder Companies, each .....	1,440
10	Captains of Chemical Companies, each .....	1,860
10	Lieutenants of Chemical Companies, each .....	1,710
10	Drivers of Chemical Companies, each .....	1,440
10	Hosemen of Chemical Companies, each .....	1,440
2	Captains of Water Tower Companies, each .....	1,860
2	Lieutenants of Water Tower Companies, each .....	1,710
2	Drivers of Water Tower Companies, each .....	1,440
2	Hosemen of Water Tower Companies, each .....	1,440
3	Drivers of Monitor Batteries, each .....	1,440
2	Captains of Fire Boat Companies, each .....	1,860
2	Lieutenants of Fire Boat Companies, each .....	1,710
3	Pilots of Fire Boat Companies, each .....	2,100
4	Engineers of Fire Boat Companies, each .....	2,100
6	Firemen of Fire Boat Companies, each .....	1,200
3	Engineers of Relief Fire Boat Companies, each .....	2,100
1	Fireman of Relief Fire Boat Company .....	1,200
1	Superintendent of Engines .....	2,700
1	Clerk and Commissary .....	1,800
1	Superintendent of Horses .....	1,860
7	Hydrantmen, each .....	1,200
10	Hostlers, each .....	1,200
3	Draymen, each .....	1,200
5	Watchmen, each .....	1,200
1	Physician and Surgeon .....	1,800
1	Stenographer .....	1,800
1	Chief Engineer of High Pressure Water System Pumping Plant.....	2,100
1	1st Asst. Engineer of High Pressure Water System Pumping Plant....	1,800
1	2d Asst. Engineer of High Pressure Water System Pumping Plant..	1,500
3	Firemen of High Pressure Water System Pumping Plant, each.....	1,200
1	Foreman Gateman of High Pressure Water System.....	1,500
3	Gatemen for High Pressure Auxiliary Water System, each.....	1,200

Under the provisions of the Charter, drivers, stokers, tillermen, hosemen and truckmen receive \$1,200 per annum for the first year of service, \$1,320 for the second year and \$1,440 for the third year and thereafter.

APPROPRIATION AND EXPENDITURES.

# Chief Engineer's Report

Headquarters Fire Department,

San Francisco, July 1, 1912.

To the Honorable,

The Board of Fire Commissioners.

Gentlemen:—I respectfully beg leave to submit my annual report for the fiscal year ending June 30, 1912, together with such recommendations, etc., as in my judgment I deem necessary and proper to promote the efficiency of the Department.

## FIRES.

During the past year the Department responded to 879 alarms of fire received from street and automatic fire alarm boxes; of which number 823 were single alarms, 48 second alarms and 8 third alarms. The Department also responded to 892 still alarms during the year, received verbally and by telephone, making total of 1,771 alarms of fire responded to.

## LOSSES BY FIRE, INSURANCE AND AMOUNT PAID.

1911.	Loss.	Insurance.	Insurance Paid.
July .....	\$ 17,104.17	\$ 448,150.00	\$ 15,803.11
August .....	117,075.44	195,550.00	58,094.32
September .....	67,043.82	436,000.00	53,178.31
October .....	50,472.41	282,990.00	33,755.21
November .....	51,462.22	510,075.00	42,090.65
December .....	82,750.82	714,497.26	44,429.54
1912.			
January .....	41,953.20	370,541.00	37,767.61
February .....	38,072.95	481,718.60	33,695.49
March .....	140,890.86	593,680.00	62,429.46

## APPARATUS.

The following apparatus is in good condition and in regular service in the Department: Forty-five steam fire engines, forty-seven hose wagons, twelve hook-and-ladder trucks, seven straight chemical engines, one motor driven straight chemical, two combination chemicals and hose wagons, two water towers, three monitor batteries, two fire boats, fifteen officers' buggies, four automobiles, one hundred portable fire extinguishers, 113,150 feet of cotton jacketed fire hose of all sizes and 3,950 feet of rubber chemical hose.

In addition to the above there is also the following apparatus and vehicles for relief and other purposes in the Department: Nine steam fire engines, nine hose wagons, three hook-and-ladder trucks, four combination hose and chemical wagons, two straight chemical engines, one motor driven chemical engine, eighteen buggies, five supply wagons, nine delivery wagons, one delivery truck, one motor driven delivery truck, two hay wagons, one oil wagon, nine hydrant carts, three breaking carts, one hose carriage, two hose reels, one wrecking wagon, 5,650 feet of new cotton jacketed hose of different sizes, 18,050 feet of cotton watchline hose of different sizes and 1,900 feet of new rubber chemical hose.

## NEW APPARATUS ACQUIRED.

During the year the following new apparatus has been purchased by the Department:

- Two 80-gallon motor driven chemical engines.
- Two automobiles for use of Assistant Chief Engineers.
- One motor driven delivery truck for the corporation yard.

The following motor driven apparatus has been contracted for but not yet delivered to the Department:

- One motor driven, city service, hook-and-ladder truck.
- Two motor driven hose wagons.
- One motor driven tractor for drawing steam fire engine.
- One motor driven hose tender.
- Four automobiles for Battalion Chiefs.

## NEW BUILDINGS.

The following new buildings for the Department were completed during the year and companies installed therein:

- Two-story class "B" building on Seventh street between Folsom and Harrison.
- Two-story frame building on San Bruno avenue between Silver avenue and Silliman street.
- Two-story frame building on Brazil avenue near Athens street.

Contracts have been awarded by the proper authorities and steps taken for the erection of the following buildings:

- Two-story class "C" building on the east side of Stockton street near Greenwich for Engine Co. 28 and a Battalion Chief headquarters.
- Two-story class "C" building on the west side of Twelfth avenue near Geary street for double company.

## NEW COMPANIES.

During the year the following new companies were established and put in service:

- Engine Co. 42, on San Bruno avenue between Silver avenue and Silliman street.
- Engine Co. 43, on Brazil avenue near Athens street.
- Engine Co. 44, on Twenty-second street between Castro and Noe streets.

Engine Co. 45, on Forty-fifth avenue between Irving and Judah streets.

Truck Co. 12, in the quarters of Engine Co. 30, 1757 Waller street.

Water Tower Co. No. 2, in the quarters of Engine Co. 6, on Seventh street between Folsom and Harrison streets.

The following companies were discontinued:

Chemical Co. 11, Engine Co. 44 taking the place thereof in the quarters occupied by that company.

Chemical Co. 12, Engine Co. 45 taking the place thereof in the quarters occupied by that company.

#### HYDRANTS.

During the year forty-two new hydrants were set in different portions of the city and twenty-five were reset, making a total of 4,390 fresh water and twenty-nine salt water hydrants that are in service, aside from those of the high pressure auxiliary water system.

#### DEPARTMENT STABLES.

There are at present 396 horses and one colt in the Department, including those that are kept for relief and emergency purposes, and with the exception of eleven that are under treatment at the stables, they are all in fairly good condition.

During the past year fifty horses were purchased, twenty-five were condemned as unfit for active service, five of which were transferred to the Relief Home, five to the City and County Hospital and fifteen were sold at public auction. Five horses died during the year from various diseases, two dropped dead from heart disease while responding to alarms of fire and one was shot on account of a broken leg, making a total of eight horses that were lost during the year. Seven hundred and twenty-eight cases of sickness and injury were treated by the veterinarian, all of which recovered with the exception of those above mentioned.

#### RETIRED ON PENSION.

The following members of the Department have been retired from active service on pension during the past year:

Michael O'Neil, Hoseman Engine Co. 37, retired on account of physical disability.

Cornelius Connell, Driver Engine Co. 39, retired on account of full time of service.

William S. Casebolt, Engineer Engine Co. 32, retired on account of physical disability.

Albert Hendrixson, Hoseman Relief Engine Co. 2, retired on account of physical disability.

Nicholas Barbetta, Driver Monitor Battery 2, retired on account of full time of service.

Joseph Sawyer, Watchman Corporation Yard, retired on account of full time of service.

John McClusky, Battalion Chief, retired on account of full time of service.

#### DEATHS.

The following members of the Department died during the past year:

Walter Cline, Lieutenant Engine Co. 8, August 14, 1911, of tuberculosis.

John Hayes, Hoseman Engine Co. 6, September 14, 1911, of fracture of skull from accidental fall at his home.

Henry McMahon, Hoseman Engine Co. 37, November 30, 1911, of accidental asphyxiation while off duty.

E. L. Raffestin, Hoseman Engine Co. 19, January 5, 1912, of lagrippe.

Thomas J. Ahern, Hoseman Engine Co. 35, March 17, 1912, of asphyxiation while working at a fire.

William Miskel, Captain Engine Co. 4, May 9, 1912, of heart disease.

Walter Shields, Hoseman Engine Co. 23, May 13, 1912, of pneumonia.

#### APPOINTMENTS, RESIGNATIONS AND DEATHS.

During the year one hundred and five appointments of hosemen and truckmen were made in the Department from the civil service eligible lists, seventeen members resigned and four regular members of the Department were dismissed from the service for violation of the rules and regulations.

#### AUXILIARY WATER SUPPLY SYSTEM FOR FIRE PROTECTION.

Considerable progress toward the completion of the auxiliary water supply system for fire protection purposes has been made during the past year and there is in operation and available for use fifty-four miles of water mains and 690 hydrants, and when the system, as at present contemplated, is completed it will comprise about sixty-eight miles of water mains and 850 hydrants.

The Twin Peaks reservoir, from which this system will receive its supply of water, has been completed. This reservoir is ellipse in form, having a major axis of 375 feet and a minor axis of 281 feet, with a capacity for ten million gallons, and is constructed entirely of reinforced concrete, six inches thick on the bottom and eight inches thick on the slopes. It is thirty-two feet deep and the surface of water is 760 feet above the sea level, which will give 330 pounds pressure per square inch at the foot of Market street or city base. It is divided by a concrete wall, making two separate compartments, either of which may be emptied for cleaning or repairing while the other remains in commission. The cost of construction of this reservoir was \$178,000. A steel tank has also been completed on Ashbury street, opposite Carmel, at an elevation of 490 feet. This tank is circular in shape with a diameter of fifty-five feet and a depth of twenty-nine feet and has a capacity of 500,000 gallons. It is the intention to supply this tank with fresh water from the Spring Valley Water Company's tank on Clarendon Heights by gravity to a six or eight-inch main, and the necessary pumps will be installed in the pump house adjoining this tank to force the water up to the main reservoir on Twin Peaks. This tank will supply the upper zone or that portion of the city which is more than 150 feet above sea level. The combined supply from tanks and reservoir would furnish one hundred streams of 250 gallons per minute each for nearly eight hours.

It is also proposed to erect a circular steel tank on the city property in the block bounded by Sacramento, Clay, Jones and Leavenworth Streets. This tank will be on an elevation of 329 feet, with a capacity of 1,000,000 gallons, and is intended to supply the lower zone or that part of the city of less than 150 feet above seal level.

Pumping Station No. 1, at Second and Townsend Streets, which is also a part of the auxiliary fire protection system, has been completed and is now in operation. This station is equipped with four Babcock, Wilcox water tube boilers, arranged in batteries of two, each battery fitted with separate smoke stacks, 6½ feet in diameter and 82 feet high, with space provided for two additional boilers if necessary. The steam pipe is arranged so that in case of an accident to a part the entire plant will not be disabled. Each boiler is capable of evaporating not less than 26,200 pounds of water per hour at 150 pounds pressure per square inch.

This plant contains four multi-stage turbine pumps, each capable of delivering not less than 2,000 gallons of water per minute against a pressure of 300 pounds

per square inch at a speed of 1,750 revolutions per minute. This station contains a fresh water cistern beneath the working platform holding 50,000 gallons of water available for boiler feed. In addition there are tanks for the storage of lubricating oils, feed pumps, fuel oil pumps, electric lighting plant, a ten-ton traveling crane, a 3,000 horsepower feed water heater and intake and discharge pipes from the pumps with strainers.

The preliminary work of the construction of a pumping plant similar to the above is now progressing at the foot of Van Ness Avenue on Government ground. This will be known as Pumping Station No. 2.

#### RECOMMENDATIONS.

I respectfully recommend that new building sites be procured for the department at the following locations:

Lot in the vicinity of Plymouth Avenue and Lake View Avenue, 50x100 feet, for an engine company.

Lot in the vicinity of Jones and Clay streets, 30x100 feet for a hook-and-ladder company and a chemical company.

Lot on the south line of Silver street, facing the rear of the department lot on Bryant street formerly occupied by Engine Co. No. 10.

Lot in the vicinity of Eighteenth and Eureka Streets, 50x100 feet, for a hook-and-ladder company and a high pressure water system hose wagon.

Lot in the vicinity of Diamond and Conrad streets for an engine company.

I recommend the erection of buildings on new sites recommended for purchase as follows:

Two-story class "C" building in the vicinity of Eighteenth and Eureka streets for a hook-and-ladder company and a high pressure water system hose wagon.

Two-story class "C" building in the vicinity of Jones and Clay streets for a hook-and-ladder company and a chemical company.

Two-story class "C" building in the vicinity of Diamond and Conrad streets for a new engine company.

Two-story class "C" building in the vicinity of Plymouth and Lake View Avenues for an engine company.

Also the erection of buildings on sites already in the possession of the department as follows:

Two-story class "C" building at Drumm and Commercial streets for an engine company, a hook-and-ladder company, a high pressure system hose wagon, a monitor battery and a Battalion Chief's headquarters.

Two-story class "C" building on San Bruno Avenue near Twenty-fifth street for Engine Co. 37 and Hook-and-Ladder Company 9.

Two-story class "C" building on the north line of Bryant street, west of Third street, as a headquarters for a Battalion Chief and Engine Co. 35, Truck Co. 3 and Monitor Battery 2. These companies to be changed there from their present location on Bluxome street, which is very unsuitable.

Two-story class "C" building at Twentieth and Kentucky streets for Engine Co. 16, a new truck company, a hose wagon tender for the fire boats and a headquarters for a Battalion Chief.

Two-story frame building in the rear of Truck Co. 7 for use as a carpenter shop and a plumbing shop for the department.

Two-story class "C" building on Second street between Mission and Howard streets for a new hook-and-ladder company.

Four-story class "A" building on Mint Avenue near Fifth street for general headquarters and offices for the department and quarters for the Chief Engineer and an Assistant Chief Engineer, with quarters on the lower floors for Engine Co. 17, a new truck company and a high pressure system hose wagon. This recommendation calls for special consideration, as the establishment of general headquarters for fire departments, independent of the other branches of municipalities,

is now in vogue in all the larger cities and better results have obtained therefrom in the departments.

There are at present a number of companies housed in temporary frame structures, the majority of which are within the boundaries of the fire limits. More modern structures should be provided for these companies, and I accordingly make the following recommendations:

Two-story class "C" building for Engine Co. 3, Chemical Co. 6 and Monitor Battery 1, now temporarily located on school department lot on Pine street near Larkin.

Two-story class "C" building for Engine Co. 4, Water Tower No. 1 and Chemical Co. 1 at 676 Howard street.

Two-story class "C" building for Engine Co. 5, 1219 Stockton street.

Two-story class "C" building for Engine Co. 8 and Truck Co. 4 at 1648 Pacific Avenue.

Two-story class "C" building for Engine Co. 9 and high pressure water system hose wagon at 320 Main Street.

Two-story class "C" building for Engine Co. 19 on Market street, between Tenth and Eleventh.

Two-story class "C" building for Hook-and-Ladder Co. 2 and Chemical Co. 5 at 643 Broadway.

Two-story class "C" building for Truck Co. 3 and Chemical Co. 4 at 451 McAllister street.

Two-story class "C" building for Truck Co. 5 and Chemical Co. 2 at 1819 Post street.

I would also recommend that a concrete wall be erected in the rear of Engine Co. 26 and a shed built for a fuel wagon and the storage of relief apparatus. Also that the department stables be painted and whitewashed and a hospital built in the rear thereof for the care and treatment of sick and injured horses of the department and a cement watering trough be built. That a shed be built on the lot adjoining the quarters of Engine Co. 29 for the storage of wagons and hydrant carts which are now kept in the open space in front of the department stables. Further that a concrete wall be built around the yard of quarters of Engine Co. 38, with a six-foot fence, and that a new sidewalk be placed in front of said quarters.

I would recommend the installation of the following additional companies during the year, the apparatus thereof to be motor propelled:

New Engine Company on a site to be purchased in the vicinity of Plymouth and Lake View Avenues, as a substitute therefor the removal of Engine Co. 33 from 117 Broad street to that location.

New engine company on the fire department site on Wilde Avenue and Girard street.

New engine company on Twelfth Avenue, near Geary street.

New engine company in the vicinity of Conrad and Diamond streets.

New engine company in the vicinity of 42d Avenue and Geary street.

New hook-and-ladder company on Twelfth Avenue, neary Geary street.

New hook-and-ladder company at Eighteenth and Eureka streets.

New hook-and-ladder company in the vicinity of Clay and Jones streets.

Ntw hook-and-ladder company at Twentieth and Kentucky streets.

New hook-and-ladder company at Drumm and Commercial streets.

New hook-and-ladder company at Second street, between Mission and Howard streets.

High pressure system hose wagon at Eighteenth and Eureka streets.

High pressure water system hose wagon at Drumm and Commercial.

Hose wagon tender for fire boats at Twentieth and Kentucky streets.

Chemical company in the vicinity of Clay and Jones streets.

I would also recommend the installation of at least fifty additional street

water cisterns for fire protection purposes, to be located in sections of the city that are not covered by the mains of the Spring Valley Water Company or provided for by the high pressure auxiliary water system.

In this connection I would further recommend that the excavation in Howard street at its intersection with Tenth street, which was formerly used by the United Railroads, and which could readily be converted into a water cistern of from 800,000 to 900,000 gallons capacity at a comparatively small expense, be utilized for that purpose.

In order to afford sufficient water facilities for fire protection purposes in that rapidly growing section in the vicinity of the Oceanside district south of the Golden Gate Park, which at the present time is without any protection in this respect, I would recommend that connection be made with the pipe system from the pumps supplying Lake Metson in Golden Gate Park by running a 12-inch pipe from the same through the Park to connect to the new cistern installed at Forty-seventh Avenue and Judah street and thence running through intersecting streets to Fortyninth Avenue and Pacheco street. By this means the said cistern could be more rapidly filled when required. Hydrants could be connected to this main at desirable points, which, after their installation could be maintained without any additional cost to the municipality. If this work were done in accordance with the plans now on file in this office it would afford that district an ample supply of water for fire protection purposes.

For the protection of that portion of the Sunset District and the Richmond District that is now lacking in water for fire department purposes, as well as the Parkside District, I would recommend that a reservoir with a capacity of 5,000,000 gallons of water be constructed in the vicinity of Twelfth Avenue and Rivera street, and distributing mains to be laid to cover the entire Sunset District and crossing the park to the Richmond District. The water to supply this reservoir could be piped from the Clarendon Heights reservoir. If this be accomplished the serious problem of providing water for fire protection purposes for that portion of the city would be overcome, as the entire Sunset and a portion of the Richmond District would have an independent water supply amply sufficient for all purposes.

I would also recommend that a 12-inch pipe connection be made with the reservoir in Golden Gate Park at Grove and Stanyan streets and that hydrants be connected thereto on Stanyan and Fulton streets, as the Spring Valley Water Company's pressure is very low in this location.

In order to afford better fire protection to the district west of Thirty-second Avenue and along Geary street I would recommend that a reservoir of 3,000,000 gallons capacity be constructed in Lincoln Park to be supplied from the 10-inch main which the Park Commission has installed on Thirty-ninth Avenue from the Golden Gate Park to Lincoln Park. The water to supply this reservoir could be obtained from the Murphy windmill in Golden Gate Park. Or if this arrangement could not be carried out a salt water supply could be obtained by the city running a main from the Olympic Salt Water Company's main on Geary street to the reservoir and having the water pumped thereto. Mains from the reservoir could be extended along Lake and Clement streets, thus insuring a plentiful supply and ample pressure for fire protection purposes in the West Richmond district. Hydrants could then be installed at available points along the line of these mains.

Arrangements are also being made with the Olympic Salt Water Co. to have installed in its pumping station on the Great Highway a tapper connecting with the fire alarm signal station, which will notify those in charge of the pumping station whenever a fire occurs along the line of its present salt water main in Geary street and upon the receipt of which the pumps will be started, thus insuring an ample supply of salt water. If this can be accomplished hydrants can be connected to said main in Geary street at each corner from Thirty-second Avenue west.

I would recommend that Chemical Co. 8 be changed from its present loca-

tion on Cliff Avenue to some desirable point in the Sunset District in the vicinity of Nineteenth Avenue and Quintera street.

During the past year signal gongs, which are operated from the fire alarm office, and which ring as a warning for traffic to cease on the approach of the fire apparatus, have been installed at the street crossings on Market street from Second to Sixth street. I would recommend that this system be extended from Sixth to Ninth and from Second to First street on Market; also on Montgomery street from Market to California, Kearny street from Market to California, Grant Avenue from Market to Bush, Stockton street from Market to Post, Powell street from Market to Post, First street from Market to Howard, Second street from Market to Howard, Third street from Market to Howard, Fourth street from Market to Howard, Fifth street from Market to Howard and Sixth street from Market to Howard.

I would also recommend that all fire alarm boxes that have not as yet been provided with keyless doors be so equipped as soon as possible.

I again desire to call attention to the importance of changing the entire fire fighting apparatus of the department from horse to motor driven as soon as possible. This class of apparatus has now passed the experimental stage, and is rapidly being acquired by fire departments all over the world. The prime factor for the acquirement of this class of apparatus is the economy resulting from its operation and maintenance as well as its efficiency. During the past year fourteen pieces of this class of apparatus have been placed in service or has been contracted for, as is stated in detail elsewhere in this report, which was all the limited appropriation provided for this purpose would allow for. The same condition as to appropriation prevails for the present fiscal year, and while the appropriation allowed will not permit the purchase of the entire amount herein numerated, yet I would recommend that the following motor driven apparatus and fire hose be acquired during the present fiscal year if it be possible to do so: six straight chemicals, six combination chemicals and hose wagons, two pumping engines, six hook-and-ladder trucks, six tractors, seven Battalion Chiefs' automobiles and two delivery trucks, 25,000 feet of 2 3/4-inch hose, 5,000 feet of 3 1/2-inch hose, 10,000 feet of 1 1/2-inch hose, 5,000 feet of 2 1/2-inch hose, 5,000 feet of 3-inch hose and 5,000 feet of rubber chemical hose.

The event of the opening of the Panama Canal within a few years will result in an enormous increase in the shipping interests of this city and will bring to this port many vessels of a greater carrying capacity than those now operated here. I would therefore recommend the construction of two steel barges to be equipped with machines for the generating of gas to be utilized for the purpose of extinguishing fires that may occur in the cargoes of vessels while confined to the holds thereof, as this is the only manner in which such fires may be successfully handled without almost totally destroying or damaging the cargoes.

I also desire to call attention to the urgent necessity of having a fire alarm signal station so situated as to be entirely isolated from surrounding buildings by erecting the same in the center of some public park or square, as the protecting of this branch of the service from fire in the event of a large conflagration is very essential and did this municipality possess at the present time a fire alarm signal station so situated I am confident that a material reduction in insurance rates would prevail. I therefore recommend that a one-story class "A" building be erected for this purpose in Jefferson Square, to be used solely as a fire alarm signal station with a basement connected therewith for the storage of the batteries. The machine shops connected with this department should be placed elsewhere than in the building used for this particular purpose.

In conclusion I desire to extend by sincere thanks to your Honorable Board for the active and untiring interest always manifested by you in matters pertaining to the efficiency and advancement of the department. I also desire to express my thanks and appreciation to the officers and members of the department for the

commendable manner in which they have performed their required duties during the fiscal year just ended, and in this connection I desire to call attention to the fact that the losses by fire during the past year have been less than for than any year since 1906, which in its self speaks well for the efficiency of the department when the fact is taken into consideration that the number of fires during the year greatly exceeded that of any of the previous years.

To his Honor, th Mayor, the heads of the different departments of the municipality, the Chief of Police and the members of his force, Fire Marshal Towe and Superintendent Comstock of the Underwriters Fire Patrol, Chief Nixon of the Department of Electricity, City Engineer Manson and his assistants and the attaches of the City Architect's office, I also desire to extend my thanks in appreciation of the valuable assistance they have given the department whenever the opportunity presented itself.

Respectfully submitted,

THOS. R. MURPHY,  
Chief Engineer, S. F. F. D.

## RULES AND REGULATIONS GOVERNING THE SAN FRANCISCO FIRE DEPARTMENT.

## RULE 1.

Section 1. The office of the Board of Fire Commissioners shall be the headquarters of the San Francisco Fire Department. Office hours for the transaction of business shall be from 8:30 o'clock a. m. to 5 o'clock p. m. (Sundays and legal-holidays excepted.)

Sec. 2. The Secretary of the Board of Fire Commissioners shall be in attendance at said office of the Board during office hours when not elsewhere engaged in the business of the department. He shall keep a true record of all official actions of the Board, and shall also keep and be held responsible for the accuracy of the book accounts of the department. He shall devise, with the approval of the Board, such methods for checking the receipts of material, supplies, etc., as will insure absolute accuracy in the compliance with contracts or agreements of purchase. He shall have the custody of and preserve all records, books, documents and papers belonging to the department, and shall do and perform such other duties as may be required of him by the Board of Fire Commissioners.

Sec. 3. The office of the Chief Engineer shall be at the headquarters of the department, where he shall be in attendance during office hours when not otherwise engaged in the business of the department.

## RULE 2.

Section 1. The department shall be divided into Battalions, each of which shall be under the immediate supervision of an Assistant or a Battalion Chief, with headquarters in their respective districts.

Sec. 2. There shall be two general divisions of the department, comprising the Battalions. One of which said divisions shall be under the immediate supervision of the First Assistant Chief Engineer, and the other under the Second Assistant Chief Engineer, and shall be designated as General Division Nos. 1 and 2, respectively.

Sec. 3. The assignment of the First and Second Assistant Chief Engineers to Divisions, and of Battalion Chiefs to Battalions shall be made by the Board of Fire Commissioners upon the recommendation of the Chief Engineer, and such assignments may be changed from time to time.

## RULE 3—THE CHIEF ENGINEER.

Section 1. The Chief Engineer shall be the Chief Executive Officer of the Fire Department, and shall have general supervision over all officers, members and employees thereof. He shall also have and exercise supreme command at all fires over the officers, members and employees, and over all the apparatus and appurtenances belonging to the Department.

Sec. 2. He shall take all measures which he may deem expedient for the extinguishment of fires and the protection of property and saving of life, and shall see that all laws and ordinances of the City and County and all orders and rules and regulations concerning the Fire Department are enforced.

Sec. 3. He shall cause to be kept in the office of Board of Fire Commissioners a complete record or file of all complaints against members, employees,

etc., and may suspend any subordinate officer, member or employee of the department for incompetency or for any violation of the rules and regulations of the department, and shall report in writing to the Board, at its next regular meeting, such suspension and the reason therefor.

Sec. 4. He shall diligently observe the condition of the men and apparatus and general condition of the department, and report in writing thereon at least once a month, or whenever required to do so, to the Board, and make such recommendations and suggestions respecting the same as he may deem proper.

Sec. 5. He shall see that proper discipline is maintained by the officers and men, and shall report to the Commissioners, any officer, member or employee of the Department who, by reason of age, disease, accident, incompetency, insubordination or other cause, cannot or does not fully, energetically, promptly and properly perform his duties in the Department.

Sec. 6. He shall make, subject to approval of the Board of Fire Commissioners, such assignments or details of the officers, members and employees of the department as he may deem necessary and proper.

Sec. 7. He shall also perform such other duties as the Commissioners may direct.

#### RULE 4—FIRST ASSISTANT CHIEF ENGINEER.

Section 1. The First Assistant Chief Engineer shall rank next to the Chief Engineer, and shall attend all fires to which he is assigned, and such other fires as he may be assigned or summoned to by the Chief, and, in the absence or inability to act of the Chief Engineer, shall have and exercise the duties and powers of that officer.

Sec. 2. He shall see that good order and proper discipline is maintained among the members of the Department, and that all laws and ordinances of the City and County, pertaining to and all orders, rules and regulations of the Department, are enforced.

Sec. 3. He shall inspect the uniforms of all officers, and require strict compliance with the specifications therefor hereinafter given.

Sec. 4. He shall also perform such other duties as the Commissioners or Chief Engineer may direct.

#### RULE 5—SECOND ASSISTANT CHIEF ENGINEER.

Section 1. The Second Assistant Chief Engineer shall rank next to the First Assistant Chief Engineer, and shall attend all fires to which he is assigned, and such other fires as he may be assigned or summoned to by the Chief or First Assistant Chief Engineer, and in the absence or inability to act of the Chief or First Assistant Chief Engineer, shall have and exercise the duties and powers of the First Assistant Chief Engineer.

Sec. 2. He shall see that good order and discipline is maintained by the members of the Department in his Division; that all laws and ordinances of the City and County, pertaining to and all orders, rules and regulations of the Department, are enforced.

Sec. 3. He shall examine all buildings in the District to which he is assigned and report to the Chief Engineer concerning the same.

Sec. 4. He shall forthwith report in writing to the Board of Fire Wardens all buildings or structures that are found to be in a dangerous, defective or unsafe condition, and said Board shall, through its Secretary, report the same to the Board of Public Works and keep a record thereof in a book used for that purpose.

Sec. 5. He shall also perform such other duties as the Commissioners or Chief Engineer may direct.

## RULE 6—CHIEFS OF BATTALIONS.

Section 1. The Chiefs of Battalions shall respond to all alarms of fire to which they are assigned, and on arriving thereat shall immediately report to the commanding officer in charge of the fire.

Sec. 2. In the absence of the Chief Engineer or Assistant Chief Engineers at fires, the command of the force will devolve upon the Chief of Battalion who first arrives, and he shall remain in charge until the arrival of a superior officer.

Sec. 3. They shall visit each alternate day each company house under their charge, inspect its condition, and see that the horses, apparatus, hose and equipments are in proper condition for efficient service. They shall obtain a written report concerning the same from the captain of each company, and upon returning to headquarters prepare and forward to the Chief Engineer a written report of the result of such visit and inspection.

Sec. 4. They shall examine all buildings in the district to which they are assigned, and report to the Chief Engineer concerning the same.

Sec. 5. They shall forthwith report in writing to the Board of Fire Wardens all buildings or structures that are found to be in a dangerous, defective or unsafe condition, and said Board shall, through its Secretary, report the same to the Board of Public Works and keep a record thereof in a book used for that purpose.

Sec. 6. They shall be held responsible for the discipline of all companies under their respective commands, and shall enforce all laws and ordinances of the City and County pertaining to the Fire Department, and a strict compliance with all orders, rules and regulations of the Department, and report promptly to the Chief Engineer every infraction thereof.

Sec. 7. They shall report promptly to the Chief Engineer any accident or other circumstance calling for prompt attention.

Sec. 8. They shall inspect the uniforms of the officers and men under their supervision before they are worn, and reject all not in conformity with the specifications hereinafter given.

Sec. 9. They shall be constantly on duty at their respective headquarters, except when necessarily engaged elsewhere on Department business, and shall not leave their districts except in case of fire or by permission of the Chief Engineer.

Sec. 10. They shall also perform such other duties as the Commissioners or Chief Engineer may direct.

## RULE 7—THE BOARD OF CHIEFS.

Section 1. The Chief Engineer, the Assistant Chief Engineers and the Battalion Chiefs of the Department shall compose the Board of Chiefs.

Sec. 2. The Chief of the Department shall be ex-officio chairman of the Board, and one of its members shall be elected secretary, whose duty it shall be to make and keep a proper record of all proceedings of the Board.

Sec. 3. The Board shall hold meetings once a month, and at such time and such place as the chairman of the Board may designate.

Sec. 4. The Board of Chiefs shall consider the interests of the Fire Department as to its personnel, discipline, occupation of the men while in their company houses, location of houses and the apparatus to be kept or placed therein, the character of the apparatus, hose, nozzles, etc., noting those giving best use and satisfaction, and all other matters relating to the development and perfecting of the Department, to the end that it may reach the highest efficiency.

Sec. 5. The Board of Chiefs shall transmit to the Board of Fire Commissioners such recommendations as they may agree upon from time to time.

## RULE 8—CAPTAINS.

Section 1. Captains shall have and exercise command over their respective companies, and shall be responsible for the discipline and condition thereof, and shall see that the houses under their control, and everything pertaining thereto, horses, harness, apparatus and equipment, are at all times kept in proper order.

Sec. 2. They shall enforce a strict compliance with the rules and regulations of the Department and the orders of the Chief Engineer, and report to their Battalion Chiefs any infraction thereof.

Sec. 3. The Captain of each company shall keep three books, to be designated as follows:

(a) The Property Book, (b) The Supply Book—these two may be combined in one—(c) The Journal.

Sec. 4. In the Property Book shall be entered a complete list of all the property in the company house under his control, furniture, horses, apparatus, hose, tools, etc., as it is received by him from time to time, and such as may become useless or destroyed, or that may be returned to the corporation yards, stables, shops, or the persons or firms from whom purchased. On December 31st of each year the Captain shall report in full in writing to the Commission all the property in his charge belonging to the Department.

Sec. 5. In the Supply Book shall be kept an accurate memorandum of all perishable supplies received, such as forage, fuel, etc., the date of receipt, the name of the party from whom received, and the quality of such supplies. A receipt shall be given in every case for supplies received and a written statement thereof forwarded to the Commissioners monthly.

Sec. 6. In the Journal shall be entered a brief history of each day's happenings.

- (a) Particulars of all alarms responded to.
- (b) Accidents to men, horses or apparatus.
- (c) Special duty performed by officers or men or company.
- (d) Delinquencies and insubordination.
- (e) Orders received, how and from whom received.
- (f) Unusual occurrences.

Sec. 7. They shall also keep a scrap book, in which shall be pasted copies of all amendments to the rules and regulations of the Department, and all general and special orders and instructions issued by the Board of Fire Commissioners and the Chief Engineer.

Sec. 8. They shall, with their companies, respond promptly to alarms of fire according to directions issued from time to time by the Chief Engineer, and upon their arrival at a fire immediately report to the officer in command; or if first to arrive, assume and exercise command until the arrival of a superior officer, and if deemed necessary, shall order a second alarm before the arrival of a superior officer. The apparatus shall, immediately upon arrival at a fire, be placed in position for service.

Sec. 9. They shall justly apportion, among all the members of the different companies under their respective commands, the work required about their company quarters.

Sec. 10. They shall politely receive visitors and answer all proper questions civilly, explaining when requested to do so, the apparatus, alarms, etc., but shall not allow habitual lounging or visiting in or about quarters, nor shall they permit children therein unless accompanied by parents or attendants.

Sec. 11. They shall see that all the required work about their quarters is completed by 10 o'clock a. m. sharp, and that everything is in readiness for the daily inspection at that hour, at which all members of the company will

appear in uniform, except in case of a working fire after 12 o'clock during the previous night.

Sec. 12. After inspection they shall make out, and deliver to the Battalion Chief on each alternate day, a report of the condition of the house, horses, apparatus, hose, and other equipments of their respective companies.

Sec. 13. They shall make such disposition of the men under their command as will enable them to attend their respective places of worship every Sunday, if possible, but at least once on every alternate Sunday, or other day of the week, which the man or men are accustomed to recognize as the day of public worship. Such "offs" will be so arranged as not to impair the service, and members availing themselves of this privilege will be required to attend said places of worship in uniform.

Sec. 14. They shall report to their Battalion Chiefs without delay all accidents resulting in injury, loss of life or damage to property, together with the names and addresses of all available witnesses thereto, whether happening to members of the Department or its apparatus or horses or to the persons of citizens or their property, in connection with the operation of this Department.

Sec. 15. They shall promptly report in writing to their Battalion Chiefs every breach of discipline or violation of the rules and regulations of the Department.

Sec. 16. They shall see that the wheels are taken off the different pieces of apparatus and vehicles that may be under their charge and control at least once in every week, and that the axles and wheel boxes are carefully inspected and the condition thereof noted in the house journal of that day.

Sec. 17. They shall also carefully instruct the members of their companies as to the rules and regulations relating to responding to alarms of fire and the changing of locations, as are set forth in the Assignment Book, and see that the same are strictly observed, and it shall also be their duty to see that the men are thoroughly familiar with the "pegging-up" of companies on the record board.

Sec. 18. Captains or Acting Captains of Companies shall at the end of each day sever the tape connected with the register in their respective houses on which alarms of fire are registered, thoroughly familiarize themselves with each box registered thereon, and then safely keep and store the same away in some convenient place for at least one week. Whenever there is anything wrong with the tapper, gong or register, or anything in connection therewith, they shall immediately report the same to the Fire Alarm Office.

Sec. 19. On returning to quarters from an alarm of fire, before allowing the fire to be pulled from their respective engines, and before entering the house with the apparatus, they shall ascertain from the register if any alarm has been sent in during their absence. Captains of Trucks, Chemicals and Water Tower Companies shall do likewise.

Sec. 19½. They shall devote one-half hour of one day in each alternative week to reading and explaining to the members of their respective companies the rules and regulations of the department pertaining to the duties of the men, etc., as well as to reading all written orders that may be issued by the Board of Fire Commissioners or the Chief Engineer, allowing one-half of said time to the reading of the rules and the remainder to the reading of orders.

Sec. 20. They shall perform such other duties as may be required of them by their superior officers and the rules and regulations of the Department.

#### RULE 9—LIEUTENANTS.

Section 1. Lieutenants shall respond to all alarms of fire prescribed for their company and promptly and cheerfully obey the orders of the Captain and

assist him in the performance of his duties, and shall also perform the duties required of hosemen or truckmen, as the case may be, and such other duties as may be required of them by their superior officers and by the rules and regulations of the Department.

Sec. 2. Lieutenants shall, in the absence of the Captain, perform his duties and exercise the authority of said officer.

#### RULE 10—ENGINEERS.

Section 1. Engineers shall, under their commanding officer, have the care and management of their engine, and shall be held responsible for its condition. They shall see that it is kept clean, in good order, and ready for immediate service at all times.

Sec. 2. Engineers who respond to boxes along the water front will each day ascertain from the daily papers the condition of the tide, and note the time of high and low water on the blackboard for immediate reference in event of fire.

Sec. 3. When additional fuel is required at a fire the stoker or driver of the company shall be sent to the nearest engine house for a fresh supply. The Engineer's orders in such cases shall be obeyed by the stoker or driver.

Sec. 4. Where engines have been disconnected from the heaters long enough to allow the water in the boilers to become cool, Engineers shall light the fire under the boiler and keep the water at least at scalding heat.

Sec. 5. All Engineers must have their apparatus in good order before a relief Engineer may take charge. A thorough examination by both Engineers must be made immediately before the relief Engineer receipts to the Engineer reporting off. Such receipt must be given at once to the Captain of the company, and by him turned over to the Battalion Chief.

Sec. 6. The fires of engines shall not be dumped upon pavements of bituminous rock or asphaltum.

Sec. 7. On receiving a relief or other engine in place of their own, Engineers shall immediately prepare said engine for fire service by relaying fire, changing tools, filling boiler, and heating same, and shall otherwise see that the said apparatus is in perfect order for fire duty. They shall also retain possession of their own engine, if the same is fit for service, until the relief engine is prepared to roll.

Sec. 8. They shall open and close by hand the snap valves connecting the engine with the heater at least once every twenty-four hours; see that the stems are well lubricated and springs properly adjusted, so as to insure their closing when the engine leaves its position. Slip-joints shall be removed from floor stuffing-boxes and cleansed and oiled daily. They shall also see that the snap-valves are closed every time the engine pulls away from the heater connections.

Sec. 9. They shall test the working qualities of their respective engines twice monthly, under the same pressure allowed at fires. When draughting with pumps is not convenient, Engineers will take the nearest hydrant to quarters, generate the regulation amount of steam; run water pressure up to 120 pounds by partially closing the discharge gate (if by leaving it open and playing a full stream the street and surrounding property would be damaged); leading off sufficient hose to reach the nearest cesspool. Engineers shall report the result of such monthly tests, in writing, to the Superintendent of Engines upon his visit after each said test.

Sec. 10. They shall thoroughly cleanse their boilers once every fourteen days by removing all plugs from around the bottom of the boiler, using bent pipe, which will be furnished upon requisition. Such cleansing must be done immediately after return from exercising horses. After washing out boiler they shall connect the same to heater pipes and fill from that source, making use of

the hot water in the heater and boiler where there is one in use. Heaters shall also be emptied and cleansed every fourteen days, but not upon the same day that boilers are cleansed. When an engine has been working an hour or more, the same precautions shall be observed as on regular boiler cleaning days, and the same noted in daily report, together with such other remarks on the condition of the boiler as may be deemed proper.

Sec. 11. They shall carefully examine their shut-off nozzles after every fire or drill at which said nozzles are used; see that all parts are lubricated, and weekly attach nozzles to nearest hydrant; open and close same, and see that all parts are in working order.

Sec. 12. They shall inform their Captain whenever their engine may need any material or repairs.

Sec. 13. They shall at no time change or alter the position of the locking device on the pop valves or safety valves of their engines, regulating the steam pressure at which the same will blow off, and they shall at all times, while their engines are working at a fire, carry a water pressure of one hundred and twenty (120) pounds, except when ordered to carry a higher or lower pressure by the officer in command at such fire.

Sec. 14. They shall have their apparatus clean and ready for inspection daily at 10 o'clock a. m., except in case of a working fire after 12 o'clock during the previous night.

Sec. 15. Whatever work is done on apparatus other than cleaning must be fully noted in the company journal.

Sec. 16. They shall carefully instruct the other members of their respective companies, who may be in charge of the engine, heater, etc., during their watches, as to the proper care of the same, and shall report to the Captain any neglect or violation of the rules in regard to the care of engine, heater, etc., which they may find to have occurred during said watches.

Sec. 17. They shall remove and relay the fire in the fire-box immediately upon the return of the engine to quarters after exercising, and also upon the return to quarters after the apparatus has traveled one-half mile or more without having ignited fire.

Sec. 18. There shall be in each Engine Company at least one member thereof who must be competent to take charge of the engine, and whose duty it shall be to act as Engineer and perform the required duties thereof in the absence of the regular Engineer. When not acting as Engineer he shall, in responding to alarms of fire ride on the rear step of the hose wagon and make connection of hose line to engine or hydrant and also assist the Engineer to connect to hydrant by taking cap from hydrant, chocking wheels, and assisting otherwise to put engine to work. He shall then assume the duties of Hoseman.

Sec. 19. They shall perform such other duties as may be required of them by their superior officers and the rules and regulations of the Department.

#### RULE 11—DRIVERS.

Section 1. Drivers shall take proper care of their horses; exercise the greatest caution in their care and management; keep the stalls clean, and see that everything pertaining to their department is in perfect order and in readiness for immediate service.

Sec. 2. They shall not run their horses while responding to or returning from alarms of fire, nor shall they pass other apparatus of the Department, unless such apparatus or horses be disabled (except that drivers of Chemicals may pass other apparatus except Chemicals, if the same can be done with safety), but all proper dispatch consistent with safety must be used in responding to alarms of fire.

Sec. 3. They must, on all occasions, securely strap themselves to the seat of their apparatus immediately upon mounting the same.

Sec. 4. Drivers of Monitor Batteries, upon returning to quarters from an alarm of fire, shall ascertain from the register if any alarm has been sent in during their absence, before entering the house with the apparatus.

Sec. 5. Drivers of Chemical Engines are expected to get their apparatus to a fire at the earliest possible moment, and in so doing shall drive at as rapid a gait as is consistent with the safety of the public and the apparatus. Chemical Companies may pass other companies, except other Chemical Companies, when it can be done with safety.

Sec. 6. In returning from a fire all driving shall be at a moderate rate of speed.

Sec. 7. They shall exercise their horses one hour each day when the horses have not performed any work after 1 o'clock a. m.

Sec. 8. Drivers of hill companies when responding to alarms that take their apparatus off the hills shall be careful to slow up as much as possible at crossings and look up and down each street, so as to avoid passing the fire.

Sec. 9. They will see that bells or gongs are rung at short intervals when proceeding to a fire.

Sec. 10. Drivers of engines shall not pass a fire to take a hydrant, unless by so doing they can obtain a closer position to the fire without shutting out another company that may be seen coming from another direction.

Sec. 11. Drivers of trucks, chemicals, towers and batteries shall not stop their apparatus in front of a hydrant.

Sec. 12. They shall not drive their apparatus over hose except when absolutely necessary.

Sec. 13. Drivers of Engine Companies shall, while said companies are in service at a fire, take proper care of all the horses and the hose wagon, and shall also, when necessary, assist the Engineer in firing his engine.

Sec. 14. They shall perform such other duties as are required by their superior officers and the rules and regulations of the Department.

#### RULE 12—STOKERS.

Section 1. The duties herein imposed upon Drivers shall, as far as practicable, apply to Stokers.

Sec. 2. They shall always, in response to alarms of fire, precede the engine with the hose wagon, unless otherwise ordered.

Sec. 3. They shall, after having led into a fire, tie up their horses in some position close to the engine, turn the care of horses and wagon over to the Driver, and immediately assume the duties of a Hoseman.

Sec. 4. They shall perform such other duties as are required by their superior officers and the rules and regulations of the Department.

#### RULE 13—HOSEMEN AND TRUCKMEN.

Section 1. Hosemen and Truckmen shall respond to all alarms of fire prescribed for their respective companies, and in every case they shall conform to and promptly and cheerfully obey all rules and regulations of the Department, and perform such other duties in connection with the Department as their superior officers may require of them.

## RULE 14—TILLERMEN.

Section 1. Tillermen shall be at the tiller in going to and returning from fires, and upon all other occasions when their services in that capacity are required.

Sec. 2. They shall also perform such other duties as are required by their superior officers and by the rules and regulations of the Department.

## RULE 15—CHEMICAL ENGINE, WATER TOWER AND MONITOR BATTERY COMPANIES.

Section 1. Officers and members of Chemical Engine, Water Tower and Monitor Battery Companies shall be subject to the same rules governing other officers and members of the Department, as far as applicable, and shall perform such other duties as may be required of them by their superior officers and the rules and regulations of the Department.

Sec. 2. Drivers of Monitor Batteries shall be under the supervision and subject to the orders of the Captain of the company in whose quarters they may be located.

## RULE 16—HOUSES AND HOUSE WATCH.

Section 1. The house should be kept at an even temperature of about 60 degrees; thorough ventilation must be maintained in order that a good supply of pure air may be secured with as little draught as possible.

Sec. 2. Houses must be washed twice a month, weather permitting. The use of chloride of lime or any like substance on the floors of the houses is prohibited, except on stall floors.

Sec. 3. Members receiving forage, fuel, etc., will only receipt for the actual amounts received by them. Coal, 2,240 pounds to the ton; wood, per cord, 4x4x8—128 cubic feet; feed, per 100 pounds or fraction thereof.

Sec. 4. Engineers will carefully instruct their assistants in the engine house in the care and management of the apparatus, heater, syphon, etc., while in quarters; the house watchman being held personally and solely responsible for said apparatus after having assumed charge of the floor.

Sec. 5. A continuous watch shall be maintained in the apparatus rooms of all company houses of the department during the whole twenty-four hours of the day. The hours of the different watches shall be as follows: First watch, six a. m. to six p. m.; second watch, six p. m. to ten p. m.; third watch, ten p. m. to two a. m.; fourth watch, two a. m. to six a. m. The men to stand the different watches shall be designated in turn by the Captain of each company, unless otherwise provided, and no man shall be called upon to stand more than one night watch in twenty-four hours. The Captain of each engine and truck company shall also designate one man in turn who has had no watch during the preceding night and who shall be called at five o'clock a. m. to assist the watchman in taking up bedding and feeding horses. The man on watch shall be designated as house watchman, unless otherwise provided.

Sec. 6. (a) In all engine and truck companies there shall be two men on the first watch and one man on each of the other watches, unless otherwise provided. There shall be no change from this rule where an engine and truck company occupy the same house.

(b) In chemical companies or water tower companies occupying the same house with an engine or truck company, there shall be one man on the first

watch and one man on the second watch, but no later watch shall be maintained; provided, however, that the hoseman of such chemical or water tower company, when not acting as lieutenant or driver, shall take his turn on late watches in common with the members of the other company occupying the house.

(c) In chemical or water tower companies occupying houses alone there shall be one man on each of the watches.

(d) Where a chemical and water tower company occupy the same house there shall be one man on each of the four watches, the same as if each company was alone, and the crews of the respective companies shall have charge of the house alternately every twenty-four hours. During vacations and regular days off men shall be detailed from other companies in order to keep four men on duty at all times with chemical and water tower companies occupying houses alone.

Sec. 7. (a) In all engine and truck companies, and in chemical or water tower companies occupying the same house with an engine or truck company the captain shall stand no watch, but shall remain in general supervision of the apparatus floor at all times between the hours of six o'clock a. m. and six o'clock p. m., unless called away on other duties, in which case the Lieutenant shall remain in supervision until the Captain's return.

(b) Captains of chemicals or water tower companies occupying quarters alone shall stand a regular watch.

(c) No substitute shall be qualified or allowed to stand a night watch alone in any company unless he has previously worked in that particular company for at least fifteen days and is known by the captain of that company to thoroughly understand the rules applying to the duties of house watchman, and to be otherwise reliable and competent. When a substitute who is not so qualified is required to stand a night watch, said watch shall consist of two men, one of whom must be a regular member. These rules shall apply to all companies except chemical and water tower companies occupying houses alone, in which companies the previous time worked need not be considered, provided that the substitute is known by the Captain to be otherwise qualified.

(d) Captains of chemical and water tower companies occupying houses alone must endeavor at all times to secure substitutes who are qualified as provided. If such qualified substitutes are not available said Captains must request their Chief of Battalion to detail a man from some other company, sending the unqualified substitute to said other company.

(e) In engine companies where only seven men are on duty, if there are two unqualified substitutes on duty in place of regular members, if necessary, the Captain shall take the watch from six to ten p. m., and the Lieutenant shall take the watch from ten p. m. to two a. m. in order to have a regular member in charge of each watch.

Sec. 8. The regular house watches in each company of the department shall be constituted as follows:

**Engine Companies—**

Engineer and Driver.....	6 a. m. to 6 p. m.
Lieutenant.....	6 p. m. to 10 p. m.
One man.....	10 p. m. to 2 a. m.
One man.....	2 a. m. to 6 a. m.

In all engine companies during the watch from 6 o'clock a. m. to 6 p. m. the engineer shall be designated house watchman and the driver shall be designated assistant house watchman.

**Truck Companies—**

Tillerman and Driver.....	6 a. m. to 6 p. m.
Lieutenant .....	6 p. m. to 10 p. m.
One man.....	10 p. m. to 2 a. m.
One man.....	2 a. m. to 6 a. m.

In all truck companies during the watch from 6 o'clock a. m. to 6 o'clock p. m. the tillerman shall be designated house watchman and the driver shall be designated assistant house watchman.

**Chemical or Water Tower Companies—**

(When occupying the same house with an engine or truck company.)

Driver.....	6 a. m. to 6 p. m.
Lieutenant.....	6 p. m. to 10 p. m.

**Chemical or Water Tower Companies—**

(In houses alone.)

Driver.....	6 a. m. to 6 p. m.
Captain.....	6 p. m. to 10 p. m.
Lieutenant .....	10 p. m. to 2 a. m.
Hoseman.....	2 a. m. to 6 a. m.

During the absence of the engineer, driver or tillerman of any company at meals the relief engineer, relief driver or relief tillerman, as the case may be, shall assume their respective duties on watch on the apparatus floor.

Sec. 9. In no case shall the men on watch or either of them leave their post of duty on the apparatus floor until relieved, except in case of fire. In the event of failure on the part of their successors to relieve them after being called, the Captain of the company shall be promptly summoned and advised of the fact.

Sec. 10. They shall not permit visitors after 10 o'clock at night, except by consent of the Captain, or a superior officer.

Sec. 11. No changing or trading of "offs" or any watch duty in companies will be allowed without the consent of the Captain.

Sec. 12. Members shall not leave company quarters after ten o'clock p. m. while on duty, and the house watchman shall report to the Captain any member so doing as soon thereafter as possible.

Sec. 13. Watchmen shall not doze or sleep while on watch, nor permit any violation of these rules or regulations by any one in or in front of quarters, and shall at once call the Captain if any disturbance occurs in or about quarters which they cannot control.

Sec. 14. Captains or Acting Captains of Companies shall at the end of each day sever the tape connected with the register in their respective houses on which alarms of fire are registered, thoroughly familiarize themselves with each box registered thereon, and then safely keep and store the same away in some convenient place for at least one week. Whenever there is anything wrong with the tapper, gong or register, or anything in connection therewith, they shall immediately report the same to the Fire Alarm Office.

Sec. 15. Whenever, after one alarm has been received from any station, another alarm is received from the same or any other station before the first alarm has been tapped out, the housewatchman shall immediately call the Captain or Acting Captain in order that he may supervise the pegging on the record board.

Sec. 16. At six o'clock a. m. the house watchman shall call the company, and all members thereof must immediately arise and proceed with their regular duties of the day.

Sec. 17. The House Watchman shall have charge of the Company journal during his watch and shall make all necessary entries therein unless otherwise provided by the officer in charge of the company; provided, however, that he shall make no entry therein of any accident or injury to a member or any other unusual or important occurrence during said watch without first calling the attention of the officer in charge of the company to the same. Upon the completion of each day's journal entries the officer in charge of the company shall inspect and endorse the same.

#### RULE 17—ACTS OF VALOR TO BE REPORTED.

The officer in charge at a fire shall report to the Chief Engineer the names of such officers and members of the Department as may distinguish themselves in the discharge of their duties by the saving of human life at the risk of their own, and Assistant Chiefs and Battalion Chiefs shall report any other meritorious acts which are worthy of special attention that may have been performed by members of the companies under their command, while on duty, either at a fire or elsewhere, giving a full and correct statement of the facts. The Chief Engineer shall submit all such reports to the Board of Fire Commissioners for their consideration.

#### RULE 18—LEAVES OF ABSENCE.

Section 1. Except as herein provided, all leaves of absence must be obtained from the Board of Fire Commissioners, upon proper written application made therefor.

Sec. 2. The Assistant Chiefs and Battalion Chiefs are authorized to and may grant leaves of absence to the officers and members of companies under their control for a period not to exceed four days, and in all such cases they must put on substitutes at the expense of the men granted leave. All such substitutes to be taken from the regular authorized list thereof.

Sec. 3. The Chief Engineer is authorized to and may grant leaves of absence to officers and members of the Department not to exceed ten days, and he may also extend leaves of absence, granted in accordance with the foregoing section, not to exceed six days.

Sec. 4. The President of the Board of Fire Commissioners may grant leaves of absence to the Chief Engineer.

Sec. 5. When any member of the Department is sick, he shall report or cause the fact to be promptly reported to his Captain and Battalion Chief. The Battalion Chief shall verify the statement and grant a leave of absence "on account of sickness" and shall put on a substitute in his place.

Sec. 6. Not more than three members of any engine or truck company having the full complement of men, and not more than two members of any engine or truck company of less than the full complement, and not more than two members of any chemical company will be allowed off on leaves of absence at the same time. Exceptions may be made by the Battalion Chiefs in cases of sickness or urgency, after an investigation of the same.

Sec. 7. All leaves of absence granted, with the time and cause for granting the same, must be reported to the Board of Fire Commissioners at the first regular meeting held after such leave is granted.

Sec. 8. Applications for leaves of absence from members of companies will not be considered by the Board of Fire Commissioners unless the same have been approved and countersigned by the Chief of Battalion and the Captain of the company of which the applicant is a member or to which he may be detailed for duty.

Sec. 9. No member of this Department shall be entitled to a leave of absence by reason of illness other than physical disability occasioned by injury received in the discharge of duty, except upon certification of the physician and surgeon of the Department, and said certification shall accompany the written application for such leave of absence.

Sec. 10. No leave of absence or continuous leaves of absence with pay on account of illness or physical disability resulting from injuries received in the discharge of duty shall continue for a period in excess of one year, except upon sufficient proof of probability of ultimate recovery within a reasonable time thereafter from the illness by reason of which such leave or leaves of absence with pay are granted.

#### RULE 19—SUPERINTENDENT OF ENGINES.

Section 1. The Superintendent of Engines shall be responsible to the Board of Fire Commissioners and the Chief Engineer for the conduct and management of the repair shop. He is charged with the control and direction of the men assigned to duty under him, and shall see that their time is employed to the greatest advantage to the Fire Department, and report to the Chief Engineer in writing all accidents or injuries received by said men, and all absentees from duty, together with the reasons for their absence.

Sec. 2. He shall keep a detailed record of all the work done, and shall make and keep a record in a book provided for that purpose, of any and all apparatus which becomes injured, broken or in any way disabled, together with the date of such occurrence, the company or place to which it belongs, the nature of the injury or disability, the cause, if known, and such other and further information regarding the same as may be necessary.

Sec. 3. He shall visit the quarters of each company once a month, or as often as occasion may require, and inspect the apparatus in service in the Department, and report at least once each month the condition of the same to the Chief Engineer, and make such recommendations as he may deem advisable.

Sec. 4. He shall see that the apparatus is at all times kept in good repair and ready for immediate service.

Sec. 5. He shall attend all fires for which third alarms are sent in.

Sec. 6. He shall also perform such other duties as may be required or prescribed by the Commissioners or Chief Engineer.

#### RULE 20—CLERK AND COMMISSARY CORPORATION YARD.

Section 1. He shall be responsible to the Board of Fire Commissioners and the Chief Engineer, and shall be on duty at his office at Corporation Yard of this Department from 8 o'clock a. m. to 5 o'clock p. m. daily (Sundays and legal holidays excepted) and at such other times as the Chief Engineer may direct.

Sec. 2. He shall have the care and management of the supply department, and have charge of all hose, and apparatus and supplies purchased by order of the Commissioners.

Sec. 3. He shall, upon the receipt of requisitions therefor, deliver to the various companies the monthly supplies and stores for each company.

Sec. 4. He shall keep the books and accounts of the supply department in a systematic manner, showing the supplies received by him, the amount delivered to each company and the amount remaining on hand, and report monthly to the Board of Fire Commissioners.

Sec. 5. It shall be his duty to keep in a book provided for that purpose an account of the quantity, kind and condition of the hose in the Department, and in each company thereof, with such other record as may be required to insure at all times full knowledge of the condition of the same.

Sec. 6. He shall not deliver any supplies or stores of the Fire Department except upon an order signed by the Chief Engineer and the Secretary of the Commissioners (except during a conflagration supplies or apparatus may be delivered on the order of the Chief Engineer, Assistant Chief Engineer, Battalion Chiefs or Captains) and shall procure a written receipt for all such supplies or stores delivered.

Sec. 7. He shall answer all third alarms of fire, and perform such other duties as the Commissioners or Chief Engineer may direct.

#### RULE 21—VETERINARY SURGEON.

Section 1. The Veterinary Surgeon shall be responsible to the Chief Engineer, and shall visit the hospital or stables daily. He shall also tend to all sick or injured horses belonging to the Department at any time of the day or night that such service may be needed. He shall give instructions to the attendants in charge of such horses, and shall report to the Chief Engineer and Board of Fire Commissioners any neglect of duty of same.

Sec. 2. Each person attending to horses under treatment of Veterinary Surgeon shall report to him the condition of horses in his care, and obey all orders given by the Veterinary Surgeon as to their treatment.

#### RULE 22—SUPERINTENDENT OF HORSES.

Section 1. He shall be responsible to the Board of Fire Commissioners and the Chief Engineer for the performance of his duties in the general care and treatment of the horses of the Department.

Sec. 2. He shall instruct his men to give such medical, surgical and other attention to the horses of the Department as may be ordered by the Veterinary Surgeon, regulate their feed, and give such directions to those in charge of horses as in his judgment is necessary.

Sec. 3. He shall report to the Chief Engineer once a month, or as often as circumstances may require, the condition of the horses, etc., under his charge, and shall also report all deaths of horses, and recommend the condemnation and disposal of horses which become unfitted for service in the Department.

Sec. 4. It shall be his duty, at least twice each month, to visit each company quarters and inspect the horses and the forage furnished, give advice and direction as to feeding, and to report to the Chief Engineer any willful neglect or any undergrade forage found.

Sec. 5. He shall keep an accurate, numerical and descriptive record of all horses in the Department, containing number, date of purchase, age, color, record of accidents, sickness and date of condemnation, death or transfer, together with such other information concerning the same as may be useful.

Sec. 6. He shall have the charge and direction of the hostlers assigned for duty at the stables, and shall prescribe their duties.

Sec. 7. When not otherwise engaged on Department business he shall always be in attendance at the Department stables.

Sec. 8. He shall have and assume charge of the stables and see that everything appertaining thereto is kept in proper order and condition.

Sec. 9. He shall perform such other duties as may be required or prescribed by the Commissioners or the Chief Engineer.

#### RULE 23—HOSTLERS.

They shall devote their entire time and attention to the stable work assigned them, and shall perform such duties as may be prescribed by the Chief Engineer or Superintendent of Horses.

#### RULE 24—HYDRANTMEN.

Section 1. Hydrantmen shall attend to all hydrants and cisterns in their respective districts, see that the same are in good condition and ready at all times for immediate use.

Sec. 2. They shall see that the hydrants are at all times kept free from obstructions of every character, so that access thereto may be readily had by the engines of the Department.

Sec. 3. They shall visit and inspect the cisterns in their respective districts once in each week, keep the same filled with water and see that they are in proper condition and ready for immediate use at all times. They shall report the condition of the several cisterns once in each week to the Battalion Chief of the district wherein said cisterns are located, but if for any reason a cistern becomes useless the fact shall be immediately reported to the proper Battalion Chief.

Sec. 4. They shall register in books provided for that purpose the exact location of all hydrant gates in their respective districts and shall see that said gates are conspicuously exposed and not covered over or hidden in any way by pavement, bitumen or other material or substance used for street purposes.

Sec. 5. They shall perform such other duties as may be required of them by the Commissioners or Chief Engineer.

#### RULE 25—WATCHMEN.

Section 1. Night watchmen shall be in attendance daily at the Corporation Yard of the Department to which they may be assigned for duty from 6 o'clock p. m. until 7 o'clock a. m. the following morning, and shall carefully guard and protect the property intrusted to their care.

Sec. 2. They shall perform such other duties as may be required of them by the Superintendent of Engines.

#### RULE 26—CARE AND USE OF HOSE, APPARATUS, HORSES, HARNESS, IMPLEMENTS, ETC.

##### HORSES.

Section 1. All horses of the Department must be watered at 5 o'clock a. m. and fed at 6 o'clock a. m. with the regular allowance of cooked grain; the allowance of grain will be set aside by the driver, and the assistant house watchman will, about 1 o'clock each morning, pour boiling water over the same in a bucket provided for that purpose, and then fix the cover on tight so as to prevent the escape of the heat or steam therein. On feeding said allowance another allowance shall be immediately prepared. At 11 o'clock a. m. the horses

shall be watered and given a small quantity of hay, and at about 12 o'clock m. fed the regular allowance of prepared grain. At 6 o'clock p. m. water and bed the horses, give them their allowance of hay, then give a few carrots, or other feed which may be ordered by the Superintendent of Horses.

Sec. 2. All horses shall be exercised daily for one hour, unless a run was had after 1 o'clock a. m. In wet weather exercising shall be done, if possible, between showers.

Sec. 3. In good weather, during the spring and summer months, the horses shall be permitted to stand outside the houses from 9:45 to 11 a. m.

Sec. 4. In case of sickness or injury to any horse, it shall be the duty of Captains to promptly report the same to the Superintendent of Horses, and he shall see that measures are taken for the relief of such horse.

Sec. 5. Any horse which neglects to eat or shows any signs of being sick or lame, and any horse loosing a shoe, will be immediately reported to the Superintendent of Horses, and a relief horse shall be provided.

Sec. 6. Teasing or annoying horses or teaching them any tricks, or unnecessarily or severely punishing them, is prohibited.

Sec. 7. No gas or electric light shall be placed or kept directly in front of a horse's eyes.

Sec. 8. Muzzles are strictly prohibited on horses between the hours of 6 p. m. and 6 a. m., except while standing on the street.

Sec. 9. On cold or stormy nights, when it is necessary to remain at a fire for a long time, the drivers shall blanket their horses well, and exercise them every half hour for ten minutes. If possible put them in some sheltered place.

Sec. 10. A horse shall never be given water or grain while he is hot after a run, except that his mouth and nostrils shall be sponged out with cold water and he shall be given two of three swallows only. Sweat shall be wiped from around the eyes and under the tail with a damp sponge.

Sec. 11. Horses shall be blanketed when standing in the open air.

Sec. 12. If a horse be under medical treatment, the driver shall be careful to follow the instruction of the Veterinary Surgeon in administering the medicines and otherwise attending to the horse. If a driver lays off while attending a sick horse, he shall instruct his substitute as to how the horse is to be attended to.

Sec. 13. After returning from exercise or an alarm, horses' feet (not legs) shall be washed out and examined for nails, loose shoes, etc., then rubbed down and if warm, blanketed (in houses that have no heater). The back door shall be kept shut and draughts avoided as much as possible.

Sec. 14. In cold weather the chill shall be taken off drinking water, or only a small quantity of cold water shall be given at one time. You are directed to see that this rule is strictly observed by all members or employees of the Department having the care or charge of horses, and any neglect or failure on their part to comply therewith will be brought to the attention of the Board of Fire Commissioners.

Sec. 15. A bucket shall not be used to catch the horses urine in. If a horse is straining to urinate and afraid to do so, straw shall be shaken under him, which will encourage him to pass it. The stall shall be rinsed out or washed down immediately. Manure shall also be removed immediately.

Sec. 16. The mane and tail shall be washed once a week with soap and warm water, weather permitting, and the sheath once every two weeks.

Sec. 17. Horses predisposed to scour shall get small quantities of water often, instead of a large drink at one time.

Sec. 18. Grey or white horses stained on quarters, etc., may have spots sponged off with warm water and soap, but must be thoroughly dried with a "rubber" immediately. White legs may be treated likewise when necessary; otherwise the legs shall never be washed, except by order of the Superintendent of Horses.

Sec. 19. Rain, sweat and mud shall be removed immediately on getting into the house; first with scraper and afterwards with a wad of straw or sack, care being taken to dry out the hollow of the heels thoroughly; what is left can be washed or brushed off when dry; use no water to remove it. Washing horses is prohibited.

Sec. 20. The feet shall be stuffed every other night in dry weather.

Sec. 21. Musty or overdried hay, or musty food of any kind shall be rejected, as it is injurious to the horse's wind.

Sec. 22. Clipping horses shall be done under the directions of the Superintendent of Horses, but the mane and legs shall be clipped clean at all times.

Sec. 23. Bedding shall be removed for ventilation from the house in dry weather where it is convenient to do so.

Sec. 24. Drivers are strictly prohibited from using a twitch or other like appliance upon the horses while clipping the legs, cutting the manes, washing tails, etc. If a horse cannot be handled without the use of said appliances, the driver shall notify the Superintendent of Horses.

#### HARNESS.

Sec. 25. No hot or warm water shall be used in cleansing harness.

Sec. 26. The use of emery cloth in polishing the points and bells of Hale or Berry hames is strictly prohibited. Nothing but oil shall be used.

#### APPARATUS.

Sec. 27. No alterations shall be made in trace or pole chains other than necessary adjustments.

Sec. 28. The use of water in and around the furnace of fire engines for removing sparks or other evidence of fire is prohibited. A dry broom shall only be used for said purpose.

Sec. 29. On returning from a run, the apparatus will be left outside of the house, the horses blanketed, and the running gear thoroughly washed with small hose. Companies having a yard may wash their apparatus therein.

#### HOSE.

Sec. 30. Cotton hose shall not be allowed to remain on the wagon more than twenty-four hours in a wet or damp condition unless unavoidable. The hose shall be changed every fifteen days unless the same has been in actual service during said time, and when said change is made, a note thereof shall be entered in the company journal.

Sec. 31. Cotton hose, after being used at a fire, and when returned to quarters, if only wet or damp, shall be immediately hung up in the tower. If any hose is in a dirty condition from mud, etc., it shall be thoroughly cleaned, with a broom and water if necessary.

Sec. 32. When changing hose, before it is taken from the wagon or reel, there must be lowered down from the tower all the hose that is to be put on, and the lengths coupled together, care being taken to see that the couplings and swivels are in perfect order and that all have proper washers. A small quantity

of tallow or oil should be used on the threads or swivels, but not enough to run on the fabric or rubber, as grease will injure either. What hose is necessary can then be removed from the wagon or reel and the dry hose placed thereon; the wet hose then hoisted in the hose tower. If any of the lengths of hose are injured, they shall not be rolled up and set aside, but must be marked and hung up until called for by the supply wagon.

Sec. 33. Hose covers shall not be folded. The inner or go-between cover shall be rolled and stored under the seat; the outer cover of hose wagons and carriages, when not in use, shall be hung at full length or width in a dry place, and not creased in any manner.

#### RULE 27.—RULES GOVERNING MEMBERS ON SICK LEAVE.

Section 1. When a member of the Department becomes sick or disabled to such an extent as to render him unable and unfit to properly perform his required duties in the Department, he shall report the fact, or cause the same to be promptly reported to the Captain of the Company to which he may belong or to which he may at that time be assigned for duty.

Sec. 2. The Captain or officer receiving such report shall immediately notify his Battalion Chief, who shall promptly investigate the case, and if he deem it necessary, grant the member a leave of absence on account of sickness, and as soon thereafter as possible notify the Department physician and surgeon thereof, giving him the exact location at which such member may reside or can be found.

Sec. 3. He shall also visit such sick member within twenty-four hours after the granting of the leave of absence; provided, the member resides or is located in his Battalion District during his sickness, and submit a report in writing thereof to the Chief Engineer. He shall continue to visit him once a week or oftener, if necessary, during his disability, and file a written report thereof, together with any other circumstances connected with his sickness that he may deem proper, with the Chief Engineer.

Sec. 4. Should the sick member reside or be located outside the boundaries of the district of the Battalion Chief, such Battalion Chief shall, immediately after granting him the leave of absence, notify the Battalion Chief of the district in which the member may reside or be found of the fact, and the Battalion Chief so notified shall then proceed to carry out the requirements of Section 3.

Sec. 5. The Department Physician and Surgeon shall, within twenty-four hours after notification by the Battalion Chief, visit and examine each and every thus reported sick member, and shall continue to visit them at least once a week thereafter during the continuation of their sickness, and he shall also report in writing once a week to the Board of Fire Commissioners the names of all such members visited, with the nature of their illness or disability and condition of the same, and also any circumstances or irregularities that may come under his observation in connection therewith.

Sec. 6. All members of the Department that may be granted leaves of absence on account of sickness or disability must file with the Board of Fire Commissioners weekly a certificate from a regularly certificated physician clearly specifying the character and nature of such sickness or disability, and all such certificates must be submitted to the Department Physician and Surgeon to be countersigned before filing the same with the Board.

Sec. 7. Any member who becomes sick or incapacitated from the performance of his required duties in the Department through intemperance, vicious habits, immoral or unlawful acts, or through the reckless negligence of his

person or health, shall not be entitled to any salary or compensation from this Department during such illness or disability.

Sec. 8. Any member whose sickness or disability does not necessarily confine him to his residence or a hospital, shall report to the Department Physician and Surgeon in person at his office, once a week, or oftener, if directed by him, on the regular visiting days that he may name.

Sec. 9. Members off duty on sick leave shall not be permitted to leave the City without having first obtained the consent of the Board of Fire Commissioners to so do, and when thus absent from the City must file a physician's certificate, as required by Section 6.

Sec. 10. No member of the Department will be allowed salary during any sickness or disability contracted or incurred while said member is off duty on leave-of-absence that may be granted or allowed without pay by the Board of Fire Commissioners or any authorized officer of the Department.

Sec. 11. No member of the Department off duty on leave-of-absence granted on account of sickness or disability shall be absent from his residence after eight o'clock p. m.

Sec. 12. Captains or other officers in charge of companies, shall immediately notify the Department Physician and Surgeon whenever members who have been absent from duty on sick leave report back to their Companies for duty.

Sec. 13. Any member of the Department violating any of the above rules or failing to strictly conform thereto while on leave-of-absence for sickness or disability shall not be allowed salary for the time absent from duty on said leave.

Sec. 14. Any member of the Department who willfully misrepresents himself to be sick or injured and unfit to properly perform his required duties in the Department shall, after a trial, be dismissed therefrom without the alternative of a fine.

#### GENERAL RULES.

1. All officers and members of the Department shall devote their entire time and attention to the services of the Department, and shall not engage in any other business or calling.

2. No political, social or other organization shall be formed or maintained in the houses of the Department, and no meetings of any character, other than regular company meetings, will be permitted therein; and no officer, member or employee of the Department shall take any part whatever in any political conventions, canvass or campaigns, except to vote, and no interference in the free exercise of this right by every member of the Department will be tolerated. Any violation of this rule will be deemed sufficient cause for dismissal from the Department.

3. The officers and members of the Department are prohibited from forming and maintaining, exclusively amongst themselves, any society, company or organization supported by assessments upon or contributions from the members or employees of the Department, without having first obtained permission from the Board of Fire Commissioners to so do.

4. Officers shall be just, dignified and firm in their intercourse with subordinates, and shall abstain from using violent, abusive or immoderate language in giving orders and directions, as well as when in conversation with them.

5. Officers and members shall at all times conduct themselves in a gentlemanly manner and refrain from using obscene, immoral, disrespectful, impudent or improper language.

6. Members of the Department shall not enter saloons or places where liquor is sold while wearing their uniforms or while on duty, except in the legitimate discharge of their duty.

7. No intoxicating beverages shall be brought into, kept or drunk in or about any of the houses or premises of the Department, and any member or employee, who, while on duty, or while in uniform, or when about the premises of the Department, becomes intoxicated, or who absents himself from duty because of drink shall be subject to dismissal, or such other penalty as the Board of Fire Commissioners, after trial, may impose.

8. Smoking, while on the apparatus or vehicles of the Department, is at all times prohibited.

9. Gambling of all kinds is strictly prohibited in or about the houses of the Department.

10. Congregating on the sidewalk in front of or adjacent to company houses is also prohibited.

11. Members of companies are prohibited from using the telephones in service therein without having first obtained permission to so do from their superior officers, and then only for as brief a period as possible, and no person or persons, other than public officials, shall be allowed to use the same, after permission has been granted by the officer in charge of the company, and then only on official business connected with their respective departments. Whenever the Captain or Lieutenant of a company is not upon the apparatus floor and in close proximity to the telephone, any other member of the company who can conveniently do so shall answer any calls that may come in thereon. After taking the receiver from the hook the member so answering shall immediately give the number of the company. In cases where more than one company are stationed in the same quarters the number of the engine company shall be given first, then followed by the number of the truck or chemical company, as the case may be. Where truck and chemical companies are quartered together the number of the truck company shall be given preference, followed by the number of the chemical or water tower company, as the case may be. The officer in charge of the company shall be held strictly responsible for the observance of this rule.

12. No member or employee shall sell or assign or discount his salary warrant or demand on the Treasurer; nor shall any member or employee endorse or guarantee, in writing, the note, assignment, or other instrument of like nature of any other member of the Department.

13. All members and employees of the Department shall promptly pay their just and lawful debts, contracted or incurred while in the service. Failure to do so will be considered cause for suspension or dismissal.

14. No officer, member or employee shall at any time be guilty of any act or omission which impedes, injures or hinders, or tends to impede, injure or hinder, the progress, welfare, discipline, efficiency or good name of this Department.

15. Members of the Department, as a mark of respect, shall rise and salute Commissioners and ranking officers of the Department, or any other public officers visiting their quarters. When a ranking officer visits the quarters of a company, all members thereof that may be outside of the house or on the street in the vicinity thereof shall immediately return to quarters.

16. The members of the Department shall at all times address their superior officers by their proper titles, and in all cases use the word without any abbreviation whatever. The Chief Engineer, Assistant Chief Engineers and Battalion Chiefs, when addressed verbally by any member of the Department

shall be addressed as "Chief," but when addressed in writing the full title of the officer shall be used.

17. Every member of the uniformed force shall provide himself with the regulation uniform within thirty days after his appointment, but such uniform must not be worn on duty until it has been inspected and approved by the Battalion Chief. It shall be the duty of said members of the Department to wear the prescribed uniform at all times, except from the time of retiring until 10 o'clock a. m. All members of the Department, while at a fire, shall wear their official badge in a conspicuous place on the left breast of their coat or outer garment, and shall wear their regulation fire hat.

18. Members of the Department shall conduct themselves quietly at fires; shouting or boisterous conduct will not be permitted. Water will be turned on by order of a commanding officer and not otherwise. Members who are on the pipe leading into a fire above the ground floor will shut the nozzle off immediately upon connecting the same to the hose.

19. No exchange of badges will be permitted except when it becomes necessary in cases of promotion or transfer; nor shall the same be loaned to any person, or used for any but the legitimate purposes of the Department.

20. No officer, member or employee shall ride or attempt to ride on any street car on his official badge or uniform and without paying his fare, unless such privilege has been accorded the members by the railroad companies, and then only under such conditions as may be imposed by the said companies.

21. Members of the Department, when resigning, or upon dismissal or suspension, shall immediately surrender to the commanding officer of their company their official badge, cap insignia, and all other property of the Department that may be in their possession.

22. Members of companies shall sleep in their company houses when on duty, and while so sleeping shall not be unnecessarily disturbed.

23. Members of companies, while on duty, shall not leave their respective company quarters after ten o'clock p. m. without first having obtained permission to do so from the officer in charge of the company.

24. The hours for meals in the various companies shall be designated by the Captain, every man being entitled to one hour for each meal when three meals are taken outside of quarters during the day, or one and one quarter hours for each meal when only two meals are taken outside of quarters; provided that the total time for all men of the company at each meal shall not be more than three and one-half hours. The number of men absent at meals at one time shall be in accordance with these hours, taking into consideration the number of men in the company.

25. Members of Companies shall not go beyond the limits of their respective company districts for their meals when on duty, and while absent at meals they shall immediately respond to all alarms of fire to which their respective companies respond, either for service or for the purpose of covering-in to other quarters. Nor shall they go beyond the limits of their said company districts for any other purpose while on duty without first obtaining permission to do so from the Battalion Chief in charge of their respective companies.

26. Members shall procure at their own expense tappers to be placed in their respective eating places.

27. Members of companies shall notify their Captains of the address of their eating place and residence and of any change therein, and said officer shall keep a record of these particulars concerning every man under his charge.

28. All uniformed members of the Department, when appearing before the Board of Fire Commissioners for trial or otherwise, shall so appear in the full regulation uniform of the Department.

29. No visitors shall be allowed in the houses of the Department after 10 o'clock p. m. without permission of the Captain.

30. No member of the Department shall receive any reward or present of any kind for services rendered in the discharge of his duties, without permission of the Board of Fire Commissioners, and no member shall give or contribute toward the giving of any present or thing of value to any member or officer of superior rank without having first obtained such permission.

31. No officer or member of the Fire Department shall wantonly or maliciously make any false report of any other member, nor fail to report any real violation of the rules, etc.

32. Department property shall not be loaned, sold or given away, but shall be carefully protected from waste and abuse.

33. The various companies of the Department shall have and attend such drills as their superior officers may prescribe and the members thereof shall attend such practice drills at the Drill Towers as the Chief Engineer or Drill Masters direct, and all the required duties of such drills shall be properly and efficiently performed.

34. No officer or member of any company shall be absent from his company quarters while on duty, without permission, except at meal hours, unless by order of the Chief Engineer.

35. Officers and members shall report back to quarters promptly at the expiration of meal hours, leaves of absence, etc.

36. All assignments of officers and of companies for answering alarms and attending fires and the movements of companies in covering-in, shall be made under the direction of the Chief Engineer.

37. No work or labor not absolutely necessary shall be performed on Sundays.

38. All members of companies (Drivers and Engineers excepted) shall wear the regulation fire hat while going to and returning from alarms of fire and while working thereat.

39. Officers and members of the Department shall be governed by the rules and regulations, as set forth in the Assignment Book, in responding to alarms of fire, and a strict observance of said rules is required of them.

40. The First Assistant Chief Engineer, Second Assistant Chief Engineer and Battalion Chiefs may suspend any subordinate officer, member or employee of the Department for a violation of any of the rules of the Department, and shall forthwith report in writing such suspension, with the reasons therefor, to the Chief Engineer.

41. All officers, members and employees of the Department shall perform all their required duties therein in a prompt, proper and energetic manner, and continued failure or neglect to so do will be considered as incompetency by the Board of Fire Commissioners.

42. No officer, member or employee shall neglect or refuse to perform any duty or to obey any order of a superior officer, pertaining to matters of the Department.

43. Officers shall call the attention of all members present to any misconduct, occurrence, act or words which might become the subject of charges before the Commission.

44. It shall be the duty of all members or employees of the Department to take notice of any conduct or action of any member or employee therein which they are in a position to see or any language which they may hear, and which may be prejudicial to the good and welfare of the Department, and said

members shall ascertain the true facts and conditions in every case to which their attention may be called, for the purpose of acting as witnesses.

45. False swearing or willfully withholding the truth on the part of members while acting as witnesses in the trial of charges before the Commission will be made the ground for charges and be punished as the Commission may determine.

46. The duties imposed upon members of the Department shall also apply to Substitutes when on duty, and a strict observance of the rules and regulations of the Department will be required of them.

47. Any officer, member or employee violating any of the foregoing rules and regulations of the Department, or any subsequent rules and regulations which may be adopted by the Board of Fire Commissioners, or any general or special orders or instructions of the Board of Fire Commissioners or Chief Engineer, or orders of any superior officer, shall, upon conviction, be punished by reprimand, fine, suspension or dismissal from the Department, as the Board of Fire Commissioners may determine.

#### INSIGNA OF RANK.

Chief Engineer.—Five trumpets, measuring one and three-sixteenths inches each, crossed with the bells outward, and projecting beyond mouthpieces, so as to form a design one and one-half inches in diameter, and all to be made of gilt metal and worn on the front of the cap.

First Assistant Chief Engineer.—Same as above, with the exception that there shall be but four trumpets.

Second Assistant Chief Engineer.—Same as above, with the exception that there shall be but three trumpets.

Battalion Chiefs.—Same as above, with the exception that there shall be but two trumpets.

Captains of Engine, Chemical Engine and Water Tower Companies.—Two trumpets, one and three-sixteenths inches long; made of white metal; trumpets placed perpendicularly, bells downward; letter and number designating company on same. To be worn in the center of cap front.

Lieutenants of Engine, Chemical Engine and Water Tower Companies.—Same as above, with the exception that there shall be but one trumpet, placed horizontally.

Captains of Truck Companies.—Two axes, one and three-sixteenths inches long; made of white metal; axes to be placed diagonally above; letter and number designating company on same. To be worn in center of cap front.

Lieutenants of Truck Companies.—Same as above, with the exception that there shall be but one axe, placed horizontally.

Engineers, Drivers, Stokers, Tillermen, Truckmen and Hosemen.—White metal Maltese cross badge, one and five-eighths inches each way, with the Department number of the wearer in figures three-eighths of an inch long. To be worn in the center of the cap front.

#### REGULATION UNIFORM, SAN FRANCISCO FIRE DEPARTMENT.

##### CHIEF ENGINEER.

COAT to be double-breasted, square cut; to button to the neck, with rolling collar, made to be worn open or closed; seam in back; raw edge,  $\frac{1}{2}$  inch double stitched, two lower, one upper pockets with scalloped flaps  $3\frac{1}{2}$  inches deep at points; two inside, cut crosswise; two rows of buttons, eight in each

row, to be placed in pairs. Sleeves to be stitched to a point from  $3\frac{1}{2}$  to 6 inches; four buttons on sleeve. Buttons to be gilt and set in with rings. Length to be to the middle of first finger. Lining to be of heavy Italian cloth and striped sateen sleeve lining.

VEST—Single-breasted; no collar; raw edge; double-stitched one-half edge; four pockets outside, none inside. The pockets to have scalloped flaps  $2\frac{1}{4}$  inches deep at points,  $1\frac{1}{4}$  inches between points. Vest to be opened no more than fourteen inches from center to back and closed with six gilt buttons.

TROUSERS—Two top, two hip and one fob or watch pocket; sewed down lap seam three-eighths of an inch; width of trousers to be one inch smaller at bottom than at knee.

SHIRT—Linen or muslin, with standing collar.

CRAVAT—A narrow necktie or bow of black silk, not less than three-quarters of an inch in width, tied in a flat knot in front, the end to extend not more than three inches from the knot.

#### FIRST AND SECOND ASSISTANT CHIEF ENGINEERS AND BATTALION CHIEFS.

COAT.—To be double-breasted, square cut; to button to neck; raw edge,  $\frac{3}{8}$ -inch double-stitched; two lower and one upper pocket, with scalloped flaps  $3\frac{1}{2}$  inches deep at point; two inside pockets; two rows of buttons, six in each row; sleeve to be stitched to a point from  $3\frac{1}{2}$  to 6 inches; four buttons on each sleeve; open cuffs; lengths to middle of first finger; collar two inches all around; flaps to be sewed on outside of coat.

#### CAPTAINS AND LIEUTENANTS OF COMPANIES AND OPERATORS.

Same as above, with the exception that there shall be two rows of buttons, five in each row, placed equi-distant to within  $8\frac{1}{2}$  inches of bottom of coat. Buttons to be of white metal; no outside pockets; three buttons on each sleeve; coat to be made to be worn buttoned up.

VEST same as specified for officers, with the exception that the two upper pockets are finished with welts one inch deep.

SHIRTS same as specified below.

#### ENGINEERS, DRIVERS, STOKERS, HOSEMEN, TILLERMEN AND TRUCKMEN.

COAT to be single-breasted, square cut, buttoned close to neck, with six buttons; to be finished raw edges, double-stitched one-half inch, plain seams, also seam down center of back. Prussian collar, turned down  $2\frac{1}{2}$  inches deep in center of back,  $2\frac{3}{8}$  inches deep at points in front; no pockets outside, two inside cross-ways. Sleeves to be stitched to a point  $3\frac{1}{2}$  inches from edge up to 5 inches, double-stitched; three buttons, facing inside, raw edged and single-stitched. Buttons to be of white metal. The length of coat to be the middle knuckle of first finger.

TROUSERS same as specified for officers.

VEST same as specified for officers, with the exception that the two upper pockets are finished with welts one inch deep. All buttons on coat and vest to be fastened in with rings.

SHIRTS blue flannel, collar  $4\frac{1}{2}$  inches deep at points,  $2\frac{1}{2}$  inches at back when finished; three rows of stitching. Collar band three-quarter inch at front and  $1\frac{1}{2}$  inches at back. Breast-piece 13 inches long,  $2\frac{1}{2}$  inches wide, open

11½ inches; three rows of stitching; four buttons and button-holes. Yoke two points, three rows of stitching. Body and sleeves double-stitched. Cuffs open five inches; long points 7½ inches; short points 5½ inches. Two button-holes, three buttons, three rows of stitching. Silk to be used in all top stitching and buttonholes. Buttons to be first grade white pearl; four holes; twenty-four line. Buttonholes to be hand-made.

#### CAPS.

Chief Engineer—Twenty-ounce blue cloth, bell crown, 3¾ inches high, 2-inch drooping visor, lustrous black mohair braid, ½-inch gold lace band around cap, ½-inch gold strap from button to button, one gilt button on each side of cap. Inside band of cap to be solid leather, lining to be of genuine hair cloth, covered with satin, sweatband to be dark Japan leather, 2 inches wide, two japanned metal eyelets on each side of cap for ventilation.

First and Second Assistant Chief Engineers—Same as above, with the exception that gold lace band around cap be ¼-inch wide.

Battalion Chiefs—Same as above, with the exception that there shall be no gold lace band around entire cap, plain black mohair braid around cap, ½-inch gold strap in front.

Captains of Companies—Same as above, with the exception that there shall be only plain black mohair braid around cap and ½-inch silver strap in front, with silver buttons.

Lieutenants and Operators—Same as above, with plain black mohair braid around cap, ½-inch black leather strap in front, with two silver buttons.

Engineers, Drivers, Stokers, Hosemen, Tillermen, Truckmen, Pilots and Firemen of Fire Boats—Cap to be same as above, with the exception that visor to be straight instead of drooping, and no mohair braid around cap, ½-inch black leather strap in front, with silver buttons.

All insignia of office and cap devices shall be placed half way between the top of cap and the row of stitching at the upper edge of cap band.

Rain covers required for each cap to be made of rubber gossamer to fit the cap.

#### REGULATION FIRE HELMET

Chief Engineer.—White leather hat with twelve cones, having a gilded leather front, depending from a gilt-edge head, and attached to the front of the helmet, with the insignia of his rank and the words "Chief Engineer" painted upon it upon a scroll of gold.

First Assistant Chief Engineer.—Same as above, with the words "First Assistant Chief" thereon.

Second Assistant Chief Engineer.—Same as above, with the words "Second Assistant Chief" thereon.

Battalion Chiefs.—Same as above, with the words "Battalion Chief" and number of Battalion District designated thereon.

Captains of Engine Companies.—Black leather hats, with eight cones, with number of company and rank of office on white leather front.

Lieutenants of Engine Companies.—Same as above.

Hosemen.—Black leather hats, with eight cones, and name of company on black front.

Truck Companies.—Red and white leather hats, with eight cones.

Chiefs' Operators—Black leather hats, with eight cones, white letters on red background, with word "Operator" and number of battalion or rank of Chief thereon.

# REPORT

## OF THE

# Board of Fire Pension Fund Commissioners

San Francisco, July 23, 1912.

To the Honorable James Rolph, Jr.,  
Mayor of the City and County of San Francisco.

Sir:—In compliance with Article XVI, Section 9 of the Charter of the City and County of San Francisco, the Board of Fire Pension Fund Commissioners herewith present and submit their report for the fiscal year ending June 30th, 1912:

### ORGANIZATION.

The Board of Fire Pension Fund Commissioners, as now constituted, consist of four members and a secretary, viz.:

H. U. BRANDENSTEIN .....	Term expires January 8, 1916
JAMES E. DILLON .....	Term expires January 8, 1915
EUGENE E. PFAEFFLE .....	Term expires January 8, 1914
JOHN DONOHOE .....	Term expires January 8, 1913
H. L. KEEFE .....	Secretary

During the year the following named members of the Fire Department were pensioned under the provisions of Article 9, Chapter 7, Section 4 of the Charter, namely:

Michael H. O'Neill, Hoseman Engine Co. No. 37, injured while in the discharge of duty. Pensioned July 3rd, 1911, effective from July 1st, 1911.

William S. Casebolt, Engineer Engine Company No. 32, injured while in the discharge of duty. Pensioned July 13th, 1911, effective July 16th, 1911.

Albert Henrikson, Hoseman Truck Company No. 4, injured while in the discharge of duty. Pensioned March 7th, 1912, effective from March 1st, 1912.

During the year the following members of the Fire Department were retired under the provisions of the Charter, Section 3, Chapter 7, Article 9, namely:

Cornelius Connell, Driver Engine Company No. 39, who had been a member of the Fire Department for more than twenty-five years. Pensioned July 3rd, 1911, effective August 1, 1911.

John Pendergast, Lieutenant Engine Company No. 13, who had been a member of the Fire Department for more than twenty-five years. Pensioned April 1st, 1912, effective April 2nd, 1912.

Nicholas Barbetta, Driver Monitor Battery No. 2, who had been a member of the Fire Department for more than twenty-five years. Pensioned April 19th, 1912, effective May 1st, 1912.

During the year the following widows or deceased firemen who were killed in the discharge of duty, or who received injuries from which they died, were pensioned under the provisions of the Charter, Section 5, Chapter 7, Article 9, namely:

Ann Riley, widow of James Riley, Hoseman Engine Company No. 25. Pensioned August 10th, 1911, effective from August 1st, 1911.

Hannah Wilkinson, widow of John Wilkinson, Hose Company No. 3. Pensioned July 27th, 1911, effective August 1st, 1911.

Catherine T. Baker, widow of Frederick Joseph Baker, Driver Engine Company No. 41. Pensioned April 9th, 1912, effective from September 4th, 1910, the date of the death of Mr. Baker.

Teresa Ahearn, widow of Thomas Ahearn, Hoseman Engine Company No. 35. Pensioned April 12th, effective from March 18th, 1912, the date of death of said Thomas Ahearn.

Jessie Raffestin, widow of Etienne Raffestin, Hoseman Engine Company No. 19. Pensioned June 13th, 1912, effective from January 6th, 1912, the date of death of said Etienne Raffestin.

Minnie Miskel, widow of William F. Miskel, Captain of Engine Company No. 4. Pensioned June 26th, 1912, effective from May 4th, 1912, the date of death of said Captain Miskel.

Anna Buckley, widow of James Buckley, Stoker Engine Company No. 15. Pensioned June 26th, 1912, effective from June 1st, 1911, the date of death of said James Buckley.

## LIST OF PENSIONERS, JUNE 30, 1911, TO JUNE 30, 1912.

NAME.	Pension Effective.	Amount per Quarter.
Bell, Charles	February 14, 1892	\$135.00
O'Neil, John	April 23, 1892	135.00
Fleming, P. H.	October 29, 1892	210.00
Finn, D. A.	January 14, 1893	135.00
Robinet, H. J.	July 28, 1894	135.00
McCue, Hugh	February 2, 1895	135.00
Cunningham, William	April 13, 1896	210.00
Lawrence, B. B.	February 4, 1897	135.00
O'Neill, Edward	June 6, 1897	135.00
Clements, John	August 27, 1897	135.00
Grady, James	December 16, 1897	135.00
O'Sullivan, Edward	September 14, 1899	135.00
Murphy, John J.	November 9, 1899	210.00
Desmond, Felix P.	November 16, 1899	135.00
Sweeny, Mrs. Jennie	July 1, 1900	120.00
Crummy, John T.	November 1, 1900	120.00
Wolf, Joseph	January 10, 1901	120.00
Barry, Patrick	April 1, 1901	150.00
McGibbon, James A.	March 6, 1903	150.00
Mahoney, John J.	June 1, 1902	180.00
Nagle, Mrs. Eliza J.	September 1, 1902	150.00
Heffernan, Mrs. Marion	October 1, 1902	150.00
Cumisky, James	November 1, 1902	150.00
Canty, Patrick	April 1, 1903	150.00
Browne, Robert T.	April 1, 1903	180.00
Bearwald, Mrs. Ray	June 1, 1903	150.00
Holmes, Mrs. Mary	December 1, 1903	180.00
Casserly, Thomas E.	June 1, 1904	150.00
Sawyer, Robert H.	June 1, 1904	180.00
Harrington, Mrs. Emma	October 1, 1904	150.00
Dougherty, Mrs. Sarah	October 1, 1904	168.75
Allen, John	January 1, 1906	150.00
Ewing, George	January 1, 1906	180.00
Sullivan, Mrs. Jennie	February 1, 1906	150.00
Dakin, Mrs. Francis	February 1, 1906	180.00
Hennessy, Mrs. Nellie	February 1, 1906	150.00
Reilly, J. W.	April 30, 1906	225.00
Kenny, John	April 30, 1906	180.00
O'Neill, Mrs. Mary	May 11, 1906	135.00
Sullivan, Mrs. Margaret	May 18, 1906	499.95
Smith, Mrs. Nora	September 7, 1906	135.00
Lennon, Edward P.	November 1, 1906	150.00
Woods, Gabriel	December 1, 1906	150.00
Harrison, David	January 1, 1907	180.00
Stevens, Joseph	January 16, 1907	150.00
Boyson, George M.	March 1, 1907	150.00
O'Brien, Maurice J.	July 1, 1907	150.00
Fernandez, T. M.	July 1, 1907	262.50
Barry, Thomas	July 1, 1907	150.00
Canty, Thomas	July 1, 1908	232.50
Carew, George	August 16, 1908	180.00
Wells, George F.	July 16, 1908	180.00
Franks, Mrs. Nellie	August 1, 1908	150.00
Balk, Stephen S.	November 1, 1908	180.00
Kelly, William E.	December 1, 1908	232.50
Donnelly, Bernard	January 1, 1909	180.00
Lyons, Mrs. Teresa	March 5, 1909	180.00
Schmidt, Henry	April 16, 1909	232.50
Mary I. Garety†	July 1, 1909	180.00
Ford, John J.	July 1, 1909	180.00
Cuneo, Rinaldo	July 1, 1909	180.00
Crosby, John	October 16, 1909	180.00
Ryan, Michael	October 16, 1909	180.00
Schill, Alfred	November 1, 1909	150.00
Waters, William D.	January 16, 1910	337.50
Stroud, Mrs. Mary A.	December 1, 1907	150.00

\* Guardian for Ethel, George, Annie, Evelyn, Frank, William, Irving and Robert Johnson, Minors.

## FIRE COMMISSIONERS

LIST OF PENSIONERS, JUNE 30, 1910 TO JUNE 30, 1911.—Cont'd.

Fourth Quarter ending June 30, 1912.....	20,731.24	
Salary of Secretary, printing, stationery, etc., July 1, 1911 to June 30, 1912.....	600.00	72,166.31
		<hr/>
Surplus .....		\$ 333.69

Respectfully submitted,

BOARD OF FIRE PENSION FUND COMMISSIONERS.

By H. L. KEEFE, Secretary.

# City Attorney's Report

San Francisco, Cal., August 1, 1912.

Hon. James Rolph Jr.,  
Mayor of the City and County of San Francisco.

Sir: In compliance with the requirements of Section 9, Article XVI of the Charter of the City and County of San Francisco, I have the honor to submit the following as my report as City Attorney for the fiscal year, 1911-1912:

## ADVICE TO AND CONFERENCES WITH BOARDS AND COMMISSIONS.

This office is constantly called into conference with the several boards and commissions of the City Government and committees of the Board of Supervisors upon legal matters involving the powers and duties of the several boards and commissions. This office always complies with requests for such conferences, and probably more time is given to these conferences than to any other particular work of the office. No record is kept of them, consequently the work and matters involved do not appear in this record.

## WATER LITIGATION.

### WATER RATES.

My annual report of 1908-1909 contained a detailed history of the litigation brought by the Spring Valley Water Works, and its successor, Spring Valley Water Company, against the City and County of San Francisco, enjoining the enforcement of ordinances covering water rates for the fiscal years 1903-1904 and 1908-1909, inclusive. My subsequent annual reports have shown the condition of the litigation between the Spring Valley Water Company and the City and County of San Francisco concerning water rates to the dates of said respective reports.

Since the submission of my last annual report, a decision has been rendered in the United States Circuit Court by Judge E. S. Farrington finally disposing of the first three cases brought by the Spring Valley Water Works, and its successor, the Spring Valley Water Company, which cases involved the ordinance rates for the years 1903-1904 and 1905-1906. This decision was rendered on October 21, 1911, and is reported in 192 Federal Reporter, page 137. As this is the first decision rendered upon final hearing in any of the cases involving the ordinances establishing water rates, and as it establishes many principles of law and questions of fact which are of permanent value in connection with the pending controversy between the City and the Spring Valley Water Company, and also in connection with any future litigation or negotiations with that company, it is my judgment that a copy of the same should be preserved in the municipal reports. I am therefore attaching a full copy of the opinion referred to, prefaced by a full index of the points decided in the decision, as an appendix to this report, and request that it be printed herewith.

Since the submission of my last report, another action has been commenced by the Spring Valley Water Company in the United States District Court for the Northern District of California, by which it is sought to restrain

the enforcement of the ordinance fixing water rates for the fiscal year 1912-1913. On July 8, 1912, the Honorable Board of Supervisors adopted a resolution instructing me to submit the motion for preliminary injunction in this last case upon the sole question of the lack of jurisdiction of the United States District Court to entertain such suit. In accordance with the authority of that resolution, the motion for preliminary injunction in this last case was submitted on July 15, 1912, and an order made that the preliminary injunction issue as prayed for. The Court held that the United States District Court had jurisdiction of the action. I immediately took steps to appeal from this decision to the United States Circuit Court of Appeals for the Ninth Circuit, and it is expected that the case will be heard in that Court on Appeal during the October term of 1912. It has been decided by the United States Circuit Court of Appeals in two cases, known respectively as the Seattle case and the United Railroads case, that in cases somewhat similar to these rate cases the Federal Court has no jurisdiction. The point involved upon this appeal is whether or not actions seeking to restrain the enforcement of ordinances establishing water rates are so similar to the cases above referred to that the same rule applies. The District Court held that the cases were different in character, and the rule established in the Seattle and United Railroad cases does not apply to a rate case.

#### ACQUISITION OF WATER SUPPLY.

Two actions are pending before the Superior Court of Tuolumne County in which the City and County of San Francisco is a party defendant. One is an action to quiet title to the waters flowing into the Tuolumne River immediately west of the westerly boundary line of the Yosemite National Park and to restrain the City and County from the use or diversion of said waters. This action is brought by the National Park Electric Power Company upon the claim that it has a right to the use of these waters superior to that of the City. The other action is brought by the same company against the Tuolumne Water Supply Company and the City and County to quiet title to the waters of the Cherry River and to restrain the defendants from using or diverting said waters. The same claim is made that the plaintiff has a superior right to the use of said waters.

The same company applied to the Forestry Service for a right of way along the southerly bank of the Tuolumne River from the westerly boundary of the Yosemite National Park. This application was finally denied by the Secretary of Agriculture, June 30, 1912, after a hearing held in Washington, D. C., at which this office opposed the application. Permission was given to amend, but only as to the south and middle forks. The National Power Company, as successor in interest to the National Park Electric Power Company, then attempted to avail itself of this permission by filing an amended application. This was rejected by the Forestry Service, on the ground that such right as the National Park Electric Power Company had was not assignable. Permission was given to the latter company to file an amended application in accordance with the decision of the Secretary of Agriculture, of June 30, 1912. This company has filed an application identical with that of the National Power Company, and to this, the City has filed a protest on the ground, among others, that whereas permission was given by the Secretary of Agriculture to apply for rights only on the south and middle forks of the Tuolumne, that nevertheless application filed takes in the main Tuolumne and Cherry River as well.

The City has filed very complete reports and data with the Advisory Board of Army Engineers, in the matter of the order to show cause pending before the Department of Interior, with reference to the Hetch Hetchy permit for San Francisco. These comprehensive reports have been filed with the Advisory Board by the City Engineer, and the several consulting engineers for the City, to meet the requirements of this order to show cause. The report last filed is

that of John R. Freeman, Consulting Engineer, showing the comprehensive plans of the City as to the proposed use and development of the Hetch Hetchy and Lake Eleanor valleys and water sheds. This was filed on July 15, 1912. On August 1, the City will file any remaining data necessary to complete its case. This office will on that date file a report on all outstanding water rights on the Tuolumne and Cherry Rivers and Eleanor Creek, with a statement as to how the City proposes to protect these adverse rights.

The objectors to the City's plans will then have an opportunity to present anything they may wish to offer. The City will then be given thirty days to reply, and the entire matter will be set for hearing in the city of Washington, D. C. probably some time during the month of November.

#### GAS RATE LITIGATION.

My last report contained an account of the settlement of the litigation theretofore pending between the San Francisco Gas & Electric Company and the Metropolitan Light & Power Company vs. the City and County of San Francisco to restrain the enforcement of ordinances affecting rates for lighting.

Since the submission of my last report the settlement therein referred to has been carried out and is now complete with the exception of the refund to a small portion of consumers whose addresses it has not yet been possible to ascertain.

The San Francisco Gas & Electric Company has protested against the ordinance recently adopted establishing lighting rates for the fiscal year 1912-1913, upon the ground that the rates so established are not adequate. This company has stated, however, in a communication to the Board of Supervisors that it does not propose to institute any suit to restrain the enforcement of that ordinance, but will await the result of the collection of rates thereunder before taking any further action.

#### TUNNEL ORDINANCES AND LITIGATION.

It is proposed to construct several tunnels to be used as public highways and for street railway purposes in the City and County of San Francisco, the most important of these being the Stockton Street Tunnel, the Fillmore Street Tunnel and the Twin Peaks Tunnel. It is intended to charge the cost of construction of these tunnels upon property benefitted thereby.

In the case of Gassner vs. McCarthy, it was held by the Supreme Court of this State that the charter provisions as they then stood, that is, prior to February 17, 1911, did not permit of the levying of the cost of the construction of tunnels upon private property. Subsequent to this case, the Charter was amended in two particulars. Chapter VIII was added to Article VI, and Section 33 was added to Chapter II of Article VI. Chapter VIII conferred upon the Board of Supervisors the power to construct tunnels and to levy the cost and expense thereof upon private property, subject to the proceedings, powers, restrictions and limitations of Chapter II of Article VI. Section 33 of Chapter II provides that the method of procedure in Article VI provided for the construction of tunnels, was not exclusive but that the Board of Supervisors may by ordinance substitute an ordinance, which may from time to time be revised or amended, providing a method of procedure for the construction of tunnels and the levying of assessments on private property, and also provides that in such ordinance the Board may make provisions for the payment of any assessment in annual installments covering a term not exceeding ten years.

Pursuant to Chapter VIII and Section 33 of Chapter II, the Board of Supervisors adopted Ordinance No. 1651, known as the Tunnel Ordinance. This office assisted and advised in the preparation of that ordinance, and gave a great deal of time and attention to it. The first use made of the ordinance was the

institution of proceedings for the construction of the Stockton Street Tunnel. Those proceedings formed the basis of an attack upon the ordinance in the case of *Mardis vs. McCarthy*. The Superior Court of this City and County decided that the ordinance was valid and the case was appealed to the Supreme Court. The Supreme Court sustained the ruling of the lower Court, thereby upholding the ordinance. This office defended the ordinance in both Courts. The particular point of attack made on the ordinance was that Section 33 of Chapter II of Article VI is unconstitutional in conferring upon the Board of Supervisors the power to substitute an ordinance providing the method of procedure for the construction of tunnels. The case is valuable for two reasons. First, it allows the Board of Supervisors to adopt a procedure for the construction of tunnels and the levying of assessments on private property. Secondly, it lays down a rule of law which is very valuable in the formation of charters. Heretofore, it has been deemed necessary to set out minutely in the Charter the exact procedure to be followed in improvement of streets and the opening, extending and widening of the same. The decision in *Mardis vs. McCarthy* shows that this is entirely unnecessary; that all that need be done in the Charter is to confer upon the Board of Supervisors the power to extend under or improve streets and the power to levy the cost and expense thereof upon private property, leaving to the Board of Supervisors the power to adopt any method of procedure that the Board may deem expedient or necessary for carrying into effect the powers conferred. In the matter of the construction of tunnels the expense is very great. The Stockton Street Tunnel is the least expensive of any of the tunnels contemplated, yet the cost of this tunnel will exceed six hundred thousand dollars. The cost of the Twin Peaks Tunnel, the greatest of the schemes, may run up to over five million dollars. I know of no case where an assessment was ever levied on private property for a public improvement anywhere near so large as the assessments contemplated for the construction of tunnels in San Francisco.

In sustaining Chapter VII, and Section 33 of Chapter II, Article VI, the way is open for adopting a procedure which will permit the construction of tunnels and the levying of assessments on private property for the cost thereof, without unduly burdening the property owners whose property is assessed. This is accomplished through the installment plan of paying assessments. This plan roughly is as follows: When the assessment is levied against private property, the owner of the property is permitted to sign an agreement with the City by which the owner agrees to pay his assessment in any number of installments up to ten provided for in the resolution fixing the assessment. Against these property owners' agreements certificates are issued when needed, which are similar to street improvement bonds, certifying that there is due to the bearer, or the holder of the certificate, a certain sum of money payable out of a fund to be created by the payment of these installments by the property owners. The certificates bear interest and are redeemed as soon as there is in the fund created by the payment of the installments, a sufficient amount to redeem them, they being redeemed in the order of their issuance.

Proceedings have also been begun by the Board of Supervisors for the construction of the Fillmore Street and the Twin Peaks Tunnels. This office assisted and passed upon all the proceedings in these tunnel matters.

In the Stockton Street Tunnel it is not necessary to acquire rights of way and property for the construction of the tunnels, but in the Fillmore and Twin Peaks Tunnels it is necessary. It is proposed to submit to the voters at the next charter election, further amendments to the tunnel provisions of the Charter, rendering more easy and less cumbersome the acquisition of property and rights of way when necessary for the construction of tunnels.

Owing to this great cost of tunnels, it has been necessary to adopt procedures not heretofore tried. It has required continual study to find a method which is both constitutional and feasible; consequently, the work has pro-

ceeded slowly, but the case of *Mardis vs. McCarthy* has pointed the way and unquestionably it will be possible to accomplish these highly important projects in the manner attempted. It is, however, very important that further changes and amendments be made in our Charter relating to the construction of tunnels, suggested by our past experience in working out the legal problems involved in these matters.

#### UNITED STATES CIRCUIT COURT OF APPEALS LITIGATION WITH THE UNITED RAILROADS OF SAN FRANCISCO.

On October 2, 1911, the United States Circuit Court of Appeals for the Ninth Circuit, rendered its decision in the case of the City and County of San Francisco vs. United Railroads No. 1922, in which decision it was held that the United States Circuit Court had no jurisdiction of the cause of action set forth in the bill of complaint in that action. The opinion referred to is reported in 190 Federal Reporter, page 507. Subsequent to the rendition of the above opinion, the United Railroads of San Francisco filed with the Supreme Court of the United States its petition for a writ of certiorari directed to the United States Circuit Court of Appeals, for a review of said decision. This latter petition was submitted to the United States Supreme Court upon briefs filed by the United Railroads of San Francisco and by my office on behalf of the City and County of San Francisco, and the petition was denied by the United States Supreme Court in June, 1912. Subsequent to the filing of this petition, the mandate from the United States Circuit Court of Appeals directed to the United States District Court for the Ninth Circuit, was filed in the latter Court, and the action was dismissed in accordance with the terms of said mandate.

#### CITY AND COUNTY OF SAN FRANCISCO VS. STATE BOARD OF CONTROL.

In 1909, proceedings were instituted under Chapter III of Article VI of the Charter, to lower the grade of Beale Street between Folsom and Bryant Streets. This change of grade on Beale Street was necessitated by the fact that Beale Street between Folsom and Bryant Streets rose at a very sharp grade. Beale Street is the principal thoroughfare connecting the northern portion of the wholesale district of San Francisco with the southern portion of the city, in which the Harbor Commissioners are constructing large and expensive docks, and the railroad companies have their principal warehouses and terminals.

The expense of this change of grade was assessed upon private property benefitted thereby. Among the property assessed, was a portion of "Seawall Lot No. 20" belonging to the State of California, and under the jurisdiction and control of the Harbor Commissioners. The assessment on this lot was Eleven Thousand Four Hundred Thirty-three and 82/100 (\$11,433.82) Dollars. The Board of Harbor Commissioners recognized the claim of the City for this assessment and drew a draft on the State Controller for the amount of the assessment. In due course, the draft came before the State Board of Control for the approval of that Board. Under an opinion from the Attorney General, the State Board of Control disallowed the claim of the City upon the ground that it was not constitutional for the City to assess state property for local improvements.

A suit was commenced by this office in the Superior Court of the City and County of San Francisco, praying that a writ of mandamus issue against the State Board of Control compelling that Board to audit and allow the claim of the City for the assessment. It is the contention of this office that vacant and unused property belonging to the State, and which is not devoted to a public or governmental use, and is not intended to be so devoted, is subject to an assessment for local improvements. The case is important, not only because

of the improvement of Beale Street, but also because of contemplated other improvements, the cost of which will be assessed against private property, and which improvements will benefit to a large extent the property under the jurisdiction and control of the State Board of Harbor Commissioners. A demurrer was filed by the Attorney General to the complaint for a writ of mandamus. Judge Seawell of Department 1 of the Superior Court of this City and County, overruled the demurrer of the Attorney General, thereby sustaining the contention of this office. An answer has been filed to the complaint, raising an issue of fact as to the physical condition of "Seawall Lot No. 20." It is asserted by the Attorney General that "Seawall Lot No. 20" is a part of San Francisco Harbor, and that therefore under the rule that tide lands of the State cannot be alienated, but are forever devoted to public use, the property is not vacant and unused property, but is subject to those rights of the public existing in tide lands. Upon the demurrer this same point was raised by the Attorney General. This office took the position that "Seawall Lot No. 20" was no longer tide lands, but by the action of the legislature in creating and establishing a seawall, "Seawall Lot No. 20" had lost its character of tide lands and therefore was of the same character as any unimproved vacant land of the State. The effect of overruling the demurrer by Judge Seawell, is that if the facts are as set forth in the City's complaint, "Seawall Lot No. 20" may be assessed for the improvement of Beale Street.

The case has been set for August 15 of this year, and that issue of fact will be tried. I have every confidence that the facts are as alleged in the complaint, and the Court having decided upon the demurrer that the law is that vacant and unused lands belonging to the State, although once constituting tide lands, may be assessed, I believe the City will succeed in its action. Meanwhile, the work of lowering the grade of Beale Street has proceeded and is practically completed. The Board of Supervisors has set aside temporarily a sufficient amount of money to cover the shortage in the fund for the improvement of Beale Street caused by the failure of the State to pay its assessment.

#### TAX CASES.

During the past fiscal year there have been tried two important classes of tax cases, namely:

1st: Cases in which was involved the question as to whether or not the suspension of the dollar limit for the year 1911-1912 was a proper suspension. The point involved in these cases was a technical point as to the exact form in which the suspension had been made, and the question as to whether or not the unanimous consent of eighteen supervisors was necessary for the suspension of the dollar limit. The case of San Christiana Investment Company vs. City and County of San Francisco, a typical case of this type, was decided in favor of the City and is now on appeal to the Supreme Court of this State.

2nd. Cases in which was involved the question as to whether or not taxes paid in 1907, but not paid under protest, should be recovered. In these cases a demand for recovery was made to the Supervisors but the Supervisors have not acted upon this demand. One of these cases, to-wit, the case of..... vs. City and County of San Francisco, was decided in favor of the City by His Honor Judge Seawell. Another one of these cases is now pending before his Honor Judge Sturtevant. This is the case of Otis vs. City and County of San Francisco.

#### ACTION FOR CONDEMNATION OF LANDS FOR THE PURPOSES OF THE CITY HALL AND CIVIC CENTER.

City and County of San Francisco vs. Albert Abrahams et al No. 41542. Department No. 1.

This action was commenced on the first day of April, 1912. The complaint,

consisting of 60 pages of printed matter, describes 97 parcels of land and names 154 different parties defendant.

Included in this action were all of Western Addition Blocks 2, 3, 4, 5, 66 and 67, one lot each in Western Addition Blocks 65 and 68, and one lot in 50 Vara Block No. 316. Also 54 City Hall lots in the blocks lying northeasterly and southwesterly of Marshall Square. Subsequent to the commencement of the action, at the direction of the Board of Supervisors, a dismissal was entered as to the northerly half of Western Addition Block No. 5, the same being that portion of the block bounded by Golden Gate Avenue, Larkin Street, Redwood Street and Polk Street.

The work of preparing this action was completed within one week's time and required a great deal of detail investigation and work. A search of the titles to the different lots of land was evenly distributed among all of the Title Companies doing business in the City and County of San Francisco.

#### SUPREME COURT OF THE UNITED STATES.

Harry I. Mulcrevy et al vs. The City and County of S. F. No. 872, October term, 1911. Nov. 1911, citation served.

#### UNITED STATES DISTRICT COURT.

#### NINTH JUDICIAL CIRCUIT—SECOND DIVISON.

#### ACTIONS PENDING IN.

City and County of San Francisco. }  
State of California, } ss.

M. J. Hynes, being first duly sworn, says: that he now is, and ever since the 8th day of January, 1912, at twelve o'clock noon, on said day, has been, the duly elected, commissioned, qualified and acting Public Administrator of the City and County of San Francisco, State of California; and that the foregoing report and return contains, and is a full, true and correct report, return and account of all estates of decedents, which have come into his hands for the six months ending at twelve o'clock noon, on the 8th day of July, 1912, and that the value of each estate, the money which has come into his hands from each of said estates and what he has done with the same, and the expenses incurred in each of said estates, and the balance of money remaining in his hands, if any, in each of said estates, is correctly set forth in said foregoing return and report; that affiant is not, and was not during any of the times mentioned in said return and report, or at any other time, interested in the expenditures of any kind made on account of any estate which he administered, or of which he is the administrator, or which has come into his possession or under his charge, nor is he associated in business or otherwise with any one who is so interested.

M. J. HYNES.

Subscribed and sworn to before me this 22nd day of July, 1912.

MATTHEW BRADY,

Notary Public in and for the City and County  
of San Francisco, State of California.

# Treasurer's Report

Treasurer's Office, City and County of San Francisco, July 31, 1912.

JOHN E. McDUGALD, Treasurer.

ALFRED W. HOBRO, Chief Deputy.

# County Clerk's Report

San Francisco, Cal., July 1st, 1912.

Hon. James Rolph, Jr.,  
Mayor of the City and County of San Francisco.

Dear Sir:—

In compliance with Section 9, Article XVI, of the Charter of the City and County of San Francisco, I submit herewith the annual report of the office of County Clerk, for the fiscal year 1911-12.

As to the condition and conduct of the office of County Clerk, I attach and make a part hereof, excerpts from the report of the Grand Jury, in and for the City and County of San Francisco, for the years 1911-1912.

As may be seen by reference to the Financial Statement hereto attached, the office has not only been self-sustaining during my incumbency, but has been a source of great profit to the City and County, earning in excess of running expenses the sum of \$416,816.50.

Respectfully submitted,

H. I. MULCREVY,  
County Clerk, and Ex-Officio Clerk of the Superior Court.

EXCERPTS FROM THE REPORT OF THE GRAND JURY, 1911-1912,  
ON THE OFFICE OF THE COUNTY CLERK.

San Francisco, May 17, 1912.

To the Foreman and Members of the Grand Jury  
of the City and County of San Francisco.

Gentlemen:—

\* \* \* On investigation we found the method of handling papers, from their first presentation until their final disposition, simple, practical and easily understood.

In every department good order prevails.

We examined the books and found them neatly written and accurately kept, so that your committee was impressed with the fact that the clerks had been carefully selected and were experienced, competent men.

Our last visit was in the Temporary City Hall, where the same general system prevails. The new quarters are much more suitable for the business of the office than the previous ones, because the principal departments are now on the first floor under the direct supervision of the County Clerk, and more desirable for him and more convenient for those whose business calls them to the County Clerk's office.

When your committee first visited this office it was not under Civil Service rules. Since then, however, an opinion was given by City Attorney Percy V. Long \* \* \* .

The City Attorney's report goes into the entire subject matter and closes by saying, "From the foregoing it follows that the County Officers mentioned in Article XIII of Charter are now subject to the provisions of that Article." This opinion has been accepted by the County Clerk, but as the Civil Service Commission has no list at the present time, the Deputy Clerks are appointed monthly as temporary employees. On inquiry we learn that many of these clerks have been in this important office for years and are familiar with the work and are experienced men. Under these circumstances, your committee is of the opinion that if these trained men could legally be placed on the Civil Service list without further examination and hold the positions they now fill, there being no list of available clerks at present, the Public Service would get the benefit of their experience, which the City has already paid for, and no injustice would be done as might be possible if there was a waiting list of clerks for these positions.

Afterwards as positions become vacant they should be filled from a list of competent clerks, which will no doubt be provided by the Civil Service Commission.

Respectfully submitted,

JOHN MULHERN,  
Chairman,  
EDWARD W. BROWN,  
JOHN HOLLAND.

# Recorder's Annual Report

San Francisco, July 25, 1912.

To the Honorable,

The Mayor and the Board of Supervisors,  
City and County of San Francisco:

Gentlemen:—Pursuant to Charter provisions (Article XVI, Section 9), I beg to submit herewith a detailed report of the operations in the Recorder's office for the fiscal year ending June 30, 1912.

### PAPERS FILED.

Fiscal year ending June 30, 1911.....	65,291
Fiscal year ending June 30, 1912.....	56,551
Decrease in 1911-1912 .....	8,740

A superficial glance at the above figures will prove misleading, and I desire, therefore, to show the cause for the apparent shrinkage in the business of the department, and to give the assurance that there has been no decrease in the general business; and since this general business in the recording department may be considered a fairly accurate barometer of the activities in building, real estate, and kindred operations, it is gratifying to know that the decreased total in the number of papers filed during the past fiscal year, as compared to the preceding fiscal year, was the sole result of greatly lessened operations under the so-called McEnerney Act, as the following comparison makes clear:

	1910-11	1911-12
Deeds Recorded .....	14,537	14,790
Mortgages .....	6,894	7,469
Releases .....	3,963	4,293
Deeds of Trust .....	1,877	1,958
Leases .....	734	958
Builders' Contracts .....	1,548	1,713
ALL PAPERS, except McEnerney .....	49,124	51,303

Thus it is shown that, in spite of the adverse total, the general business of the department for the past fiscal year was, after eliminating the McEnerney comparisons, slightly in excess of the preceding fiscal year, the exact gain in general filings being 2,179 papers.

During 1910-1911 there was filed 9,341 McEnerney lis pendens and 6,826 McEnerney decrees, a total of 16,167 instruments. During 1911-1912 there was filed but 1,838 lis pendens and 3,410 decrees, a total of only 5,248 McEnerney papers. In this class of papers, therefore, the decrease was 10,919 papers.

### CASH ACCOUNT.

	Cash Receipts.	Expenditures.	Surplus.
Fiscal year 1910-11 .....	\$107,218.15	\$73,400.00	\$33,818.15
Fiscal year 1911-12 .....	95,534.25	75,522.43	20,011.82
Decrease, 1911-12 .....	\$ 11,683.90		\$13,806.33
Increase, 1911-12 .....		\$ 2,122.43	

In addition to the receipts for Recorder's fees, as above, there was collected as desk rentals during the year the sum of \$657.50. This amount was duly paid to the Treasurer as a special account, and is not further considered in the department's operations.

The decrease in the net surplus for the past fiscal year is due (1) to the adoption by the voters of the recent charter amendment increasing the salaries of this department, which formerly were lower than those of all other county offices, and (2) to the fact that a portion of the excess copying work, caused by the recording of a great number of McEnerney decrees in the latter part of the preceding fiscal year was necessarily carried forward, and made a charge against the operations of the fiscal year under report.

Special reference is directed to the detailed tabulations on succeeding sheets, covering a period of fifty years, and showing that the department has earned, since the new charter went into effect on January 8, 1900, a total net surplus of \$244,805.51. Prior to the inauguration of the new charter, while the present schedule of fees was in force, the department was conducted at a net loss to the city.

Beginning with my incumbency and the new charter era on January 8, 1900, the cash statement of the department is as follows:

	Papers.	Total Receipts.	Total Expenses.	Surplus.
1900-01 .....	25,776	\$ 39,584.45	\$33,852.00	\$ 5,732.45
1901-02 .....	29,242	45,539.60	39,040.56	6,499.04
1902-03 .....	35,112	54,077.70	43,000.00	11,077.70
1903-04 .....	37,337	57,537.45	43,900.00	13,637.45
1904-05 .....	41,360	63,330.85	43,900.00	19,430.85
1905-06 .....	40,434	62,143.30	40,935.68	21,207.62
1906-07 .....	54,070	83,978.90	56,113.20	27,207.62
1907-08 .....	55,729	85,884.55	61,262.49	24,622.06
1908-09 .....	64,513	105,619.90	70,400.00	35,219.90
1909-10 .....	57,673	97,813.40	71,472.55	26,340.85
1910-11 .....	65,291	107,218.15	73,400.00	33,818.15
1911-12 .....	56,551	95,534.25	75,522.43	20,011.82

---

\$244,805.51

The above figures do not include the receipts from desk rentals, only the amounts received for recording fees being included.

As to the outlook in this department for the new fiscal year 1912-13, I will state that a substantial increase of business is confidently expected. Unless all indications fail, a revival in real estate and private building operations will follow the expenditure of the vast sums provided for the city's public improvements, for the water front development, and for the construction of the exposition. And these activities, whatever the degree, will be accurately reflected in the business of the Recorder's office.

It is estimated that about 80 per cent of the property owners have already taken advantage of the provisions of the McEnerney Act to establish record evidence of their land titles in this city and county. There can be no further great rush in this work, but it is nevertheless important that those who have not established their titles understand that the McEnerney Act will expire on December 31st of this year, that being the date to which it was extended at the last session of the legislature.

I especially desire, by means of this report and such publication as it will receive, to direct the attention of the public to the fact that building contracts filed in this department are, under the law, returnable to the parties who filed

them, two years after the filing of the notice of completion of work under the said contracts. If the contracts are not called for, the Recorder is authorized to destroy them; this law having been passed to obviate the accumulation and care of a great number of bulky documents in an official department.

All contracts filed prior to April, 1906, were destroyed in the great conflagration. Since that date, there has been a vast accumulation of contracts. I have deemed it best to retain these contracts beyond the period prescribed by law, and none has been destroyed. To gain room for further filings, however, it will soon be necessary to destroy a portion of the accumulated contracts.

The public will therefore take notice that contracts filed from April 20, 1906, to December 31, 1907, will be destroyed unless called for within sixty days from this date. I earnestly urge all parties entitled to the same to call (with the recording receipt) for these papers.

Since the scheme for the new city hall contemplates a new Recorder's office as a part thereof, I will not discuss at this time the improvements which should be made in the Hall of Records. Under the circumstances, I shall ask for nothing which it is possible to do without.

I will, however, take this occasion to thank your Honor and the Board of Supervisors for the consideration and assistance which has been extended to me and my department during the past fiscal year.

Respectfully,

EDMOND GODCHAUX,

Recorder.

## MONTHLY RECEIPTS PAID INTO THE TREASURY.

1911—July .....	\$ 7,746.20
August .....	7,606.45
September .....	6,827.15

# Sheriff's Report

To the Honorable James Rolph, Jr.,  
Mayor of San Francisco,  
San Francisco, California.

Dear Sir:—

As Sheriff of the City and County of San Francisco, I am presenting to you a report of the conduct and workings of that office for the fiscal year beginning July 1, 1911 and ending June 30, 1912.

There are presented herewith certain exhibits, giving in tabular form statistics concerning various phases of the working of the Sheriff's office, as follows: Office Report, Report of Jails and Commissary Report, marked respectively Exhibits 'A' and 'B.'

In my management of the office I have had two things particularly in mind, namely, to see that the various employees of the office faithfully and efficiently performed their duties, and, second, to care for the prisoners confined at the jails in such a way that as far as possible the county jails might be places of reform rather than places of mere punishment.

In connection with the first of these matters I have made it a point to give my close personal attention to the entire work of the office. I instituted a system by which accurate record could be kept of the times when the various employees reported on and off duty and of the number of hours that each worked and of the places where each worked.

In connection with the second matter I have given diligent attention to the healthfulness of the conditions under which the prisoners live, to the furnishing of employment for prisoners during the day, and to the furnishing of such amusement for the prisoners as was possible.

The County Jails at Ingleside have been kept in the most cleanly condition, and I think I can say that vast improvement in this regard has been made during the year.

Prisoners who work are given three meals a day; the others, two.

Care has been taken to have the quantity of food ample, to have it of good quality, and to have it properly prepared and served.

During the year a great deal of road work has been done by the prisoners. Not only has this been a means of giving them outdoor exercise, but it has improved the condition of the streets in the neighborhood of the County Jail.

We have at the County Jail two stables in which twenty-four horses are kept. The care of the stables, horses, wagons and other vehicles has given work to some of the prisoners.

Work is also furnished for prisoners in the yard, laundries, sulphur house, blacksmith shop, engine room and the lawns in front of Jails Numbers 1 and 2.

At the outset of my term I set about establishing a vegetable garden upon the jail grounds, and during the last several months have used a space of about four acres for that purpose. It has furnished work for about forty prisoners each day. It has supplied the jails with a large quantity of vegetables and enabled an improvement in the prison diet. It has also led to a saving of about \$100.00 per month. I believe it advisable to enlarge this vegetable garden.

I believe that it would be advisable to institute a dairy at the County Jails.

I believe that when the new jail No. 1, at Washington and Kearny streets, is ready for occupancy and in use arrangements can be made for baking, at the jail, the bread supply needed for all the jails. The bread supply now costs the City and County about \$5,000.00 a year, and if my plan is a feasible one it is evident that it will lead to a large saving. I have in mind the fact that in instituting any changes of this sort we must carefully consider the extent to which we will be interfering with or running opposition to outside free labor.

I instituted at the jails, shortly after the commencement of my term, a circulating library for the use of the prisoners. The library contains about six hundred volumes, which have been obtained by private donation. The library has been freely used by the prisoners, and is much appreciated by them. On last Christmas eve an entertainment was given at the jails. About thirty numbers were rendered by volunteer talent. On the afternoon of Christmas day Madame Di Pasquali entertained the inmates for about two hours.

Formerly insane patients who were going from San Francisco to various State Hospitals, while on the ferry boats crossing the bay, were exposed to the view of the passengers. Shortly after the commencement of my term I communicated with the Southern Pacific Railroad and the Northwestern Railroad Company with a view to changing this condition. As a result there has been constructed on the ferry boats a collapsible partition which is used for providing an enclosed space in which the patients are kept. The Northwestern Railroad Company has promised to construct a separate compartment in one of its coaches for the transportation of patients. The Board of Harbor Commissioners, at my request, has constructed a waiting room in the inner portion of the Ferry Building in which patients can be kept while awaiting the departure of boats.

An Act passed by the State Legislature in 1911, concerning the paroling of misdemeanor prisoners sent to the County Jail, constitutes the Sheriff and the District Attorney of San Francisco a board of parole. I consulted with the District Attorney in regard to arranging regular meetings of this board, and my suggestion met with prompt approval. The board now meets regularly on Saturday mornings in the office at the County Jail at Ingleside.

Very respectfully yours,

FREDERICK EGGERS,

Sheriff, City and County of San Francisco.

## EXHIBIT "A"

FINANCIAL STATEMENT FOR FISCAL YEAR—JULY 1, 1911, TO  
JUNE 30, 1912.

Amounts paid into the City and County Treasury:

# Board of Censorship

San Francisco, Cal., February 8, 1913.

To the Honorable James Rolph, Jr.,  
Mayor of the City and County.

Dear Sir:—Pursuant to Section 9, Article XVI, of the Charter of the City and County of San Francisco, the Board of Censorship herewith presents its report for the fiscal year of 1911-1912.

Very truly yours,

E. M. HECHT,  
Assistant Secretary.

A review of the minutes of the preceding Board of Censorship, and as far as this Board is able to determine, indicate that the operations of the past year were very limited. Perhaps this was due to the ineffective ordinance or otherwise, but records show very few investigations and less jurisdiction. The majority of the meetings failed to record a quorum, the result of considerable discord among the members of the Board.

It is to be regretted that the old Board is unable to present a more satisfactory report of proceedings, but such an explanation is unavailable.

The present Board has taken over the work and is proceeding as efficiently as possible, under the very limited authority granted by the present unsatisfactory ordinance, and in consideration of the fact that this is the only Civic Board which is utterly unprovided with funds to pursue its work by the municipality you will realize that this is a very great handicap to this Board, same must exist under the ordinance but at the same time no provision what-so-ever is made for it by the authorities.

# Report of Chief of Police

## REPORT OF D. A. WHITE, CHIEF OF POLICE OF THE CITY AND COUNTY OF SAN FRANCISCO, FOR THE FISCAL YEAR ENDING JUNE 30TH, 1912.

# Report of Board of Education

San Francisco, California, July 1, 1912.

To the Honorable Board of Supervisors,  
City and County of San Francisco.

Gentlemen:

In accordance with provision of the Charter, I have the honor to submit herewith the annual report of the Board of Education, embracing the report of the Superintendent of Schools, for the fifty-ninth fiscal year of the School Department, ending June 30, 1912.

Respectfully,

A. A. D'ANCONA,  
President Board of Education, City and County of San Francisco.

# Report of Superintendent of Schools

San Francisco, July 1, 1912.

To the Honorable, the Board of Education, in and  
for the City and County of San Francisco.

Ladies and Gentlemen:—I have the honor to submit herewith the annual report on the condition of the public schools of this City and County, as required by the Charter, for the sixtieth fiscal year of the School Department, ending June 30, 1912.

ALFRED RONCOVIERI,  
Superintendent of Common Schools, in and  
for the City and County of San Francisco.

Condition of Fund, July 1, 1912—	
Issued 1904-1905 .....	\$1,077,600.00
Issued 1910-1911 .....	39,000.00
Issued 1911-1912 .....	188,900.00
	<hr/>
Total Issued .....	\$1,305,500.00
Expended .....	1,303,515.82
	<hr/>
Balance in Fund July 1, 1912.....	\$ 1,984.18

## 2. 5 PER CENT SCHOOL BONDS DATED JULY 1, 1908—

Election May 11, 1908.

Total vote cast 23,560; ⅔ necessary to carry—15,707.

Votes in favor 21,397; excess of votes necessary, 5,694.

Amount authorized .....	\$5,000,000.00
Issued and outstanding, July 1, 1912.....	\$4,000,000.00
Redemption commences July 1, 1914, when \$140,000 will be redeemed and \$140,000, every year thereafter until July 1, 1938. Annual sinking fund required, if all bonds are issued, \$200,000.	

## Condition of Fund—

Issued 1908-1909 .....	\$2,000,000.00
Issued 1909-1910 .....	900,000.00

Issued 1910-1911 .....	600,000.00
Issued 1911-1912 .....	500,000.00
Premium .....	287,051.40

Total realized .....	\$4,287,051.40
Expended .....	4,218,295.16

Balance in Fund, July 1, 1912.....\$ 68,755.64

### 3. POLYTECHNIC HIGH SCHOOL 4½% BONDS, DATED JAN. 1, 1910—

Authorized by election June 22, 1909.

Total vote, 24,058; ½ of vote necessary to carry, 16,039.

Votes in favor, 17,979; excess of votes necessary, 1,940.

Issue authorized .....

\$600,000.00

Issued and outstanding, July 1, 1912.....

\$456,000.00

Annual redemption of \$19,000 commences July 1, 1914.

Annual sinking fund, if all bonds are issued, \$25,000; commences 1914 and ends in 1937.

#### Condition of Fund, July 1, 1912—

Issued .....

\$456,000.00

Premium .....

1,758.00

Realized .....

\$457,758.00

Expended .....

202,919.22

Balance in Fund .....

\$245,838.78

## REPORT OF THE BOARD OF EXAMINATION.

The Board of Examination is composed of: Superintendent Alfred Roncovieri, Chairman; Deputy Superintendent W. B. Howard, Secretary; Deputy Superintendent T. L. Heaton, Deputy Superintendent A. J. Cloud, Deputy Superintendent R. H. Webster.

The Board of Examination has conducted two examinations (October 1911 and May 1912), according to law, of persons desirous of securing certificates. It has met monthly and forwarded its recommendation to the Board of Education.

Herewith is a resume of its work:

RECOMMENDATIONS MADE BY THE SUPERINTENDENT OF SCHOOLS  
SINCE JULY, 1906.

July, 1906—

First. That in the interests of economy the Honorable Board of Supervisors include in its annual advertisement calling for bids on gas and water; the requirements of the Board of Education in these commodities.

Second. That a liberal appropriation not less than \$8,000 be allowed for the purchase of supplementary and reference books.

Section 1714 of the Political Code refers to the expenditure of moneys for supplementary and reference books. Owing to the destruction of thirty school buildings during the conflagration of April, 1906, all the libraries contained therein were destroyed and therefore the appropriation asked for supplementary and reference books is considered moderate by the Board of Education and the Superintendent of Schools.

Third. That an appropriation be made of \$12,000 for the purchase of charts, globes, typewriters, organs, pianos, and maps for use of the primary day and evening classes in accordance with Section 1617, Third Sub-division of the Political Code of the State of California.

Fourth. That ungraded classes in these schools: Adams, Fremont, Franklin, Hamilton, Hancock, Lincoln, Mission, Washington, Richmond, and Emerson, be maintained and that additional ungraded classes be established wherever there is sufficient demand.

Fifth. That an appropriation of not less than \$2,500 be made for decoration and adornment of classrooms and school grounds; also, pictures, engravings, plaster reproductions, etc.

Sixth. Equipment of playgrounds to be provided for in a bond issue.

May, 1908—

To have Supervisors appropriate a sufficient sum of money to enable the Board of Education to pay entire (not 50% as now) pensions of retired teachers.

March, 1909—

That medical inspection of school children be extended and improved.

That streets in front of school houses be bituminized.

July, 1909—

That departmental teaching be extended.

That evening schools and their work be advertised.

That a Parental School equipped with dormitories, shops and other things necessary for a detention or reformatory home be established on twenty acres of land.

August, 1909—

Recommending that supplementary books be purchased by the Board of Education and giving a list of such books.

November, 17—

That experience gained outside of the city be allowed in fixing salaries of teachers.

November 29, 1909—

That the Board of Education enter into contract with prominent steam boiler inspection and insurance companies, for the regular inspection of these boilers and the insurance of the same.

May 24, 1910—

That the name of the Newton J. Tharp Commercial School be changed to the "Commercial High School" and that the Superintendent of Schools and the Principal of the Commercial High School be and are hereby requested to prepare and submit for the consideration of this Board, a one-year's Course of Study, a two years' Course of Study and a four years' Course of Study.

July, 1909—

To extend and improve the subject of Manual and Industrial Training based on observations while on an European tour of inspection.

1911—

That Sanitary Drinking Facilities be supplied in all schools.

That Typewriting be introduced into the Hamilton Grammar School.

That elective system of Courses of Study be extended in the San Francisco High Schools, with proper safeguards and with a grouping around certain fundamental studies.

That greater care should be used in our high schools to watch the progress of individual students and for maintaining a closer personal contact with them.

That we should work toward the six-year high school plan.

That arrangements be made with the San Francisco Normal School by which we could gain the services of cadet teachers.

That the civil service rules be amended and a filing of a protest against their violation.

That a Burbank Agricultural High School be established.

That the number of school gardens be increased and school premises be beautified with flowers, etc.

That the Board of Education set aside \$12,270 for supplementary books.

At the suggestion of the Superintendent of Schools, a bill was introduced at the last session of the Legislature by Assemblyman James J. Ryan and enacted into law.

I regret to state that a majority of the Board of Education instead of observing this necessary and beneficent law in its full intent, requested the opinion of the City and County Attorney concerning the necessity on their part of obeying it. That official declared that in his opinion it is unconstitutional in so far as it relates to San Francisco.

1912—

That credit be given in high schools for work along the lines of school activities and music.

March 20, 1912—

That the Courses of Study used in the high schools be remodeled and brought to date and the same be printed, and that at least one course of four years' duration leading to a department in the University be introduced into the Commercial School so that that school be included under law in the apportionment of State High School money.

I regret that failure to so modify the course of study has resulted in a loss of State funds to the school revenue of this city and county of \$8,000.00.

That public school swimming baths be constructed on the school property at Pine and Larkin Streets.

That Vacation Schools be established.

That only experienced teachers be employed as substitutes.

## REPORT OF THE PUBLIC SCHOOL TEACHERS' ANNUITY AND RETIREMENT FUND COMMISSIONERS.

San Francisco, June 30, 1912.

To the Honorable Board of Supervisors,  
in and for the City and County of San Francisco.

#### THE SAN FRANCISCO TEACHERS' INSTITUTE OF 1912.

The regular annual institute of the teachers of the San Francisco Department, in accordance with State law, was called at the Alcazar Theatre on the days of Monday, Tuesday and Wednesday, of May 27, 28 and 29, of 1912. Superintendent Alfred Roncovieri presided.

A varied and interesting program of addresses and musical numbers was presented. Among those whose lectures were greatly appreciated for the educational messages delivered were: Hon. Samuel Shortridge, Professor Lee Emerson Bassett, Dr. Richard Gause Boone and Dr. Benjamin Ide Wheeler. The afternoons were devoted to wonderfully instructive and entertaining illustrated lectures by Mr. B. R. Baumgardt.

At the close of Wednesday's session, Mr. Selden Sturges, Principal of the Everett Grammar School, moved the adoption of the following set of resolutions, which motion, being put to a vote, was unanimously adopted:

"Resolved, That, the hearty thanks of the teaching body of San Francisco be tendered to Superintendent Roncovieri as a token of our deep appreciation of his earnest efforts in having prepared and carried out this splendid program to a most successful termination."

The program is herewith reproduced in full:

## TEACHERS' COMPETITIVE EXAMINATION, CITY AND COUNTY OF SAN FRANCISCO.

The competitive examination for 1912 was held at the San Francisco Commercial School building, on Grove Street, just west of Larkin Street, beginning Saturday, June 8, 1912, at 9 a. m.

## QUALIFICATIONS OF CANDIDATES.

The applicant must be the holder of a teacher's certificate of a grade not lower than the grammar grade valid under the laws of the State of California.

The candidate must not be over thirty-five years of age.

Applicants must possess high personal character, liberal education and perfectly sound bodily health and vigor.

No married woman, unless her husband be totally incapacitated because of illness or infirmity, need apply, or any teacher who may not be in a position to accept an appointment to the substitute list whenever such appointment may be made during the year.

## SCOPE OF THE EXAMINATION.

Examinations will be given to test the qualifications of the candidates as follows:

1. Ability to speak and write correct, forceful English.
2. United States history and current American institutions.
3. Arithmetic.
4. Methods of teaching and school management.

(Notice is hereby given that the examinations to be held after June, 1912, in addition to the subjects named above, will include elementary biology, hygiene and physics.)

In the determination of the qualifications of applicants due credit will be allowed for successful experience in teaching, graduation from State Normal Schools, and academic training in institutions of collegiate grade.

## SAN FRANCISCO TEACHERS' EXAMINATION JUNE 10, 1912.

## AMERICAN HISTORY AND INSTITUTIONS.

1. What parts of American History should be taught, and during what years, to children before the Seventh Grade?
  2. What purposes would you have in mind in teaching the "Revolution Period" to a Seventh Grade class? and how would you use the material?
  3. Name 10 characters in American history a study of whose lives and public services would give a fairly connected view of the Nation since 1750.
  4. Give your reasons for and against teaching Grammar Grade pupils both sides of the Civil War struggle, fairly.
  5. Among "current" happenings since June, 1911, in political, industrial, religious and cultural interests, what do you consider suitable for instruction in the Grammar Grades?
  6. Had the Panama Canal been built by private enterprise, would it have been a fact of "history" as much as when built by the Government? Why?
- Answer the first, third and fifth questions, and two of the other three.

## SCHOOL METHODS AND MANAGEMENT.

(Write legibly and make your answers concise.)

(Answer two out of the first four, and five others.)

1. (a) It is often urged that we should teach reading, history, geography and civics in close relation, making each serve the purpose of all. Is this a good plan or should we keep the subjects of the curriculum separate? Explain.

(b) Is it better to teach geography by topics or by countries? Give reasons for your answer.

2. Which is better; to keep the class upon a topic (e. g. alcohol, the Revolutionary War, interest, etc.) until they have mastered it, or to return to the topic at different times and from different points of view? Explain.

3. In the teaching of U. S. history what would be the relative emphasis placed on (1) industrial development, and (2) political and military events? Why?

4. (a) Mention some general principles which ought to govern the selection of topics for nature study.

(b) With what subjects is nature study readily correlated?

5. (a) What should be done with the dull pupil who is over-age for his grade but has not done his year's work satisfactorily?

(b) State some important facts and list some important questions relating to the general problem of retardation.

6. Name as many recent books as you can bearing on the pedagogy of the following subjects: reading, writing, spelling, nature study, arithmetic.

7. (a) State as specifically as possible what you would do to improve the spelling of children who continually miss even the simplest words.

(b) In the teaching of spelling what objection or objections could be raised to the use of such words as the following taken from the State Series Speller? Fillet, timorous, frieze, fuchsia, epaulet, aconite, lapidary.

8. (a) What is the proper temperature for a classroom?

(b) What special considerations should govern the seating of pupils in the classroom?

(c) What are some specific effects of Open Air schools upon pupils?

(d) Will you require home study? If any, how much and in what studies?

9. (a) What is the best method of preventing disorder?

(b) To what extent, if at all, would you permit one pupil to help another with his lessons?

(c) Is it better to punish rarely and severely, or to punish less severely but to exercise great care in calling to account for every offense? Explain briefly.

10. Define or explain each of the following terms: experimental pedagogy, adolescence, school clinic, vocational guidance, Binet mental Tests, social center activities, ungraded class, Batavia teacher, inductive method.

## ARITHMETIC—FIRST 6 YEARS.

1. Write out in full all the possible combinations of change one can make for a quarter of a dollar. With what age of children could such problem be used?
  2. What common fractional forms (specify) can be taught to children profitably, during the first 3 years? Why should these be taught? Why not others?
  3. A newsboy buys nickle papers, three for a dime; how many papers must he sell to clear \$1.00? What preparatory teaching would you want to do before giving this problem to a class of Fourth Graders?
  4. How early can decimal fractions be taught profitably? Is the notion, one tenth, more difficult than one-fifth? Why?
  5. In "reduction of fractions" you accustom the pupil to see the given fraction in two or more forms having the same value: as  $1-2=2-4=5-10=7-14$ , etc. What use do you make of this principle in working with integers, as in addition or subtraction?
- Answer all five questions.

## ARITHMETIC, JUNE 10, 1912.

(Write legibly. Answer ten.)

1. A man bought a lot for \$1,500 and built a house on it costing \$3,000. He rented his property for \$300 a year. Taxes, repairs and insurance cost him \$74.00 a year. What per cent does make on his investment?
2. There are 48 pupils and a teacher in a room 36 ft. long, 30 ft. wide and 14 ft. high. If fresh air is introduced at the rate of 30 cu. ft. per person per minute how often is the air of the entire room renewed?
3. If a city raises \$13,093.75 from a  $\frac{1}{4}\%$  tax, what is the assessed valuation of the property in the city?
4. The diameter of a circular tank is 8 feet. How high must it be to contain 15,000 gallons?
5. (a)  $48.225 \div 15 = ?$   
 (b)  $.124$   
 $\frac{\quad}{\quad} = ?$   
 $132$
6. The sum of two numbers is 10, and the sum of their squares is 52. Find the numbers by algebra.
7. What arithmetical knowledge should children entering the seventh grade possess? Answer fully.
8. In seventh and eighth grade arithmetic which is better; to teach the short cuts and abbreviated forms of solution used by accountants and business men, or to require the pupil to make a detailed analysis of his solution by formally setting forth each step in the process? Give reason.
9. If a pupil in the seventh grade is excellent in all his studies save arithmetic, but fails in that branch, should he be promoted? Give reason for your answer.
10. What are some of the newer trends in the teaching of seventh and eighth grade arithmetic as regards:
  - (a) The subject matter covered,
  - (b) The nature of the problems used in the teaching of a given topic.
11. Does the reasoning ability which is gained through the study of arithmetic enable the pupil to reason better in matters pertaining to history, geography, etc? Defend your answer.

## FREE PUBLIC LECTURES FOR ADULTS.

The system of free public lectures for school pupils and adults instituted 1910, has completed its second year.

Over two hundred lectures were delivered in the auditoria of our public schools during the year ending June 30, 1912. M. E. Blanchard, Ph. D. of the Mission High School, and G. O. Mitchell, A. B., of the Girls' High School, respectively Secretary and Director of the Lecture Bureau, arranged interesting and instructive programmes as the following schedules demonstrate.

DEPARTMENT OF EDUCATION, ANNOUNCEMENT OF FREE PUBLIC LECTURES FOR ADULTS (ILLUSTRATED—USUALLY WITH STEREOPTICON.)

**Winfield Scott School**—Building cost \$42,206.43. Lombard street, between Broderick and Baker streets. Lot in block No. 553, W. A.;  $137\frac{1}{2} \times 137\frac{1}{2}$  feet.

**Yerba Buena School**—Building cost \$59,206.43. Greenwich street, between Webster and Fillmore streets. Lot in block No. 325, W. A.;  $137\frac{1}{2} \times 120$  feet. February 23, 1909, from McEwen Bros. lot Webster and Greenwich streets west  $137\frac{1}{2}$  feet by 120 feet in Western Addition, block No. 235, \$17,000. \$30,000 of the above cost were contributed by the school children of the United States immediately subsequent to the Great Fire of 1906.

#### LIST OF UNOCCUPIED PROPERTIES BELONGING TO SCHOOL DEPARTMENT.

Lot in 50 vara block No. 220; northwest corner Bush and Taylor streets;  $137\frac{1}{2} \times 137\frac{1}{2}$  feet.

Lot in 50 vara block No. 286; Golden Gate Avenue, near Hyde street;  $110 \times 137\frac{1}{2}$  feet.

Lot in 100 vara block No. 348; Tehama street, between First and Second streets, irregular in size; about  $118 \times 155$  feet.

Lot in 50 vara block No. 160; Powell street, between Washington and Jackson streets;  $68\frac{3}{4} \times 137\frac{1}{2}$  feet.

Lot in Mission Block No. 8;  $137\frac{1}{2}$  feet  $\times$   $137\frac{1}{2}$  feet.

Lot on Bush street, between Larkin and Hyde streets.

Precita Valley School, August 21, from George Miller, commencing W. line Alabama street 90 ft. S. from Norwich, S. 25 ft.  $\times$  110 ft., lot 168, Precita Valley lands. (Bonds of 1904), \$3,700.

Precita Valley School, August 21, from Roger R. Vair, Lot commencing S. W. corner Alabama and Norwich streets, S. 90, W. 110 ft., S. 50 ft. W. 110 ft. North 140 ft. E. 220, lots 166, 167, 168, Precita Valley lands. (Bonds 1904), \$10,300.

Precita Valley School, November 6, 1911, from Frances A. Curran, Lot W. line Alabama street, 115 ft. S. Norwich street. S. 25 ft.  $\times$  100 ft. (Bonds 1904), \$4,300.

December 4, 1911 (Jackson Primary) from C. W. Moores, agent, N. line Hayes, 140 ft. 6 inches W. from W. line Clayton street, W. 122 ft.  $\times$  275 ft. W. A. block 685, (Bonds 1904), \$37,500.

Lot in 100 vara block 371; Fifth street, near Market;  $275 \times 275$  feet. Leased to Wise Realty Company (later merged into the Lincoln Realty Company) for thirty-five years, at a total rental of \$2,835,000, as follows: for the first five years, a rental of \$3,780 per month, and for the remaining thirty years, a rental of \$7,245 per month.

Lot in Mission block No. 21; West Mission street, between Herman and Ridley streets;  $133\frac{3}{4} \times 137\frac{1}{2}$  feet.

Lot in 50 vara block No. 118; corner Bush and Stockton streets;  $137\frac{1}{2} \times 137\frac{1}{2}$  feet; 50 vara, lot 301.

Lot in Mission Block No. 72. Commencing at a point formed by the intersection of the southerly line of Nineteenth street with the easterly line of Angelica street, running thence southerly along said easterly line of Cumberland Place; thence easterly along said northerly line of Cumberland Place and Cumberland Place Extension 183 feet; thence at a right angle northerly 91 feet; thence at a right angle northerly 50 feet; thence in a northwesterly direction 118 feet  $2\frac{1}{2}$  inches to a point in the southerly line of Nineteenth street, which point is distant easterly 102 feet from the southeasterly corner of Nineteenth and Angelica streets; thence westerly along said southerly line of Nineteenth street 102 feet to the point of commencement. Purchased from His Grace P. W. Riordan, Roman Catholic Archbishop of San Francisco, for \$33,625, as an alternate site for the Marshall Primary school. Recorded in Book 128 of Deeds, page 251, new series.

Lot in 50 vara block No. 119; Post street, between Grant avenue and Stockton streets;  $70 \times 122\frac{1}{2}$  feet. Leased at an average of \$911.42 per month.

Total rental, 35 years.....	\$382,800.00
Average rental, per month.....	911.42
Graduated Rentals—Leases commenced December 16, 1908:	
First 4 months of lease, per month.....	\$ 250.00

 Block 1,209; Thirty-seventh avenue, between U and V streets, \$4,000.  
 Block 1,215; Forty-third avenue, between U and V streets, \$4,000.  
 Block 1,258; Nineteenth avenue, between W and X streets, \$4,000.  
 Block 1,264; Twenty-fourth avenue, between W and X streets, \$3,000.  
 Block 1,276; Thirty-seventh avenue, between W and X streets; irregular;  
 125 feet 10 inches by 240 feet, \$4,000.  
 Block 1,282; Forty-third avenue, between W and X streets; irregular; 11 feet 2 inches by 240 feet, \$300.

#### LOTS IN POTRERO.

- Block 46; York street, between Fifteenth and Alameda streets; 100x200. Rented at \$2 per month.  
 Block 127; Vermont street, between Eighteenth and Nineteenth streets; 120x200 feet.  
 Block 149; Kansas street, north of Army street; 150x200 feet, \$1,663.  
 Block 163; Rhode Island street, between Mariposa and Eighteenth streets; 100x200 feet. Rented \$2 per month.  
 Block 226; Arkansas street, south of Twenty-third street; 150x200 feet, \$832.  
 Block 287; Texas street, between Twenty-third and Twenty-fourth streets; 150x200 feet.  
 Block 391; southwest corner Kentucky and Twentieth street; 150x200 feet.  
 Potrero block 254, O. L. R., also Potrero block 265, O. L. R., condemned and acquired by Western Pacific Railroad Company for \$14,000.

OTHER OUTSIDE LOTS.

Precita Valley lands; Eve street, between Army and Adam streets; 150x32 feet.

Paul Tract Homestead; Berlin street, between Ordway and Ward streets; 85 feet and 2 inches by 120 feet.

December 21, 1908, from Joseph B. and Carlotta L. Keenan, all of block No. 132 of University Mound Homestead Association, excepting one lot 25 feet by 100 feet on Pioche street, and one on Cambridge street, 25x120 feet, \$3,250.

WITHIN THE PRESIDIO WALL.

Block 553, W. A. Commencing on the north line of Lombard street, 137½ feet west from Broderick street; thence west on Lombard street, 137½ feet by 137½ feet in depth. Lot 2. Outside Land Reservation.

Block 810, W. A. Commencing on the north line of Broadway, 137½ feet west from Walnut street; thence west on Broadway, 137½ feet by 137½ feet in depth. Lot 2. Outside Land Reservation.

Block 841, W. A. Commencing on the north line of Pacific avenue, 137½ feet west from Maple street; thence west on Pacific avenue, 137½ feet by 137½ feet in depth. Lot 2. Outside Land Reservation.

## REPORT ON CHILDREN'S SAVINGS BANK SYSTEM, BY SCHOOL DIRECTOR, JAMES E. POWER.

San Francisco, July 1, 1912.

To the Honorable,  
The Board of Education.

Ladies and Gentlemen:—It is with extreme pleasure that I have the honor to herewith submit the first annual report on the School Children's Savings Bank System. It is very gratifying indeed to be able to report to this Board that as a result of the hearty cooperation and support of the principals and teachers of this department the system has had a greater success in San Francisco than in any other city of the world, of similar size.

## REPORT.

## 1. INTRODUCTION OF SYSTEM.

In February 1911, upon the recommendation of the undersigned, the members of the Board of Education expressed themselves in favor of the School Children's Savings Bank and advised me to submit a plan of operation to the Board. Shortly after this expression of opinion from the members of the Board, a communication on the subject was received from the Social Science Department of the California Club and said communication was referred to me. Shortly thereafter a conference was held with the Social Science Committee of the California Club. There were also several conferences with Miss Fannie Stockton, a teacher in the department, who had given considerable thought to this work. In addition to these, I conferred with bankers and found that Mr. John Drum of the San Francisco Savings Union had spent considerable time in gathering data and statistics from other cities.

As a result of the above the Board on April 5th, 1911 adopted a resolution ordering the Savings Bank System established in the schools and authorizing the undersigned to submit plan of operation. On May 19th, 1911, partial report on plan of operation was submitted and the Bank of Italy of San Francisco selected as the official depository. On July 19th, 1911, the following report was adopted by the Board:

## 2. PLAN OF OPERATION.

To the Honorable,  
The Board of Education.

Mrs. Kincaid and Gentlemen:—I herewith submit the following report on plan of operation for School Savings System, the same being agreeable to the official depository (Bank of Italy) as follows:

Stamps of the denomination of one cent will be provided; also folders which will hold fifty stamps. When a pupil presents at the bank two of these folders, with fifty stamps affixed to each folder, the bank will issue a pass book showing a deposit of One Dollar. The bank will then accept any further deposits of fifty cents or more that the pupil may desire to make, either with folders or in coin.

All deposits will bear interest at the regular rate of interest allowed by the bank and under the same conditions governing savings deposits.

Folders should not be presented at the bank until they are filled.

Upon opening an account with the bank the pupil should be accompanied either by the parent or guardian, who should act as trustee. To withdraw money from the bank the signature of the trustee will be required. The account is thus placed entirely within the control of the parent or guardian of the pupil.

No withdrawals should be made for less than One Dollar.

When pupils are removing from the city and have folders partially filled with stamps, the folders will be redeemed by the bank upon an order from the principal of the school.

Neither the School Department nor the Bank will be responsible for filled or partially filled folders which may be lost, stolen or destroyed.

#### RECEIVING DEPOSITS FROM PUPILS AT SCHOOL.

The pupils' savings will be collected by the teacher once a week, during the first half hour at school, on a day to be designated.

The teacher's report of these collections will be made in duplicate on blanks furnished for the purpose, and will show the name of each pupil depositing and the amount deposited. The report in duplicate, together with the total amount called for, will be handed at once by the teacher to the principal of the school.

During the day on which collections are made a representative of the bank will call upon the principal of the school, will check up the reports of the teachers with the amount of money turned over by the principal, and receipt for same, at the same time handing to the principal the equivalent in stamps. The principal will then return to the teacher the latter's duplicate report receipted, accompanied by stamps to the amount called for. The teacher will then distribute the stamps to the pupils to be affixed by them to their folders. By this method both principal and teacher will avoid the responsibility of keeping pupils' money in their possession and accounting for stamps.

I would respectfully recommend that the system be put in effect at the opening of the fall term, the first week of school to be taken up with instruction by myself and representative from the bank on the plan of operation, and deposits to be taken commencing August 1st.

Very respectfully yours,

JAMES E. POWER.

In carrying out this plan the schools were districted and collections are made from sixteen to eighteen schools daily, thus all day schools are visited by the collector once a week. In order to carry out this system the Bank of Italy has to engage an automobile, a chauffeur and a collector, which cost approximately \$300 a month.

The system has worked perfectly and it is gratifying to report the following results.

Total Deposits in School Savings Department in accounts of \$1.00 and over .....	\$54,557.86
Total Amount of Stamps outstanding same date.....	13,629.51
<b>Total .....</b>	<b>\$68,187.37</b>
Total amount of accounts same date.....	7,604
Approximate number of pupils having stamps who have not as yet opened an account.....	2,000
<b>Total number of pupils with school savings acct....</b>	<b>9,604</b>

Average daily enrollment of pupils in schools where the system is in effect June 30, 1912—39,257.

The above figures show practically one out of every four pupils has commenced to acquire a bank account and thus realized the value of thrift and saving as a result of the introduction of this system.

We can probably go further and estimate that perhaps 5,000 of our pupils had a savings account before the adoption of this system. These did not necessarily open new accounts so that we would probably be safe in saying that one out of every three children attending our schools is now blessed with a savings account.

#### 4. SUMMARY.

The above figures speak volumes for the future welfare and comfort of thousands of our rising generation and they show further that the children of San Francisco are second to none in the world in appreciating the value of thrift and saving.

No small amount of credit is due our good principals and teachers for the manner in which they have instilled into the minds of those in their charge the value of saving.

The Board of Education as well as all of those that were in any way interested in the introduction of this system into the schools may be proud of its success.

In conclusion I wish to say that the Bank of Italy has carried on the work of collecting deposits and keep the proper accounts of same at considerable cost to themselves, as the difference in the rate of interest, 4%, paid to the pupils on deposits and the rate they may be able to place the money at cannot be more than 2 or 3%. Thus on \$70,000 they would net 2½ per cent \$1,750 a year whereas their expenses amount to approximately \$4,000 a year. Thus it will be seen that they handle this business at a loss, which will not be overcome until the present deposits have more than doubled. Therefore I must say that the officials of this bank have shown an excellent spirit and an interest in the future welfare of the youth of this city by continuing to make this sacrifice.

Respectfully submitted,

JAMES E. POWER,  
Member Board of Education.

## REPORT OF THE SUPERVISOR OF DOMESTIC SCIENCE.

San Francisco, June 28, 1912.

Mr. Alfred Roncovieri,  
Superintendent of Schools,  
San Francisco, Cal.

Mr. dear Mr. Roncovieri:—I beg to submit the report of the domestic science department for the school year 1911-1912.

The following is a brief summary of the principal data about the department:

Fall Term:—Teachers: One supervisor, ten teachers. Equipment: Thirteen cooking laboratories, one lunch kitchen.

Average monthly enrollment in cooking classes 2,731.27.

Cost of supplies and laundry for cooking classes, \$1,422.53.

Cost of supplies for lunch kitchen, \$170.265.

Total cost of supplies for domestic science department \$1,492.795.

Average number of meals served daily at Ethan Allen lunch kitchen, 49.

Average cost of supplies per meal \$0.026.

Average number of baths supervised daily by domestic science teacher at Ethan Allen School, 14.

Number of visits to cooking laboratories and lunch kitchen; from officials 94; from other 1,594.

The School Board has equipped the cooking laboratories during the past year. We have now twenty-three laboratories or centers, and, at the end of the spring term, had an enrollment of 2,671 Seventh and Eighth Grade girls, 79.6% of whom we taught in their own school buildings.

In the fall term 1908 we had an enrollment of 1,635 pupils, 39.1% were taught in their own schools. The rest had to travel to distant centers. There were also at that time, 917 girls entitled to lessons who were not getting them because we lacked room.

The new centers were opened one at a time when the equipment was ready. This has been a hardship for both domestic science and grade teachers. Indeed, reorganizing a class schedule in mid-term is much like swapping horses while crossing a stream.

However, these changes have been effected with little friction, and excellent proof, I think, of the spirit of co-operation that exists between the different branches of the service.

The new centers are satisfactory to us and have been admired and copied by visiting teachers and superintendents.

During the past year several firms have made valuable gifts to the domestic science department. Some of these have been food stuffs for use in the cooking classes, and others have been educational exhibits, showing food production and manufactures.

We have received almost three thousands pounds of flour from the Globe Grain and Milling Co., four cases of Royal Baking Powder from the Johnson-Locke Mercantile Company, a case each of baking powder, baking soda, spices and extracts from A. Schilling Company, a case of dry milk from the 3 C Dry Milk Company, about two cases of Califene from the Western Meat Co., four cases of Cottolene from N. K. Fairbanks Co., and about one thousand yeast tickets from the Golden Gate Yeast Co.

We have received educational exhibits from seventeen firms, and have, in several centers, the beginnings of food museums that promise to be notably good.

The following is a brief outline of the course given in the cooking classes:

## A-SEVENTH.

I. Study of the five food principles, proteids, carbohydrates, fats and oils, mineral matter and water.

II. Study of carbohydrates, sugars and starches. Practical work; (a) cooking of fruit, fresh and dried, (b) cooking of potatoes, cereals, sago, vegetables and macaroni.

III. Study of flour, leavens and leavening agents. Practical work: Making of quick breads.

## B-SEVENTH.

IV. Study of yeast. Practical work, bread-making.

V. Study of proteid foods, eggs, fish, meat and legumes. Practical work; (a) soft and hard cooked eggs, omelets, custards. (b) Cooking of tender meat, broiling and roasting, cooking of tough meats, scrip-stock, stews. (c) Broiling, frying and baking of fish. (d) Bean, pea and lentil soups.

VI. Invalid Cookery (a) Liquid, soft and light diet, (b) Preparing a tray for an invalid.

VII. Salads. Practical work, French and cooked dressing, potato salad.

VIII. Cake making. Practical work; Cookies, cup-cakes and sponge cakes.

IX. Pastry. Practical work: Apple and lemon pies.

X. Beverages. Practical work: Tea, coffee, cocoa.

In the Eighth Grade the same food principles are studied, and the same principles of cookery are demonstrated in a more extended form.

The pupils are also taught something of the many things that go to make up the art and the science of home making.

At the end of each term the girls of the graduating classes give "teas" to their parents and teachers. This gives them the opportunity for "group work" so highly commended by school people, and brings teachers and parents together pleasantly.

In conclusion I would like to thank you and your deputies and the members of the present Board of Education for the courtesies that I have received.

I would also like to express my appreciation for the loyal and friendly co-operation that I have always received from my fellow teachers.

Respectfully yours,

(Signed) ELLEN M. BARTLETT,  
Supervisor of Domestic Science.

## REPORT OF MRS. AMY WATERS DEANE, DIRECTOR OF MUSIC IN HIGH SCHOOLS.

Honorable Alfred Roncovieri,  
Superintendent of Common Schools,  
San Francisco, Cal.

Dear Sir:—It affords me great pleasure to inform you in this my second official report, that two very important and radical advancements have been made in the past year in the Musical Curriculum of the High Schools. The first, allowing credits for work done outside of school hours. The Board of Education passed a resolution to this effect and after a number of conferences when the subject was given careful and earnest consideration, the Committee, consisting of Superintendent Roncovieri, Deputies Cloud and Heaton, Dr. Scott, Principal of Girls' High School and Mrs. Deane, a system of crediting was adopted which has proven eminently satisfactory. Although from time to time adverse criticism has been made on the comparative limitation of music done in the High Schools in our city, yet I think that I am safe in asserting that San Francisco is the first to find a practical solution of the outside music marking. Briefly, a card is sent monthly to both parent and private teacher with blanks to be filled in as to time given to lessons and practice and general remarks as to advancement. These cards in conjunction with a careful examination by a specially appointed teacher, form the basis of this report of musical standing.

The second step of great musical value to the young artistic aspirant of our High School was the forming in the early days of April of a High School Orchestra under the leadership of Hon. Alfred Roncovieri. This orchestra is formed from the musical executants of the five High Schools. Although each High School has its absolutely separate ambition to excel, in this subject alone, consistently and logically, harmony prevails, it being a thoroughly interscholastic pride that prompts the effort to make this Orchestra a credit to the High Schools of San Francisco. Although there had been but six rehearsals at the time of graduation the work done at the closing exercises of the different schools was up to a positively professional standard. The members of the orchestra are both talented and enthusiastic and unmistakably devotedly gratified to Mr. Roncovieri who has so kindly and generously given his time to their advancement. On his arrival each Friday nothing short of an ovation is tendered him, the young executants being keenly aware of the professional and musicianly leadership afforded them gratis. I doubt that in the United States there is another Superintendent of Public Instruction who can bestow this great and far-reaching privilege on any class of students under his jurisdiction. In closing my report I wish to express my thanks to the members of the Board of Education who have so unflinchingly supported me in my efforts to make my department a success and to the Principals and Teachers of the five High Schools who have helped to smooth the path in this hitherto untrodden road, Music in the High Schools.

Respectfully submitted,

(Signed) AMY WATERS DEANE.

August 4th, 1912.

## REPORT OF THE SUPERVISOR OF MUSIC.

San Francisco, June 30, 1912.

Mr. Alfred Roncovieri,  
 Superintendent of Schools,  
 San Francisco, Cal.

My dear Sir:—In reply to your request for a report from the Music Department of the City Schools I submit the following:

I am pleased to inform you that there has been a progression in the work during the past year.

There has been a growth in musical feeling and musical power.

I find that the class work has grown more systematic, and shows intelligent understanding on the part of the teachers.

Many teachers have a genuine musical interest which creates a response in the child, and lends an artistic charm to the work.

Considering the very limited time allowed for Music in each grade, and considering how few children enter school with acute tone perception and good voice production, the results are remarkable.

I often ask myself these questions: "Do parents realize what is being done for their children in a musical way? Do they realize how many children come to school with no knowledge of tone? Do they appreciate the patient endeavor and skill that is put forth daily by the teachers to accomplish results?"

The greatest forethought is given to the subject of the musical development of the child in the Public Schools, and thus the child is helped physically, mentally and spiritually.

To produce and appreciate good tone, to perceive quickly correct tone, to be capable of expressing emotion through tone, to create a genuine love of good music this is the aim, always remembering that through such Music Study we have a great means for deepening and enriching the spiritual nature of the child.

The history of the race development becomes the history of the Child development. The ancients expressed themselves through song and dance and in the lowest grades the child is given the motion song—"rhythm and expression" to arouse the Elemental Emotions.

Upon this foundation we build our structure,—songs of interest, Home, Nature, God, always remembering that sweet voices should be used, produced by natural breathing and good vocal habits. Thus through the pure voice, the heart of the child can speak, and through the great and good songs of the Nations, the child feels deeply the various emotions.

Ear training and sight singing provide mental drill and give delight in part singing, and the great works in Music, while the oral and written dictation are steps in the development of creative power and give an impetus toward composition.

At the graduations, have been given in part, such songs as "The Two Grenadiers" by Schumann; "Intermezzo" Cavalleria Rusticana; "Sextette", Lucia; "Pilgrims' Chorus", "Soldiers' Chorus", Faust; "Lift Thine Eyes"; "Miserere" and other selections from *Il Trovatore*; "Thou'rt Like A Flower", Liszt; "Spring Song" by Mendelssohn; Handel's "Largo". Besides these, the folk songs and patriotic songs have been given. In the Cosmopolitan Schools the songs are sung in French, Spanish, German and Italian.

An audience of twenty thousand were delighted when three hundred little children of the second, third and fourth grades of the Garfield School marched from Telegraph Hill and sang under my direction at Kearny and Market Streets in honor of placing a tablet on Lotta's Fountain in memory of the songs sung by Madame Tetrassini on the same spot Christmas Eve.

The children sang "Anvil Chorus", "Intermezzo" and patriotic selections. The sweetness and clearness of the childrens' voices were remarked by all, and the children followed my slightest gesture. Madame Tetrassini sent for me at the Palace Hotel and said, "No where in the world do the children sing so sweetly as they do in San Francisco."

Dedications of a number of new school houses have taken place on Sundays and the songs on these occasions have been led by the Supervisor or Assistant Supervisor.

A number of Mothers' Clubs have been addressed by me on the subject of School Music.

In January the work was outlined for the year to the one thousand teachers in a series of eight meetings.

One of the most interesting phases of the work this year has been a study of the recognition of well known melodies such as "Anvil Chorus" and "Home to Our Mountains" from *Il Trovatore*; "Toreador", *Carmen*; "Pilgrims' Chorus"; *Sextette*; *Lucia*; "Who is Sylvia", Schubert; and Schubert's "Serenade", "Traumeri", Schumann, etc.

In every way the Study of Music is encouraged and all children are asked to attend concerts, to study piano or other instruments, and to cultivate the voice.

The Henry Hadley Symphony Concerts were talked of and introduced by using two of Henry Hadley's songs in the Eighth Grade.

Talks of the orchestral instruments were given as well as simple sketches of lives of composers.

In a large department some schools need to be helped more than others, consequently some schools have been visited frequently, others not so often. Where the regular teacher does the work systematically, then the work speaks.

In some places where teachers cannot do the work, Principals see that teachers who are musical teach the classes.

In a number of schools special teachers take charge of classes where teachers are not capable. There are about thirty such teachers in the various schools.

I am grateful that new pianos have been installed in the new schools.

I wish to recommend the following:

- (a) That two pianos be given to each large school.
- (b) That in transferring and assigning teachers, that the musical ability of the teacher be taken into consideration with the musical need of the school.
- (c) That a piano be bought for the office of the Supervisor of Music, as one is needed for the instruction of teachers.
- (d) That special notices be sent to the children about the Symphony Concerts for the coming season by the Board of Education.
- (e) That the Superintendent send to schools supplementary books, "Stories of Great Musicians" by Hurne and Scobey.
- (f) That some octavo music be allowed the schools for Supplementary work to be selected by the Supervisor.

I wish to mention the good work of the regular teachers, and the cordial support given to me and the Music Department by the Principals, of the excellent work done by the Assistant Supervisor, Mrs. McGlade, and the special teachers of the various schools.

Thanking the Superintendent, the Deputy Superintendents and the Board of Education for their co-operation and kindness, I am,

Sincerely yours,

(Signed) ESTELLE CARPENTER,  
Supervisor of Music.

ANNUAL REPORT OF THE SUPERVISOR OF LECTURES TO THE BOARD  
OF EDUCATION FOR THE SCHOOL YEAR ENDING JUNE 30, 1912.

San Francisco, July 1, 1912.

To the Board of Education of the City of San Francisco.

Ladies and Gentlemen:

Herewith I respectfully submit my second annual report on Public Lectures, for the school year ending June 30, 1912. During this year 209 public lectures have been given in school halls to audiences aggregating 47,460 persons; an average of 227 per lecture; 33 schools are now equipped with stereopticons and screens. The school department owns over 3,000 slides which are used for stereopticon lectures, and the lecture bureau enjoys cordial relations with a large number of public-spirited lecturers owning slides, and with institutions, such as the Affiliated Colleges of the University of California and the San Francisco Association for the Study and Prevention of Tuberculosis, willing to provide both slides and lectures gratis.

As heretofore, the fields of geography and travel, history and biography, science, hygiene, social topics, music and literature have been touched; the stereopticon and music, vocal and instrumental, have been liberally employed in illustration. These lectures and this music, almost without exception, have generously been given gratis to the people of San Francisco; a list of the volunteers to whom grateful acknowledgment is due would include practically every name on the year's program. Pianos have also, on occasion, been supplied free by Sherman, Clay & Co. The newspapers have regularly announced the lectures as news items, without charge. All this has meant a great saving to the city; so that the total expense of the lecture system for the year—excluding electric current and increased equipment, but including lectures, supervision, operating of lanterns, printing, postage, and the nominal expense fees of lecturers residing outside the city—has been less than \$1,500.

The size of the audiences, as well as numerous expressions of approval, would seem to justify this outlay. The value of the lectures on science, geography, and hygiene, merely as information, must have been considerable; even higher should be rated the broadening instruction offered by evenings devoted to travel or to excursions in the high realms of literature, music, and art. Incidental benefits of the work have been, the awakening facilitation of public interest and cooperation in matters of civic concern; the freer meeting of parent, teacher, and pupil; the discovery of several excellent lecturers among our teachers, with consequent reaction upon the school work; and lastly, a beginning in the use of the lecture equipment by the schools in the day time.

The principals of several schools have spoken for the use of lanterns and slides to supplement the course of study; the present working arrangement, however, forbids this in anything like systematic form, and indeed permits only 3 or 4 evening lectures per annum, on an average, in each of the centers already established and equipped. Wise economy would suggest that the equipment, particularly the slides, be increased, and be used in the regular instruction of pupils by day, as well as in the occasional public lecture at night, thus increasing the educational efficiency of the plant ten-fold. This would cost more, but considering the population of the city, not nearly in proportion to what New York City is spending for evening lectures alone; if San Francisco with a population of one-tenth that of New York, should appropriate one-twentieth of the amount annually spent by the latter city on evening lectures alone (\$125,000), the resulting sum (\$6,000) would enable the Lecture Bureau to continue the evening lectures, opening new centers as required; to acquire a larger

stock of slides and a collection of select photographs of art subjects for visual instruction; and in addition to extend the lecture system into the schools, where it could be made a highly useful auxiliary in the teaching of history, civics, geography, literature and elementary science.

Perhaps use can also be made of the motion picture in the both schools, and evening lectures, provided really educational films can be secured and the practical difficulties of operation overcome. Here is a new field with large, but as yet undefined possibilities.

These, then, are the next steps; and this policy I respectfully and earnestly recommend.

MILTON E. BLANCHARD,

Supervisor of Lectures.

## EARLY HISTORY OF THE SAN FRANCISCO SCHOOL DEPARTMENT

In 1854 Frank Soule, John H. Gihon and James Nisbet compiled and had published through D. Appleton & Co., a book of 824 pages entitled "The Annals of San Francisco" containing a summary of the history of the first discovery, settlement, progress, and condition of California and a complete history of its great city, San Francisco. This is a most valuable fund of information excellently written and very interesting to any reader especially to one who is a resident of San Francisco. As the book is now difficult to obtain it may be well to incorporate in this report some excerpts from it relating to the origin of the public schools of this City and County.

"The first American school in San Francisco, and we believe in California, was a merely private enterprise. It was opened by a Mr. Marston from one of the Atlantic states, in April, 1847, in a small shanty which stood on the block between Broadway and Pacific Street, west of Dupont St., (Grant Avenue). There he collected some twenty or thirty pupils whom he continued to teach for almost a whole year, his patrons paying for tuition. \* \* \*

The people of the town at length saw the necessity of some public movement to secure for their children a fit education, and late in 1847, they built a school-house, on the southwest corner of Portsmouth Square, fronting Clay Street, where it is now joined by Brenham Place. Insignificant as the building appears it was destined to subserve more useful purposes than any other than has been erected in the city, and should have been preserved as one of its most valuable relics. Its history was almost an epitome of that of the curious people who built it. Every new enterprise found here a heating oven to warm the egg into successful hatching. Here churches held their first meetings; and here the first public amusements were given. It was the assembly room of early gatherings of Odd Fellows and other benevolent associations; and a universal public hall for political, military, and almost every other description of meeting. It was dignified as a Court House under Judge Almond, designated as an Institute at another period, and at length degraded to a police office and a station house. Its site is only recognized by the thousand cherished associations that hover like spirits around its unmarked grave.

On the 21st of February, 1848, a town meeting was called for the election of a Board of School Trustees, and Dr. F. Fourgeaud, Dr. J. Townsend, C. L. Ross, J. Serrine and William H. Davis, Esquires, were chosen. On the third of April following, these Trustees opened a school in the building just erected under the charge of Mr. Thomas Douglas, A. M., a graduate of Yale College, and an experienced teacher of high reputation. The Board pledged him a salary of \$1,000 per annum, and fixed a tariff of tuition to aid toward its payment; \* \* \*. Soon after this, Mr. Marston discontinued his private school, and Mr. Douglas collected some forty pupils. Prior to the opening of the school, the Trustees had taken a census of the town, and ascertained that the population was something over 800 including Indians of which 473 were males, 177 females and 60 children of suitable age for school. Eight months previously the population numbered 375.

The public school prospered and increased for eight or ten weeks when it received a sudden and unforeseen check \* \* \*. Rumors of immense and rapidly acquired fortunes, but above all, the exhibition of specimens of the precious ore, drove the whole population to such an intensity of excitement, that it resulted in a general stampede of men, women, and children for the "mines", leaving the teacher minus pupils, minus trustees and town council

and minus tuition salary. He, therefore, locked the school-house, and, shouldering his pick and pan, himself started for the "diggings". \* \* \* April 23, 1849 Reverend Albert Williams, Pastor of the First Presbyterian Church, obtained the use of the public school-house and opened a private school, charging tuition. He gathered some 25 pupils, and continued teaching until Sept. 20, when on account of the increased demand upon his ministerial service, the school was suspended.

Late in the autumn of 1849 Mr. J. C. Pelton arrived from Maine and Massachusetts and on December 26 opened a school with three pupils in the Baptist Church, on Washington Street, which was generously furnished to him by that society, free of rent. He fitted up the church with the necessary writing tables at his own expense, made no charge, but, for several months depended upon voluntary subscriptions and donations, and the profits on the sale of school books (a lot of which he had brought with him and which he furnished to the pupils), for his compensation, and that of Mrs. Pelton who assisted him."

At this point the history of the First Baptist Church written by John F. Pope, a member from 1849 will be quoted as far as it pertains to the work of Mr. Pelton. "On December 26, 1849, the first free public school was opened in the Church conducted by John C. Pelton and his wife; only three children were present, but by April 1, 1850, 130 children had received instruction.

On March 25, 1850, the following resolution was unanimously adopted by the Council of San Francisco: "Resolved, that from the 1st day of April, 1850, John C. Pelton and Mrs. Pelton, his wife, be employed as teachers for the public school, at the Baptist Church, which has been offered to the Council free of charge, and that the average number of scholars shall not exceed 100; and that they shall be entitled to a monthly salary, during the pleasure of the Council, of \$500 per month, payable each and every month."

The school continued to increase, having at one time nearly three hundred pupils in attendance. It continued to occupy the church building until the fire of June 28, 1851. Thus the first Protestant house of worship was the birthplace of the first free public school of California."

To continue the quotation from the annals of San Francisco. "In 1850, the original public school on Portsmouth Square was Vandalised \* \* \*.

In the meantime several other schools were started among them Mr. Osborn's Select School, which was patronized particularly by the Presbyterian Church; Rev. Mr. Preveaux's San Francisco Academy under the management of persons belonging to the Baptist Church; Dr. Ver Mehr's Episcopal Parish School; and several small primary schools in different portions of the city. In June, 1850, Col. T. J. Nevins, then agent of the American Tract Society for this Coast, applied to Messrs. Mellus and Howard, and obtained the free use of a building in Happy Valley at the corner of Mission and Second Sts. for school purposes, employing Mr. Samuel Neuton from Connecticut, as teacher, who opened, July 13, and conducted a school for a few months when his place was, for a short time, supplied by Mr. L. Rogers, and subsequently by Mr. Cooley and Hyde and who took charge of it until the Spring or Summer of 1851 at which time it was suspended \* \* \*. It was called the Happy Valley public school. From a small beginning it had increased to nearly 200 pupils. In January, 1851, Colonel Nevins procured a fifty vara lot at Spring Valley, on the Presidio Road, and erected, principally at private expense, a large and convenient building, employed a teacher and opened a free school, which during the first quarter was sustained wholly by voluntary contributions \* \* \*. The house and lot were leased to the city for free school purposes for ninety-nine years, for a rent of not less than \$700 for the entire time or about 57 cents per month. The situation is delightful being shaded by a grove of evergreens on a magnificent road, and sufficiently removed from the

noise and bustle of the living mass, to prevent their interference with useful study. Until the spring of 1854 it was the only school-house owned by the city \* \* \*. In the summer of 1851 the Boards of Aldermen appointed a Committee on Education, at whose request Colonel Nevins prepared a bill for "The establishment, regulation, and support of free common schools in the city," which without alteration, was passed by the Common Council and became a law on the 25th of Sept., 1851. This ordinance divides the city into seven school districts and provides for the erection and establishment of a free school in each district, making these schools public and free to all children and youths between the ages of four and eighteen years within their respective districts, and forbids in their control all sectarian influence or interference. It makes provision for raising a common school fund; for the annual election by the Common Council, of a Board of Education, to consist of one Alderman, one Assistant Alderman, two citizens and the Mayor who is ex officio a member and President of the Board. It gives to the Board of Education the power to elect a Superintendent of Schools and to provide for necessary buildings for school purposes; defines the duties of the Superintendent; constitutes the Superintendent and two members of the Board a committee for the examination of teachers; exacts a quarterly report from the Superintendent to the Board, and an annual report from the Board to the Common Council; and requires a quarterly meeting of the Superintendent and teachers to examine and discuss the best methods of imparting instruction and of conducting the schools to the greatest advantage.

The first Board of Education consisted of Hon. Charles J. Brenham, Alderman Chas. L. Ross, Asst. Alderman Joseph F. Atwill, General John Wilson and Henry E. Lincoln, Esq. On the 21st of October they appointed Col. T. J. Nevins Superintendent of Schools \* \* \*. These were the schools and teacher May 1, 1854.

District No. 1 Rincon Point established Jan. 8, 1852, 1st and Folsom Sts., teachers, Mr. J. Swett and Miss Rebecca W. Foster.

District No. 2, Happy Valley, Nov. 17, 1851, Bush and Stockton Sts., Mr. James Denman, Miss Anna E. Sanford, Mrs. E. Wright, Mrs. J. A. Hazelton and Miss Kennedy.

District No. 3, Central, Dec. 22, 1852, Washington between Stockton and Dupont, Mr. E. H. Holmes, Miss A. C. Park, Miss Harriet A. Hancke and Miss Mary S. Haynes.

District No. 4, Clark's Point, June 7, 1852, corner Broadway and Montgomery, Mr. Ahira Holmes, Miss Sophronia Allyne and Miss E. A. Pomeroy.

District No. 5, North Beach, Nov. 19, 1851, Washington Square, Mr. H. P. Carlton, Mrs. Olive P. Cudworth.

District No. 6, Spring Valley, Feb. 9, 1852, Mr. Jos. C. Morrill.

District No. 7, Mission Dolores, Feb. 10, 1852, Miss Clara B. Walbridge.

\* \* \* Male teachers receive \$150 a month; females \$100. During the first year the Superintendent was paid \$1,200 per year, but since then his salary has been \$2,400.

On Feb. 1, 1852, Supt. Nevins made his first quarterly report from which it appeared that 485 pupils had attended the five schools then organized. On Nov. 1st, 1852, 791 were at school while the census showed 2,050 between the ages of 4 and 18 residing in the city. August, 1853, there were 1399 at school, the number of children in the city being 2,730.

Mr. William H. O'Grady succeeded Col. Nevins as Superintendent in October, 1853. On May 1, 1854, 1,574 pupils were in the school, 901 boys and 673 girls \* \* \*. Besides the seven public schools there are in San Francisco (1854) 27 private school with an attendance of 947 pupils. Therefore the aggregate number of schools in the city is now 34; the whole number of teachers 62, 30 being men and 42 women; and the total number of scholars

1,305 boys and 1,216 girls or in all 2,521. In 1854 the friends of the San Francisco Academy, now called the English and Classical High School, dedicated a new school building on Powell Street south of Jackson which was the first substantial structure in this city built expressly for educational purposes. Its teachers are Mr. F. E. Prevaux, Prof. A. J. Segueria, Mrs. I. H. Purkitt, Miss H. R. Barlow and Miss S. L. Larkin and Miss W. E. Stowe \* \* \*. The floating population has hitherto much embarrassed public school enterprise \* \* \* Those who have steadily attended have made rapid and commendable improvement. Their teachers are proficient, liberal, benevolent, zealous and indefatigable in the discharge of their duties. The climate is the most salubrious in the world and well adapted for the highest mental exertion and efficiency. The school bell now echoes through the streets of the busy city and the astonished stranger meets groups of bright and smiling faces merrily trudging to their daily task and ere long may listen to learned professors expounding to classes of intelligent students, art, literature and science as completely and perfectly as can be heard in the most time honored institutions of the world.''

(For statistics of school attendance, population, expenditures from the year 1850, see page 20 and 21 of this report.)

## NECROLOGY.

- Miss Effie Douglas, Hamilton school; died April 23, 1906.  
 Miss Barbara Bannon, Emerson school; died June 5, 1906.  
 Mr. J. W. Gorman, Lincoln Evening school; died July 31, 1906.  
 Miss A. L. Hornsby, Laguna Honda school; died October 24, 1906.  
 Miss M. M. Murphy, principal Irving M. Scott school; died Dec. 24, 1906.  
 Mr. Madison Babcock, vice-principal Hancock school, ex-superintendent public schools; died December, 1906.  
 Miss Emma Stincen, principal Grattan school; died January 29, 1907.  
 Miss Leah C. Peckham, Laguna Honda school; died February 11, 1907.  
 Mr. J. B. Clarke, Polytechnic High school; died March, 1907.  
 Miss Helen Thompson, Girls' High school; died December 17, 1907.  
 Miss Josephine C. Evans, McKinley school; died February 5, 1908.  
 Mrs. M. E. Steele, Hearst school; died June, 1908.  
 Miss Margaret O'Brien, Sherman school; died August 13, 1908.  
 Miss L. R. Cullen, Burnett school; died September 3, 1908.  
 Miss Katherine Gaines, Winfield Scott school; died October 2, 1908.  
 Miss Adelaide C. Cherry, Redding school; died October 26, 1908.  
 Miss Rose Prince, Portola school; died October 31, 1908.  
 Mrs. Anne Armstrong, Noe Valley school; died November 20, 1908.  
 Miss S. M. Boniface, Hamilton school; died March 25, 1909.  
 Miss Mary Phillips, Agassiz school; died April 11, 1909.  
 Mrs. Georgia Washburn, principal Henry Durant school; died April 17, 1909.  
 Mrs. Anna M. Kortick, Burnett school; died May 3, 1909.  
 Miss Nell O'Hara, Marshall school; died May 27, 1909.  
 Mrs. M. B. Thompson, Starr King school; died June 25, 1909.  
 Mme. Ernestine Giffard, Bryant school; died July 24, 1909.  
 Mr. Leslie A. Jordan, ex-Deputy Superintendent of Schools, Lincoln Evening school; died July 30, 1909.  
 Mrs. Ellen R. Kenzla, Washington Evening school; died August 4, 1909.  
 Miss Lucy McNear, Bryant Cosmopolitan Primary; died January 21, 1910.  
 Mrs. V. C. Ingram, Peabody school; died March 10, 1910.  
 Miss Minnie R. Bley, Agassiz school; April 1, 1910.  
 Miss Mary L. Marks, Bernal school; died April 20, 1910.  
 Mrs. M. A. Steele, Edison school; April 25, 1910.  
 Mr. George Foulks, principal Hamilton Evening school; died June 7, 1910.  
 Mrs. J. B. Levey, Hearst Grammar school; died July 25, 1910.  
 Mrs. Cora B. Tompkins, Moulder school; died October 8, 1910.  
 Miss Katherine E. Meighan, Fairmount school; August 31, 1910.  
 Mr. A. C. Kinne, Lincoln Evening school; died October 6, 1910.  
 Miss Laura C. Perry, Lincoln school; died October 26, 1910.  
 Mrs. Clara Bigelow, vice-principal John Sweet Grammar school; died December 6, 1910.  
 Mr. Azro L. Mann, principal Denman Grammar, Superintendent of Schools 1878-1879; died February 23, 1911.  
 Mr. Ebenezer Knowlton, formerly principal of Rincon Grammar school, vice-principal of Lincoln Grammar and teacher in Boys' High, Commercial and Roosevelt Evening schools; died February 9, 1911.  
 Mr. John C. Pelton, founder of the first free public school in San Francisco or California, December, 1849; principal grammar schools, Superintendent of Schools 1856, 1857, 1865, 1866, 1867; died March 5, 1911.  
 Mr. William A. Leggett, vice-principal Franklin school; died March 31, 1911.  
 Miss Martha Galloway, principal Visitacion Valley school; April 5, 1911.  
 Mrs. Rebecca Greenan, Lincoln Evening school; died April 12, 1911.

Mr. W. N. Bush, formerly teacher Lowell High and principal Polytechnic High schools; died May 21, 1911.

Mrs. M. S. Wright, Frank McCoppin school; died March 9, 1911.

Miss Emily Wickman, Jackson school.

Miss A. Weed, Washington school; died October, 1911.

Miss E. J. Moynihan, Horace Mann school; died December 31, 1911.

Mrs. M. J. Parolini, principal Cleveland school; died January 10, 1912.

Mrs. M. H. Walker, principal Marshall school; died January 22, 1912.

Miss G. F. Libby, Bernal school; died February 7, 1912.

Miss M. K. Gavigan, Portola school; died March 9, 1912.

Miss M. A. Deane, formerly principal Redding School, member Board of Education; died March 20, 1912.

Mrs. A. M. Sechrist, Laguna Honda school; died April 24, 1912.

Miss H. B. Fairweather, Rochambeau school; died May 23, 1912.

DECEASED ANNUITANTS.

Miss E. A. Cleveland, April, 1906; Miss H. M. Fairchild, May 14, 1906; Miss Flora McDonald Shearer, February 12, 1907; Mrs. C. M. Sisson, June 16, 1907; Mrs. L. G. Webster, November 17, 1907; Miss Helen Thompson, December 7, 1907; Mrs. E. M. Steele, June 15, 1908; Mrs. E. M. Poole, November 23, 1908; Miss Margaret J. Gallagher, November 30, 1908; Miss C. A. Templeton, January 1, 1909; Mrs. M. E. Caldwell, March 9, 1909; Miss L. C. McNear, January 24, 1910; Miss L. E. Ryder, February 18, 1910; Miss M. J. Bragg, June 15, 1910; Mrs. S. A. Miles, April 12, 1912; Mrs. Mary A. Hogan, April 21, 1912; Mrs. Christine Chalmers, June 26, 1912; Professor Adolph Herbst, October 2, 1912; Mr. Paul A. Garin, November 30, 1912.

Receipts for fees .....	2,219

## MONEYS RECEIVED.

Fees for wire inspection, Ordinance No. 1008 .....	\$12,682.45
Fees for electric sign permits, Ordinance No. 1009 .....	539.90
Fees for fire tapper service, Ordinance No. 698 .....	840.80
Total amount for fees.....	\$14,063.15
Housemovers' refundment .....	188.20
Total .....	\$14,251.35

During the fiscal year ending June 30, 1912, the work mentioned below was performed:

On each of the fire boats, an auxiliary lighting system was installed, permitting said boats, while lying at the dock, to use current from the public service corporations.

There were built two new fire alarm box signal lines, approximating twenty-two and one-half miles in length, on which were installed and placed in service forty-three new fire alarm boxes.

The burglar alarm system, running from the City Treasurer's vaults and offices, was reconstructed and the wires transferred to new underground cable, thereby improving the efficiency of the service to a marked degree.

Two exhibits of the fire-alarm apparatus manufactured by the department were made during the exhibitions given by the Manufacturers' Association and the Home Industry League, held at the Auditorium and Emporium, respectively.

The quarters of engine companies Nos. 30 and 33 were re-wired for signal equipment and electric lighting.

New instrument boards, with the necessary wiring, were installed in the quarters of engine companies Nos. 20 and 35 and of water tower No. 2.

In order to equip new engine houses Nos. 42 and 43, the tapper and joker circuits were extended and new signal boards and instruments installed.

A street traffic signal system was installed on Market Street, putting into service, at the following street intersections, an iron standard containing a large warning bell surmounted by a red electric light: Second, Third, O'Farrell, Fourth, Fifth and Sixth streets. The system is operated from the central fire alarm station. When the Fire Department is running upon or crossing Market street, between the intersections mentioned above, the bells and lights are operated to warn traffic to clear the streets.

The police signal systems in the Park and Richmond districts were reconstructed and revised. Each station now has control of police signal boxes within its district. In the Richmond police district, a new type of station-board was installed, as well as an open circuit signaling system, including a common battery for telephones. Twenty additional police boxes were also added to the system.

In the Olympic Club building, a fire alarm bell and register were installed for the accommodation of Fire Department officials when using the gymnasium and baths.

Plans were finished for the installation of a complete police signal system for the central police district, covering the territory bounded by Hyde to Battery and north of Market street. Included in these plans are wires and cable to accommodate fire alarm boxes. These signify that, when the system is installed, the present overhead wires will be removed from said underground district.

During the year tests and inspections were made on fire alarm boxes to the number of 5736. Fifty-six new fire alarm boxes were installed and placed in service. Sixty-four fire alarm box locations were changed or transferred to other circuits and 447 fire alarm boxes were painted a bright vermilion and varnished.

Two thousand four hundred and seven miscellaneous complaints were attended to, 54 new bells were installed and 95 changes made in residences of firemen. There were also removed 69 bells.

Fire alarm box doors to the number of 76 were replaced with doors containing a permanent key protected with a glass guard, which obviates the necessity of hunting a key to turn in an alarm of fire, thus saving many valuable minutes in calling the Fire Department.

There were repaired 369 miscellaneous pieces of line trouble.

A constant inspection of new and old overhead wire construction was maintained. One hundred and seventy-one specifications for overhead wire construction were filed, 61 approval permits were issued and 206 complaints of violations of Ordinances Nos. 214 and 621 were corrected.

#### MACHINE SHOP.

In the machine shop there were manufactured 50 fire alarm boxes, 56 fire alarm box flush doors, 25 fire alarm box contacts, 30 fire alarm box cutouts, 7 fire alarm box number plates, 5,247 fire alarm box key guard glasses, 600 fire alarm box keys for outside shells, 70 fire alarm box keys for inside shells, 10 fire alarm box winding keys, 50 fire alarm box master keys, 100 sets of fire alarm box binding posts, 30 letgoes, 6 letgo covers, 12 harness hangers, 7 galvanometers, 2 volt meters, 6 street-crossing signal standards (fitted in shop), 1 contact switch, 1 master contact key, 5 engine house stall plates, 350 fuse clips, 1 40-terminal fuse-board, 120 municipal police box keys, 100 letgo springs, 39 14-wire terminal strips, 4 13-wire terminal strips, 1 12-wire terminal strip, 2 10-wire terminal strips, and 14 3-wire terminal strips.

There were rebuilt 6 letgoes. Thirty-three Gamewell police box movements were changed to open circuit and 56 flush doors were attached to fire alarm boxes.

There were repaired 97 fire alarm boxes, 1 fire alarm box key door, 28 fire alarm box relays, 1 fire alarm box lock, 16 fire alarm box Bell doors, 1 fire alarm box California door, 24 fire alarm box auxiliary attachments, 23 Gamewell police boxes, 2 Gamewell police box locks, 72 engine-house registers, 9 engine-house register cases, 251 letgoes, 12 tapper relays, 38 8-inch single stroke bells, 12 6-inch single stroke bells, 19 5-inch single stroke bells, 9 4-inch single stroke bells, 3 engine-house clocks, 84 pony relays, 1 automatic switch, 4 remote control switches, 8 take-up reels, 1 ammeter, 3 volt meters, 5 galvanometers, 12 telegraph sets, 1 perforating register, 1 hand telephone set, 2 police-station sounders, 3 fire alarm office relays, 15 Sechrist switches, 7 2-pen registers, 8 4-pen registers, 2 burglar alarm boxes in Treasurer's office, and 58 miscellaneous jobs. There were also 14 fire alarm box auxiliary repairs and 65 tool repairs.

#### RECOMMENDATIONS.

Your attention is respectfully called to the necessity of a new central fire alarm station. The present station is located in a Class "C" building and the danger of fire is ever present. Too little consideration is given to the importance of housing this valuable adjunct to the Fire Department's service. The loss of this station would badly cripple the efficiency of the Fire Department, as, without this service, said department would have no way of knowing when a fire occurs. The present station equipment is by no means modern. It consists of wooden switch-boards, common electric light switches, obsolete relays, registers, etc. In fact, it is a duplication of the emergency office established after the great fire of 1906. While it has given excellent service, it

is not good policy or practice to add to it in keeping pace with the growth of the city.

Sufficient funds should be set aside to erect a modern fire-proof structure in an isolated location, and a modern equipment, possible to be added to in future expansion and should be installed. Jefferson square would be an ideal location on which to erect a building such as described above; viz: one story in height, made of stone or cement, with steel frame, containing a deep basement to accommodate battery racks and dynamo plant for the purpose of supplying electric current to the fire alarm system.

Another building could be provided at a lesser cost to accommodate the machine shop and supply department.

With such a plant centrally located, the fire alarm wires could be placed underground and thereby make the system fire and earthquake proof.

It is also recommended that a system of re-inspection of electric wiring in buildings be inaugurated by the employment of an additional inspector for that purpose.

Money for the purchase or manufacture of more fire alarm boxes, which are badly needed, should be provided; also money to rehabilitate the police signal system in several police districts. All wires of both the fire alarm and police systems should be placed underground.

In conclusion, I desire to commend the employes of this department for the careful and efficient manner in which they have performed their respective duties during the past year.

I also extend my appreciation to the officers and members of the Fire and Police departments for the many courtesies received.

Respectfully submitted,

Chief, Department of Electricity.

# Tax Collector's Report

San Francisco, Cal., July 26, 1912.

Hon. James Rolph, Jr.,  
Mayor, San Francisco.

Dear Sir:—In accordance with the provisions of Section 9 of Article XVI of the Charter, I beg to hand you herewith statement of the business of the Tax Collector's Office in the Departments of Property Tax Collections and License Tax Collections for the fiscal year 1911.

This period is covered by the administration of the late Tax Collector, Mr. David Bush.

In April, 1911, the Tax Collector estimated for the Honorable Board of Supervisors that the total Collections from Licenses for the fiscal year 1911 would amount to .....

.....	\$1,220,000.00
The actual amount collected as per report was, however.....	1,237,774.85
Being in excess of estimate .....	17,774.85
Receipts from Retail Liquor Licenses during the fiscal year 1911 were less than for fiscal year 1910, in the amount of.....	18,000.00

It will therefore be seen that the Collections during the fiscal year 1911 from sundry other licensed occupations, have been actively enforced, thus overcoming the shortage in Retail Liquor License receipts and effecting, in addition, a gain over estimate.

Respectfully submitted,

J. O. LOW, Tax Collector.

## ANNUAL REPORT FOR THE FISCAL YEAR 1911—DAVID BUSH TAX COLLECTOR.

## REAL ESTATE—FIRST INSTALLMENT

	CR.	DR.
To Total amount charged, Real Estate Taxes, First Installment.....	\$4,131,315.55

# Report of Board of Health

San Francisco, Cal., October 17, 1912.

Honorable James Rolph, Jr.,

Mayor, City and County of San Francisco.

Sir:—In accordance with Article 9 of Section 16 of the Charter of the City and County of San Francisco, I have the honor to submit a report of the Department of Public Health for the fiscal year ending June 30th, 1912.

During the first half of the fiscal year the Board of Health was composed of the following members.

Dr. George L. Eaton, President, Dr. Henry D. Brusco, Dr. Guy E. Manning, Mr. Frank J. Klimm, Mr. D. J. Murray, Mr. Germain Pouchan and Mr. A. M. Sharp. The following was the personnel of the various committees.

## BUILDING COMMITTEE.

A. M. Sharp, Chairman; Frank J. Klimm and G. Pouchan.

## FINANCE COMMITTEE.

Mr. G. Pouchan, Chairman; D. J. Murray and A. M. Sharp.

## HOSPITAL COMMITTEE.

Henry D. Brusco, M. D., Chairman; Guy E. Manning, M. D. and Germain Pouchan.

## SANITATION AND LEGISLATION COMMITTEE.

F. J. Klimm, Chairman; H. D. Brusco, M. D., and D. J. Murray.

## JOINT COMMITTEE BOARD OF EDUCATION AND BOARD OF HEALTH ON SCHOOL MEDICAL INSPECTION.

Dr. Guy E. Manning.

On December 19th, 1911 in pursuance to a judgment and decree given by Judge Seawell in the Superior Court Thomas W. Huntington, M. D., George B. Somers, M. D., Joseph E. Cutten and A. H. Barendt were re-instated as members of the Board of Health in lieu of Henry D. Brusco, M. D., George L. Eaton, M. D., Germain Pouchan and A. M. Sharp respectively. Mr. A. H. Barendt was appointed President, and Dr. R. G. Brodrick, Health Officer. On December 22d the term of Joseph E. Cutten as member of the Board of Health expiring, Mr. A. M. Sharp was appointed to fill said vacancy on the thirtieth day of December 1911. The President assigned the members to the following committees.

## BUILDING COMMITTEE.

G. B. Somers, M. D., Chairman; F. J. Klimm and D. J. Murray.

## FINANCE COMMITTEE.

A. M. Sharp, Chairman; G. B. Somers, M. D. and D. J. Murray.

## BOARD OF HEALTH

## HOSPITAL COMMITTEE.

T. W. Huntington, M. D., Chairman; G. B. Somers, M. D. and Guy E. Manning, M. D.

## SANITATION AND LEGISLATION COMMITTEE.

Guy E. Manning, M. D., Chairman; A. M. Sharp and F. J. Klimm.

JOINT COMMITTEE BOARD OF EDUCATION AND BOARD OF HEALTH ON  
SCHOOL MEDICAL INSPECTION.

Guy E. Manning, M. D.

## DISABILITY COMMITTEE.

A. H. Barendt, Chairman; G. B. Somers, M. D. and Guy E. Manning, M. D.

This new committee was formed by virtue of the following resolution:

There is hereby established and created a "Disability Board" to be composed of three members of the Board of Health, two of whom shall be physicians. The duties of said "Disability Committee" shall be to carry into effect the following rules regulating employes in the Department of Public Health.

All employes shall be required to undergo physical examination before being formally appointed by the Board of Health.

The City Physician shall make such physical examinations with the exception of employes assigned to the Field Force of the Central Office who shall be examined by the Chief Sanitary Inspector, and women employes who shall be examined by the woman physician of the Relief Home.

Printed forms to be used by medical examiners in such examinations to be prepared by the Health Officer.

Civil Service probationers shall be required to pass a second physical examination before permanent appointment is confirmed.

All employes who may absent themselves on account of illness for a period exceeding seven days shall be visited by the City Physician who will make a report to the Health Officer of the nature of the illness, accident or disability and probable duration of same. In the case of institutional help, the heads of each institution will make such report.

If any employe has been absent from this Department for a period exceeding thirty days in each fiscal year, a report shall be filed by the Health Officer with the Disability Board who will thereupon make a full investigation and submit a report of their findings and recommendations to the Board of Health.

All applications for sick leave covering a period of one month shall be referred to the Disability Board before being formally acted upon by the Board of Health.

Employes may at any time on recommendation of the Health Officer be required to appear before the Disability Board after physical examination by the City Physician if in the judgment of the Health Officer such procedure be deemed necessary.

Said Disability Board is herewith empowered to add such rules and regulations that they may see fit for the proper conduct of this work.

On June 8, 1912, Dr. A. P. O'Brien was appointed a member of the Board of Health vice Dr. Thomas W. Huntington, resigned, and was assigned to the Committees on which Dr. Huntington had been serving.

## POPULATION.

The population of San Francisco as given by the Federal 1910 Census was 416,912. At this time we can safely estimate on 475,000 people, and on this last figure we base our calculations of the annual birth and death rate. In many cities there is a system of enumeration by the Police Department and the instructions usually given require the enumerators to consider as permanent residents persons "whose regular business is in the city though they may sleep outside or be absent temporarily." The result of this system works in the direction of abnormally increasing the returns, and while this city does not follow this practice, the custom of adding six percent per year to the population, which is in vogue in many cities, has been followed out in figuring the "estimated" population.

## BIRTHS AND STILL-BIRTHS.

The number of births registered during the fiscal year totals 6,999, an increase of 363 over the previous fiscal year. This is not a remarkable showing and we feel quite certain that many births occur that do not find place upon the records of the Health Department. Of the total number registered 3,629 were males and 3,370 were females. 6,684 were white, 27 black, 143 Chinese and 145 Japanese. 361 still-births were registered, 205 males, 156 females. These are not included in the birth or mortality tables.

The annual birth rate for the fiscal year (exclusive of still-births) was 14.73 per 1,000 population.

## MORTALITY FIGURES.

6,769 deaths were recorded or 230 less than there were births registered.

The death rate per 1,000 of population during the year was 14.25. For the fiscal year 1910-1911 the rate was 13.59, the total number of deaths reported in that period being 6,356. The increase in the number of deaths appears to be normal, as the constant addition to the population naturally brings with it an increased mortality.

Of the total deaths registered 4,187 were males, 2,582 were females. 6,387 white, 58 black, 272 Chinese, and 52 Japanese. 1,036 were natives of San Francisco, 1,107 other parts of California, 1,367 other States and 3,080 foreign. 179 were of unknown nativity.

A detailed statement concerning the mortality of the year appears in the appendix, and reference to that report should be made for statistical information further than has here been given.

## GENERAL MORTALITY.

The following is a list of the mortality of the "reportable" diseases.

Tuberculosis of the Lungs .....	677
Tuberculosis (other forms) .....	153
Pneumonia (Lobar) .....	396
Diphtheria .....	29
Measles .....	69
Scarlet Fever .....	3
Typhoid Fever .....	69
Whooping Cough .....	23
Rabies (Human) .....	3

Deaths from other causes in the relative order of their importance were as follows:

Organic diseases of the Heart .....	958
Cancer (all organs) .....	486
Bright's Disease .....	433

Broncho Pneumonia .....	225
Diseases Early Infancy (excluding gastro-intestinal)....	233
Old age .....	96
Deaths from external causes .....	601

#### INFANT MORTALITY.

The number of infants born alive during the year was 6,999. During the same period 233 infants under the age of one week died, principally from causes incident to birth. 172 infants between the ages of one month and two years died from gastro-intestinal disturbances. A total of 405 under the age of two years, or 17% of the number born. The mortality from gastro-intestinal diseases is very slight compared to the general mortality, being less than one-fifth of one percent. It is generally conceded that deaths of infants from these causes are due to improper feeding or to impure milk. From the ratio as here stated it would appear as if this City has not the same problem to grapple with insofar as infant mortality is concerned as other places less favorably situated where climatic conditions, especially during the summer months, work terrible havoc among the infant class.

#### COMMUNICABLE DISEASES.

The number of cases reported to this department are shown in the following table, which is arranged for easy comparison with the mortality figures.

Tuberculosis of the Lungs .....	1,257
Lobar Pneumonia .....	532
Diphtheria .....	243
Measles .....	4,582
Scarlet Fever .....	281
Typhoid Fever .....	280
Whooping Cough .....	415
Smallpox .....	46
Varicella .....	651

The foregoing are considered to be of the most importance. A full report of all communicable diseases registered is contained on page 632.

A comparison between the morbidity and mortality tables furnished herein shows 54% of deaths of all cases of Tuberculosis reported; Pneumonia 75% Diphtheria 11%; Measles one-sixth of one per cent; Scarlet Fever shows but 3 deaths out of 281 cases reported; Whooping Cough 6%; Typhoid Fever 25%. While 46 cases of Smallpox were recorded, no deaths occurred from this disease.

#### TUBERCULOSIS.

This disease caused 830 deaths or about one-twelfth of the total mortality, of which 677 were due to Tuberculosis of the Lungs. The mortality from this disease exceeded that of Lobar Pneumonia, Typhoid Fever, Diphtheria, Scarlet Fever, Measles, Whooping Cough and old age combined.

The deaths according to years were as follows:

10%	under 5 years of age.
6½%	between 5 and 20 years.
65%	between 20 and 50 years.
17%	over 50 years.

It will be seen from these figures that this disease is chiefly one of middle life, more than one-half of the deaths occurring between the twentieth and the fiftieth year, the active working period. On the other hand, Cancer and Organic

Heart Disease, which claim many victims, occur chiefly in later life, and the mortality from Diphtheria, Measles, Scarlet Fever and Whooping Cough is usually during childhood.

The comparative mortality from Tuberculosis according to races was as follows: Whites, 11%; Negroes 24½%; Chinese 25%; and Japanese 37½%.

Since the passage of the Tuberculosis Ordinance in 1908, physicians are reporting their cases to the Health Department, 1,257 having been recorded during the past fiscal year. The measures adopted by this department to prevent the spread of the disease, such as information furnished patients, disinfection of premises, etc., is no doubt accountable for the decreased mortality during the past five years, there being—

729 deaths in 1907-1908
689 deaths in 1908-1909
706 deaths in 1909-1910
702 deaths in 1910-1911
677 deaths in 1911-1912

The erection of the new Tuberculosis Hospital marked a great advance in the proper treatment of the Tuberculous. As this is the only hospital in San Francisco where sufferers from this disease are admitted, the same should be maintained on a much higher plane than the average municipal hospital.

The control of Tuberculosis is essentially one for governmental supervision and bears a close relationship to faulty housing conditions. For this reason many States, including California, have enacted tenement house laws requiring Health Departments to approve the lighting, ventilation, plumbing and other sanitary features of buildings before construction. Further, to issue permits of occupancy and inspect these buildings frequently after same are occupied. The City Attorney recently stated that it is the duty of this department to enforce the State Tenement House Law, but I regret that owing to lack of funds to employ the force necessary, this work so essential to the health of the community could not be undertaken.

#### TYPHOID FEVER.

280 cases of this disease were reported during the year, 182 being of local origin. In the months of August and September 1911 a suspiciously large number of cases appeared to be developing in the southern part of the City known as the Excelsior Homestead District, close to Ocean View. An investigation was started with the result that a focus of infection was located, and extracts from the report given herewith will indicate the findings.

“In reference to Typhoid Fever in the southern part of the Excelsior Homestead District, permit me to inform you that the presence of the disease in this district did not become alarming until October 2d, on which date a careful examination of said district was made and the source of infection located in a dairy in the vicinity. Upon investigating this dairy, it was found that one of the milkers was an ambulatory case of Typhoid and that he was infecting the milk from the cows which he was handling. On the confirmation of the diagnosis of Typhoid Fever in this individual, he was immediately removed to the County Hospital. All milk utensils, tanks, buckets, etc. were thoroughly boiled and the udders of all the cows on the dairy were properly washed and sterilized under instructions from the Dairy Inspector of this Department. The water in the well on the premises in question was tested bacteriologically for Typhoid and found negative.”

The records show that a total of 34 cases originated directly from this one ambulatory case, all of these occurring between the dates of September 1st and October 19, 1911. Of these 34 cases, 24 are known to have occurred in

persons who were patrons of the dairy in question, using milk delivered directly from the ranch: 10 cases were those of actual contacts or of those using milk purchased from various groceries, delicatessens, etc., who received their milk supply from the same dairy. That the precautions taken were productive of good results can best be verified by the statement that in November 1911 but 10 cases of this disease were reported.

In the months of May and June 1912, another invasion of this disease made itself apparent by the development of numerous cases in what is known as the Potrero District in the southern part of the City, particularly in an area of several well populated blocks, entirely lacking in sewer facilities, the plumbing fixtures of many dwellings draining into cesspools dug out of almost solid rock, these rapidly filling to overflowing and discharging their contents over the surrounding sloping surface area. Undoubtedly the source of origin of many of the cases which developed in this locality (53 in number) can be safely attributed to the insanitary surroundings as herein described, though investigation pointed strongly to possible milk infection, as in tracing the history of these cases it was found that a certain dairy depot was supplying many families wherein the disease occurred and likewise was furnishing milk to several restaurants where some of the victims were in the habit of eating. Acting on the side of precaution, this department took the necessary steps to improve the sanitary condition of the dairy depot in question in order to insure the proper handling of its products and thus tend to minimize the possibility of danger of infection from this source. A joint sanitary survey of the affected locality was made by the officials of this department together with the engineers of the Board of Public Works with the result that public proceedings have been instituted to install the necessary main sewers in this district and the discontinuance of the use of cesspools, which are a constant menace to health, will no doubt tend to prevent a recurrence of a similar epidemic. Further investigation of this outbreak revealed the existence of many overflowing cesspools draining to a common center forming a mire of filth, and water pipes exposed in this mass were found broken in several places, caused by vehicles passing over them, thereby permitting direct contamination of the water supply. Garbage, refuse and other decaying animal and vegetable matter littered the streets and flies were very numerous.

Measures were at once taken to improve hygienic conditions by the free use of chloride of lime and cresol compound which were generously employed to disinfect the polluted surface area of streets and yards, and a liberal supply of both of these preparations were given to the residents of the district with instructions not to be sparing in its distribution.

Directions were given relative to construction of proper cesspools (the district being unsewered) and printed notices relative to danger from contact, flies, etc., were delivered to all householders.

Special attention was given to the water supply of the locality affected, with the result that storage reservoirs were thoroughly cleansed and a special tank was installed in order to increase the pressure.

The conclusions arrived at in this endemic are as follows:

1st. That all of the cases in this locality were indirectly, if not directly traceable to milk infection, which infection may have been transient in its nature and which occurred sometime in May and continued through to the middle of June.

2nd. That water was not a factor as far as local cases were concerned.

3rd. That a large number of the cases, excepting the simultaneous dates of onset, could be justly classed as direct "contacts."

4th. That flies as carriers in this outbreak can safely be excluded because of the small per cent of cases that might be indefinitely traced to such source.

5th. That from the mildness of the cases and the repeated negative Widal's, stool and urine reactions, and the rapid recoveries, there has been an element of doubt in the minds of the attending physicians as to the correctness of diagnosis in many cases.

In connection with this disease a somewhat perplexing condition was presented in November 1911 owing to the occurrence of cases on the Steamer "Acme," plying between San Francisco and Eureka, Cal., and engaged in the lumber and merchandise trade. 18 cases of Typhoid had developed on this vessel within 18 months. Repeated inspection of the steamer, bacteriological tests of the water and food stuffs, absolutely failed to reveal anything that would indicate a source of origin. One of the members of the crew, who had been attached to the vessel for a period of over three years and who had a history of typhoid infection, voluntarily permitted himself to become an inmate of the City and County Hospital in order to give an opportunity to examine his blood, feces, etc., for traces of the bacillus, it having been suggested that perhaps as an ambulatory case he was transmitting the disease to others. All of the tests known to bacteriological science were made in this case without result. The matter was placed in the hands of the State Health Officials with a view to taking exhaustive measures in an effort to locate the focus of infection. The officials of the State Board made sanitary surveys of the ship and found that repeated attempts had been made by the owners to interrupt the series of typhoid cases by such measures as replacing the water tanks, and rendering the fore-castle more sanitary. The toilets were in a filthy condition but were subsequently improved by the installation of modern appliances. The danger of conveyance of infection by flies was probably very slight while the ship was at sea, but considerable when she was tied up at fly-infested wharves. The food supply contained no fresh milk. Raw vegetables were used to a certain extent. Other ships buying supplies in the same market were comparatively free from typhoid. The common drinking supply aboard the ship was a barrel that lay on its side and water was obtained by dipping into the dark barrel through a small square aperture with a common battered drinking cup. It is apparent that the hands of the crew would be wet while obtaining water from this cask and that the drinking water would thus be contaminated. Water from each supply was examined at the laboratory. Colon Bacilli were absent except in one or two examinations. Efforts were then made to detect the possible "carrier" and this narrowed down to the suspect originally tested out by the local Health Board, and in tracing down the record of the cases admitted to the U. S. Marine Hospital in San Francisco, it was learned that this suspected carrier was apparently responsible for one-fourth of all the cases of typhoid admitted to that institution and one-third of the deaths that occurred from the disease. A conference was held among the officials of the State Board of Health, the Health Officer of San Francisco, the surgeon of the U. S. Marine Hospital and the Director of the Hygienic Laboratory at Berkeley and a representative of the steamship company. As a result the typhoid carrier entered the Marine Hospital for treatment and was there placed in quarantine under date of March 19th, 1912 and was treated with a typhoid vaccine prepared in the laboratory of the service. Examinations for a time showed the continued presence of typhoid bacilli but they eventually proved negative and treatment was continued for a period of several months. Since the detention of this carrier no further cases of this disease have developed.

#### RABIES.

For the first time in the history of this city, Rabies made its appearance in the month of October 1911, when Veterinarian K. O. Steers reported that a fox-terrier under his care developed the symptoms of this disease. The body of the dog was sent to the State Hygienic Laboratory at Berkeley and upon the

brain being examined by Director W. A. Sawyer, large numbers of the characteristic "Negri Bodies" were found.

On February 2, 1912 the first of twenty-two cases which occurred during that month was reported and immediate steps were taken to prevent the spread of the disease. A conference was held at the Health Office, at which were present representatives of the State Board of Health, Federal Health Service, Society for the Prevention of Cruelty to Animals, the Board of Supervisors, Veterinary Surgeons, representatives of kennel clubs and others interested in dogs. It was determined that it was necessary to control a large number of homeless dogs throughout the City and further to require that all dogs when on the public streets be kept under proper restraint. The following proposed ordinance was drafted and submitted to the Board of Supervisors, and passed by said body on March 18, 1912:

ORDINANCE NO. 1828 (New Series).

Requiring the Muzzling of Dogs.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Every dog not kept within a sufficient enclosure or led and controlled by a line, rope or chain, or not being effectually muzzled so as to prevent such dog from biting persons or animals, is hereby declared to be a menace to public health and safety.

Section 2. Every person owning or having control of any dog shall effectually muzzle it so as to prevent it from biting persons or animals, provided, however, that no dog need be muzzled while kept within a sufficient enclosure or led and controlled by a line, rope or chain. All muzzles shall be properly adjusted and shall be of a design approved by the Department of Public Health.

Section 3. Every dog not kept within a sufficient enclosure or led and controlled by a line, rope or chain, or not muzzled, as required by the provisions of Section 2 hereof, shall be immediately impounded in the public pound by any peace officer or the poundkeeper.

Section 4. Every person violating any of the provisions of this Ordinance shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than fifty (50) dollars or by imprisonment in the county jail for not more than fifty (50) days or by both such fine and imprisonment.

Section 5. This Ordinance shall take effect immediately and be and remain in full force and effect up to and including the first day of July 1912.

Finally passed, Board of Supervisors, San Francisco, March 18, 1912.

J. S. DUNNIGAN, Clerk.

Approved, San Francisco, March 20, 1912.

JAMES ROLPH JR., Mayor.

Following the adoption of the above ordinance, linen tags were prepared and printed as follows:

"To the Owner:—This dog is not effectually muzzled and the muzzle is not the design approved by the Department of Public Health as required by Section 2 of Ordinance 1828.

The design approved by the Department of Public Health is the basket-shaped muzzle which, while permitting free movement of the jaws, prevents the dog from biting. The owner is liable for failure to comply with above requirements.

Any further information will be furnished by the Department of Public Health, 1085 Mission Street, phone Market 1491; Home phone J 3281."

(On the reverse side of tag was printed copy of Ordinance 1828).

These tags were distributed to the captains of police with request that the same be attached to the collar of any dog ineffectually muzzled so that its owner might be notified that the number of dog license had been noted by the officer and if the owner continued violation of the ordinance, same would result in arrest. Printed information regarding Rabies was published and given to persons reported to have been bitten by suspected animals, receipt for the same being obtained.

Steps were taken to notify the general public of the necessity of reporting to the Health Department all cases of dog bites and urging the advisability of persons bitten submitting to the Pasteur Treatment in cases where the bacteriological examination of the brain tissue of dogs inflicting the wound revealed that they had Rabies. The anti-rabic virus obtained from the United States Public Health Service through the State Hygienic Laboratory was supplied to all indigent cases.

The following is a record of the epizootic from October 10, 1911 to June 30, 1912.

Date.	Human	Canine	Bovine	Feline	Total
October .....		1			1
February .....		21			21
March .....	2	41		1	44
April .....		68	2	1	71
May .....		44			44
June .....	1	32		1	34
Total .....	3	207	2	3	215

The Society of Prevention of Cruelty to Animals, which controls the Public Pound, co-operated to the utmost with this Department. Extra wagons were placed in operation during the months of February, March and April and thereafter an automobile truck was purchased to be used for collecting homeless and unlicensed dogs. A record of their operations is herewith appended.

Date.	Dogs Impounded.	Dogs Destroyed.
February .....	1,045	799
March .....	1,309	1,011
April .....	1,133	869
May .....	761	670
June .....	839	494
	5,097	3,843

The outbreak is now well under control but active measures must be continued for some time in this City as well as other parts of the State before the disease can be eradicated.

#### MEASLES.

An epidemic of measles began in October 1911 with 208 cases. In November 245 cases were reported, in December 476, in January 1,028 and in February 1,160. March began to show a rapid decline with 836 cases to its credit and in April the figures dropped down to 250; May showed 91 cases marking the end of what was considered an extraordinary invasion. In an effort to stamp out the contagion a conference of the Sanitary Inspection corps, the

School Medical Division and representatives of the medical profession at large was held, and various plans were suggested with a view to controlling the situation, but it would seem from our experience that an invasion of this disease once well under way seems impossible of control. It simply appears to run its course and then naturally abates itself. The value of school medical inspection was in this instance very strongly shown as 75% of the total number of cases reported were discovered by the nurses in this division.

#### SMALLPOX.

An outbreak of Variola of a virulent type during the month of June, at a time of the year when this disease is as a rule in abeyance, excited the attention of the medical fraternity, owing to the fact that this State was one of the three so visited. The mortality in some localities was as high as 50%, but not one case died in San Francisco.

Owing to the State vaccination law being so modified as not to require children attending the public schools to be successfully vaccinated, there is a large portion of our population now growing up who are absolutely unprotected from this disease. We must, therefore, be prepared for such out-breaks.

#### DAIRY INSPECTION.

During the year 5,218 samples of milk were taken from milk wagons, stores, restaurants and the various points of entry, to-wit: the wharves and railroad depots, and examined by the laboratories. Of these 287 were found to be sufficiently below the standard to warrant arrest. 117 were convicted and \$3,275.00 in fines collected. 165 cases were dismissed with reprimands and 5 cases are still pending.

There are approximately one hundred premises within the City and County of San Francisco furnishing milk in violation of the two cow ordinance. All of these violators were arrested during the month of July 1911 and a test of the validity of the ordinance was made. Mr. J. Fassler, who maintains the Del Monte Ranch at 5230 Mission St., was convicted in the Police Court for maintaining more than two cows to the acre. He thereupon applied to the Superior Court, which during the month of March 1912 rendered a decision upholding the ordinance and ordering the said Fassler to comply therewith. This department is now engaged in bringing about the enforcement of the provisions of this Ordinance, and it is hoped that within a short time there will be no large dairies within the City and County of San Francisco except such as are strictly complying with the provisions of the Ordinance.

The sanitary condition of the dairies outside the City and County of San Francisco is gradually being brought to a higher standard. There are now about 143 dairies in 11 counties furnishing milk to this City. The task of inspecting these dairies at regular intervals devolves upon the two dairy veterinarians of this Department. Special inspections however are made whenever the bacterial count of milk samples taken from a dairy exceeds 200,000 bacteria per cubic centimeter. A great improvement in the milk supply of San Francisco has taken place during the past four years. This has, no doubt, in a great measure been due to the active co-operation of the Milk Improvement Association whose interesting report will be found on page 657.

#### INDUSTRIAL INSPECTION.

The inspection of sanitary conditions of factories, workshops and places where foodstuffs are handled is of great benefit to industrial workers. Special attention has been paid during the year to women employes through the appointment of a Female Industrial Inspector, whose time is devoted to bettering the

conditions of working women, as well as bringing about sanitary handling of food products manufactured in canneries, candy factories, bakeries, etc. This division also inspects the numerous nickelodeons and theaters throughout the City, requiring compliance with the Ordinance regulating the proper ventilation and light, as well as the general requirements of sanitation.

#### PLUMBING INSPECTION.

The inspections in the plumbing division do not show as large a number of inspections during the last fiscal year as in previous years, but the importance of the work has perhaps been as great if not greater than at any previous time, as the inspections have been mainly on the smaller structures constructed in the outlying sections of the city, where there was greater difficulty in disposing of the waste and drainage, than is the case in buildings nearer the center of the city.

#### MARKET INSPECTION.

San Francisco is one of the few cities that has an organized market inspection, a meat inspector being detailed in each abattoir, where killing is done, and all carcasses that are found healthy and fit for human consumption are stamped with the accompanying meat brand:

All diseased and unfit carcasses are condemned and destroyed. A glance at the tables of condemnation and seizures will show the enormous amount of unfit food product disposed of during the year.

#### REMOVAL OF REFUGEE SHACKS.

It would be difficult to point out any particular line of action or sanitary condition which could be said to be of greater importance than another, unless it were the stupendous task of eliminating the refugee shack with its attendant insanitary conditions, and in the majority of instances extreme poverty of its occupants, that remain as a legacy of the catastrophe of 1906. The importance of the elimination of these shacks is two-fold to the community.

1st: That their maintenance has been the cause of retarding the building up of the various sections of the city.

2nd: By reason of the extreme poverty as a class of the occupants of these shacks, it has been a difficult question to solve, the Board endeavoring with every step of the elimination to assist these people in securing such resources as would maintain them in an independent manner. Hence what would at first seem an easy problem by simple condemnation and removal, becomes at once, not only an economic factor, but also a sociological factor, which has been met most successfully by the stand taken by the Board of Health, namely, that it is better to save one occupant to the community in a self supporting way, than to place them in the Relief Home as a charge upon the city.

#### SANITATION OF STABLES.

The next piece of sanitary work which has become a particular feature of this city is that of placing the stables in a sanitary condition. By means of the stable ordinance it can be said that over 90% of all stables maintained in San Francisco, housing close to 20,000 horses, have concrete floors and concrete side or area walls extending not less than 8 inches above the surface soil; have metal lined manure bins within the stable ventilated through the roof to the outer air, and are properly drained to the street sewers, reducing to a minimum harboring places for rats and breeding places for flies, both of which pests cause a large monetary loss to the community annually by reason of being hosts as well as carriers of disease, the rats, in addition, consuming large quantities of feed annually.

SANITARY OPERATIONS OF THE UNITED STATES  
PUBLIC HEALTH SERVICE.

Following the eradication of Plague in 1903 it was deemed advisable that measures for the prevention of the return of this disease be actively and vigorously continued by the United States Public Health Service, in co-operation with this Department. During the fiscal year ended June 30, 1912, the following measures have been consistently applied:

- 1st: Measures for the immediate recognition of rat plague, should such occur.
- 2nd: Measures for the destruction of rats.
- 3rd: Measures for the destruction of rat food.
- 4th: Measures for the destruction of rat harbors and for the permanent rat proofing of buildings.

First: Measures for the immediate recognition of rat plague, should such occur.

It is widely known that practically all epidemics of human plague are preceded by an epizootic of this disease among rats, and the city's first line of defense lies in the thorough and consistent examination of the rodent population. Should an infected rat be found, measures for the destruction of all rats in the vicinity of the infected animal may be at once instituted, the small focus destroyed and the further spread of the disease prevented.

During the fiscal year, 8,000 traps spread over the entire city have been in continuous operation. The premises trapped included stores, sewers, restaurants, stables, dwellings, factories, bakeries, warehouses, steamers, vacant lots, the water-front and Butchertown. The above traps were placed, baited and inspected daily by a force of Federal employes consisting of twenty-five expert rat trappers under the immediate direction of three foremen. Rats trapped were very carefully tagged, giving the exact location where caught and the date. They were then immediately forwarded to the Federal laboratory, where a careful post mortem examination was made of each rat. During the fiscal year 67,289 rats trapped, 8,382 mice trapped and 833 rats found dead were forwarded to the Federal Laboratory for examination. Only once during the year was a suspicious rat reported. Infected material from this rat was immediately transmitted to the City and State Bacteriologists in order that independent examinations might be carried out and corroborative evidence be at hand should the findings of the Federal Laboratory prove positive. Pending these reports the trapping squad was doubled in the district from which the suspicious rat came and every preparation made for the vigorous application of all measures necessary for the destruction of this focus. Fortunately the laboratory's findings proved negative.

Second: Measures for the destruction of rats.

In addition to the destruction of rats by trapping incidental to their examination, only one other method has been applied directly for the destruction of rats, namely: the placing of poison. During the fiscal year 1,405,400 pieces of rat food covered with rat poison have been placed. While the number of rats destroyed cannot be accurately stated, from the evidence of rat carcasses found and the absence of rats over the premises poisoned, it can be assumed that the results were very satisfactory.

Third: Measures for the destruction of rat food.

By rat food is meant waste food, or food refuse, such as is thrown carelessly on vacant lots or around garbage cans or into imperfect garbage cans, or surplus food thrown to chickens, etc. While imperfect garbage cans represent a most important source of rat food and provide for rat sustenance, the examination of all garbage cans within the city would require the inspection of practically 2,500 city blocks. This work was not feasible with the small force of employes and could not be undertaken. However, as an index to the condition of the garbage cans, a sufficient

number of blocks have been inspected to justify the statement that from twenty to twenty-five per cent of all garbage cans at present in use are defective and should be renewed. As a result of this partial inspection, 2,556 new garbage cans have been installed during the year. Plans are now being made which it is hoped will permit the complete reinspection of all garbage cans in the city. Three hundred and forty-four chicken yards have been inspected with the result that 69 have been remodeled in accordance with Ordinance No. 384, while 275 containing 3,213 chickens have been abandoned. One thousand four hundred and eighty-eight premises consisting of vacant lots, buildings, basements, passage ways and yards containing food material of a perishable nature have been cleaned.

Fourth: Measures for the destruction of rat harbors and for the permanent rat proofing of buildings.

The complete destruction of all rats can be accomplished only by the separation of this rodent from his food supply. This is to be approached by the removal of all rat harbors and reached by the rat-proofing of all buildings and the screening of all rat food. The rat must be built out of existence by the adoption of the following measures:

1st: The erection of rat proof buildings only.

2nd: The closure of all accidental openings in existing buildings of rat proof construction.

3rd: The remodeling of all existing non-rat proof buildings, using rat proof material, or the destruction of such buildings.

4th: The removal of all material covering yards, sidewalks or passage ways which will permit rat refuge.

During the fiscal year measures according to the above classifications have been applied in the following way: Six employes of the City designated as Special Sanitary Inspectors and two Federal Inspectors have been detailed to carry out the above work.

1st. For the inspection of new buildings in the course of construction two Special Sanitary Inspectors have been constantly on duty. Through the courtesy of the Board of Public Works they were supplied with a list of all permits for the erection of new buildings and with this list as a general guide all buildings in the course of erection have been carefully inspected, and construction in accordance with the rat-proofing requirements rigidly enforced. During the fiscal year 1,666 new buildings were erected in accordance with rat-proofing regulations; 2,603 basements, 45 floors, 174 yards, 558 passageways and 1,370 sidewalks were constructed of concrete, a total of 4,063,634 square feet having been laid. The importance of this work cannot be overestimated since it limits the task of rat proofing the city to existing buildings alone.

2nd: The closure of all accidental openings in existing buildings of rat proof construction.

An examination of the reports of rat trappers after the segregation and identifications of rats trapped, indicates that the variety commonly known as roof rats or "second story" rats (*Mus rattus* and *Mus alexandrinus*) forms nearly forty per cent of the total catch. Nearly ninety per cent of these rats were trapped in fire-proof buildings falling within the A, B or C classification of the building laws. An examination of these theoretically rat-proof buildings shows that they have become non-rat-proof buildings through the neglect of plumbers and electricians to properly close openings made for the installation of water, gas, electricity, etc., and partly to the omission of screens to ventilators, light wells and other roof openings.

This question has received special attention. Careful inspection is made of all such buildings and all openings found noted. The requirements necessary to put such buildings in a rat-proof condition are submitted to the owners and as a result of these inspections the following work has been carried out during the fiscal year:

Ventilators on roof, screened.....	431
Ventilators in basements, screened .....	510
Openings around pipes closed with cement.....	1,900
Openings in walls, ceilings and floors covered with wire lath and cement .....	2,334
Non used chimney flues screened .....	99

3rd: The remodeling of all existing non-rat-proof buildings with rat-proof material or the destruction of such buildings.

Under this division is included all frame buildings, with or without basements and generally lacking foundation walls impervious to rats. The majority of buildings within the city fall within this class and represent the principal obstacle to be overcome in the rat-proofing of the city, since they permit the easy access of rats afford refuge, and supply food. This is especially true where such buildings are occupied by stores which prepare food or keep food for sale, such as meat markets, bakeries, vegetable stores, delicatessen stores, candy factories, etc. The rat-proofing of such structures receives special attention and wherever buildings of this character are found, careful inspection is made. If rat evidence is noted, rat proofing requirements in accordance with the City Ordinance are submitted to the owners of such premises and when such owners fail, neglect or refuse to comply, such buildings are recommended for condemnation to the Board of Health.

During the fiscal year 858 buildings found rat infested and in a generally insanitary condition have been submitted. Rat proofing (the result of this work), represented in concrete laid, may be indicated by the statement that during the fiscal year 1,700,060 square feet of concrete has been placed in such buildings for rat-proofing purposes.

In conclusion the following observation is worthy of note: Fleas in San Francisco, which were formerly numerous, have, during the past two years, decreased markedly in numbers. This can be ascribed in a large measure to the reduction in the rat population, and when it is remembered that the flea acts as the transmitting agent of the plague from the rat to man, the importance of rat reduction can be more fully appreciated.

The volume of work done by the U. S. Federal Health authorities is shown by the following statement:

1. Measures Taken for the Destruction of Rats.

No. of rats trapped .....	67,289
No. of rats found dead .....	833
No. of mice trapped .....	8,382
No. of poisons placed .....	1,405,400
No. of squirrels trapped .....	5
No. of gophers trapped .....	10

Remarks: The number of mice trapped is an unavoidable incident in the trapping of rats.

No. of lbs. of bacon .....	4,396
No. of lbs. of cheese .....	930
No. of loaves of bread .....	6,117

Rats identified:

Mus norvegicus .....	46,597
Mus rattus .....	10,359
Mus alexandrinus .....	11,166
Mus musculus .....	8,382

Total ..... 68,122

No. of yards torn up .....	310
No. of basements torn up .....	450
No. of passageways torn up .....	196
No. of sidewalks torn up .....	150
No. of houses destroyed .....	1,308
No. of stables destroyed .....	406
No. of manure bins installed .....	227
No. of feed bins installed .....	189
No. of buildings in which wood was piled off the ground.....	142

## Work Done Through Condemnations by Board of Health.

No. of buildings sent in .....	858
No. of buildings condemned .....	819
No. of buildings heard .....	349
No. of buildings reheard .....	461
No. of buildings sent in but not heard.....	15
No. of buildings unabated .....	780

## CONDEMNATION OF INSANITARY PREMISES.

The Board held 25 special meetings for the condemnation of insanitary premises. As a result 368 premises, chiefly refugee shacks, were demolished, 63 buildings placed in sanitary condition and 6 premises vacated. The following table will show the magnitude of the work performed:

Month.....	New Cases.....	Rehearings.....	Repairs.....	Demolition.....	By Vacation.....	Total Abate-ments.....	Unabated.....
1911—							
July .....	12	6	21	12	0	33	126

Total .....	297	232	63	368	6	438	1,675

MUNICIPAL CLINIC FOR THE TREATMENT OF  
VENEREAL DISEASES.

Following several conferences with the Advisory Committee of the Municipal Clinic and a special committee appointed by the Grand Jury it was determined that there was no legal authority for the control by this Department of said clinic. Since this action the management of the clinic has been entirely in the hands of the former Advisory Committee.

## BUREAU OF PUBLIC CHARITIES.

The Bureau of Public Charities includes the Emergency Hospitals, City and County Hospital, Tuberculosis Hospital, Isolation Hospital and Relief Home for Aged and Infirm. The appropriation in the annual budget for this Bureau was as follows:

Institution.	Salaries.	Expense.	Total.
Emergency Hospitals .....	\$ 7,160	\$ 15,000	\$ 22,160
City and County Hospital .....	76,500	109,500	186,000
Tuberculosis Hospital (paid out of C. and C.			
Hospital funds)			
Isolation Hospital .....	11,100	8,000	19,100
Relief Home for Aged and Infirm.....	69,000	128,800	197,800
Total .....	\$163,760	\$261,300	\$425,060

Admission to any of the public charities, except the Emergency Hospitals, is made through the Central Emergency Hospital, where the applicants are examined by the City Physician. The social investigation, made by the Inspector of Indigents, ascertains if the patient is a proper charge upon the City. It frequently happens that persons suffering from communicable diseases, such as Pulmonary Tuberculosis, Smallpox, Diphtheria, etc., present themselves at the Central Emergency Hospital, where they are detained, a menace to other patients, until transferred. A small detention cottage containing sufficient space for at least two rooms should be constructed in the courtyard for the accommodation of such cases.

#### CITY AND COUNTY HOSPITAL.

During the month of August, 1911, the new Infirmary Building on the Relief Home Tract was completed and formally opened as the City and County Hospital. The buildings at the Ingleside Race Tract, which had been used for Hospital purposes since 1908, were destroyed. As soon as the Infirmary was opened the custom of sending acute cases to the private hospitals was discontinued. No accommodations being furnished for contagious cases at the new location, it became necessary to make other provision for their care. One wing of the Smallpox Hospital, Army and DeHaro Streets, was re-arranged to accommodate 45 cases other than Tuberculous. This arrangement has proved very unsatisfactory, patients naturally objecting to being confined in close proximity to others suffering with Smallpox and Leprosy. Further, in case of an outbreak of Smallpox, great difficulty will be experienced in finding adequate quarters for more than twenty patients.

The Tuberculosis patients were removed to "lean-tos" accommodating 150, erected in the Mission District in the block bounded by 22d, San Bruno, 23d and Vermont Streets. Although of temporary construction, these buildings are so arranged as to permit of the open air treatment, so essential in this disease.

Owing to a deficit in the funds of the City and County Hospital, the position of Warden was temporarily vacated on February 1st, the Superintendent of the Relief Home for Aged and Infirm being placed temporarily in charge. The Tuberculosis Hospital was placed in temporary charge of the Health Officer. Further, the funds of the City and County Hospital were apportioned among the Infirmary, Tuberculosis Hospital and Isolation Hospital.

#### RELIEF HOME FOR AGED AND INFIRM.

By reason of the destruction of the buildings at Ingleside above referred to, senility cases were transferred to temporary wooden shacks on the Relief Home Tract. These buildings should be replaced by modern structures at the earliest possible date. A complete report of this institution will be found on page 778.

#### EMERGENCY HOSPITALS.

The Emergency Hospitals, five in number, namely: Central, Harbor, Potrero, Mission and Park, are maintained for the purpose of giving immediate medical and surgical attention to the injured. A full description of the work of these hospitals is given in the report of the Chief Surgeon on page 800.

#### SAN FRANCISCO HOSPITAL.

The Building Committee of the Board of Health, of which Dr. George B. Somers is Chairman, has been very active with the Bureau of Architecture, Board of Public Works, in completing many of the details connected with the construction of this magnificent group of buildings. Through correspondence with the authorities on hospital construction in the United States and Canada valuable informa-

tion was obtained in such matters as ventilation, suitable flooring for wards and corridors, sterilizing system, signal system, etc. After this information had been fully collaborated a special meeting was held in the month of April, 1912, which was attended by representatives of the various hospitals and medical colleges in this City, the Municipal Architectural Commission, Building Committee of the Board of Supervisors and others interested. All unsettled details were discussed and resolutions regarding the same were presented to the Board of Health for adoption. During the month of May the specifications and detailed drawings of the main group of this hospital were finished. The Tuberculosis and Isolation groups cannot be built until funds are made available. It is earnestly recommended that the matter of the completion of the San Francisco Hospital as originally planned by Newton J. Tharp receive early and favorable consideration.

#### BUREAU OF ACCOUNTS.

This year marks the second in which the unit cost system (see page 825) has been followed in this Department. In the Bureau of Vital Statistics, Bureau of Charities, Bureau of Laboratories, both Chemical and Bacteriological, and in the Divisions of Sanitary, Dairy, Food, Market, Milk and Medical School Inspections there has been a material reduction of the unit cost over the previous fiscal year. In the Divisions of Disinfection, Industrial and Plumbing Inspection there has been an increase of cost which, however, is not a considerable one. The cost of each dollar of expenditure in the Bureau of Accounts remains practically the same.

The increase in the number of requisitions issued and demands audited has been considerable. In the fiscal year 1910-11 there was a total of 10,197, compared with this year's total, 11,981. The number of requisitions issued during the fiscal year 1911-12—5,428, salary demands audited 2,640, and expense demands 3,913.

The adoption of a new system of payroll will curtail labor and if the system proves a success, will no doubt be the means of extending the same for the payment of demands.

#### REVENUES.

The Department of Public Health is not and should not be primarily a revenue producing branch of the municipal government. However, a considerable amount of money finds its way into the general fund as shown by the following statement:

Fines for violating health ordinances following arrest by this Department.....	\$3,275.00
Transcripts of records .....	875.50
Collected from relatives of inmates Relief Home.....	1,891.90
Collected from relatives of inmates City and County Hospital.....	1,230.49
Collected from relatives of inmates Tuberculosis Hospital.....	77.40
Collected from relatives of inmates Isolation Hospital.....	180.00
Sales of barrels, etc., receipts from Oakland Butchertown, etc.....	240.95
<hr/>	
Total .....	\$7,771.24

This amount of money, derived as an incident of the work of the Health Department, should, it is believed, be considered in connection with any attempt made to determine the cost and value of this Department.

#### PERSONNEL.

The appointment of the majority of the employes of this Department is under the rules of Civil Service. This method in general has proved satisfactory, for while it is true that employes are sometimes certified who are not satisfactory, still the six months' probationary period furnishes a means for removal. Provision

should be made for retiring employes who have either grown old in this Department or through injury or illness become incapable of properly performing their duties. Such a course is absolutely necessary if the highest type of work is to be accomplished under Civil Service procedure. Moreover there seems to be no reason why the employes of this Department should not be put upon the same favorable basis, with respect to retirement for old age and disability, as already obtains in the Police and Fire Departments. Certain employes in the Emergency Hospitals, including the nurses, matrons, stewards and drivers, work daily throughout the year, paying for a substitute whenever they take any recreation. These employes deserve one day of rest in seven and an annual vacation of two weeks. It is hoped that you may see your way clear in the near future to recommend legislation to improve the status of employes in the service of the Health Department.

## DENTAL INSPECTION

J. O. EATON, D. D. S., Dental Inspector.

During eight months of fiscal year dental inspection was carried on in the schools. Following are the figures as compiled by the Dental Inspector:

First examination .....	1,835
Found with good teeth .....	931
Found with bad teeth .....	1,033
Onal acclusion .....	152

The following is a complete statement of the various diseases found to exist among the school children:

## CONDITION—

Anemia .....	242
Enlarged glands:	
Anterior cervical .....	11
Posterior cervical .....	820
Poorly nourished .....	40
Scrofula .....	1

## EAR—

Cerumen .....	100
Defective hearing .....	94
Discharging ears .....	101

# Report of Director of Laboratories

To the Honorable, The Board of Health,  
City and County of San Francisco.

Gentlemen:—

I have the honor to submit herewith the report of work accomplished in the Bureau of Laboratories, for the fiscal year ending June 30th, 1912.

From July 1st, 1911, until March 1st, 1912, the Laboratories were conducted separately, a Chief Chemist having charge of one and a Chief Bacteriologist of the other. On March first of this year the Board of Health changed the system, placing both the Chemical and Bacteriological Laboratories under one head, the Director of Laboratories.

As at present organized, the working force consists of, besides the Director, two assistant chemists, two assistant bacteriologists and two helpers. One assistant bacteriologist was appointed by reason of the enlargement of the scope of work undertaken and is at present being paid from the special sanitation fund. As the loss of this man to the Laboratory would necessitate a curtailing of work which is important, it is only a question of a short time when if the general welfare of the community is to be conserved, the position will have to be incorporated with the regular laboratory staff.

The new system is working satisfactorily, one great advantage being the possibility of arranging the work for both Divisions so that material, the examination of which is participated in by both may be submitted at times when both can handle it to best advantage.

The marked increase in the daily average of work performed since the first of March is pointed to with some pride and as evidence that unit control tends to efficiency.

The monthly average of examinations for the two periods is shown by the following:

## CHEMICAL DIVISION

Average of examinations for the first eight months .....	417
Average of examinations for the last four months .....	807

## BACTERIOLOGICAL DIVISION

Monthly average of examinations for the first eight months.....	365
Monthly average of examinations for last four months.....	703

In the Chemical division, the plan has been adopted with perfect satisfaction, of detailing the court work to an assistant chemist, Mr. Norwood. This arrangement leaves the chief chemist Mr. Ahlers and the Director free to attend to the more important duties in their respective spheres.

One of the most important innovations has been the bacteriological examination of milk sediments as detailed in another part of this report by Mr. Hutshing, Asst. Bacteriologist.

The method of keeping the laboratory records beginning with the new fiscal year will be an improvement in that one large record sheet will be used to keep the results of an entire year's work for each individual milk dealer; also for each source of water supply. This record will include both chemical and bacteriological

work and is arranged in such a way as to show at a glance, the fluctuations in quality of successive samples.

The appearance of a sharp epidemic of rabies in San Francisco taxed the resources of the laboratories to their utmost for a period extending from the first of March to the first of June.

The first case of rabies known to have occurred in the City was reported in October, 1911, and the next one on the first of February, 1912. Between the middle of February and the end of June, 266 examinations for rabies have been made in this Laboratory of which 192 resulted positively. Of the 192 cases, three were human, 4 cats, 2 goats, 1 calf and 182 dogs.

The Negri bodies (Plate) named after Negri who described them in 1903, are now universally regarded by all who have had experience in the examination of rabid animals, as the specific parasitic cause of the disease. The demonstration of the presence of these bodies is therefore regarded as conclusive evidence of the presence of rabies in the subject under examination.

In our series of 190 positive cases, the diagnosis by the finding of Negri bodies has been confirmed in many instances by animal inoculations and corroborated by the clinical symptoms as related by the veterinary surgeons who had charge of them. In no instance has the inoculation of material containing the Negri bodies failed to produce the disease in the animal experimented upon.

In the examination of suspected animals we have found a modification of Williams' method to be the most satisfactory as well as the only practical one to use where numerous examinations are being made.

The process is as follows: A small piece of the grey substance from the hippocampus (method of dissection later) is crushed between two cover slips which are then slid apart, dried in the air and fixed lightly by flaming quickly, or fixed in methyl alcohol. Cover with the stain, heat till steam arises, wash, dry and mount. The stain: 12 drops of saturated alcoholic solution of methylene blue and two drops of saturated alcoholic solution of basic fuchsin are added to 15 CC. of distilled water. This stain must be made up fresh every day. With this stain the Negri bodies take a decided magenta color, the cell nuclei blue and the ground substance a pink color.

The Negri bodies are of all sizes from almost ultramicroscopic particles to 8 or 10 microns in diameter and occasionally even larger and may be round or more often slightly oval or even triangular. Sometimes forms that are four or five times as long as broad are seen. Usually very small, dark staining granules can be made out within the bodies and occasionally larger granules arranged in a circle around a still larger central nucleus are observed.

In fresh preparations on the warm stage we have observed what appeared to be the beginning of a mitosis.

The characteristic picture shows the Negri bodies contained in the large ganglion cells and this situation is regarded by many as of extreme importance in diagnosis. The extracellular forms are however usually more numerous than the intracellular especially when the smear is made by crushing the material between the

cover glasses; in the case of some specimens showing only extra cellular forms, I do not hesitate to pronounce them Negri Bodies. It is true that one with insufficient experience could readily mistake a red blood cell for a Negri body but the paler stain of the red cell, the lighter central portion and the absence of granules should be a safeguard against this error.

**Method of performing animal autopsy:** In working with dogs the following method has been found the most convenient. A sink in the work table with a thick plank for the front margin is a convenient place to work. The head is fixed to the front edge of the sink by a large nail driven through the nose just in front of the eyes, and the head placed so that the neck is toward or the body of the animal within the sink. This position gives the greatest freedom of movement for the saw. After dissecting back the skin from a median incision, three cuts are made through the muscle to the bone; a transverse incision behind the eyes and a lateral incision on each side extending from the outer ends of the first incision to the foramen magnum. The saw and chisel are then used to detach the triangular plate exposing the brain.

To find the hippocampus, an incision is made from a point on the surface of one of the hemispheres of the cerebrum about midway between the anterior and posterior extremities and close to the sulcus. Carry this incision backward and outward, cautiously deepening it until the ventricle is entered, when the hippocampus will be seen lying in the bottom of the cut, a glistening white, cylindrical object extending from the median line outward, backward and downward, terminating in a sharply curved end. The hippocampus can be identified by cutting it transversely when the characteristic appearance of alternating concentric rings of white and grey matter is seen.

For microscopic examination a bit of one of the grey layers is removed with the sharp pointed forceps and spread between two cover slips as previously described.

Any part of the cortex may be used, but the Negri bodies are more numerous in the hippocampus.

Should the Negri bodies not be found and they are occasionally not demonstrable in cases of rabies, especially if the animal is killed too early in the disease, it may be necessary to inoculate animals to confirm the diagnosis.

In the presence of suspicious symptoms on the part of the biting animal, or if rabies is known to be present in the locality and nothing is known of the symptoms displayed, treatment should not be delayed for the result of animal inoculations but should be begun at once.

**Inoculation of animals:** Rabbits and guinea pigs are the most suitable, for their incubation period is apt to be short and they usually have the paralytic form so are less dangerous to handle. A small piece of the brain tissue of the suspected animal is triturated with sterile sand and water and the emulsion injected.

If the material is aseptic, the injection is best made intracranially as follows:

The animal is anaesthetized, a small area on the head is closely clipped and the incision made antero-posteriorly, to one side of the median line and beginning at a point just back of the eyes and carried backward about a quarter of an inch. The margin of the incision is then hooked with a tenaculum and drawn over to the opposite side and a small hole drilled through the skull with the point of the scalpel. The needle is inserted through the hole, carried over to the opposite side and about one-half cc. of the emulsion injected. Upon removal of the needle, the skin returns to its normal position and the hole in the skull is covered by skin. A bit of cotton covered with collodion completes the operation. The animal apparently suffers no inconvenience from the operation. Rabbits will have an incubation period of 10 to 20 days and guinea pigs of 6 to 12 days. Rabbits usually develop a paralysis of the hind legs and die in two to four days after the onset of symptoms, while guinea pigs die suddenly after an incubation period passed in perfect health. If the material is decomposing it should be placed in glycerine for twenty-

four hours to diminish the chance of infection by contaminating organisms, emulsified and about 1 cc. injected deeply into the muscles of the neck of a guinea pig. The period of incubation in this instance will be longer than after intracranial injection; about two or three weeks.

#### PASTEUR TREATMENTS

1st case of the series began treatment February 1st, 1912.

The last case began treatment June 25th, 1912.

Total number of cases treated, 88.

Complications observed:

Subcutaneous abscess, 2.

Transient paralysis of face, 1.

Died of rabies during or soon after completion of treatment, 2.

Discontinued treatment before completion, 7.

Location of bites:

Face, 5; wrist and arm, 59; lower extremities, 27.

The number of bites is a little more than the number of patients treated because a few of them were bitten in more than one place.

Wounds cauterized, 41; wounds not cauterized, 38; not recorded, 9.

Of the three fatal human cases of rabies that have occurred in San Francisco up to the date of this report, two had taken the Pasteur Treatment and one had not. One case came down with the disease on the 18th day of treatment, twenty-two days after receiving the bite on the left arm and foot. The second case developed the first symptoms of rabies four days after completing treatment and twenty-nine days after receiving the bite. This man's bite was on the right wrist and was severe, bleeding freely. Negri bodies were found in the brains of both of the biting dogs, and in the brains of both men.

A third case, untreated, had an incubation period of about one month after receiving a very slight bite on the thumb near the base of the nail.

#### REPORT OF MILK IMPROVEMENT ASSOCIATION.

On January twenty-second, 1908, the California Club called a conference looking toward the betterment of the milk supply of San Francisco. Organizations interested in the production, distribution and consumption of milk were invited to send delegates. This body developed into the Milk Improvement Association, made up of milk dealers, physicians, housewives, city officials and others. The aims of the association at its inception were:

1. The testing of all cows for tuberculosis.
2. The absolute sanitary cleanliness of all dairies and other places handling milk.
3. The immediate cooling of milk on being drawn to below 50° Fahrenheit, and the maintenance of the milk at this temperature until consumed.
4. The delivery of milk to householders within twelve hours after milking.
5. The filling of bottles at dairies.

Early in the work a letter was received from the Milk Dealers' Association, assuring this organization of its co-operation. From the inception of the movement the dairymen of the better class have endeavored to maintain high standards. Like other business men they supply goods that the public demands. Committees have been active on Publicity, Inspection, Education, Police Court and Certification. The Press has assisted most generously with editorials, notices of meetings and leading articles.

INSPECTION: The necessity arose early for systematic, constructive dairy inspection. A properly trained man with knowledge, tact and force became indis-

pensable. No funds were available in the Health Department with which to employ such an inspector. The matter was deemed so vital that the members undertook by subscription and otherwise to defray the cost of such inspection. Some \$1,500 was raised and a competent man put into the field. The inspection was carried on under the direction of the Board of Health and all dairies supplying milk to San Francisco were inspected and such dairies as were rated high were given a permit to ship milk into San Francisco. Others were advised to make certain changes in their technique or in their plant before receiving a permit. Some dairymen preferred to ship to some other city with less exacting demands. In these cases the Milk Improvement Association informed the Health Officer of such city of the fact.

The inspection of dairy depots in the city brought to light the fact that the poorest quality of milk in the city was to be found in restaurants, bakeries and groceries handling milk.

The Police Court Committee found it advisable to make frequent visits to the Police Court. As a result of their unremitting interest fines were increased, while dismissals became rarer. There was found to be a definite relation between the amount of the individual fines and the number of arrests. The amount of fines increased from a nominal amount to over \$4,000 per year. Within the last year the committee has succeeded in having milk cases set on one day of the week, a great saving resulting in the time spent in court as witnesses by inspectors and chemists of the Health Department.

The Education Committee have endeavored to make public facts bearing on the production, handling and care of milk, both by dealers and housewives, and to stimulate a demand for the cleanest and purest dairy products. In 1909 the committee secured from the Board of Education permission to give lectures on milk in the evening in the public schools. Other lectures have been arranged before club organizations.

**CERTIFIED MILK:** When the Milk Improvement Association came into being there was no certified milk on the market. One man offered to furnish this absolutely healthful milk if a demand for 300 quarts could be guaranteed. Through the efforts of the Medical Milk Commission certified milk was made possible and today over 4,430 quarts are delivered daily in San Francisco.

There are many questions at present before the association awaiting solution. One of them is official pasteurization. Ordinary commercial pasteurization has been found to be inefficient. A method by which the Board of Health shall guarantee the pasteurization is being worked out. A classification of milk is also under consideration. Each class of milk being sold as under the pure food law—properly labeled "Certified Milk," "Inspected Milk," "Pasteurized Milk," and "Garden or Market Milk." The latter to be sold in bulk for cooking. A milk show and contest is in contemplation for 1915.

Steps are being taken looking toward the better protection of milk handled at the Ferry building.

The care given milk during transportation is not ideal. The standing of cases of milk in the hot sun at stations waiting for trains must be overcome. The handling of milk cans in ordinary freight or baggage cars is not sanitary. The keeping of milk below a temperature of 50° Fahrenheit in transit as health demands is a problem—also the return of empty cans.

These are questions which bear directly upon the health of the family and must be solved at no distant date.

No report of the association can be complete without reference to the cordial co-operation of the Board of Health through its Health Officer. Not only has he generously offered the rooms of the Board of Health as a meeting place, but he has been at all times a most active and helpful member of the association.

MINORA E. KIBBE,

Vice President Milk Improvement Association.

THE MILK SUPPLY OF SAN FRANCISCO AND ITS  
BACTERIAL CONTENT.

By EDWIN E. HUTSHING, Ph. C., Asst. Bacteriologist.

Of the various classes of milk, shipper's, wagons, creamery, depot etc., of which samples are taken by the Health Department's inspectors to be submitted to its laboratories for examination, only the first named is regularly put through the routine bacteriological examination. By shipper's milk is meant that which comes direct from the source of supply, namely, the dairy.

At various, but irregular periods throughout each month, samples are taken as the shipments arrive at the main points of entry to the city, (Third and Townsend Sts., and the Market St. (Union) Ferry. The "raids" occur either at an early morning hour (about 7 A. M.) or in the evening (about 7 P. M.), as it is at these times that practically the whole city supply reaches here.

The low temperature of the early morning and evening hours at which the samples are taken is most conducive towards keeping the bacterial content at a point that will give the laboratory examination the diagnostic value it aims at, that is, the condition of the milk at the time of its arrival in the city.

There are about 130 dairies supplying milk to this city. All of these lie within a radius of 100 miles of San Francisco. As may be seen from the dairy location map, the majority of these supply sources lie within 35 miles of the city. The cows supplying the product arriving here about 7 A. M. are milked about 3 A. M.; that which arrives in the evening comes from the milking done about 3 P. M.

Charts I and II denote the official temperature and humidity records for San Francisco, yet they hold good for the greater part of the dairy region, especially Marin and San Mateo counties. The humidity figures are controlled principally by the fogs which for the mornings and evenings throughout the greater part of the year envelop most of the counties bordering on San Francisco Bay. The most striking fact about the temperature is its comparative evenness throughout the year. The winter fogs are principally tule fogs, but the heavy mists present during most of the year are the clean, cool ocean fogs direct from off the Pacific.

Thus, the time of milking, the comparatively short distance from this city, with the ready and rapid means of transit, the comparatively low and especially even temperature, with its accompanying cool fogs, are some of the most important causes going towards giving this class of milk the low bacterial count that it as a whole shows.

The standard set by this city's Board of Health for non-certified milk is 500,000 bacteria per c. c. This standard holds throughout the year. Chart III shows that but very few samples exceed this standard. From July, 1908 to 1909 80% came within this standard; from '09 to '10, 93%; from '10 to '11, 94%; from '11 to '12, 97%. I would suggest that the bacterial standard be set at 200,000 B per c. c., a figure that all the dairies could come within with but little effort. It is a figure that the majority continually come within even now. In fact if we take a standard of 100,000 per c. c. we find that the majority of samples are within even this figure.

From July '08 to '09 the samples below 100,000 B. per c. c. were 62%; from '09 to '10, 81%; from '10 to '11, 80%, and from '11 to '12 82%.

There are a few other seaboard cities, Eastern and Western, that show almost as low a count as given in Charts III and IV, but in all cases their low count is obtained only after the rigid enforcement of icing the milk from the time it is drawn until it practically reaches the consumer. None of the milk arriving in San Francisco has been iced either at the dairy or during transit. This expensive

method of obtaining a bacteriologically clean milk has been found unnecessary with us, due to the various local and climatic conditions mentioned above, for were it not for these, icing would no doubt be as necessary with us as it is practically everywhere else.

What has also been of great importance in obtaining the low bacterial count is the score card standard set by the city Board of Health for all dairies supplying this market with their products. The Board has at all times at least two inspectors (veterinarians) among the dairies enforcing this score card standard for sanitary conditions of buildings and equipment, health of employees and stock. Failure to reach the required percentage of cleanliness, etc., demanded, results in the refusal of entry into this city of the products of those dairies.

On the morning or evening of a milk-raid, the samples are collected by the inspectors with the utmost care, and immediately placed in specially prepared sterile glass containers. The milk in the can is first thoroughly agitated with sterile mixers, and from each is taken 60 c. c. by means of a sterile dipper (a fresh one being used for each sample), and this is immediately poured into the glass jar. The jar is labeled with the dairy number and with nine like containers is placed in a specially prepared ice-box. At each "raid" anywhere from 30 to 80 separate samples are taken, and within fifteen minutes after the last one is obtained, they are delivered at the laboratory. If from a night "raid" the milk is not examined until the following morning, but being well iced and besides this placed in a refrigerator, we have found that no noticeable increase in the count takes place through the delay in examination. The samples arriving in the morning are of course examined at once.

Until four months ago the routine examination of the milk, bacteriologically, consisted in plate counts on nutrient 2% agar (plus 1.5%). Dilutions of the milk were made 1 to 100 and 1 to 10,000, and incubated 43 hours at 37° C. This simple plating method was considered to be of too little value for the purpose of keeping a check on the sanitary conditions of the dairies and handling of the milk. Dissatisfaction with this method that told part of the story only, led to the adoption of the direct microscopic examination of the centrifuged sediment.

A modified Stewart disk-centrifuge, which had been used for a short time and discarded, was resurrected. It had been originally used when the laboratory was situated in another building, where both alternating and direct currents were available, but the present quarters are provided with but one current unsuitable for the machine. The difficulty has been overcome by adjusting the aluminum disk, after very slight alteration in the pivot hole, to a high-power Purdy centrifuge. The result is most satisfactory.

Our method of preparing the milk sediment for microscopic examination is as follows:

After shaking the bottle containing the milk twenty-five times, 2 c. c. of the fluid is withdrawn by means of a sterile pipette and delivered into one of the small glass tubes which has previously been closed at one end with a rubber stopper. We have found that it is sufficient to place a stopper at but one end of the tube instead of at both ends as usually done. The tubes are placed in the disk after it has been adjusted to the centrifuge, since the placing of the twenty vials before its adjustment often leads to a loss of part of the sample. The cover is then placed on the disk and the centrifuge run for about ten minutes at its maximum speed of about 4,500 revolutions a minute.

The tubes are then removed from the disk in the rotation in which they had been placed in it. As many glass slides as there are samples are spread out on a table in a dust-free part of the laboratory and with a grease pencil each one is marked with a number corresponding with the sample number. A circle having an area of four square centimeters has been cut into the table. A slide is then placed over it, and in the center of the circle appearing through the slide is placed a drop of water.

The cream that has gathered at the open end of the vial is removed with a platinum loop, and the milk in order not to disturb the sediment is carefully poured into a waste jar. The rubber stopper is then removed and the sediment on it is thoroughly smeared over the circle, the drop of water allowing a thin, even smear to be made. It is usually necessary to spread out the drop that forms on removing the stopper from the slide, by means of a platinum needle.

The smears are allowed to dry (about 3 minutes.) To fix the smear and at the same time remove the butter fat, the slides are placed for five minutes in dishes containing equal parts of ether and alcohol. On removal they are quickly drained and spread out in order that the solvent may evaporate. They are then stained.

After trying the various stains recommended, we have made up the following one which is most satisfactory. Sat. alcoholic sol. of fuchsin, two drops; saturated alcoholic sol. of methylene blue, 20 drops; water to make 15 c. c.. The stain is allowed to remain on the film for two minutes, then gently washed off with tap water, drained and dried between filter paper.

The microscopic examination is made with a twelfth inch immersion objective and number 10 eye-piece. The bacteria appear blue on a pink background. The "pus-cells" nucleus blue, protoplasm dark pink. The picture is very clear and quite beautiful.

Each bacterium per field is considered as representing a colony on a one-in-ten-thousand dilution plate. As will be seen from chart IV, the colonies in such a dilution plate are usually few, and as the B. per microscopic field are correspondingly so, the quick survey of eight or ten fields is easily made, and from this an average is taken. This number multiplied by ten thousand gives us the bacteria per c. c. in the original sample.

We have checked our microscopic results against two hundred and fifty plates of the ten thousand dilution, and have found them to agree close enough to continue the microscopic method. Neither method is perfect, but only approximate. With the plate method many bacteria in spite of thorough shaking of the milk, remain clumped and grow as one colony; many are killed by the temperature at which the agar is poured, and many no doubt fail to grow at incubator temperature, and after forty-eight hours incubation, a "spreader" may obscure many colonies. With the microscopic method, not all the bacteria are thrown down even after ten minutes centrifuging; some are washed out of the sediment in pouring out the milk from the vials, and some no doubt remain on the stopper in spite of careful spreading onto the slide. But with the latter method we get our microscopic count the same day as the samples are received instead of waiting forty-eight hours; there is a great saving of material (media) and time in cleaning glassware, but most important, we get an idea, without the further cultural work that is necessary with plates, as to the kind of bacteria we are dealing with and to the number of pus-cells present.

As the diagnostic value given by the number of leucocytes present in milk is still being questioned by the best authorities, but little attention has been paid to that part of our microscopic pictures. Every sediment of course contains some cells. The average number per field being about five, but two or three times this number we find to be not uncommon.

We have rarely found streptococci in abundance. In looking over eight or ten fields of almost any sample, one or two short chains are found. In the samples where they appeared in large numbers, and where they were the predominating type, they proved of great significance. For example, in three cases in which the samples showed numerous streptococci, and an inspector was immediately dispatched to the place from which the milk had come, the following conditions were found to exist: In one instance one of the herd had the "forward udders and bag affected by a black foreign growth, which split and bled on pressure." Another cow had a diseased udder. In a second case investigated, the milk cans being returned from the city were dirty and of strong odor, and were being refilled at the

dairy without first being given a thorough cleansing. A third case was due to dehorning. This operation had been very recently performed. "Suppuration and necrosis of horn butts were found to exist and great quantities of pus were present about the heads of several cows. By rubbing their heads against one another's body the infectious material and pus was so distributed that it was an easy matter for it to get into the milk.

Though most cities deem it worth their while to make bacteriological examinations of both creamery and wagon milk, we have considered examinations from these sources to be of too little significance to repay us for the time they would consume, believing the control of the source of supply to be of most value. The sanitary conditions of the local creameries and milk depots, etc., are constantly under inspection. Their water supply being the same as is furnished to the city in general, is thus regularly examined bacteriologically as well as chemically. The health of their employees is under the control of the medical inspectors of the Department of Public Health.

There is at present pending an agreement between the Milk Dealers' Association and the Milk Drivers' Union, regarding a daylight delivery (7 A. M. to 5 P. M.) only. Should this agreement go into effect, it is proposed by the dealers to pasteurize all of the general supply. It is expected that the agreement will go into effect Jan. 1st, 1913.

Whenever the milk supply of a city is pasteurized, the bacteriological examination and the general control of the supply becomes more imperative than ever before. To explain why this should be so, it will be necessary that the pros and cons of pasteurization be stated.

The principal advantages to be gained by pasteurizing milk are: A great reduction in the number of bacteria; this leads to the following results: Protection from infection with diseases usually transmitted by milk; reduction of the infantile death rate; the enhancing of the keeping quality of the milk.

From the foregoing it would seem that the general adoption of pasteurization could only lead to good results. And so it would if the following objections to the method were fully recognized by the Health Departments:

Pasteurized milk instead of souring, usually putrefies. This is due to the fact that the lactic acid bacteria are destroyed in the process, thus giving free reign to the multiplication of the undesirable putrefactive sporebearing organisms that are not killed, and which had before pasteurization been held in check by the harmless lactic-acid producers. Another objection is that pasteurization is inadequate, for where before subjecting the milk to the process it may show a count of 1,000,000 per c. c., the destruction of all these might still render the product unfit for consumption, as the toxins and products of their metabolism are still present. This is especially dangerous where infants and invalids are concerned. It is claimed by some authorities that undesirable changes may occur by heating which results in making the milk less digestible, particularly in the case of infants. The most serious objections are those relating to the possible change in sanitary conditions in the handling of milk before and after pasteurization, and of the re-pasteurizing of old milk. Carelessness in handling after pasteurization may result in serious contamination of the product. "Pasteurization will put back improvements on the source of the supply and encourage dirty habits, the farmer understanding that it is not necessary to be particular since the dirt that gets in is going to be cooked and made harmless." Another important point against pasteurization is the false security given by the label, "Pasteurized Milk," on the bottle, for the age and the subsequent handling of the product are not guaranteed by the label.

Now the above objections are most weighty, but each and every one of them, with the exception of the question of the digestibility of pasteurized milk, and which objection has practically been settled in the negative, are up to the Health Authorities. The general adoption of pasteurization would necessitate more rigid field and laboratory control of the milk supply than has been in vogue heretofore. With such control of the product, all the value of a pasteurized milk supply would be gained and none of its objections realized.

## PERCENTAGES OF ADULTERATION.

Substance.	Percent Adult.	Remarks.
Non-Alcoholic Beverages .....	13	
Vinegars .....	5	
Ice Cream .....	6	
Butter .....	0	Only few suspected samples analyzed.
Frankfurter .....	0	Only few samples analyzed.
Sausage (Pork) .....	4	
Chopped Meats .....	12	
Milk .....		
Cream .....	3	

As only a few samples of foods of miscellaneous classes were analyzed, a fair percentage of adulteration, representing market conditions, could not be obtained. As in the case of butter and frankfurters in the above tabulation, there were not a sufficient quantity analyzed to correctly represent this percentage of adulteration.

In the cases of non-alcoholic beverages and chopped meats the percentage is quite high, owing presumably to ignorance on the part of the manufacturers and butchers, as to the requirements of the food laws. Since the final ruling of the Secretary of Agriculture, prohibiting the use of saccharine as a sweetening agent, went into effect April 1, 1912, the adulteration of soda waters with this substance will undoubtedly be a great deal lower in the future.

Taking into consideration the fact that only those classes of foods were analyzed in which adulterations was suspicioned, the percentage of adulteration of all foods would be quite low, probably less than one per cent.

## SPRING VALLEY WATER SUPPLY.

The tabulations given in the following pages of the analyses of Spring Valley, arranged according to the months of the year, show an increase in total solids, chlorine and nitrates towards the latter part of the year, probably caused by concentration from evaporation or by dilution during the rainy season. As to the other factors included in the analyses, there is no appreciable change during the different months of the year. The tabulations represent the analysis of 1,275 samples of Spring Valley Water.

# City and County Hospital

City and County Hospital, July 1, 1912.

To the Honorable, the Board of Health,  
City and County of San Francisco.

Gentlemen:—I have the honor to submit in the following pages the report of the City and County Hospital for the Fiscal Year 1911-12.

Respectfully submitted,

C. M. WOLLENBERG,  
Supt. City and County Hospital.

## RESIDENT STAFF.

C. M. Wollenberg, Superintendent.  
Wm. C. Mackintosh, M. D., Resident Physician.

## HOUSE PHYSICIANS AND SURGEONS.

J. B. Blackshaw, M. D.	J. Visalli, M. D.
C. B. Caldwell, M. D.	W. H. Campbell, M. D.
R. W. Hartwell, M. D.	C. T. Bullard, M. D.
R. Brown, M. D.	M. J. Seid, M. D.
W. W. Naylor, M. D.	T. E. Grubbs, M. D.

Daisy G. Harlen, Supt. of Nurses.	M. A. Flynn, Recording Clerk.
C. P. H. Clasby, Commissary Clerk.	F. S. Ream, Apothecary.
Geo. J. Plato, Secretary Clerk.	F. S. Marshall, Chef.
Jos. Tomalty, Warehouseman.	

## VISITING STAFF, CITY AND COUNTY HOSPITAL, 1911-12. UNIVERSITY OF CALIFORNIA.

Internal Medicine—Dr. William Watt Kerr. Assistants: Dr. Geo. E. Ebright,  
Dr. Milton S. Lennon, Dr. Wilfred F. Beerman, Dr. Paul Castlehuh.  
Surgery—Dr. Wallace I. Terry. Assistant: Dr. Leo Eloesser.  
Gynecology—Dr. Chas. A. Von Hoffman. Assistant: Dr. Wm. C. Moore.  
Pediatrics—Dr. Wm. B. Lewett.  
Obstetrics—Dr. Alfred B. Spaulding.  
Diseases of the Eye—Dr. Carl S. G. Nagel, Dr. Walter Scott Franklin. As-  
sistant: Dr. Edgar W. Alexander.  
Diseases of the Ear—Dr. Albert J. Houston.  
Genito-Urinary Surgery—Dr. John C. Spencer. Assistant: Dr. W. P. Willard.

## HAHNEMANN MEDICAL COLLEGE.

Medicine—Dr. T. G. McConkey, Dr. Guy E. Manning. Assistant: Dr. O. G. Freyermuth.  
Surgery—Dr. E. R. Bryant. Assistant: Dr. R. F. Tomlinson.  
Abdominal Surgery and Gynecology—Dr. James Ward, Chief. Assistants: Dr. A. J. Minaker, Dr. L. B. Hurd.  
Specialists: Pediatrics—Dr. Guy E. Manning.  
Obstetrics—Dr. Gates Bennett.  
Genito-Urinary Diseases—Dr. C. B. Pinkham.  
Ear, Eye, Nose and Throat—Dr. A. C. Peterson, Chief. Assistant:  
Dr. E. L. Fassett.  
Tuberculosis Service—Dr. I. C. Gobar.  
Official Anaesthetist—Dr. E. H. Howell.

## COOPER MEDICAL COLLEGE.

Surgery—Dr. Emmet Rixford, Chief. Dr. Sol Hyman, Assistant.  
 Gynecology—Dr. G. B. Somers, Chief. Dr. F. Topping, Assistant.  
 Genito-Urinary Surgery—Dr. R. L. Rigdon, Chief.  
 Ophthalm., Rhin., Laryngol., Otol.—Dr. E. C. Seawell, Chief. Dr. E. D. Downing, Assistant.  
 Clinical Medicine—Dr. J. O. Hirschfelder, Chief. Dr. J. B. Frankenheimer, Assistant; Dr. M. R. Gibbons, Assistant.  
 Pathology—Dr. Wm. Ophuls, Chief. Dr. E. C. Dickson, Assistant.

## COLLEGE OF PHYSICIANS.

Medicine—Prof. Sydney R. Dannenbaum; Prof. Bertram Stone; Dr. O. P. Stowe, Assistant Visiting Physician.  
 Surgery—Prof. Geo. Childs MacDonald, Prof. Ethan H. Smith, Prof. Geo. W. Goodale, Prof. Alfred Newman.  
 Abdominal Surgery and Gynecology—Prof Winslow Anderson, Prof. Bertha Wagner-Stark, Prof. L. W. Spriggs, Prof. R. Cadwalader.  
 Ear, Eye, Nose and Throat—Prof. W. F. Southard, Prof. O. C. Southard.  
 Obstetrics—Prof. R. Cadwallader.

## SAN FRANCISCO POLYCLINIC.

Medicine—Dr. D'Arcy Power, Dr. P. K. Brown, Dr. L. D. Mead, Dr. L. S. Mace, Dr. H. I. Weil.  
 Surgery—Dr. C. G. Levison, Dr. Tracy Russell, Dr. H. A. L. Ryfkogel, Dr. G. M. Barrett, Dr. H. E. Castle, Dr. L. Eloesser, Dr. J. H. Legris.  
 Gynecology—Dr. F. B. Carpenter, Dr. A. J. Lartigau, Dr. W. P. Harvey.  
 Pediatrics—Dr. R. K. Smith.  
 Genito-Urinary—Dr. M. Molony, Dr. J. B. Hanna, Dr. H. Somers.  
 Ear, Nose, Throat—Dr. C. F. Welty, Dr. H. Horn, Dr. Jno. J. Kingwell.  
 Eye—Dr. Hulén.

REPORT OF SUPERINTENDENT.  
FINANCIAL.

The Board of Supervisors set aside the sum of \$186,000.00 for the use of the City and County Hospital for the year 1911-12. On taking charge of the Hospital on February 1, 1912, I found a deficit of approximately \$3,000.00.

This deficit has been overcome during the 5 remaining months by the removal of all unnecessary employees and the end of the fiscal year saw a surplus of about \$400. (The first year this has occurred.)

The reduction of employees worked to the benefit of the institution, as those removed were men who had been sent to the Hospital through political influence and rendered very little service.

The cost per patient per day from July 1, '11, to February 29, '12, including Tubercular and Contagious Cases, was .974. Since February 29, '12, the Tubercular and Contagious Cases have been maintained by separate funds. The cost of maintenance in the Hospital shows an increase to \$1.013 per patient owing to changes in diet and increase of nursing staff from 50 to 70 pupil nurses.

In connection with the daily cost per patient it is interesting to note the amount spent by San Francisco is less than that spent by any city (See list of other hospitals attached.)

## MEDICAL STAFF.

The House Staff, all young men, are energetic and efficient.

The Visiting Staff consists of the teachers of the various Medical Colleges and the patients are divided equally among them. This system is hardly fair to the patients; if the Chiefs are dilatory the patients are in the hands of young internes and sometimes do not receive proper or effective treatment. This is

particularly true in the medical wards. If you will turn to the Record of Visits paid by the Chief and assistants of the various staffs you will note the following in detail:

Service	No. of Beds (Medical Cases)	No. of Visits Paid by Med- ical Chiefs and Assistants from Oct. 1, '11, to June 30, '12 (nine months).
Stanford Univ. ....	43	297
Univ of Calif. ....	43	268
P. & S. College ....	43	39
Hahnemann College .....	43	125
S. F. Polyclinic .....	29	80

The College of Physicians & Surgeons has as many patients as Stanford, U. C. or Hahnemann.

With 43 patients the Medical Staff of above College visited the Hospital as follows:

Oct. 8 times; Nov. 9 times; Dec. 2 times; Jan. 4 times; Feb. 3 times; Mar. 3 times; Apr. 4 times; May (NOT AT ALL); June 4 times.

I do not believe the patients of the City and County of San Francisco should be treated in this manner and would recommend that the medical cases now assigned to the College of Physicians & Surgeons be divided among the other teaching bodies.

#### NURSING STAFF.

I believe the Nursing Force of this Hospital to be on a par with similar public hospitals elsewhere. We need more nurses but lack quarters for any increase in the present force. The number of Pupil Nurses has been increased from 50 to 70 during the last 5 months.

#### DIET.

A comparison with the food furnished by a number of private hospitals in this city, both to employees and patients, shows that the diet is as good as issued in any.

I would recommend the appointment of a Dietician for teaching purposes. This person should be both a nurse and a cook and should be qualified to lecture to the pupil nurses on food values and diet. To appoint some one to this position who has not received special training for the work is to waste the city's money.

#### BUILDING AND GROUNDS.

The Infirmary Building, now used as a City and County Hospital, was occupied for the first time on May 15, 1911. After 15 months' occupancy it has the appearance of an old, delapidated building.

This is owing to a mistake in the design of the partition walls and to poor material used in the plaster. All this work will have to be done over and I would recommend that the Board of Works be requested to estimate the cost of putting in new partition walls.

The exterior of the building is in excellent condition.

The grounds have been laid out in lawns and gardens and in a short time will be very beautiful.

#### REMARKS AND RECOMMENDATIONS.

The most expensive cases for the Hospital are the venereal patients. This through the expense of the various biological products and vaccines used in the treatment of Gonorrhoea, also the expense of Salvarsan.

I mention this because the Boston City Hospital will not admit any person having acute venereal disease or suffering from alcoholism. During the past fiscal year we had the following cases:

	No. of Patients	No. Days Treated
Gonorrhea, Acute .....	39	685
Gonorrhea, Chronic .....	17	1931
Gonorrheal Arthritis .....	24	1153
Syphilis .....	182	5080
Alcoholism .....	66	1035

This exclusive of the many other diseases attributed to the above.

There has been collected from patients since Feb. 1, '12, the sum of \$1,238.49; of this the Municipal Clinic contributed \$462.18 for the care of women suffering from various diseases.

Instruction has been given in the following subjects during the year.

**Fever Nursing:**

- 1st Class, 14 lessons; Miss McGinnes.
- 2nd Class, 7 lessons; Miss McGinnes.
- 2nd Class, 5 lessons; Mrs. Harlan.
- 3rd Class, 14 lessons; Mrs. Harlan.

**Practical Nursing:**

- 1st Class, 12 lessons; Miss McGinnes.
- 2nd Class, 7 lessons; Miss McGinnes.
- 2nd Class, 5 lessons; Mrs. Harlan.
- 3rd Class, 16 lessons; Mrs. Harlan.

**Physiology:**

- 1st Class, 8 lessons; Dr. A. H. White.

**Anatomy:**

- 1st Class, 16 lessons; Dr. J. Blackshaw.

**Materia Medica:**

- 1st Class, 13 lessons; Dr. Naylor.

**Bandaging:**

- 1st Class, 6 lessons; Dr. E. H. Smith.

**Practical Lab. Work:**

- 1st Class, 2 lessons; Dr. Mackintosh.

**Surgery & Materia Medica:**

- 1st Class, 2 lessons; Dr. Mackintosh.

**Obstetrics:**

(Bedside Clinics)

To the S. F. Training School for Orderlies.

**Bandaging:**

- 1st Class, 6 lessons; Dr. E. H. Smith.

**Practical Nursing:**

- 1st Class, 12 lessons; Mrs. Harlan.

**Fever Nursing:**

- 2nd Class, 14 lessons; Mrs. Harlan.

**Surgery & Materia Medica:**

- 2nd Class, 8 lessons; Dr. Mackintosh.

## STATEMENT OF EXPENSES FOR THE FISCAL YEAR 1911-1912.

## Administration—

Salaries of Officers and Clerks .....	\$ 6,327.50
Office Expenses .....	80.28

## Professional Care of Patients—

Salaries:	
Physicians .....	6,614.00
Graduate Nurses .....	7,543.35
Pupil Nurses .....	7,653.80
Orderlies .....	6,582.00
Surgical Instruments .....	1,686.24

## Dispensary—

Salaries .....	2,451.85
Supplies .....	13,332.69

## Departments—

## Stable:

Labor .....	2,499.20
Supplies .....	2,827.31

## Housekeeping:

Labor .....	4,448.20
Supplies .....	5,819.92

## Kitchen:

Labor .....	14,077.10
Supplies .....	161.35

## Laundry:

Labor .....	349.20
Washing .....	4,380.00

## Stewards Department:

Labor .....	3,250.00
Bread .....	3,224.57
Milk .....	11,130.61
Groceries .....	8,880.78
Butter and Eggs .....	19,265.63
Fruit and Vegetables .....	4,514.85
Meat and Fish .....	16,219.60

## General House Expenses—

Labor .....	5,744.85
Coal, Fuel Oil, Gasoline .....	3,323.13
Coal Oil, Lighting Supplies .....	243.86
Ice .....	421.60

## Maintenance Grounds and Buildings—

Labor .....	1,650.60
Supplies .....	1,505.31
Miscellaneous .....	283.05

## TUBERCULOSIS HOSPITAL.

The Tuberculosis Hospital was established during the month of August 1911, when the Board of Supervisors through an appropriation of \$30,000 made possible the construction of seven temporary wooden "lean-tos" and a central administration building. The same occupies an entire block in the warm belt of the Mission District in the rear of the new San Francisco Hospital. All of the buildings are so constructed as to be open on the southside with a north wall partly enclosed, permitting the open air treatment, so essential to this disease.

The grounds of the institution are being planted with flowers, shrubs and grass that have been obtained from Golden Gate Park.

As this hospital is the only one in San Francisco admitting cases of Pulmonary Tuberculosis, every effort is being made to furnish the best treatment possible within our appropriation. Special attention is being paid to the diet, a great element in combating this disease.

On February 1st, 1912 the Tuberculosis Hospital was placed under the temporary charge of the Health Officer, and shortly thereafter the policy of having the hospital governed by a so-called Advisory Committee was instituted. This committee consisted of a representative of the Visiting Staff, Associated Charities, and the Society for the Prevention and Study of Tuberculosis. The meetings of this Committee takes place every two weeks and plans are formulated for improving conditions. The patients also have a voice in the government of the hospital, representatives from the various wards being elected to confer with the Resident Physician in matters affecting the patients' welfare.

Employees at this institution are mostly tuberculous patients who receive salaries from \$10.00 to \$20.00 per month. All employees of the administration building are not tuberculous, these include, doctors, nurses and kitchen help.

For the year 1911-1912 the sum of \$.888 per day per patient was allowed to pay all running expenses of the institution. In order to secure a fair living for the patients, much thought was expended, as was a great deal of energy.

R. G. BRODRICK,  
Acting Superintendent.

# Report of Relief Home

Relief Home, San Francisco, July 31, 1912.

To the Honorable Board of Health,  
1085 Mission Street, San Francisco.

Gentlemen:—I respectfully submit herewith my report for the fiscal year ending June 30th, 1912, in accordance with the provisions of the Charter.

The appropriation granted for the fiscal year by the Board of Supervisors amounted to \$197,800.00, and was more than sufficient for our needs, owing to certain reforms instituted during the year, in fact we were enabled to turn back into the Treasury the sum of \$2,864.00. Out of our funds during the year we also purchased an automobile for use of the Superintendent.

## THE POPULATION.

The average population in the Home during the fiscal year was 1,284; the minimum number was 1,255, on November 2nd, 1911; the maximum number was 1,292, on August 2nd, 1911.

It is noticeable upon going over our statistics that our population is not as changeable as it was a few years ago, in fact we should have at least sixty empty beds on the 30th day of June this year; but at that time there were virtually none, and it is going to be a very serious problem to provide housing for the indigent who apply during the winter months.

## WATER PROBLEM.

During the year there were installed a new Dean pump and a connection was made to the Spring Valley supply at Lake Honda, which will prevent a recurrence of a shortage of water in the institutions situated on the Relief Home grounds. It has been found necessary to purchase water from the Spring Valley Water Company, as our wells are not sufficiently developed to provide the quantity needed for the two institutions.

I would repeat the recommendation that I have made a number of times during the last three years, to-wit: that a well be sunk to a depth of 300 to 400 feet, to see if sufficient water could not be developed. This well might cost in the neighborhood of \$2,000.00, but I think it would be money well invested, as our monthly bill at the present time with the Spring Valley Company averages \$125.00.

## POWER PLANT.

The power plant is in a first-class condition, the new generators being very satisfactory and developing a great deal more electrical current than needed, thus permitting expansion and the use of electrical energy in our various departments. I would recommend the installation of high pressure boilers as a substitute for the low pressure boilers now in use. This installation would cost about \$16,000.00, and I believe would effect a saving of at least \$250.00 a month in the use of fuel oil, as in the low pressure type now in use, condensation is very rapid, and owing to the great distance that the buildings are situated from the power plant, the system is very expensive.

## IMPROVEMENTS.

There are certain improvements urgently needed, particularly a new building to house the inmates of No. 3, which was destroyed by fire in 1911. These inmates are now housed in shacks which are a disgrace to any community, and should be done away with as soon as possible. With the exception of this improvement other improvements required can be made with the inmate labor available on the grounds. They embrace new shops for the machine shop, mattress, blacksmith, etc.

In February we commenced the erection of an automobile garage with inmate labor, and completed same at a cost of \$320.00, thus showing the cheapness of concrete construction with inmate help. This building is fireproof throughout, and built of reinforced concrete. We now have under construction a reinforced concrete machine and blacksmith shop which should be finished the first of September. After its completion we propose going ahead with the other work recommended above. It is also proposed to construct a reinforced concrete stairway from the lower yard to the Relief Home; this to be a duplicate of the one already constructed to the Infirmary Building, and it is hoped that this will be completed during the year.

## ROADS.

During the year all the roads approaching to our grounds, and inside of the grounds, were repaired by inmate labor. It was found necessary to use in this work 2,800 cubic yards of broken rock, which was quarried, crushed, spread and rolled entirely by the labor furnished by the inmates.

## REPAIRS NEEDED.

The repairs needed at present in the institution are not extensive. All buildings should be painted and a roof should be put on the 200,000 gallon water tank which contains the reserve fire supply. Our dining room floor should be relaid.

All this work would have to be done by outside labor.

## INMATE LABOR.

The policy of using inmate labor is one that I have found to be not only a benefit to the city by effecting a saving to taxpayers, but more important, of benefit to the inmates themselves, by making them feel that they are doing something to retain their self-respect and manhood, and that they are not mere paupers supported by charity. This feeling, which is very common among those who work in the institution, enables discipline and efficiency to rank higher with us than with any similar institution in the country. I have found that the opposition to this system came from those who had never visited the grounds or studied the question, and as soon as the opponents studied conditions for themselves with a fair and free mind they became advocates of this idea. We are doing today 90 per cent of all the carpenter and cabinet work required by the institution. We are building roads, cultivating all the available ground—amounting to about 40 acres. Tailor shops, shoeshop, tin shop, blacksmith work, wagon factory, and many other forms of industry are conducted entirely by inmates.

A few pictures showing the various activities are attached herewith.

There was collected from relatives of inmates, or from estates, the sum of \$1,891.90, which was deposited with the City Treasurer.

In June the Supervisors made a special appropriation of \$1,250.00 for the purchase of a moving picture machine and a piano player, both of which are now being enjoyed by the inmates.

URGENT.

The buildings occupied by the inmates of the Relief Home are of wood, and will always be a fire risk. Any one visiting the institution and seeing the number of helpless and crippled inmates is struck by the fact that in case of fire many lives would probably be lost. Furthermore, were these buildings destroyed there is no other place available to temporarily house the occupants.

It is therefore very urgent that something be done to convert the present structures into fireproof buildings.

I would recommend that the Architectural Commission be requested to draw plans for the future Relief Home, and that the Board of Supervisors be requested to appropriate funds for the conversion of the present Home into a fireproof structure.

Another urgent need is a building in which to house the present occupants of No. 3. These men, numbering over 100, are senility cases and for the most part helpless. The building they are occupying is a mere shack put up a little over a year ago as temporary quarters, and was made necessary by the destruction by fire of the old building which had been used for some thirty-five years for this purpose.

I estimate that a building to house these people, of reinforced concrete, could be put up for something like \$40,000, and work on this structure should be commenced at once.

I would therefore request your Honorable Board to bring this once more to the attention of the Board of Supervisors.

Very truly yours,

C. M. WOLLENBERG, Superintendent.

# Report of Isolation Hospital

To the Honorable Board of Health,  
San Francisco, Cal.

Gentlemen: I have the honor to submit the following report of the institution under my care:

It is with much pleasure that I am able to note that all diseases of a communicable nature that it is the duty of the municipality to care for are now housed under one management. This tends toward efficiency and economy in administration and greatly simplifies the handling of a very vexatious problem.

Three great problems present themselves in the conduct of an institution of this character: First, the proper housing and care of the patient so that he can be restored in the shortest time to his former health. Second, the relation of the hospital to the public. Third, the care of the patient during the period of convalescence. Under the present arrangement and housing there is much to be desired. The set of buildings constructed with a view to the care of Variola only, has been divided so that the greater part of it has been given over to the care of other communicable diseases. It is certainly logical that if the necessity existed for these buildings in the past when vaccination was insisted upon, how much more necessary they will be as a sequence of the change in the vaccination law which makes vaccination optional instead of compulsory is obvious. A careful investigation of the statistics of the Health Department would, in a measure, bear this statement out, for during the months of May, June and July there have been a greater number of cases of Variola treated than ever before.

Under the present arrangement we are able to accommodate twenty-five Variola patients, and during the month of July we were up to our limit. What the outlook is it would not take the eye of a prophet to foresee. This disease, essentially one of the winter season, would have a very favorable field for its propagation, if one considers the large body of unvaccinated human beings who are growing up in this city.

The wisdom of the law which compels the notification by physicians of cases of Varicella was never better exemplified than during the present endemic. Few physicians are on the quiver for Variola; in fact it would appear to be the last thing that enters their minds. The mistake of calling the milder types of Variola, Varicella, is a common one, and the resultant correction of the error with the prompt vaccination of the contacts, and disinfection of the premises, tended to wipe out the disease in the locality in which it had appeared.

The objections that have been rife in the public mind toward an institution which in the past bore the name of "Pest House" have in a great measure been overcome. This is the result of the changing of the name of the institution and the education of the public, and is also due to the fact that we can now place the patient under conditions such as obtain in the best private hospitals.

As at present conducted, the hospital is practically closed to the visiting public. Should this be the case? Under a proper environment the answer would be in the negative. It is a hardship to take a child which is the pride and joy of its parents from its home when for financial reasons or for public safety removal therefrom is absolutely necessary, to a hospital and practically immerse it for a period of three weeks in Variola or seven weeks in Scarlet Fever, without the parents being able to see it. I am committed to the opinion that

with a properly constructed building this enforced isolation would not be necessary, and this is based upon close personal observation and the experience of others, that there is no danger to patient or visitor in a properly constructed isolation hospital such for example as is the case where the glass cubicle mode of construction is employed. Under this system those diseases which are of the most highly communicable nature could be treated side by side without danger to patient or attendant. This is well illustrated in the famous Pasteur Institute in Paris.

Under the heading "Care of the Patient During the Period of Convalescence," I favor the provision of grounds of sufficient amplitude to permit the patients to be out of doors for a certain number of hours each day. The present site, owing to its freedom from fog, equable temperature and the protection afforded by the Bernal Heights would be, with a proper windbreak to the westward, an ideal location. It is here that one can bask in sunshine and view the more favored residential sections of the city enshrouded in fog.

There is another duty which devolves upon institutions of this character, and to my mind one of the greatest, and that is that proper facilities be accorded to the medical teaching bodies, that they might make use of the large number of interesting cases that are annually presented here, for the proper instruction of medical students.

Many believe that those diseases which are spoken of with bated breath are the sine qua non of an institution of this character, and consider the so-called diseases of childhood such as Measles, etc., beneath the dignity of a medical man, but when one recalls the death rate which occurred among the Spanish War volunteers in 1898 in the camps of this city from Measles and its sequelae, one realizes that it is as essential for the medical man to understand these diseases as it is for him to understand those of a supposedly more serious nature, and also realizes the need of an institution where these diseases may be studied under favorable scientific aspects so that they may be placed in the same category with Diphtheria and like it be robbed of their terrors.

## LEPROSY.

There is little to be said regarding the hospital treatment of leprosy, its status being practically the same as that in the past decade, but epoch making discoveries have brightened the bacteriological horizon of this disease.

In 1909, Clegg, of the Bureau of Sciences of Manila, proclaimed to the world that he had succeeded in growing the bacillus of leprosy outside of the body. When this discovery was announced other investigators followed in his footsteps and confirmed his observations.

Duval, of New Orleans, stimulated by the work that had gone on before, succeeded in not alone growing the organism in pure culture, but was successful in transmitting the disease to the lower animals. These discoveries open up an enormous field which has but to be tilled to produce far-reaching results. It requires no wide stretch of the imagination for one to see that within a few years a disease which since the earliest biblical times has been the most horrible fate that could befall a human being will soon be conquered, and its appearance in a community be considered a reproach to its intelligence.

Under the present conditions, the lepers in this institution are as comfortable as it is possible for them to be in view of their affliction. As I have noted in my previous reports, all the patients are an unjust charge on this community, but in spite of that fact the city has housed these unfortunates in a manner that would be hard to excel. On perusal of the interstate Quarantine Regulations a method has suggested itself to me by which lepers dumped upon this city by other communities may be got rid of, "Article 3, General Regulations, is hereby amended by the addition of the following paragraphs:"

Paragraph 9. Common Carriers shall not, under authority of paragraph 8, accept for transportation nor transport in interstate traffic any person suffering from or afflicted with leprosy unless there has been obtained from the Surgeon General of the Public Health and Marine Hospital Service or his accredited representative a permit stating that said person may be received under such restrictions as will prevent the spread of the disease, and said restrictions shall be specified in each instance: Provided, That, in addition to the above, permits shall also be obtained from the Health Authorities of the States, Territories or Districts to and from which the patient intends to travel.

Paragraph 10. No person knowing or having reason to believe that he is a leper shall accept transportation nor engage in interstate traffic unless permits have been obtained as set forth in the preceding section, and unless said person shall have agreed in writing to comply with the restrictions as specified in the permits mentioned above.

Paragraph 11. Any person who presents symptoms of leprosy and who is travelling or who has left the state where he resides, in violation of the above regulations, shall be detained, and if proven to be a leper, shall be returned to such state or removed to such Federal Quarantine station as the Secretary of the Treasury may designate, and the proper Health Authorities notified.

Paragraph 12. Compartments or places in cars, vessels or conveyances operated in interstate traffic, and that have been occupied by persons afflicted with leprosy shall be immediately closed after being vacated by the patient and kept so until after proper disinfection.

This will serve to lighten the burden of this community and may be a potent argument in favor of a national leprosarium. Should segregation be rigidly enforced? I am of the opinion that the greater number of leprologists would answer this query in the affirmative. While the disease is in a measure regarded as communicable, it is but faintly so, it being regarded essentially as a "Place Disease." Segregation is not enforced in London, Vienna or New York, but all know of Manson's case where a man born and brought up in Dublin, and who had never left the city, contracted leprosy from his brother, a soldier who had been invalided from India on account of the disease.

#### MINNESOTA BOARD OF HEALTH.

Dr. Bracken, in a personal communication, states that many of their cases are undoubtedly of local origin. This is a very important admission in view of the fact that they allow cases to be treated in their homes.

The fact that many of these patients are strong, able-bodied men whose lesions in no way prevent them from leading an active life, results in their enforced idleness breeding discontent and marked restlessness under their restraint. This results in their absconding from time to time to return when they find that their condition is recognized by their fellow workers and that they are shunned by all.

New Orleans solves this problem by refusing to admit anyone to the settlement who is not a native of Louisiana, and if one absconds the fact is published in all the papers.

#### GROUND.

On my resuming charge of the institution I found that the grounds were in the same condition as when these buildings were completed two and a half years ago. I was informed that the Superintendent of Golden Gate Park had

estimated that it would cost \$3,700 to put them in anything like a presentable condition. This sum of money was not forthcoming nor could I see where it might be obtained. To leave the grounds in their original condition meant mire in winter and a cloud of dust in summer, which was destructive to the interior of the buildings. I immediately started to remedy this condition of affairs by having blue rock put in to cover an area fifty feet square, leading from the gate to the ward door, and in having cement paths put in which lead around to the doors of the different buildings. All the intervening space was filled with street sweepings, and load after load was dumped upon the premises until all inequalities in the surface were eliminated and a proper foundation given for a lawn. Through the courtesy of a foreman in charge of the excavation of the incinerator site immediately to the west of this institution, the top soil was removed and added to this mass. This is enclosed by a cement border and the whole planted with grass seed, and has resulted in a very satisfactory lawn. Thus the place is vastly improved. Mud is not being tracked in, the dust cloud has disappeared, and all this has been accomplished by the efforts of the two men about the place and inmate labor, and was accomplished at a cost of not more than \$300.00.

I have requested an estimate from the Street Repair Department of the cost of surfacing the yard of the leper hospital with asphalt, and they inform me that it will cost \$765.45. I have also requested them to give me an estimate for surfacing De Haro Street, southerly to the gate of the hospital and they have informed me that it would cost \$350.00.

In order that the plan projected can be accomplished and the ideals attained, it is, if the institution is to be used for clinical instruction and research work, absolutely essential that we have here a trained laboratory man. The difficulties which have beset the department in obtaining internes, are due to the fact that the majority of these young medical men are from the East and simply accept the position as a convenience to themselves until such time as they are enabled to take the State Board Examination, and having done so, leave us, thus compelling the breaking in of a new man. This breaks the continuity and defeats the purpose for which we need him. By having a laboratory man assigned here to do the necessary work we would be enabled to carry out the plans outlined to a conclusion. With the apparatus left over from the plague work, which has been stored in the basement of the hospital since that time, and the purchase of a very few new instruments, the hospital is fully equipped from a laboratory standpoint. All that is needed is the worker. The expense of such a man would not be great as he would give but a part of his time to the place. On talking the matter over with a laboratory director he stated that the expense would not exceed \$900.00 a year.

#### NURSES.

In an institution of this character the most essential factor in attaining the success hoped for is a proper nursing staff. The very nature of the work, that is, the care of communicable disease, would emphasize the necessity of having a body of nurses that could be called upon at a moment's notice to exercise supervision over those entrusted to their care.

Crowded to its full capacity in winter, in a building which is used as a temporary makeshift, and with cases which require special care and attention, it is essential that we have a body of student nurses who would be ready to respond to our needs at a moment's call. Owing to the fact that twice since last February the City and County has been unable to comply with our needs for nurses,

I renew the suggestion made in my report on resuming charge, that this institution extend an invitation to the teaching institutions for nurses, for example the University of California, Leland Stanford, Jr., University, and the Hahnemann Hospital, to send their nurses here for a period say not to exceed eight weeks, for training in this class of work, thus giving them a training in a class of diseases which is not treated in the institutions named, and the handling of which will form a great part of their future career.

Respectfully submitted,

ARTHUR A. O'NEILL, M. D.

79 Ambulance calls for patients taken to City and County Hospital.

# Report of Emergency Hospitals

San Francisco, July 31, 1912.

To The Honorable,  
The Board of Health,  
San Francisco, Cal.

Through the Health Officer.

Sir:—In submitting herewith the annual report of the Emergency Hospitals of San Francisco for the fiscal year 1911-1912, including also the report of the Inspector of Indigents, I deem it proper at this time to call your attention the fact, inasmuch as there seems to be a great deal of misunderstanding as to what the duties of this Service are, that the Central Emergency Hospital not only receives the acutely injured and sick in its district, but also all injured and sick sent in from the various Branch Emergency Hospitals, who may need more than temporary care, including patients demanding capital operations; also all the sick and injured who are applicants for the City and County Hospital and the Relief Home.

During the past fiscal year the Central Emergency Hospital admitted 11,502 patients; 7,556 of this number were surgical cases and 3,946 were medical. All patients brought to the Central Emergency Hospital, including the indigent sick on the way to the City and County Hospital, patients suffering from acute alcoholism, patients demanding major or minor operations, etc., are kept at the Central as short a time as possible without doing any patient an injury by moving him. Patients who have to be immediately operated upon for some major condition cannot and will not be moved from the Hospital until the acute danger is past, which oftentimes necessitates their remaining even as long as ten days. The acute alcoholics, of course, cannot be moved until their delirium is cleared up, which usually takes from two to five days.

The insane patients are sent or taken directly to the Detention Hospital, which is a part of the Central Emergency Hospital, where they are sometimes kept as long as a week at a time before being passed upon and transferred to their final destination. All other patients are sent out as soon as it is possible to arrange for their proper disposal.

No patient is operated upon at the Central Emergency Hospital unless his condition demands such immediate attention; whenever possible his family physician is called and the patient, if able, is transferred to a hospital where he is to be kept until able to go home, whether it be to a private hospital or to the City and County, but it should be understood, as mentioned above, that there are many cases that through necessity for their safety and the safety of the public must be kept longer than twenty-four hours.

The Central Emergency Hospital, which is housed in its new temporary quarters in the rear of the temporary City Hall since May 1st, 1912, is fairly well equipped now to do any surgical operation that may be required of it. The enclosed pictures give a better idea than words. I hope to see embodied in the plans for the Central Emergency Hospital in the new Civic Center many improvements not had heretofore by the Central Emergency Hospital of this City.

In connection with the Central Emergency Station, I desire to call your attention to the important work performed by the Inspector of Indigents, whose duties from a monetary standpoint are probably the most important. It is this department which stands between the city and persons who request the

city's care when they are able to furnish their own; also discovering many cases of needy sick who have either been sent or have come from outside counties of the State to be cared for by this city and county. The Inspector, through her associations with the Associated Charities, is able to save a vast amount of money to the city by having various patients cared for through the different charities. I hope to see this department developed that its good work shall be recognized not only by your Board, but by the Board of Supervisors and others in the governing body of the city.

#### HARBOR HOSPITAL.

This Branch Emergency Hospital admitted 6,885 patients during the past fiscal year of which 5,915 were surgical cases and 970 medical. The Hospital is situated on Clay street, one block from the Ferry Building and is one of the busiest districts of the city. The Hospital is located only temporarily at its present site, the building having been leased by the city for a period of only three years in 1910. I would recommend that this Branch Hospital be moved to the Hall of Justice, where provision has been made for an Emergency Hospital, until such time that the State Board of Harbor Commissioners can be urged upon to provide permanent quarters on State property, the hospital to be maintained by the municipality as had been the custom since 1896 when the State put up the first Harbor Hospital Building on Mission and East streets. This old Hospital Building was torn down in 1910 on account of the proposed extension of the Ferry Building. I would also recommend that this important Branch Hospital be equipped with a motor ambulance.

#### MISSION HOSPITAL.

The Mission Branch Emergency Hospital admitted 3,596 patients, 3,379 of which were surgical cases and 217 medical. In connection with this Branch Hospital, I would state that with the completion of the new San Francisco Hospital in the near future, this Branch Hospital should be moved further out in the Mission District, as the tremendous increase of the population and building activities in this important district will justify the maintenance of a branch Hospital.

#### POTRERO HOSPITAL.

A total number of 3,333 patients were admitted to this Branch Hospital, 3,149 of which were surgical cases and 184 medical. Due to the insufficient appropriation provided in the last budget, it was necessary to reduce the staff and close the Hospital between the hours of 5 P. M. and 8 A. M.; also discontinue the ambulance service during those hours. It is hoped that the Board of Supervisors will provide sufficient funds in the next budget in order to be able to give this important manufacturing district the service it should have. I would also recommend that a permanent Hospital be built on city property, adjacent to the Potrero Police Station.

#### PARK HOSPITAL.

The equipment of the Park Emergency Hospital last year with an auto ambulance has added greatly to the efficiency of the Service, and I am hoping to see the Service finally entirely equipped with auto ambulances. This Hospital admitted 2,462 patients of which 2,238 were surgical and 224 medical.

Respectfully submitted,

ALANSON WEEKS, Chief Surgeon.

## INSPECTOR OF INDIGENTS.

San Francisco, Cal., August 1, 1912.

To the Honorable,

The Board of Health,

San Francisco, Cal.

Through Chief Surgeon, Emergency Hospitals.

Sir:—The position of Inspector of Indigents was not originated by San Francisco, as many years ago England engaged lady almoners in their large dispensaries in London to prevent the abuse of hospitals. The Board of Health was forced to this issue in the year 1907, when they contracted to send our sick poor to private hospitals. My report of a two years' experience proved the value of such inspection. Returning after a lapse of two years to the same position, with a totally different aspect confronting me, as the use of private hospitals has been discontinued, and now all applicants were sent to the City and County Hospital. What has it meant, and is it worth while for the city to have a trained social worker in the Board of Health? Will endeavor to show you some of the problems I meet with every day. The numerical report has been carefully kept, as figures speak louder than words, also produce valuable statistics.

Applicants sent to the City and County Hospital signify that each person was interviewed, and some history obtained. Recurrent cases invite one's attention, as it indicates where improvement in hospital work is necessary. For instance, there is the heart case, recurrent four or even five times in a year. Many of these are alcoholically disposed and little can be done with them; still the remainder need advice and supervision, which the busy Chief has not the time to give. The new San Francisco Hospital being situated in town and convenient to car service will include small lecture rooms where these and other chronics will be taught how to live. The several to whom I have spoken never dreamed of regarding a certain diet, and doing thus and so, as when in the hospital. This training will certainly reduce the number of recurrent cases and the patient and the city benefits by the plan.

The recurrent Relief Home applicant is another type. Some really take a pass expecting to find work and will work if they are able; others to get drunk. Mr. Wollenberg's late rule is a wise one and has proven effective. An inmate that leaves the Relief Home without permission must stay out ninety days. This rule creates anger and hot grumblings from the punished one when refused readmittance, especially when he comes armed with a letter from persons of position, who, judging from the tone of their note, suppose that this is his first application. Interested parties have discussed this point with me, as to whether blacklisting in a city institution is right. If order and peace are to be regarded—yes. There are many institutions for the poor that are conducted on very severe lines; leaving once without permission forever bars their entrance.

The recurrent tubercular is another trial. He also recognizes no law, and later, I treat of his mode of procedure when he desires readmission. The general public is beginning to realize the need of a struggle against tuberculosis, and when I visit a house from where a tubercular is to be removed, the occupants are interested to know what precautions to take in fumigating, etc. The different settlements of the city are most active in discovering the tuberculosis germ in the home of their poor, and sometimes it takes weeks of persuasion before the patient will consider being moved to the hospital. I often wonder if the city realizes the vast amount of good these social workers do; first, in noting the disease (not alone tuberculosis), then reporting it, if

contagious, and furthermore, never satisfied until the cause is ascertained. They are great educational centers and of invaluable assistance to the city, as hundreds of poor are cared for by their district nurses. An emergency hospital should not house a tubercular patient even for one night. In the Central Hospital there are only four small rooms or cells where they can be kept, and these were built for delirium tremen cases, so, if crowded, there is only the medical ward bed. It does happen, especially during the wet season when the tuberculosis hospital cannot accept another patient, particularly as the number enlisted is swelled by the non-resident.

It may appear idealistic, but, in the near future, I hope to see broad lines drawn in the social division of the tubercular patient. The mother or sensitive woman objects to being placed near or by the prostitute. Not all, but some of these unfortunates, angry at fate, make others miserable by their vile ejaculations. The public and Supervisors must realize and appreciate the educational value of the Tuberculosis Hospital, and show their appreciation in allowing a sufficient appropriation to carry on the fight.

In each monthly report a number of people are listed as going to private hospitals and these people usually apply for City and County care, so the private hospital numbers do not include any patient that has been removed to a private hospital by his friends or relatives. Nearly all entered hospitals on special rates or were sent by societies through my recommendation. The latter cases are carefully chosen and presented, as societies will not accept a burden that rightfully belongs to the City. This knowledge comes from experienced, systematic charity work. Few are registered as being referred to clinics, yet special care has been taken to keep the clinic case out of the hospital; although this is unavoidable, especially in the tramp case. Years ago a man entered the hospital on any excuse for a pain; out of work even laid them up in the hospital, and it is a sickening disease. Old timers have told me, and I believe it to be true, that they often stayed through the winter at the City and County Hospital or Relief Home, and "nuthin wuz sed." Societies have co-operated splendidly and are interested in this portion of the city's work. Our problems are more or less alike, hence their sympathetic co-operation.

The reporting of cases liable to deportation has been carefully observed. I have in mind the case of a young man who will be a public charge as long as he lives. His residence in the United States is of six years' duration and he has been chronically ill for over three and is now at the Relief Home a helpless cripple. This man should have been deported.

An interesting phase of this work is the demand and disposal of the non-resident class. The tabulated report signifies the number, also the length of residence of such applicants, and, for the last few months, the disposal is listed, conclusively demonstrating that San Francisco does not shirk her humanity problems.

Returning the patient to his own country cannot be successfully managed until there is a transportation fund to draw upon, and even then, caution and good judgment must be exercised when the fund is provided, as the vagrant may take advantage of this ruling. Charitable Societies generally verify the person's story, still an experienced investigator can usually conduct the questioning without the person's knowledge. Remarkable also is their style of dress. Neighboring and far off counties have absolutely no compunction in shipping patients here that have met with accidents in their county and who cannot prove a residence. Is it not wise to consider this problem at once, especially as in the near future the demands upon the hospital will be enormous. Further on this type of tramp and non-resident class is discussed. The latter does not include the "Off and On" applicant, which literally means "non-resident," as this class is not a taxpayer or voter. Interviewing this type, whether in the cheap lodging house or at the Central Emergency Hospital, or

when brought in by the Police, has impressed upon me the need of free baths, the shower particularly. In many of the cheap lodging houses, baths are extra. In one, where the baths were free, the doors were locked.

I was surprised to see the splendid shower rooms in the Central Police Station, as men and even women are sent from there in a filthy and mal-odorous condition. Usually they are only one nighters. It is perfectly true that bodily bathing will not improve the state of the clothing, and if this is placed in the fumigating house it is not habitable the next morning. Fancy riding in an ambulance for forty-five minutes with such an offensive inmate, and it seems just as cruel to inflict the car passengers. Shower baths are needed in the emergency hospitals, and when the water system is owned by the city, the Board of Health can demand free bath service in all cheap lodging houses. Questioning such applicants, and appreciating that the bath water is an aversion to the many, they often affirm that they could just meet the lodging expense. Asking one old fellow why he did not present himself clean, he quickly responded: "Sure lady that's what I am going to the Relief Home for—a bath."

The visitor that responds to a sick call, relative to the party becoming a city charge, naturally inquires into the cause of such illness and observes the surroundings and the state of the children's health, if there are any. The wide scope of the work keeps her in touch with labor conditions, and she is competent to render suggestions regarding employment, or assist in benefiting the situation by calling in the aid of the particular society that will attend the family's needs.

Little Bobby had been in the hospital many weeks longer than necessary, and, as his mother showed no disposition to regard the discharge card, I was asked to learn the reason, so called the following day at the home, if such a shack can be termed thusly. No one responded to my knocking but an inquisitive neighbor, who supposing I was an agent from the Children's Society, became quite loquacious respecting the attitude of the Board of Health, but declined, as other neighbors had, to report the state of affairs; although they all knew that the water had been turned off for days. Bobby's parents were known to the societies; both drank, the father a little more than the mother, and the former averse to work. Only three children were at home, the other three being divided among the relatives. As Bobby would surely cause discomfort in this home of one broken bed, I sought the aid of the Associated Charities and Bobby goes to the country and the reports to the Board of Health and Society for the Prevention of Cruelty to Children.

What should be the attitude of a physician or social worker toward the family man who applies for admission to the City and County Hospital, and his disease is diagnosed as syphilitic? Are his wife and children to be exposed to a disease as fearful as tuberculosis? This man's duty was pointed out to him and he made clearly to understand that his wife and children must be placed under medical supervision.

Continual sickness in a working man's home gradually breaks the spirit, no matter how courageous it is. The B's struggled along for a year under this ill fortune, bravely trying to meet the payments on their little home, which Mrs. B kept immaculate. Three years ago I was asked by a physician to visit this family and found the elder son dangerously ill. The frail mother consented to the boy's removal to a private hospital. Later an adominal belt was given her and all seemed well. Recently a woman sought me in tears, and it was Mrs. B. The same boy was again ill, and as a doctor's bill had not been paid, the mother feared to call on him, but a physician's services were soon secured; also the kindly attention of Mrs. Sweitzer and her settlement nurses, who later reported that Willie had a serious form of typhoid and hospital care was urgent, especially as another child had come down with the same disease. Willie was sent to the hospital, the baby cared for at home, and all going smoothly when

Mr. B. injured his wrist and lost the steady job he had been so long in securing. Mrs. B. finally desperate, felt that she must break up the home, and it took considerable tact and patience to make here realize a mother's place is with her children. Mr. B is now established in a steady position and Willie and his mother recuperating in the country. Many a man, woman and child would be spared severe illnesses if the monotony of their labors and life were intercepted with wholesome vacation.

A year in any hospital seems an eternity, yet K was over this period of time in the City and County Hospital, and could not be conscientiously dismissed until a knee brace was fitted, so his surgeon made known his need, which I ascertained would cost \$80.00. The man had not been entitled to San Francisco hospital care as a resident, because the accident had happened in a northern county, where he had been employed many years. The superintendent permitted three months' care in this county hospital, then paid his way to San Francisco where he requested and was granted hospital attention the day he arrived. His relatives were averse to assisting, but finally recognized the obligation, inasmuch as I had appealed to a Society to bear part of this expense. To accomplish this required many hours of writing and reasoning, but the city was the gainer, as well as the man.

This is a frequent demand: "Will you call upon so and so today and insist on their going to a hospital?" Often I find the patient not prepared for my visit nor conscious of the nature of their disease. One of my most pathetic visits was to the home of Mrs. C. As I approached the house the look of destitution was very apparent. There was no response to my continued knocking, so fearing the worst, pushed open the door—to see standing in the center of the room two besmirched, half naked little cherubs. The abode of three rooms reeked with poverty and delapidation. In the inner room, lying asleep amid filthy bed covering, was the wasted form of a partially dressed woman, the mother. In a cradle nearby, slept a naked, emaciated eight months' old baby. I gently awoke the mother and told her that friends had bidden me come and take her to a hospital. This gentle little soul and I became well acquainted in a few moments and she promised to go if I would care for her babies. I began this care by hunting up the eldest child of six, who was playing on the street, and, in the meantime, telephoned for the ambulance, and notified the Society that had requested me to make this call, as they were to arrange for the disposition of the children. The husband was putting in his first day's work in months. Great praise is due the city ambulance drivers and stewards for the manner in which they handle our unfortunates. For instance, in this case, the slightest gruffness, even if unintentional, would have completely upset all my carefully arranged plans, as the people had never appealed for aid.

Out of twenty typical cases of non-residents. I have chosen the following stories. These applicants come from New York, Idaho and even Alaska. They do not include the Mazatlan refugees.

Mr. D. W. D., a millwright traveled to California from Arkansas, stopped over at Los Angeles two days, San Francisco two days, then went to Fort Bragg, where he resided two weeks before he struck a job. Worked but a few hours, when the scaffolding broke, and he was the only one injured, his leg being badly fractured. According to the man, the Company's surgeon set the limb and also was responsible for placing him on the boat bound for this city, and giving him a note addressed to the Health Officer, stating that the man shipped from San Francisco and was resident of but one day at Fort Bragg.

This case No. 2.—C. M. while employed as a gardener in Menlo Park, fell from a tree and fractured his arm, which was set by a surgeon there. He came to San Francisco to compel his employer to pay his expenses, which he refused to do. The man was destitute and the arm needed the X-Ray. Disposition—City and County Hospital.

Case No. 3.—G. W. S. lived in Weed, Cal., five years. Taken ill and after suffering two weeks thought he would be better off in a hospital, so travelled south and was admitted to our City and County Hospital, as he was a very sick man. His brother, a resident here, would not accept any responsibility.

Case No. 4.—Old Pat had been a charge in an almshouse for four years. Became restless and abusive and was encouraged to move on, so moved here. Indignant when refused a pass to the Relief Home, but finally decided to return on what was left of his travelling expenses.

Case No. 5.—The tubercular is certainly inspired with the "Wanderlust," and is encouraged more or less to wander. They become belligerent beggars, and as it many times happen when there are no empty beds at the T. B. Hospital, and I am forced to refuse them admittance, they quickly go and seek a sympathetic listener, usually the President of a Society, or other well known personages. These people are naturally indignant and speedily communicate with the City and County Hospital, the argument being the danger this person is to the public, which is all very true, but the tramp T. B. is always a menace and only seeks hospital care when his funds are exhausted. This disgruntled patient will destroy the peace of an entire ward, or even hospital, besides taking the bed that belongs to the resident. This tramp T. B. must be cared for, but the public should realize the enormous difficulty in getting results from the T. B. Hospital. My personal experience has been that the lodging house keeper has little fear of tuberculosis infecting his house until a man is unable to pay his rent, and then the cry of "remove him" is strenuous.

J. C. had been in a southern hospital for years. Friends assisted him to visit San Francisco. He, like many of our tubercular patients, was addicted to the use of alcohol. Here but a day or so when compelled to apply for admittance to our hospital. The little jaunt had completely undone the work of years, and, furthermore, he became our charge.

J. Z., an Italian, claiming to be a resident of Colorado for several years, and, without doubt, ill there, as he acknowledged to two years' illness. Received treatment in two county hospitals of this State, and evidently wanting another change of scene, came to San Francisco and presented himself as an applicant for the Tuberculosis Hospital. The advice to return to his last county residence occasioned disagreeable remarks, but he left and a few days later appeared with a note from the Consul, to which I responded, requesting him to return the man to the county where he was entitled to hospital attention.

S. McL., a Scotchman, had drifted from one town to another for a year seeking employment, and working as his health permitted. Arrived in this city destitute, and was directed to the S. F. Industrial Relief Home for Homeless Men, where they soon discovered he was tubercular. Thus his first hospital experience.

B. W. had been in California but eighteen months and employed in the northern part of the State. He was a fine looking young man of twenty-one and was taken ill while at work. The Company physician treated him for two months and then advised him to consult a specialist in San Francisco. B. W. sincerely supposed that the Company intended bearing the expense, as the doctor had given him a letter to a physician, who, when he read it, recommended the young chap to the Central Emergency Hospital, I would not consider hospital admission until the company was communicated with, which B. W. preferred to do, as he now realized he had a grievance. This case would have cost the city months of hospital care.

D. L. was born with a tubercular spine. Upon reaching maturity was sufficiently strong to do clerical work in a bank. His health breaking, a sister sent him to a splendid sanitarium near his own State of Illinois, where

he received free care for months. While there conceived the idea of coming West and was encouraged in this by a relative here. Scarcely settled when he addressed Dr. Brodrick, asking the location of the Tuberculosis Hospital, and a little later presented Dr. Broderick's response to me. Questioning drew forth the above story; also that his sister was too poor to supply the daily dressings. Hospital care was not necessary at that time, but he has been in the hospital since and has also received aid from the Associated Charities. In the near future this young man will become a permanent city charge.

Seventy-two year old G. L., claiming to be a laborer, yet his only recollection of steady work was in the flour mills in the year '64 and '65. Just dismissed from the Sacramento County Hospital where he had been seven days. His San Francisco residence was for a period of two weeks. This driftwood of humanity was sent to the Relief Home.

Totally blind, filthy and destitute and led by another tramp, J. V. applied and was referred to the Relief Home after ten days' residence. He had been in the United States but ten years, California nine years, six years of this time in Los Angeles, but for the past two years a wanderer.

An old Bohemian, who, when able, supported himself by doing kitchen work, had been an inmate of the Los Angeles County Poor Farm for six years. Suddenly became most enthusiastic to hunt up a friend that lived in San Francisco and whom he had not seen in thirty years, so left the Poor Farm and earned enough to come here on the reduced boat rate. C. P. had charm and won the heart of the surgeon on duty, because he resembled his father-in-law. I ascertained that the old man had been an inmate of the Los Angeles Poor Farm, yet could not return him as there were no funds for this purpose. So he is still happy, I imagine, at the Relief Home.

This seemed the most pathetic case I ever came in touch with. The man positively tumbled into the Central Emergency Hospital, too faint for words. Later learned he was suffering with cancer and had been operated upon in Topeka, Kan., near which town he had been employed as a farm hand. Convalescent, was sent to the Poor Farm, and managed, while there, to sell his effects for \$17.00, and with this mighty sum started to Sunny California in search of health; although the physicians had frankly advised him that there was no cure. At Reno his courage and spirit failed, as the old pains tortured him. Applied for but was refused hospital admittance, so over the Sierras he trudged, treatment being refused everywhere. His last 10c brought him over the ferry, but his old nickel watch could not buy him a cup of coffee. Needless to add he was sent to the City and County Hospital, and before starting was freshened up on a bowl of Central Emergency soup.

A charitable society paid young H. G.'s fare from Washington, being impressed, no doubt, with his ability to make good. While in that State a public charge for months, and his condition on arrival here warranted our sending him to the City and County Hospital.

Convalescents and chronics come from all parts of the United States, urged on they say by physicians who recommend change of climate. Personally I do not believe it takes much urging, as they fully prepare to register themselves county charges as soon as their little gives out. Friends and sometimes Societies make up a purse to send an unfortunate along, never anticipating the problems that are before him. One month I kept a record of causes of accidents of non-residents and nearly all were due to alcoholism. These cases all become city charges.

Particular interest is portrayed in the young girl who comes here to hide her shame, especially in seeking to open their eyes to a better way of living. Many overcome with mother love determine to keep the baby and are encouraged and assisted to do so.

A certain amount of success has been met with in demanding those who were able to pay for their maintenance at the City and County Hospital or Relief Home. This is not enforced or even requested where the family needs the sick benefit coming from a Society or pension, nor are people allowed to take advantage of the city and county rate when they are positively able to enter other institutions. Relatives worn out by the discontent and vagaries of the sick old father or mother will make application to place him or her in the City and County Hospital or Relief Home, then it is learned that these old folks own the home and carry a fairly good life insurance, which the children (who as a rule are all grown and employed) never permit to lapse, thus they are charged \$15.00 per month; the other cases are those that have a small pension or income from a piece of property that does not amount to more than \$15.00 or \$20.00 per month. This entitles them to a home and care which they could not possibly procure for that rate in any private institution.

Improvement in the transportation of the City and County patient is urgently needed, and I hope the accompanying photos will prove this. At the present time Mr. Harry Rix, ambulance driver, can make but one trip a day to the City and County Hospital, and returning picks up the tubercular cases, carrying them to their destination, the other end of the city. Should there be, as it often occurs, more than two stretcher cases, only two can possibly be placed in the bed of the present ambulance, and these in a distressingly uncomfortable manner. Two more patients can be seated on a bench which is lodged at the extreme end of the ambulance and these are crushed into this space. Supposing only one stretcher case is taken, then a bench is raised on the side of the ambulance and this will carry five persons, who arrive at their destination with another complaint, "cramped legs," because if they dared stretch, the prostrate occupant would be injured. In former times I have seen refined women compelled to ride with a motley set of sick men. Recently this arrangement has been adjusted by the kind consideration of Dr. Alanson Weeks, Chief Surgeon, who has ordered that all women or the very urgent case shall be transported by the automobile ambulance. This is indeed a great privilege, as it actually cripples one of the emergency hospital stations. The pressure in the winter months is inconceivable, and would affect the nerves of the most hardened. The care of the sick shows a city's development, and why we are not improving our City and County ambulance service, as quickly and as efficiently as we are the hospital conditions is incomprehensible to a worker in the hospital service.

A few hours in the Emergency Hospital is all that is required to impress anyone of its importance and usefulness. Dr. Alanson Weeks, Chief Surgeon, and Mr. Chas. Bucher, Chief Steward, are constantly planning improvements. Still in this great department of the city's service, there is a great lack and that lack is—the appreciation and consideration due their nurses, stewards and ambulance drivers. These forty-five people work with their nerves at strain seven days a week, thirty or thirty-one days a month and three hundred and sixty-five days a year with never a single holiday or vacation to break the monotony. Yes, a holiday is permitted, if they pay a substitute. Is this consistent in a Health Department? Waving the idea of justice aside, what of conserving the strength and nerve force of such employees. I sincerely hope that the Mayor and the Board of Supervisors will not let this year pass without rectifying this injustice by establishing the six day a week work, observing not only labor law, but God's law.

The duties of an Inspector of Indigents leads only to a fuller and better work. A work that assists the city in handling its sick poor in a skillful, yet humane way, and if I may be permitted to say so, it has seemed worth while from the monetary point of view. Sending a person to a hospital is only the beginning. The medical or surgical man of this day is rarely satisfied with his

efforts that end with the dismissal of a patient. It is vitally necessary that this person's home conditions are known and that his convalescence is watched, so the attentions of the medical or surgical man is not lost. Experience has taught us that this is most essential with women and children, and our San Francisco medical schools are recognizing this fact, a fact that is well organized in all the large hospitals of the Eastern cities. Quoting Dr. Richard Cabot of the Mass. General Hospital "at least two-fifths of the patients treated need more than mere medical or surgical care. To these two-fifths and to the physician who treats them, the work of the dispensary without sympathetic advice and care in the home is 'dust and ashes.'" All this is termed Hospital Social Service Work, and I hope to see this bureau established in our New San Francisco Hospital.

Respectfully,

GWENDOLAN NEWELL,

Inspector of Indigents.

## ANNUAL REPORT OF CITY PHYSICIAN AND BUREAU OF TROPICAL DISEASES.

San Francisco, July 1, 1912.

To the Honorable Board of Health,  
San Francisco, California.

Gentlemen: I have the honor to submit the following report for the fiscal year ending June 30, 1912

This report covers the work of the Bureau of Tropical Diseases for the entire year and the work of the City Physician since April 1st, 1912, at which time the two positions were consolidated.

Number of visits to patients .....	562
Number of patients at clinic—new .....	217
Number of patients at clinic—re-examinations .....	424
Number of patients at City prison .....	380
Number of vaccinations .....	476
	2,059

## LABORATORY EXAMINATIONS.

Stools .....	461
Night blood (Filaria) .....	106
Miscellaneous .....	127
	694
Total .....	2,753

## DISEASES ENCOUNTERED (TROPICAL).

Hookworm .....	70
Tricocephalus Dispar .....	93
Ascaris Lumbricoides .....	41
Taenia Nana .....	9
Taenia Saginata .....	2
Bilharziosis (Schistosomum Mansoni) .....	5
Cercomonas Intestinalis .....	6
Balantidium Coli .....	1
Strongyloides Intestinalis .....	13
Amebiasis .....	4
Malaria .....	7
Leprosy .....	1

Experiments have been carried out regarding the transmission of the parasite of Bilharziosis, Schistosomum Mansoni, and cases have been observed after the administration of Salvarsan. Up to the present time no definite conclusions can be drawn.

Hook worm disease treated—cured, 35.

The appointment of a nurse for one month by the Association Charities made it possible to treat a number of hookworm cases and demonstrated the economy of treating the class of cases handled by the Board of Health in their abodes instead of in the County Hospitals.

Only a small portion of the hookworm cases entering at this port, except those passing through the U. S. Immigration Station, come under observation as most of them scatter throughout the city or state on their arrival, there being no provision whatsoever for systematic examinations at the time of landing.

That these cases are a serious menace to this city as well as to the rural districts of the State was clearly demonstrated by the finding of a number of infected persons residing in the vegetable raising district of this county—a district unsewered and affording ideal conditions for the propagation of the disease.

The appointment of a nurse or an inspector who would co-operate with the Associated Charities is necessary as a preliminary step in the control of this situation.

Respectfully,

HERBERT GUNN, City Physician.

STATEMENT OF UNIT COSTS CENTRAL OFFICE DEPARTMENT OF  
PUBLIC HEALTH, FISCAL YEAR 1911-12.

## EXECUTIVE OFFICE.

	Funds Dept. of P. H.	Other Funds
Salaries—		
H. O., chief clerk, two stenographers, two-third salary of telephone operator.....	\$10,754.20	
Expenses—		
General and incidental expense of department upkeep of auto, photo work in condemna- tions, transportation H. O. repairs.....	1,896.94	
Rent 1085 Mission Street .....		\$ 3,960.00
Light, gas and electricity .....		306.15
Water .....		28.70
Stationery and printing, typewriters and repairs...		1,462.51
Postage .....		720.00
Salaries of two police officers detailed to this De- partment .....		2,928.00
Wages of Janitor \$960.00 per annum.....		960.00
	\$12,651.14	\$10,360.36

This total cost of executive office and other expenses is to be divided among the different bureaus of the Department of Public Health pro rata to the number of months work during the fiscal year 1911-1912.

Total number of working months of Central Office 834.

Average pro rata of executive cost per working month, \$15.17.

Average pro rata of rent, light, water, stationery, postage, referred in the report as other costs, per working month, \$12.42.

## BUREAU OF SANITATION.

Salaries—		
Chief Sanitary Inspector, Clerk, Stenographer, one-third of telephone operator.....		4,042.80
Expenses .....		75.73
		\$ 4,118.53

The total cost of above to be divided among the different inspection bureaus of the Department of Public Health pro rata to the number of months work during the fiscal year 1911-1912.

Total number of working months Bureau of Sanitation, 694.

Average pro rata of cost of Bureau per working month \$5.93.

 LAURENCE WALSH,  
 Disinterment Inspector

# Law Library

San Francisco, Cal., July 1st, 1912.

Hon. James Rolph, Jr.,  
Mayor of the City and County of San Francisco.

Sir:—The librarian and secretary of the San Francisco Law Library Association presents herewith his report for the fiscal year ending June 30th, 1912:

The year just closing finds the library in a prosperous condition. In current publications the library has kept well up. Probably the most important accessions of the year are the Supreme Court Records numbering over four hundred volumes. This set of records was purchased from E. C. Farnsworth, of Visalia, and contains the records of over four thousand cases.

Twenty-four hundred and ninety-six volumes were added during the year, making a total of twenty-six thousand one hundred and fifty volumes on the shelves. This is a slight falling off compared with the number of volumes added during the previous year.

Of the volumes added forty-five were donated, one hundred and sixty-three were volumes of Supreme Court Records bound, eighty-two were records of the District Court of Appeals bound, and the remainder were published.

The donors were: C. H. Huberich, T. A. Perkins, J. L. Crittenden, F. C. Drew, Secretary of the State of California, Secretary of the State of Nevada, Public Service Commission of New York, Public Printer of New Zealand, Attorney General of New South Wales, Secretaries of the various departments at Washington.

Particular attention is called to the donation by Mr. F. C. Drew, of the firm of Metson & Drew. It consists of a set of records of the United States Circuit Court of Appeal, printed before the fire. This is a very valuable donation, and, but for Mr. Drew's generosity, it would have been impossible to obtain these records.

The character of the books added is as follows:

Reports .....	344
Textbooks .....	513
Digests and Indexes .....	48
Statutes .....	215
Periodicals .....	321
Encyclopedias and Dictionaries .....	45
Directories .....	25
Collected Cases .....	40
Trials .....	13
Citations .....	28
Scotch, Irish and Australian publications .....	11
Other foreign publications .....	201
Supreme Court Records .....	564
District Court of Appeal Records .....	82
Governmental publications .....	30
General Literary Works .....	16
Total .....	2,496

More particularly classified the accessions were:

During the year there were lost from the membership of the library association by death the following:

CHARLES PAGE.  
A. G. EELLS.  
E. B. YOUNG.

Mr. Page has been a member of the Board of Trustees for many years. He was always greatly interested in the library, and his advice and judgment were a great aid in its rebuilding. Though always a very busy man he gave freely of his time for its needs. He will be greatly missed not only for the practical help he gave, but also for the lovable qualities which so endeared him to all who came in contact with him.

The library is deficient in some very important particulars. There is a constantly increasing demand for the Australian publications. The Session Laws of many of the States are in a very imperfect condition. We have practically none of the East Indian law publications. These sets are all large and expensive and will call for a large expenditure of funds. It is suggested, however, that they be obtained as soon as possible. These various publications increase in value as time passes, and it is regarded as advisable not to delay in acquiring them.

Bids have been received for these various sets and as soon as they are in proper shape will be submitted for the action of the Trustees.

Very respectfully,

JAMES H. DEERING,  
Secretary and Librarian.

# District Attorney

San Francisco, Cal., 1912.

Hon. Jas. Rolph, Jr., Mayor City and County of San Francisco,  
San Francisco, California.

Sir:—I have the honor to submit herewith the report of the District Attorney's office of this City and County for the fiscal year ending June 30, 1912.

Respectfully,

C. M. FICKERT,  
District Attorney.

# Poundkeeper's Report

San Francisco, July 25, 1912.

Hon. James Rolph, Jr.,

Mayor of the City and County of San Francisco.

Dear Sir:—In compliance with Section 9, Article XVI, of the Charter of the City and County of San Francisco, we submit herewith the annual report of the office of the Public Pound, for the fiscal year ending June 30, 1912.

We are pleased to show by referring to the financial statement of this report a profit to the City from the operation of the Public Pound of \$4,352.90 for the fiscal year.

Through strict enforcement of the pound ordinance, made possible this year by the employment of extra deputies and equipment, the amount of pound fees collected is in excess of last year, and the number of dog licenses issued is greater than that of any previous year.

Unlike many of the city departments where fees are collected, the excess of receipts over the cost to the City for operating the Public Pound may be said to be due to the efficiency of the office, since no one is obliged to pay fees to this department until business is brought in through its efforts. Likewise, without a dog pound there would be little revenue from the dog license department, the collections of which this year amounted to \$10,059.50. During the year 4,133 cats were brought to the Pound and destroyed without cost to the City.

## SUMMARIZED STATEMENT.

Dogs on hand July 1st, 1911.....	117	
Impounded during the year.....		9,498
Redeemed .....	1,829	
Sold .....	279	
Destroyed .....	7,369	
On hand June 30th, 1912 .....	138	
	9,615	9,615

## LARGE STOCK.

Impounded .....		162
Redeemed .....	139	
Sold .....	2

	162	162

## SMALL STOCK.

Impounded .....		151
Redeemed .....	136	
Sold .....	10	
Destroyed .....	5	
	151	151

A total of 4,133 cats were brought to the Pound and destroyed during the year without expense to the City.

## CASH STATEMENT.

Received for dogs redeemed .....	\$ 3,870.90
Received for dogs sold .....	837.00
Received for large stock redeemed .....	453.00
Received for large stock sold .....	53.50
Received for small stock redeemed .....	219.50
Received for small stock sold .....	11.50
	<hr/>
	\$5,445.40

All of the above cash was paid into the City Treasurer, as per receipts attached to monthly reports on file in the Board of Supervisors' and Auditor's offices.

The City received from the Public Pound in fees .....	\$ 5,445.40
The City received for 4,927 dog licenses sold.....	9,854.00
The City received for 411 duplicate tags sold .....	205.50
	<hr/>
	\$15,504.90

Amount due and paid to the Poundkeeper.....	\$ 9,000.00
Paid Poundkeeper under Special Appropriation .....	2,152.00
	<hr/>
	\$11,152.00

City received .....	\$15,504.90
Public Pound received .....	11,152.00
	<hr/>

Profit to City ..... \$ 4,352.90

The cost to the Society for conducting the Public Pound for 12 months, being for wages of five deputies, one clerk, feed for horses and dogs, repairs of wagons, shoeing horses, rent of phone, rent of premises, repairing harness, gas, water, advertising animals for sale, disinfectants, printing, stationery, postage, etc., and WITHOUT ALLOWING ANYTHING FOR THE SALARY OF OUR SECRETARY, OR HIS ASSISTANT, whose time is mostly taken up with this work .....	\$11,408.67
Received from City .....	11,152.00
	<hr/>
Society's loss .....	\$ 256.67

Respectfully submitted,

THE SAN FRANCISCO SOCIETY FOR THE PREVENTION OF CRUELTY TO ANIMALS, POUNDKEEPER.

MATTHEW McCURRIE,  
Secretary.

# Board of Public Works

San Francisco, November 1, 1912.

Hon. James Rolph, Jr., Mayor, and Hon. Board of Supervisors,  
City and County of San Francisco.

Hon. and Dear Sirs:—There is respectfully forwarded to you herewith, for incorporation in Municipal Reports of San Francisco, 1911-1912, a report of the Department of Public Works, outlining the transactions of the various bureaus of said board for the fiscal year commencing July 1, 1911, and ending June 30, 1912.

Respectfully submitted,

D. G. FRASER, Commissioner.  
C. S. LAUMEISTER, Commissioner.  
MICHAEL CASEY, Commissioner and President.

Attest: F. J. CHURCHILL, Secretary.

## REPORT OF BUREAU OF ENGINEERING.

San Francisco, Calif., July 1, 1912.

To the Honorable, The Board of Public Works,  
Of the City and County of San Francisco.

Gentlemen: There is submitted herewith, the annual report for the fiscal year 1911-12. The works of the various divisions of the Bureau of Engineering are given in detail therein.

It affords me pleasure to commend the high character of service rendered to the City by the Principal Assistant Engineer, the Consulting Mechanical Engineer and the Assistants in charge of divisions, as well as by the numerous assistants and employees of the Bureau.

Respectfully submitted,

MM-MLS.

MARSDEN MANSON, City Engineer.

### SEWER SYSTEM—BOND ISSUE OF 1903 AND 1908.

Loren E. Hunt, Chief Assistant City Engineer in Charge.

H. W. Shimer, Assistant Engineer in Charge of Sewerage and Drainage System.

A. Judell, Assistant Engineer in Charge of Construction.

Under the Bond Issue authorized November 2, 1903, fifty-three (53) contracts have been entered into for the construction of sewers and appurtenances; fifty (50) of these contracts have been satisfactorily completed and the work accepted. The remaining three (3) contracts are now under construction and are approaching completion within the time allowed the Contractor to finish the work. The total value of the work completed to July 1, 1912, under this Bond Issue, is \$1,057,424.17, of which value \$159,603.04 has been completed during the past fiscal year.

Under the Bond Issue authorized May 11, 1908, forty-two (42) contracts, aggregating \$3,486,185.56, have been entered into for the construction of sewers and appurtenances; thirty-four (34) of these contracts have been satisfactorily completed and the work accepted. At the beginning of the fiscal year 1911-1912, the estimated value of the work completed under this Bond Issue was \$2,206,768.85. During the fiscal year just passed, work was completed to the amount of \$935,944.88, making a total value of the work completed under this Bond Issue on July 1, 1912, of \$3,142,713.73.

In the subjoined tables the location of the work, the name of the Contractor, the amount of each contract and the date of acceptance of the completed work, are tabulated for each contract. A detailed statement of the recent work completed, under way and in preparation for immediate letting, with a description of the various sewers and appurtenances which have been constructed under the Bond Issue of 1903 and 1908, follows:

OUTLINE OF WORK UNDER CONSTRUCTION, TOGETHER WITH THE  
WORK COMPLETED DURING THE FISCAL YEAR 1911-1912.

## Bond Issue of 1903.

For the construction of sewers and appurtenances in Glen Park Extension.

Contract awarded on August 18, 1911, to the L. H. Westdahl Co.

Under this contract 134.5 lin. ft. of 5'3" circular concrete sewer were constructed, connecting the Glen Park Sewer with the sewer in Lyell Street. This work was accepted on October 16, 1911. A total of \$1,883 was paid the Contractor for this work.

For the construction of sewers and appurtenances in 23rd Avenue from Geary to Anza Street.

Contract awarded on November 22, 1911, to Karl Ehrhart.

Under this contract there was constructed in 23rd Avenue a 3'x4'6" concrete sewer, together with appurtenances. This work was accepted on February 14, 1912. A total of \$6,915.16 was paid the Contractor for this work.

For the construction of sewers and appurtenances in Brannan Street and Beale Street.

Contract awarded on January 24, 1912, to J. F. O'Brien & Co.

Under this contract there was constructed a 2'6"x3'9" reinforced concrete sewer in Beale Street and a 7'6"x6' reinforced concrete sewer in Brannan Street, together with junction structure and appurtenances. This work was accepted on July 12, 1912. A total of \$21,004.32 was paid the Contractor for the work.

For the construction of sewers and appurtenances in 13th Avenue and Cabrillo Street.

Contract awarded on April 10, 1912, to Karl Ehrhart.

Under this contract a 2'6"x3'9" reinforced concrete sewer is being constructed in 13th Avenue from Cabrillo to Geary Street and in Cabrillo Street from 12th to 13th Avenues, together with taper connections and appurtenances. The estimated value of the work on July 1, 1912, is \$6,259.50. A total of \$1,900.28 has been paid the Contractor.

For the construction of sewers and appurtenances in San Jose Avenue from Regent to Liebig Street.

Contract awarded on May 29, 1912, to Karl Ehrhart.

Under this contract there is being constructed 8", 21", 12", 24" and 30" ironstone pipe sewers and a 30" riveted steel pipe sewer in San Jose Avenue, together with appurtenances. Construction work has just been started.

## CONTRACTS BEING PREPARED.

On July 1, 1912, appropriations had been made by the Supervisors for performing the work on the following named sewers:

In Stanyan and Oak Streets between Frederick and Cole Streets;

In Beach Street between Webster and Tonquin Street;

In Ocean Avenue from Lee to Phelan Avenue;

In Pierce Street between Lewis Street and San Francisco Bay;

In Steuart Street between Howard and Folsom Streets;

In Woolsey Street between Holyoke and Dartmouth Streets.

Since July 1, 1912, all the above named sewers have been awarded, and are now being rapidly prosecuted toward completion.

## BOND ISSUE OF 1908.

CONTRACT NO. 11.—For the construction of sewers and appurtenances in Section "F" of the North Point Main.

Contract awarded September 16, 1910, to the Metropolis Construction Co.

The work under this contract included the construction of a 15" ironstone pipe sewer in Fifteenth Street, between Treat Avenue and Harrison Street; of an 8" ironstone pipe sewer in Harrison Street between Fifteenth and Alabama Streets, and of a 7' circular reinforced concrete sewer in Harrison Street from Tenth Street to Treat Avenue, together with overflows, taper and junction structures and other appurtenances. This work was accepted March 6, 1912. A total of \$93,144.83 was paid the Contractor.

CONTRACT NO. 14.—For the construction of sewers and appurtenances in Section "A" of the North Point Main.

Contract awarded on July 10, 1910, to the Healy-Tibbitts Construction Co.

The work under this contract includes the construction of a 12" ironstone pipe sewer in Greenwich Street at Sansome Street; 18" ironstone pipe sewers in the Embarcadero at Bay Street and at Montgomery Street; 21" ironstone pipe sewers in the Embarcadero at Grant Avenue, North Point Street, Kearny Street and at Chestnut Street; a 2'x3' reinforced concrete sewer in the Embarcadero at Beach Street and in Battery Street, between Greenwich and Filbert Streets; a 5'6" circular reinforced concrete sewer in Greenwich Street, between Sansome and Battery Streets; a 6' circular reinforced concrete sewer in Greenwich Street and in the Embarcadero, between Battery Street and the Bay of San Francisco; an 8'6" circular reinforced concrete sewer in Sansome Street, between Filbert and Beach Streets, and in the Embarcadero between Chestnut and Beach Streets, where it empties into the Bay of San Francisco, together with taper and junction structures and other appurtenances. The work was accepted on September 13, 1911. A total of \$153,181.48 was paid the Contractor.

CONTRACT NO. 16.—For the construction of sewers and appurtenances in Section "C-1" of the North Point Main.

Contract awarded on September 16, 1910 to Robert C. Storrie & Co.

The work under this contract included the construction of an 8 ft. 6 in. circular reinforced concrete sewer in Sansome Street between Sutter and Jackson Streets; of a 3 ft. x 5 ft., 5 ft. 6 in. and 4 ft. x 6 ft. circular reinforced concrete sewer connections to existing sewers, ironstone pipe sewer adjacent to the main sewer, together with overflow and junction structures and other appurtenances. This work was accepted October 13, 1911. A total of \$93,863.71 was paid the contractor.

CONTRACT NO. 17.—For the construction of sewers and appurtenances in Section "C-2" of the North Point Main.

Contract awarded on December 16, 1910 to the Keystone Construction Co. and assigned to James F. Von Loben Sels. The work was prosecuted until May, 1912 when the contract was annulled and proposals invited for completing the work. Contract awarded on June 7, 1912 to the Daniel Contracting Co. The work under this contract includes the construction of an 8 ft. circular reinforced concrete sewer in Second Street, between Howard and Mission Streets; an 8 ft. 6 in. circular reinforced concrete sewer in Second Street between Mission and Market Streets; also in Market Street and Sansome Streets, and in Sansome Street, between Market Street and the north property line of Sutter Street, together with ironstone pipe sewer adjacent to the main sewer, taper connection and junction structures and other appurtenances. J. F. Von Loben Sels com-

pleted 8.9% of the work under this contract and the Daniel Contracting Co. has done 2.6% of the work under its contract.

CONTRACT NO. 18.—For the construction of sewers and appurtenances in Section "D-1" of the North Point Main.

Contract awarded on July 7, 1911 to the Contra Costa Construction Co. The work under this contract included the construction of an 8 ft. circular reinforced concrete sewer in Howard Street, between Second and Fourth Streets, together with appurtenances and ironstone pipe sewers adjacent to the main sewer. This work was accepted May 1, 1912. A total of \$96,262 was paid the Contractor.

CONTRACT NO. 19.—For the construction of sewers and appurtenances in Section "C" of the Division Street sewer.

Contract awarded on August 10, 1910 to the Healy-Tibbitts Construction Co. The work under this contract included the construction of a 7' 6" x 8' 6" rectangular concrete sewer in Alameda Street, between Harrison and Division Streets; of a 9' x 10' 6" rectangular concrete sewer in Division Street and Treat Avenue, between Sixteenth and Alameda; of an ironstone pipe sewer in Alameda Street, between Harrison and Division Streets, together with a junction structure and ironstone pipe sewers adjacent to the concrete sewers. This work was accepted Dec. 1, 1911. A total of \$61,316.23 was paid the Contractor.

CONTRACT NO. 20.—For the construction of sewers and appurtenances in Section "D-2" of the North Point Main.

Contract awarded on July 14, 1911 to the Healy-Tibbitts Construction Co. The work under this contract includes the construction of an 8' circular sewer in Howard Street, between Fourth and Fifth Streets; of a 7' 6" sewer in Howard Street, between Fifth and Sixth Streets; of a 5' 3" circular sewer in Fifth Street at the crossing of Howard Street, together with taper and diversion structures and ironstone pipe sewer adjacent to the main sewer. This work was accepted on May 22, 1912. A total of \$86,869.33 was paid the contractor for the work.

CONTRACT NO. 27.—For the construction of sewers and appurtenances in Section "L" of the North Point Main.

Contract awarded on April 26, 1911 to the Healy-Tibbitts Construction Co. The work under this contract included the construction of a 9' circular concrete sewer in Springdale Street, between Lyell and Mission Streets; of an 8' 6" circular concrete sewer in Springdale Street, between Garden Lane and Lyell Street; of 291 lin. ft. of 5' 3" circular concrete sewer in Lyell Street, together with junction and diversion structures and appurtenances. This work was accepted October 23, 1911. A total of \$51,651.25 was paid the Contractor.

CONTRACT NO. 31.—For the construction of sewers and appurtenances in Seventh Street, between Howard and Hubbell Streets.

Contract awarded on June 22, 1910 to the Metropolis Construction Company. The work under this contract included the construction of a 3' 6" x 5' 3" concrete sewer in Seventh Street, between Howard and Folsom Streets; of a 5' 6" circular concrete sewer between Folsom and Brannan Streets; of a 6' circular concrete sewer between Brannan and Channel Streets; of a 3' x 4' 6" concrete sewer between Channel and Irwin Streets; of a 2' 6" x 3' 9" concrete sewer between Irwin and Hubbell Streets; of ironstone pipe sanitary sewers between Howard and Berry Streets, together with overflow and taper structures and appurtenances. This work was accepted December 1, 1911. A total of \$143,940.01 was paid the Contractor.

CONTRACT NO. 32.—For the construction of sewers and appurtenances in Mission Street from Silver Avenue to Bosworth Street.

Contract awarded on May 25, 1910 to the Keystone Construction Co. The work under this contract consists of the construction of a 2' 6" x 3' 9" concrete sewer in Mission Street, between Silver Avenue and Islais Creek; of 500 lin. ft. of 4' x 6' 6" concrete sewer in Mission Street; of a 2' 6" x 3' 9" concrete sewer and a 3' x 4' concrete sewer in Springdale Street at the crossing of Mission Street; a 12" ironstone pipe sewer and an 18" ironstone pipe sewer on the westerly side of the Mission Viaduct, together with junction, taper and diversion structures and other appurtenances. Estimated value of constructed work on July 1, 1912, was \$13,354.

CONTRACT NO. 35.—For the construction of sewers and appurtenances in Section "A" of the Ingleside Outlet Sewer.

Contract awarded on January 20, 1911 to F. Rolandi. The work under this contract includes 2,939 lin. ft. of 3' x 4' 6" concrete sewer in a private Right of Way across the Ingleside racetrack, with a taper connection and other appurtenances. This work was accepted on August 21, 1911. A total of \$26,924.44 was paid the Contractor.

CONTRACT NO. 36.—For the construction of sewers and appurtenances in the Lower Sunset District.

Contract awarded on March 25, 1910 to the Metropolis Construction Co. The work under this contract included the construction of a 6' 6" circular concrete sewer in 45th Avenue, between Vicente and Ulloa Streets, and in Ulloa Street, between 45th and 46th Avenues. A 7' circular concrete sewer in 46th Avenue, between Ulloa and Santiago Streets; a 7' 6" circular concrete sewer 46th Avenue, between Santiago and Quintara Streets; 8' circular concrete sewer in 46th Avenue, between Quintara and Noriega Streets; an 8' circular concrete sewer in Noriega Street, between 47th and 46th Avenues; and an 8' circular sewer in 47th Avenue, between Noriega and Kirkham Streets; an 8' circular sewer in Kirkham Street, between 47th and 48th Avenues; 405 lin. ft. of 2' x 3' reinforced concrete sewer in adjacent streets, together with overflow, junction and taper structures and appurtenances. This work was accepted on February 2, 1912. A total of \$166,199.08 was paid the Contractor.

CONTRACT NO. 37.—For the construction of sewers and appurtenances in Golden Gate Park and Forty-eighth Avenue, between Cabrillo Street and Lincoln Way.

Contract awarded on April 17, 1912 to the Consolidated Construction Co. The work under this contract includes the construction of a 9' x 11' concrete sewer in Golden Gate Park and Forty-eighth Avenue, between Cabrillo Street and Lincoln Way, together with sedimentation chamber and other appurtenances. Actual construction work has just begun.

CONTRACT NO. 40.—For the construction of sewers and appurtenances in Lincoln Way and 48th Avenue.

Contract awarded on April 21, 1911 to Robert C. Storrie & Co. The work under this contract included the construction of a 6' 6" circular concrete sewer in Lincoln Way from 40th to 48th Avenue; an 8' circular concrete sewer in 48th Avenue from Kirkham to Irving Street; an 8' 6" circular concrete sewer in 48th Avenue from Irving Street to the north property line of Lincoln Way; a 3' 6" x 5' 3" concrete sewer in Lincoln Way from La Playa to 48th Avenue, together with junction and taper structures and other appurtenances. This work was accepted February 14, 1912. A total of \$132,511.85 was paid the Contractor for the work.

CONTRACT NO. 42.—For the construction of sewers and appurtenances in Section "C" of the Ingleside Outlet Sewer.

Contract awarded on January 3, 1912 to the Contra Costa Construction Co. The work under this contract included the construction of a 5' 3" circular concrete sewer in Thirty-fourth Avenue and Sloat Boulevard, between Vicente Street and a point between 31st and 33rd Avenues produced, together with appurtenances and ironstone pipe sewer connecting the concrete sewer with Section "B" of the Ingleside Outlet. Estimated value of work completed July 1, 1912, was \$42,050.88.

CONTRACT NO. 43.—For the construction of sewers and appurtenances in Section "D-3" of the North Point Main. Contract awarded on July 28, 1911 to F. Rolandi.

The work under this contract included the construction of a 7' 6" circular concrete sewer in Howard Street, between Sixth and Eighth Streets; of a 3' 6" x 5' 3" concrete sewer in Sixth and Seventh Streets at the crossing of Howard Street, together with appurtenances, diversion structures and pipe sewers adjacent to the main sewer. The estimated value of the work completed on July 1, 1912, was \$91,616.98. Accepted May 15, 1912.

CONTRACT NO. 44.—For the construction of sewers and appurtenances in Section "E" of the North Point Main. Contract awarded on August 23, 1911 to F. Rolandi.

The work under this contract included the construction of a 15" ironstone pipe sewer in Brannan Street, between Ninth and Division Streets; a 7' circular reinforced concrete sewer in Harrison Street, between Eighth and Tenth Streets; a 7' 6" circular reinforced concrete sewer in Eighth Street, between Harrison and Howard Streets, together with taper connection, junction structures, ironstone pipe sewer adjacent to main sewer and other appurtenances. Estimated value, July 1, 1912, \$127,626.75.

CONTRACT NO. 45.—For the construction of sewers and appurtenances in Section "G" of the North Point Main. Contract awarded on July 5, 1911 to John Daniel.

The work under this contract included the construction of a 10' 6" x 12' 6" reinforced concrete sewer in Treat Avenue, between 16th and 18th Streets; of a 7' circular reinforced concrete sewer in Harrison Street; of a 7' 6" circular reinforced concrete sewer in 18th Street at Treat Avenue, together with junction and overflow structures and other appurtenances. The estimated value of the work July 1, 1912, was \$80,107.75.

CONTRACT NO. 47.—For the construction of sewers and appurtenances in Section "M" of the North Point Main. Contract awarded on July 31, 1911 to the Healy-Tibbitts Construction Co.

The work under this contract includes the construction of a 6' 6", a 7', an 8' and an 8' 6" circular reinforced concrete sewer in a Right of Way parallel with and 330 ft. westerly from Alemany Avenue, between San Ynez Avenue and Garden Lane and of a 4' x 6' reinforced concrete sewer in a 60' right of way (same being a continuation of Santa Rosa Avenue) together with taper connections, junction structures and other appurtenances. The estimated value of the work July 1, 1912 was \$3,383.16.

CONTRACT NO. 49.—For the construction of sewers and appurtenances in the Ingleside Outlet, Section "B." Contract awarded on November 10, 1911 to the Coast Improvement Co.

The work under this contract included the construction of a 24" cast iron pipe sewer across the Spring Valley Water Co. lands from Junipero Serra Boule-

ward to Sloat Boulevard, together with appurtenances. This work was accepted on April 24, 1912. A total of \$20,749.75 was paid to the Contractor.

For the construction of sewers and appurtenances in Beale Street, between Folsom and Bryant Streets. Contract awarded on December 23, 1910 to J. W. Flinn and assigned to Westdahl & Hennessy.

Under this contract, a 12" I. S. P. sewer was constructed in Beale Street, between Folsom and Harrison Streets and an 18" I. S. P. sewer in Beale Street, Between Harrison and Bryant Streets, together with appurtenances. The work was accepted on March 27, 1912. A total of \$5,229.07 was paid the Contractor.

SEPTIC TANK.—For the construction of a Septic Tank in Golden Gate Park at 20th Avenue and Lincoln Way. Contract awarded on November 30, 1910 to L. H. Westdahl.

Built as a temporary means of disposal of sewerage of the Sunset District easterly of 20th Avenue. Size 10 ft. x 40 ft. with baffle wall, manhole and outlet pipe. A total of \$1,222.80 was paid the Contractor. The work was accepted on February 3, 1911.

#### AUXILIARY WATER SUPPLY SYSTEM FOR FIRE PROTECTION.

Loren E. Hunt, Chief Asst. City Engineer in charge of Construction.

T. W. Ransom, Consult. Eng. in charge of Mechanical Engineering.

Under the Bond Issue authorized May 11, 1908, 79 contracts aggregating \$4,449,469.52 have been entered into for the construction of the Auxiliary Water Supply System for Fire Protection; 63 of these contracts have been satisfactorily completed and the work accepted. At the beginning of the fiscal year 1911-1912, the estimated value of the work completed under the Bond Issue was \$3,058,136.66. During the fiscal year just passed, work was completed to the amount of \$844,587.93 making a total value of the work completed under this Bond Issue on July 1, 1912 of \$3,902,724.59.

In the subjoined tables the location of the work, the name of the Contractor, the amount of each contract and the date of acceptance of the completed work are tabulated for each contract. A detailed statement of the recent work completed, under way and in preparation for immediate letting, with a description of the various divisions of the system which have been constructed under the Bond Issue of 1908, follows:

#### AUXILIARY WATER SUPPLY SYSTEM FOR FIRE PROTECTION.

CONTRACT NO. 27.—For the construction of Pumping Station No. 1 at Second and Townsend Streets.

Section "A"—General Contract. Awarded to the Healy-Tibbitts Construction Co. on February 11, 1910 for \$138,300.

On July 1, 1911 the concrete foundations, floors, walls and roof of the building had been completed; 5 steel tanks for the storage of fuel oil were finished and built into reinforced concrete foundations; 30% of the electrical work had been completed; 65% of the metal door and window frames and the interior trim of the building was completed. The water tanks under the floor had been covered with four coats of cement wash and were ready for use. During the fiscal year 1911-1912 the work has been fully completed or about 39% of the total work performed. The work was accepted on March 13, 1912. A total of \$136,525.09 was paid the Contractor for the work.

Section "B".—Structural Steel and Iron Work. Awarded to Dyer Bros. on March 2, 1910 for the sum of \$60,000.

MEMORANDUM FOR THE RECORD

DATE: 1942

MEMORANDUM FOR THE RECORD

TO: THE BOARD OF TRUSTEES

FROM: THE PRESIDENT

SUBJECT: [Illegible]

[The following text is extremely faint and largely illegible due to the quality of the scan. It appears to be a formal report or memorandum.]

Very truly yours,

THE UNIVERSITY OF CHICAGO  
 OFFICE OF THE PRESIDENT  
 5400 S. UNIVERSITY AVENUE  
 CHICAGO, ILLINOIS

Certain changes in the plans were made by the Board of Public Works which reduced the contract to \$57,363.65.

On July 1, 1911 the work was estimated at 99% completed, all the work being finished with the exception of the painting of the roof trusses. The work was accepted on March 8, 1912. A total of \$57,363.65 was paid the Contractor.

Section "C".—Tile Work. Awarded to Mangrum & Otter, Inc., December 15, 1909, for \$6,284.00.

All the work has been completed since July 1, 1911 and was accepted on March 27, 1912. A total of \$6,106.13 was paid the Contractor.

Section "D".—Sheet Copper Roofing. Awarded on January 7, 1910 to the San Francisco Cornice Co. for \$3,295. This work was accepted in August, 1911. A total of \$3,295 was paid the Contractor.

Section "E".—Asphalt and Gravel Roofing. Awarded on December 15, 1909, to Ford & Mallott for \$555.

This work has been completed and was accepted on October 20, 1911. \$555 was paid the Contractor for the work.

Section "F".—Rolling Doors and Shutters. Awarded on December 15, 1909 to Lilley & Thurston Co. for \$4,630. 85% of the work was completed on July 1, 1911. The remaining portion of the work was completed shortly after and accepted on September 1, 1911. \$4,630 was paid the Contractor.

Section "G".—Plumbing and Gas Work. Awarded on December 15, 1909 to Robert Dalziel Jr., Co.

About 80% of the work was completed on July 1, 1911. The work has been fully completed and was accepted on March 8, 1912. A total of \$2,997 was paid the Contractor for the work.

Section "H".—Mechanical Equipment. Awarded to Chas. C. Moore & Co., Engineers, on December 31, 1909.

On July 1, 1911 about 75% of this work has been completed. The work was accepted on May 15, 1912. To July 1, 1912, \$166,375 had been paid the Contractor.

The final trial of this Pumping Station was made on February 19, 1912 in the presence of the members of the Board of Public Works, representatives of the City Engineer's office, of the Chamber of Commerce, the Board of Fire Underwriters of the Pacific, Mission Promotion Association and Chief Engineer Thos. R. Murphy of the San Francisco Fire Department.

This test was entirely successful and together with preliminary tests previously made, demonstrated that the Pumping Station fulfilled the requirements of the specifications in every particular. The station was formally accepted by the Board of Public Works on May 15, 1912 and was turned over to the Fire Department for operation, since which time it has been entirely satisfactory.

CONTRACT NO. 29.—For the construction of the Twin Peaks Reservoir. Contract awarded on December 8, 1909 to the Healy-Tibbitts Construction Co.

Under the original plans the reservoir was to be constructed by excavating two compartments and leaving an earth retaining wall between. Later, the plans were changed and the reinforced concrete division wall substituted. This wall is described under Contract No. 70 of this report. The capacity of the reservoir with the concrete division wall, is 10,500,000 gallons with the water standing at a depth of 25 feet. The elevation of the reservoir above city base is 755 feet. Gates and connecting pipes are so arranged that either or both can be connected with the distributing system at will. Two lines of 20" pipe connect the reservoir with the distributing reservoirs. The work was accepted on May 10, 1912. On July 1, 1912, \$115,624.35 had been paid the Contractor for the work.

CONTRACT NO. 32.—For the construction of one 500,000 gallon tank on property facing Clayton Street, between 17th and 18th.

Section "A".—For excavating the site, constructing concrete foundations and installing pipes, valves and fittings. Awarded to Mitchell & Savage on July 7, 1911. The estimated value of the work completed to July 1, 1912 was \$3,287, which represented about 43% of the contemplated work. To July 1, 1912, \$2,465.25 had been paid the Contractor.

Section "B".—For furnishing, erecting, testing and painting. Awarded on July 31, 1911 to Frederick Roberts & Co., for \$12,350. The work has been completed and was accepted on June 26, 1912. A total of \$12,178.79 was paid the Contractor.

Section "C".—For furnishing and installing valves. Awarded on July 7, 1911 to the Compressed Air Machinery Co. This work has been fully completed and was accepted in February, 1912. A total of \$7,684, was paid the Contractor for the work.

Section "D".—For testing and delivering valves. Awarded on February 28, 1912 to the Compressed Air Machinery Co. This work has been fully completed and was accepted on June 11, 1912. A total of \$2,449 was paid the Contractor for the work.

Section "E".—Pump House. Awarded on June 7, 1912 to T. W. McClenahan.

The work under this contract included the construction of a special construction building for the Ashbury Heights Pump House. On July 1, 1912, construction work had just commenced.

Section "F".—Furnishing and Installing Pumps. Awarded on April 10, 1912 to Byron Jackson Iron Works.

On July 1, 1912, the pumps had not been delivered at the Pump House.

CONTRACT NO. 34. Section "A".—General Contract. For the construction of a Class "A" building for Pumping Station No. 2 located in the Fort Mason Reservation.

This contract was awarded on February 7, 1912 to Caldwell & Co. Under this contract a Class "A" building, water and oil tanks, a chimney and intake tunnel are to be constructed. Owing to the inefficient manner in which the Contractor for building prosecuted the work, only about 85% of the excavation, equal to about 15% of the entire contract, had been completed on July 1, 1912. The concrete foundations which should have been sufficiently advanced to be completed on July 10, 1912 had not been commenced, and it was estimated that the Contractor was at least 60 days behind on his contract. The estimated value of the completed work on July 1, 1912 was \$16,860.

Section "B".—Structural Steel. Contract awarded on February 21, 1912 to the Judson Manufacturing Co.

Practically all of the shop work on the structural steel frame had been completed and was ready for delivery at the site of the building.

Section "C".—Mechanical Equipment. Contract awarded on February 19, 1912 to Chas. C. Moore & Co.

Drawings for more than 75% of the mechanical equipment had been submitted by the Contractor and approved by this office. Work on the boilers, steam turbines and a number of the auxiliaries, was progressing in a satisfactory manner.

CONTRACT NO. 36.—For furnishing, testing and delivering gate valves.

Section "A".—For furnishing, testing and delivering 1,200 8-in. gate valves. Awarded on September 22, 1909 to the Pittsburg Valve & Foundry Co.

Under the option provided in the specifications, the Board of Public Works reduced the number of gate valves ordered under this contract to 1,140. This

contract has been fully completed and was accepted September 20, 1911. A total of \$60,192 was paid the Contractor for the work.

Section "B".—For furnishing, testing and delivering 890 10-in. gate valves. Awarded on September 22, 1909 to the Pelton Water Wheel Co.

Under the option provided in the contract, the Board of Public Works reduced the number of gate valves to be delivered under this contract to 810. This contract has been fully completed and was accepted on October 9, 1911. A total of \$82,426.90 was paid the Contractor.

Section "C".—For furnishing, testing and delivering 310 12-in. gate valves. Awarded on September 22, 1909 to the Pittsburg Valve Foundry & Construction Co.

Under the option provided in the specifications, the Board of Public Works reduced the number of gate valves to be delivered to 279. The last of the valves were shipped on July 29, 1910. This work was accepted on September 20, 1911. A total of \$49,643.20 has been paid the Contractor.

Section "D".—For furnishing, testing and delivering 70 14-in. gate valves. Awarded on September 22, 1909 to the Pittsburg Valve Foundry & Construction Co.

Under the option provided in the contract, the Board of Public Works reduced the number of gate valves to be delivered. This work has been completed. A total of 66 valves were delivered at the Municipal Yard. A total of \$15,179 was paid the Contractor.

Section "E".—For furnishing, testing and delivering 260 16-in. gate valves. Awarded on September 22, 1909 to the Union Machine Co.

Under the option provided in the contract, the Board of Public Works reduced the number of gate valves to be delivered to 234. This work has been fully completed and was accepted in April, 1912. A total of \$76,713 was paid the Contractor.

Section "F".—For furnishing, testing and delivering 60 18-in. gate valves. Awarded on September 22, 1909 to the Union Machine Co. In accordance with the option provided in the contract, the Board of Public Works reduced the number of gate valves to be delivered under this contract to 54. This contract has been fully completed and was accepted in April, 1912. A total of \$24,084 was paid the Contractor for the work.

CONTRACT NO. 39.—For furnishing and delivering 1,000 tons of cast iron specials. Awarded on April 20, 1910 to the Enterprise Foundry Co.

On July 1, 1912, 220 castings weighing approximately 43 tons had been finished and delivered at the Municipal Pipe Yard. During the fiscal year 1910-1911, all the patterns for this work had been completed and 3,592 castings weighing 906 tons had been finished and delivered. During the past fiscal year, 333 tons of castings have been completed and delivered at the Pipe Yard, making a total of 1,239 tons valued at \$102,039.20. A total of \$88,215.97 has been paid the Contractor on account of this work.

CONTRACT NO. 40.—For furnishing and delivering manhole frames, covers and dust pans. Awarded on May 18, 1910 to the Ajax Brass & Foundry Co.

This work has been fully completed and was accepted on January 19, 1912. 667 frames and covers, 513 vertical, 92 horizontal and 62 plain dust pans were delivered to the Pipe Yard valued at \$12,283.38. The Contractor was paid that amount.

CONTRACT NO. 41.—For furnishing and delivering manhole frames, covers and dust pans. Awarded on June 15, 1910 to the Vulcan Iron Works.

This work has been fully completed and was accepted on December 13, 1911. 483 frames and covers and dust pans were delivered at the Pipe Yard valued at \$3,178.19. The Contractor was paid that amount.

CONTRACT NO. 42.—For furnishing and delivering manhole frames, covers and dust pans. Awarded on June 27, 1910 to the Ajax Brass & Iron Works.

900 frames, 822 covers, 900 dust pans and 80 by-pass covers were delivered at the Pipe Yard. The Contractor was paid \$3,139.70.

Brannan Street.—Hauling and laying cast iron high pressure mains, conduits and appurtenances.

This work was performed by day labor under the direction of the Board of Public Works and included the construction of 259 lin. ft. of 8-in., 60 lin. ft. of 10-in., 88 lin. ft. of 12-in., 41 lin. ft. of 14-in., 60 lin. ft. of 16-in., 377 lin. ft. of 18-in., and 1,451 lin. ft. of 20-in. B. & S. pipe; 92 lin. ft. of 12-in., 105 lin. ft. of 14-in., and 2,322 lin. ft. of D. S. pipe; 3,400 cu. yds. of material were removed from the trenches. 11 hydrants and 30 valves were set along the line of the constructed pipe. The estimated value of the completed work was \$19,991.20. This work was performed in Brannan Street, between Second and Sixth Streets.

Second Street.—Hauling and laying cast iron high pressure mains, conduits and appurtenances.

Work performed by day labor under the direction of the Board of Public Works. This work included the construction of 365 lin. ft. of 8-in., 515 lin. ft. of 10-in., 515 lin. ft. of 12-in., 70 lin. ft. of 16-in., 13 lin. ft. of 18-in., and 2,496 lin. ft. of 20-in. B. & S. pipe; 3,681 cu. yds. of material were removed from the trenches and 2,324 ft. of creosoted wooden duct laid. 14 hydrants and 37 valves were set. The estimated value of the work completed was \$16,523.23. The above work was performed in Second Street, between Market and Townesnd Streets.

CONTRACT NO., 44.—For hauling and laying cast iron high pressure mains, conduits and appurtenances. Awarded on July 8, 1910 to the Keystone Construction Co.

On July 1, 1911 about 16% of the work under this contract had been completed, which is the total amount of work performed by the Keystone Construction Co. This included the construction of 622 lin. ft. of 8-in. B. & S. pipe; 32 lin. ft. of 10-in. B. & S. pipe; 3,756 lin. ft. of 12-in. B. & S. pipe; 4,652 lin. ft. of 14-in. B. & S. pipe; 13 lin. ft. of 16-in. B. & S. pipe; 1,866 lin. ft. of 18-in. B. & S. pipe; 542 lin. ft. of D. S. pipe; 1,666 lin. ft. of 12-in. D. S. pipe; 1,699 lin. ft. of 14-in. D. S. pipe; 28 lin. ft. of 16-in. D. S. pipe, making a total of 14,876 lin. ft. of pipe. The total estimated value of the work performed was \$20,849.87. Payments to the amount of \$15,417.61 were made the Contractor. This contract was annulled on July 24, 1911 by the Board of Public Works. The following work was then performed by day labor under the direction of the Board of Public Works:

Excavation 4,775 cu. yds.; 352 lin. ft. of 8-in. B. & S. pipe; 601 lin. ft. of 12-in. B. & S. pipe; 1,379 lin. ft. of 16-in. B. & S. pipe; 385 lin. ft. of 18-in. B. & S. pipe; 1,193 lin. ft. of 10-in. D. S. pipe; 1,116 lin. ft. of 12-in. D. S. pipe; 73 lin. ft. of 14-in. D. S. pipe; 1,532 lin. ft. of 16-in. D. S. pipe and 15 lin. ft. of 18-in. D. S. pipe were laid. 11 hydrants and 62 valves were set. The total estimated value of the work is \$32,679.91.

In the meantime, proposals were invited for completing the contract and awarded on February 7, 1912 to Robert C. Storrie & Co. for the estimated amount of \$181,549.20. On July 1, 1912 about 65% of the work had been completed. This included the construction of 3,590 lin. ft. of 8-in. B. & S. pipe; 965 lin. ft. of 10-in. B. & S. pipe; 2,547 lin. ft. of 12-in. B. & S. pipe; 1,440 lin. ft. of 14-in. B. & S. pipe; 1,663 lin. ft. of 16-in. B. & S. pipe; 5,675 lin. ft. of 18-in. B. & S. pipe; 11,387 lin. ft. of 10-in. D. S. pipe; 4,300 lin. ft. of 12-in. D. S. pipe; 9,640 lin. ft. of 14-in. D. S. pipe; 2,450 lin. ft. of 16-in.

D. S. pipe; 876 lin. ft. of 18-in. D. S. pipe, making a total of 44,533 lin. ft. on 8.4 miles. 25,058 cu. yds. of material were excavated, backfilled and the surplus material disposed of. 135 hydrants and 309 valves were set. The estimated value of the work on July 1, 1912 was \$119,065.99 and payments to the extent of \$59,541.96 were made the Contractor. The above work was performed in the district bounded by the easterly line of Powell Street, the southeasterly line of Market Street and the Bay of San Francisco and in New Montgomery Street and Mission Street.

CONTRACT NO. 46.—For hauling and laying cast iron high pressure mains, conduits and appurtenances. Contract awarded on April 24, 1911 for the estimated sum of \$107,902.53 to Michael Murphy.

On July 1, 1911 about 16% of the work had been completed. Since that date the work has been fully completed. This included the construction of 1,258 lin. ft. of 8-in. B. & S. pipe; 75 lin. ft. of 10-in. B. & S. pipe; 8,446 lin. ft. of 12-in. B. & S. pipe; 22,976 lin. ft. of 14-in. B. & S. pipe; and 15,452 lin. ft. of 18-in. B. & S. pipe; 29,581 cu. yds. of material were removed from the trenches and 30,929 lin. ft. of creosoted wooden duct were laid. 102 hydrants and 232 valves were set along the line of the constructed pipe. This work was accepted on February 24, 1912. Payments to the amount of \$105,908.93 have been made to the Contractor.

The above work was performed in the district bounded by the westerly line of Van Ness Avenue; the northwesterly line of Market Street, the northerly line of Duboce Avenue, the westerly line of Divisadero Street and the northerly line of Pacific Avenue.

CONTRACT NO. 47.—For hauling and laying cast iron high pressure mains, conduits and appurtenances. Contract awarded on July 29, 1910 to the Raich Improvement Co. for the estimated amount of \$44,705.40.

On July 1, 1911, 90% of the work had been completed. Since that date the work has been fully completed. The work included the construction of 786 lin. ft. of 8-in. B. & S. pipe; 581 lin. ft. of 10-in. B. & S. pipe; 1,058 lin. ft. of 14-in. B. & S. pipe; 17,455 lin. ft. of 18-in. B. & S. pipe; 3,638 lin. ft. of 20-in. B. & S. pipe, making a total of 23,518 lin. ft. of B. & S. pipe. 14,303 cu. yds. of material were removed from the trenches and 19,871 duct feet of creosoted wooden duct were laid. 41 hydrants and 65 valves were set along the line of constructed pipe. This work was accepted on November 1, 1911. Payments to the amount of \$45,536.43 have been made to the Contractor. This work was performed between the Twin Peaks Reservoir, Scott and Castro Streets.

CONTRACT NO. 48.—For hauling and laying cast iron high pressure mains, conduits and appurtenances. Contract was awarded on August 12, 1910 to Oscar Levy for the estimated amount of \$82,743.55.

On July 1, 1911 about 23% of the work had been completed. This represents all the work performed by the Contractor. The following work was done then by day labor under the direction of the Board of Public Works:

101 lin. ft. of 8-in., 40 lin. ft. of 12-in., 1,178 lin. ft. of 14-in., and 24 lin. ft. of 18-in. B. & S. pipe were laid and 12 lin. ft. of 12-in. D. S. pipe were laid, making a total of 1,355 lin. ft. Seven valves and three hydrants were set, 1,541 cu. yds. of material were excavated from the trench and 4,906 ft. of creosoted wooden duct were laid. The value of the work was \$6,428. The contract with Oscar Levy was annulled by the Board of Public Works and proposals invited for completing the work.

Awarded on October 9, 1911 to the Coast Improvement Co. for the estimated sum of \$113,306.34. On July 1, 1912 the work was about 96% completed. This included the construction of 2,446 lin. ft. of 8-in. B. & S. pipe; 24,646 lin. ft. of

12-in. B. & S. pipe; 4,125 lin. ft. of 14-in. B. & S. pipe; 1,394 lin. ft. of 16-in. B. & S. pipe; 3,795 lin. ft. of 18-in. B. & S. pipe; 12,332 lin. ft. of 12-in. D. S. pipe and 588 lin. ft. of 16-in. D. S. pipe. 22,691 cu. yds. of material were removed from the trenches and 20,124 feet of creosoted wooden duct were laid. 109 hydrants and 233 valves were set along the constructed pipe lines. The estimated value of the work July 1, 1912 was \$108,182.30. Payments to the amount of \$77,101.19 were made to the Contractor. The above work was performed in the district bounded by the northwesterly line of Market Street; the westerly line of Castro Street, the southerly line of 29th Street, the southeasterly line of Mission Street, the southerly line of 26th Street, the easterly line of Harrison Street and the northeasterly line of 11th Street.

CONTRACT NO. 50.—For the construction of cast iron high pressure mains, conduits and appurtenances. Contract awarded on September 12, 1910 to Foster & Vogt for the estimated sum of \$102,800.54. On July 1, 1911 about 14% of the work under this contract had been completed. This represents all the work completed by the Contractor. This contract was annulled on July 26, 1911 by the Board of Public Works and proposals invited for completing the work.

Awarded on September 13, 1911 to Michael Murphy. On July 1, 1912 about 58% of the work had been completed. This included the construction of 2,713 lin. ft. of 8-in. B. & S. pipe; 7,839 lin. ft. of 10-in. B. & S. pipe; 4,138 lin. ft. of 12-in. B. & S. pipe; 4,599 lin. ft. of 14-in. B. & S. pipe; 985 lin. ft. of 16-in. B. & S. pipe; 8,740 lin. ft. of 18-in. B. & S. pipe; 2,003 lin. ft. of 20-in. B. & S. pipe; 2,063 lin. ft. of 10-in. D. S. pipe; 322 lin. ft. of 12-in. D. S. pipe and 984 lin. ft. of 14-in. D. S. pipe, making a total of 34,383 lin. ft. of constructed pipe. 23,810 cu. yds. of material were excavated from the trenches and 848 lin. ft. of creosoted wooden duct were laid. 79 hydrants and 225 valves were set along the constructed pipe lines. The estimated value of the work on July 1, 1912 was \$84,079.12, which represents about 59% of the entire contract. Payments to the amount of \$46,632.33 have been made to the Contractor. The above work was constructed in the district bounded by the northerly line of Market Street, the westerly line of Van Ness Avenue and the Bay of San Francisco.

CONTRACT NO. 55.—For furnishing and delivering 3,525 tons of cast iron water pipe. Contract awarded on September 7, 1910 to the United States Cast Iron Pipe & Foundry Co. for the estimated sum of \$79,000.

On July 1, 1912, 122.88 tons of pipe had been delivered at the Municipal Pipe Yard, at 6th and Hubbell Streets, valued at \$16,662.82. 75% of this value, or \$12,497.12 was paid the Contractor.

CONTRACT NO. 57.—For furnishing and delivering bolts, tie rods, nuts and washers. Awarded to the Union Iron Works Co. on February 17, 1911 at \$106 per ton of 2,000 pounds.

On July 1, 1911 approximately 10 tons of bolts having a value of \$1,065.56 had been received at the Municipal Pipe Yard. On July 1, 1912, approximately 100.6 tons valued at \$11,973.34 had been received at the Municipal Pipe Yard. The work was accepted on April 10, 1912.

CONTRACT NO. 58.—For furnishing and delivering gate and check valves. Contract awarded on February 17, 1911 to the Union Machine Co.

On July 1, 1911 it was estimated that 70% of the work on this contract had been completed. During the fiscal year the work has been fully completed. A total of \$10,343.70 has been paid the Contractor for the work.

CONTRACT NO. 60.—For the construction of Section "A" of the Intake Tunnel for the Pumping Station at Second and Townsend Streets. Contract awarded on April 17, 1911 to the Healy-Tibbitts Construction Co.

On July 1, 1911 it was estimated that 13% of the work had been completed. During the fiscal year the work was fully completed and included the construction of 688 lin. ft. of 5 ft. circular reinforced concrete intake tunnel with 3 manholes placed at intervals along the line of the tunnel. This work was accepted on December 27, 1911. A total of \$35,481.12 was paid the Contractor for the work.

CONTRACT NO. 61.—For the construction of Section "B" of the Intake Tunnel for the Pumping Station at Second and Townsend Streets. Contract awarded on April 7, 1911 to the Healy-Tibbitts Construction Co.

On July 1, 1911 about 9% of the work was completed. During the fiscal year the work was fully completed and included the construction of 424 lin. ft. of 5 ft. circular reinforced concrete intake tunnel, 20 feet of heavy section, together with tapered inlet and one manhole. This work was accepted on March 13, 1912. A total of \$33,960.56 was paid the Contractor for the work.

CONTRACT NO. 62.—For furnishing and delivering Pig Lead. Awarded on January 2, 1911 to the Selby Smelting & Lead Co.

A total of 180.047 tons of lead were delivered at the Pipe Yard valued at \$16,960.43. The Contractor was paid the amount.

CONTRACT NO. 63.—For furnishing and delivering Pig Lead. Awarded on February 21, 1912 to the Selby Smelting & Lead Co.

A total of 150.074 tons of lead were delivered at the Pipe Yard valued at \$12,636.23. The Contractor was paid that amount. The work was accepted on March 27, 1912.

CONTRACT NO. 64.—For furnishing and delivering cresoted wooden duct. Awarded on March 25, 1912 to the Western Electric Co.

On July 1, 1912 the Contractor had delivered at the Pipe Yard 150,000 lin. ft. of duct and 107,543 lin. ft. of cover plank. The Contractor had not as yet received payment.

CONTRACT NO. 65.—For furnishing and delivering Pig Lead. Awarded May 1, 1912 to the Selby Smelting & Lead Co.

A total of 200.059 tons of lead were delivered at the Pipe Yard valued at \$17,645.20. The Contractor was paid that amount. The work was accepted on June 12, 1912.

CONTRACT NO. 70.—For the construction of a reinforced concrete Division Wall in the Twin Peaks Reservoir. Contract awarded on August 7, 1911 to the Healy-Tibbitts Construction Co.

Under this contract was constructed a reinforced concrete division wall with buttresses. The wall is 27 feet high and 280 feet in length. The work has been fully completed and was accepted on May 31, 1912. A total of \$19,500 was paid the Contractor for the work.

#### TESTING LABORATORY.

The testing laboratory is equipped with one Olsen Universal Testing Machine of 150,000 pounds capacity. This machine is used to test concrete, steel, brick, bronze, cast iron, etc. The laboratory is also equipped with a bending machine, together with a complete sand and cement testing outfit, also a complete laboratory fully equipped, capable of handling and testing any supplies purchased by the City such as rubber, paints, oils, metals, etc.

The control which accurate and numerous tests give to work, is evidenced in all divisions of this Bureau, particularly in the asphalt mixtures used for wearing surfaces on the streets about the City. Tests numbering 9,040 were made at an average cost of 78 cents per test. The total expenditure for the laboratory have been \$7,120.97. Each class of tests, their number and full data is given in the body of the report in tabular form.

#### BUREAU OF ENGINEERING

##### HETCH-HETCHY WATER SUPPLY—BOND ISSUE OF JULY 1, 1910.

For the past year, the work of this office has been confined to the gathering and preparation of the City's case for the Department of the Interior, and such additional work has been done as was absolutely necessary in protecting and extending the City's water rights at Hetch Hetchy, Lake Eleanor, Cherry Creek and elsewhere.

The major portion of that part of the Tuolumne River drainage area which San Francisco desires as a source of water supply, lies within the boundaries of the Yosemite National Park, which is under the jurisdiction of the Department of the Interior. Federal permission was therefore necessary (for rights of way over National Park lands, rights to remove timber, quarry rock, etc.) before any structures incident to the water supply development could be built.

After a hearing before the Department of the Interior this Federal permission was obtained May 11, 1908, being a permit issued by the Honorable James R. Garfield, then Secretary of the Interior.

The most important item of this permit was as follows:

The City and County of San Francisco was granted the right to use the Hetch Hetchy and Lake Eleanor Reservoir sites, the Lake Eleanor Reservoir and its tributary drainage area to be developed first and the Hetch Hetchy reservoir and its contributory area to be developed only when the water needs of the City should demand it.

On February 25, 1910, the Mayor and Board of Supervisors of the City and County of San Francisco received the following letter, which is self explanatory:

“Department of the Interior

Washington, D. C.

February 25, 1910.

“Gentlemen:—

My predecessor, Honorable James R. Garfield, heretofore on the 11th day of May 1908, granted a permit to the City and County of San Francisco, containing the following provisions:

The City and County of San Francisco will develop the Lake Eleanor site to its full capacity before beginning the development of the Hetch Hetchy site and the development of the latter will be begun only when the needs of the City and County of San Francisco and adjacent cities which may join with it in obtaining a common water supply, may require such further development.

This permit contemplates the contingent use of the Hetch Hetchy Valley in the Yosemite National Park as a source of water supply for the City of San Francisco.

I have just received reports from the Director of the Geological Survey and Engineers Hill and Hopson of the Reclamation Service, who were directed by me in October last to investigate and report upon the sources of water supply involved in said permit and the necessity for the retention of the Hetch Hetchy Valley within the terms thereof.

In view of the conclusions of Director Smith, a copy of whose report is herewith attached, as to the sufficiency of the Lake Eleanor Reservoir site when fully developed, and in view of the importance of the public interests involved in this matter and the Government's obligation in connection therewith, I feel it my duty to call upon you to show cause why the Hetch Hetchy Valley and reservoir site should not be eliminated from said permit.

You are accordingly invited to submit the showing above indicated before the 1st day of May this year.

Very respectfully,

(Signed) R. A. BALLINGER, Secretary."

The Mayor and Board of Supervisors, City and County of San Francisco, California."

After several postponements, the hearing has been finally set at Washington for November 20, 1912.

An advisory Board of United States Army Engineers has been appointed to receive and review the data presented in behalf of San Francisco and the bay communities.

At the request of the Advisory Board of Army Engineers, the City is now engaged in investigating the following sources of water supply: Spring Valley Water Company's sources, Eel River, Sacramento River, Feather River, Yuba River, American-Consumnes Rivers, Mokelumne River, Stanislaus River, McCloud River, Tuolumne River.

Reports dealing with the various sources of water supply just mentioned are to be filed with the Secretary of the Interior not later than August 15, 1912.

The preparation of this data has been under the direction and supervision of Mr. John R. Freeman, Consulting Engineer of Providence, R. I.

The following engineers are assisting in the preparation of reports upon the above sources: Allen Hazen, Consulting Engineer; C. E. Grunsky, Consulting Engineer; Professor Chas. D. Marx, Civil Engineer; A. M. Hunt, Hydraulic Engineer; J. H. Dockweiler, Consulting Engineer; Cyril Williams, Civil and Hydraulic Engineer; C. E. Grunsky, Jr., Civil Engineer; W. R. Eckart, Consulting Engineer; N. A. Eckart, Civil Engineer; M. J. Bartell, Assistant City Engineer; Drenzy A. Jones, Assistant City Engineer.

These reports will be so comprehensive and voluminous that in connection with the report of the Board of Army Engineers the entire matter will be again, it is hoped, finally reviewed.

#### DISPOSAL OF GARBAGE—BOND ISSUE AUTHORIZED MAY 11, 1908.

Loren E. Hunt, Chief Asst. City Engineer in Charge.

Thos. W. Ransom, Consulting Engineer in Charge of Mechanical Equipment.

A. Judell, Asst. Engineer in Charge of Construction.

CONTRACT NO. 1.—For the construction of two incinerating plants, each with a capacity of 120 tons in 24 hours, one in the North Beach District and one in the Islais Creek District. Awarded on November 28, 1910 to the Destructor Company.

Immediately after the award of contract, the matter of the design of these garbage incinerators was taken up with the Destructor Co., and by the 1st of November, 1911 all of the drawings for the Islais Creek Incinerator and 90% for the North Beach Incinerator had been completed.

At this time the Destructor Co. came forward with an improvement in the method of handling garbage, which, if adopted, would result in a saving of about \$40,000 in the first cost of the proposed garbage incinerators, and a saving of about \$2,000 per year in the cost of their operation.

After submitting this proposed change to the Advisory Committee of the Merchants' Association, it was decided to adopt the suggestions of the Destructor Co., and it was found necessary that the Destructor Co. should modify all of the drawings which had been submitted to this office, and that all of the drawings for both the Islais Creek and North Beach Incinerators should be made over again. This work was completed and the Destructor Co. immediately proceeded with the construction of the incinerator furnaces.

On July 1, 1912, all of the drawings for the Islais Creek Incinerator had been completed and approved by this office. The furnace frame and fittings were 90% completed, 50% of the brick for the furnaces had been purchased and the hydraulic apparatus, feeding floor, dust collectors, steam boilers and turbo-generators were under construction and about 25% completed.

On the North Beach plant the drawings had been 60% completed and the construction of the furnace frame and fittings, cranes and turbo-generators had been undertaken and about one-fourth of the brick material had been purchased and was ready for erection.

CONTRACT NO. 2.—For grading the site and setting concrete piers for the Islais Creek Incinerating Plant. Awarded on February 5, 1912 to Mercer & Fraser.

This work has been fully completed and was accepted on May 1, 1912. A total of \$11,951.90 was paid the Contractor for the work.

CONTRACT NO. 3.—Section "A". For the construction of the foundations, building and chimney for the Islais Creek Incinerating Plant. Awarded on May 6, 1912 to McLean, Haggans & Aden.

90% of the foundations for the steel frame for the building had been completed and the reinforced concrete smoke stack was completed to a height of 21 feet and the reinforcing steel for this stack had been placed for a height of 31 feet, and all of the forms and scaffolding for the construction of the chimney were on the ground. The concrete in the clinker storage building was completed up to the second floor. It was estimated that about 8% of the work embraced in the contract had been finished. The value of the work on July 1, 1912 was \$5,155.

Section "B."—Structural Steel. Awarded on May 6, 1912 to the Judson Manufacturing Co.

Practically all of the shop work had been completed and the delivery of the material at the site of the building had been commenced.

#### CONTRACTS BEING PREPARED.

CONTRACT NO. 4. Section "A".—General Contract. For the construction of a reinforced concrete and steel frame building on the west side of Taylor Street, between Bay and North Point Streets, to be known as the North Beach Incinerating Plant.

Plans and specifications are complete and waiting for specifications for additional Mechanical Equipment.

Section "B."—Structural Steel. For furnishing, erecting and painting of the structural steel for the construction of a building for the North Beach Incinerating Plant. Plans and specifications completed.

BUREAU OF ENGINEERING—GEARY STREET MUNICIPAL RAILWAY  
BOND ISSUE JULY 1ST, 1910.

W. M. Larned, Assistant Engineer in charge of Construction.

T. W. Ransom, Consulting Mechanical Engineer.

The Bond Issue of July 1st, 1910, provided for the construction of an electric street railway from the Ferry Building to the Ocean via Market Street, Geary Street and Point Lobos Avenue to a point near the Cliff House, with a branch on Tenth Avenue to Golden Gate Park. The original plans contemplated the construction of a power generating station and of a power sub-station. Subsequent study of the topographical conditions, distribution of population and existing transportation facilities made by Traffic Expert Bion J. Arnold and set forth in his Preliminary Report No. 4, dated April 8th, 1912, resulted in the alteration of the route west of Thirty-third Avenue.

A comparison of the cost of generating electric power, of purchasing alternate current delivered to a sub-station and of purchasing direct current delivered to the trolley lines resulted in the elimination of the generating station and sub-station equipment and the decision to purchase direct electric current delivered to the trolley lines as the most economical arrangement for the City.

Negotiations are under way for the joint use with the United Railroads of the terminal loop at the Ferry Building, of the outer tracks and trolley line on Market Street from the Embarcadero to Sutter Street and of the trolley poles on Market Street from Sutter Street to Geary Street.

The complete plan of the Geary Street Municipal Railway, contingent upon the successful conclusion of the arrangement for joint use of the Market Street tracks and trolley, is as follows:

**ROUTE:**—From the Ferry Building via terminal loop and outer tracks on Market Street to Geary Street; on Geary Street to Thirty-third Avenue; on Thirty-third Avenue to Balboa Street; on Balboa Street to Forty-fifth Avenue; on Forty-fifth Avenue to Cabrillo Street; on Cabrillo Street to a terminus at the Great Highway; and on Tenth Avenue from Geary Street to a terminus at Golden Gate Park.

**TRACK CONSTRUCTION:**—Double track construction on the entire route west of the junction of Sutter Street and Market Street, at which point a connection is to be made to the existing outer tracks.

Rails in straight track 9-inch girder grooved section 106 lbs., in curve track 9-inch girder guard section 132 lbs. "Continuous" joint plates laid with tie plates on 6" x 8" x 8' redwood cross-ties on broken rock foundation 8" deep under ties. All special work except car barn turnouts of solid manganese steel construction.

**PAVING:**—Right of way paved with asphalt on concrete and basalt block headers grouted on concrete; except on grades exceeding 8%, where basalt block on sand pavement is required.

**TROLLEY POLES:**—Tubular steel poles 8½" diameter on the entire route west of Stockton and Geary Streets. On the first two blocks of Geary Street suspensions are attached to buildings and on Market Street the existing poles are to be used.

**TROLLEY LINE:**—No. 0000 grooved copper wire on the entire route west of the junction of Sutter Street and Market Street. On Market Street, east of Sutter Street the existing trolley wire will be used.

**FEEDER CABLES:**—Lead sheathed cables in vitrified clay conduit laid underground in Geary Street from Kearny Street to Presidio Avenue. Weather-proof cables on cast iron crossarms on trolley poles on the entire route west of Presidio Avenue.

**POWER:**—Direct current at 600 volts to be purchased and delivered to the Municipal Railway feeders at Kearny Street, Broderick Street and Presidio Avenue.

**EQUIPMENT:**—Forty-three cars of semi-steel construction. Double-end, prepayment "California Type" with closed center and open end sections. Seating capacity 48. Power, four motors rated at sixty horsepower each at 600 volts.

**BUILDINGS:**—A reinforced concrete car barn with fifteen tracks and storage capacity for 60 cars at Geary Street and Presidio Avenue; containing offices, employes' room, repair shop and equipment and space for sub-station equipment.

The design and construction of the Geary Street Municipal Railway was in charge of the City Engineer until August 21st, 1911, at which time a superintendent of construction was appointed by the Board of Public Works.

October 20th, 1911, the City Engineer, by the direction of the Board of Public Works, turned over all drawings, records, material and equipment to the superintendent of construction.

January 4th, 1912, the office of superintendent of construction was vacated.

February 9th, 1912, by order of the Board of Public Works, all drawings, records, materials and equipment were turned over to the City Engineer, who was again put in charge of the work and has remained in charge to the present time.

#### PROGRESS OF WORK.

The following work has been done or is in progress:

**CONTRACT NO. 1.**—For furnishing and delivering 2,500 gross tons of 106 lbs. steel grooved girder rails and 75 gross tons of 119 lbs. steel guard rails. Awarded to the Pennsylvania Steel Company, November 30th, 1910 at \$34.25 per gross ton of grooved girder rails and \$44.25 per gross ton of guard rails. The contract provides that not more than 10% of the rails may fail to meet a certain test requirement and be classed as No. 2 rails at a reduction in price of \$2.00 per gross ton. To assure prompt delivery of guard rails, and at the same time obtain rails of a superior section at no additional cost, the contractors were authorized to substitute 132 lbs. section, for which they had facilities for immediate production, at the same price per foot as the 119 lbs. section specified.

83.526 gross tons of 132 lbs. guard rail, 2332.759 gross tons of No. 1 girder rail and 167.56 tons of No. 2 guard rail were delivered and accepted June 9th, 1911.

A total of \$88,616.98 was paid to the Contractor.

**CONTRACT NO. 2.**—For furnishing and delivering 2,800 pairs of steel continuous joint plates and 150 pairs of steel channel joint plates, all with bolts, nuts and lock washers. Awarded to the Rail Joint Company, March 17th, 1911, at \$6.10 per pair of continuous joint plates and \$5.70 per pair of channel joint plates. All material was delivered and the work accepted July 17th, 1911.

A total of \$17,935.00 was paid the Contractor.

**CONTRACT NO. 3.**—For furnishing and delivering 4,500 copper rail bonds 11 7/8" long, 4,500 copper rail bonds 9 7/8" long, 500 copper rail bonds 5' 6" long, 200 copper rail bonds 7' long and 500 socket terminals. Awarded to Eccles and

Smith Company, March 17th, 1911 at \$39.25 per hundred 11½" bonds, \$37.00 per hundred 9¾" bonds, \$112.00 per hundred 5' 6" bonds, \$135.00 per hundred 7' bonds and \$32.25 per hundred socket terminals. All material was delivered and accepted August 21st, 1911.

A total of \$4,422.50 was paid to the Contractor.

CONTRACT NO. 4.—For furnishing and delivering 42,500 pounds of 4/0 grooved trolley wire and 6,000 pounds 4/0 round copper wire. Awarded to the Standard Underground Cable Company, March 17th, 1911 at \$14.07 per hundred pounds.

42,669 pounds of grooved trolley wire and 6,022 pounds of round wire were delivered and accepted July 12th, 1911.

A total of \$6,850.83 was paid to the Contractor.

CONTRACT NO. 5.—For furnishing and delivering track special work, viz., 7 double electric double electric crossings, 2 double electric double cable crossings, 11 cross-overs, 1 double branch-off, 2 single branch-offs, all of solid manganese steel construction; 5 3-track group branch-offs of cast steel construction with manganese centers. Awarded to the Pennsylvania Steel Company, May 12th, 1911 for \$45,713.00.

All of the work was delivered and accepted April 1st, 1912. A total of \$45,713.00 was paid to the Contractor.

CONTRACT NO. 6.—For furnishing and delivering tubular steel trolley poles, 260 28-ft. long and 270 30-ft. long. Awarded to the National Tube Company, April 7th, 1911 at \$28.16 and \$29.90 each respectively.

380 28ft. poles and 270 30-ft. poles were delivered and accepted September 6th, 1911.

A total of \$18,773.80 was paid to the Contractor.

CONTRACT NO. 8.—For furnishing and delivering 30,000 redwood cross-ties. Awarded to Julius Heyman at \$60.32 per hundred first-class ties and \$55.32 per hundred for second-class ties.

28,790 first-class ties and 1,235 second-class ties were delivered and were accepted July 31st, 1911.

A total of \$18,049.32 was paid to the Contractor.

CONTRACT NO. 9.—For furnishing and delivering 60,000 tie plates. Awarded May 1st, 1911 to Eccles and Smith Company at \$11.50 per hundred tie plates.

60,000 tie plates were delivered and were accepted September 6th, 1911.

A total of \$6,900.00 was paid to the Contractor.

CONTRACT NO. 10.—For furnishing and delivering 34 tons of steel tie rods and nuts. Awarded March 17th, 1911 to Payne Bolt Works at \$59.50 per ton of 2,000 lbs.

33.995 tons of tie rods and nuts have been delivered to date.

CONTRACT NO. 11.—For furnishing and delivering 43 double end prepayment "California Type" motor cars complete, and four extra trucks complete with axles, wheels and motors. Awarded May 20th, 1912 to W. L. Holman Company for the sum of \$337,100.00.

Approval plans showing steel body bolster, Brill No. 27 G. E., 1 motor truck and ceiling plan of car have been received. 86 Crouse Hind headlights, 86 Eclipse life guard fenders, 688 Hale & Kilburn No. 199A rattan covered walk-over seats, 86 Hale & Kilburn longitudinal seats, 946 side curtains, 86 vestibule curtains, 43 Sterling-Meaker No. 16 double registers and 86 Ideal trolley catchers have been ordered.

Contract awarded on January 13, 1911 to F. Rolandi. Under this contract was constructed a steel plate girder bridge with wooden floor and supports, having a concrete abutment at each end with two intermediate latticed steel columns on concrete supports. This work was accepted on November 10, 1911. A total of \$9,622.84 was paid the Contractor for the work.

For street and other improvements in Beale Street, between Folsom and Bryant Streets.

Contract awarded on January 19, 1911 to Foster & Vogt and assigned to Willett & Burr on July 31, 1911. The work under this contract included the excavation and disposal of material made necessary on account of the changes in official grade of the street, the furnishing and setting of stone curbs and the furnishing and erecting of a steel bridge with a paved roadway with stone curbs and sidewalks on concrete piers and abutments at the crossing of Harrison Street. The contract price for the work was \$87,936.65, \$31,997 being for the bridge. On July 1, 1912 the street had been excavated to grade and the material disposed of. The bridge was estimated as being 56% completed. The east abutment was completed, while the west abutment was rapidly nearing completion. The structural steel being assembled in the East, was expected within a short time. The value of the work on July 1, 1912 was \$65,000.

#### DIVISION OF SURVEYS.

##### CHAS. H. HOLCOMB, ASSISTANT ENGINEER IN CHARGE

Surveys for private property lines and public improvements are shown in Table No. 2.

Surveys for the restoration of Monument, Street and City property lines are shown on the accompanying map, covering about 350 lineal miles. One hundred and twenty-eight (128) miles of precise levels have been run establishing and checking 2,283 permanent benches.

A new official grade book is being compiled, giving official grades of the entire City and re-arranging in alphabetical order the new names of streets, as adopted by the Board of Supervisors.

A finished map of a portion of the Market Street Homestead (that part most populated) extending from 18th to Romain Streets, and from Douglas Street to a line west of Stanyan Street, was finished August 4, 1911, and ratified by the Board of Supervisors. The field work of the remaining portion, extending to 26th Street, is finished, and a map of the entire tract is under way and will be completed and ready for ratification by the Supervisors in about two months.

Seventy-five blocks or squares in the vicinity of the World's Fair Site in the Western Addition between Larkin and Baker Streets and North Point and Greenwich Streets have been re-surveyed and maps of same are being prepared for ratification by the Board of Supervisors.

The County line between San Francisco and San Mateo Counties has been re-surveyed and a map of same compiled, showing the intersection of all streets and the exact distance and angle from the County line to the nearest cross streets.

The field work of the re-survey of the Excelsior Homestead, covering 373 block frontages, is finished and a map of same is being compiled for ratification by the Board of Supervisors.

The West End Homestead, Syndicates and Bernal Homestead Association have been re-surveyed and map of same is being compiled.

A survey covering seven squares in the Railroad Homestead, sufficient to determine the correct line of San Jose Avenue, has been completed.

The survey of the monument lines of the Sunnyside tract is completed, and granite stone monuments placed in the streets to definitely mark and define the street lines.

A re-survey of the streets adjacent to the intersection of Railroad Avenue and Kentucky Street, to determine the true angle and exact point of intersection of Railroad Avenue and Kentucky Street, and adjacent streets, is under way.

The survey defining and monumenting the true position and alignment of the streets in the Potrero District, south of 16th Street between Potrero Avenue and Mississippi Street, is under way but will not be finished for some time.

The survey of the proposed extension of Sutter, Bush and Post Streets, from Presidio to Parker Avenues, was finished and submitted to the Board of Supervisors on June 27, 1912.

Topographical surveys have been made to determine the route of the proposed tunnel under Twin Peaks. Surveys defining the lines of the land to be acquired for the extension of Market Street from its present termination to the easterly line of Eureka Street have been completed, and maps are being prepared giving names of owners and exact dimensions of lots to be acquired.

Surveys defining the lines of Market Street and all street intersections between McCoppin and Seventeenth Streets, for the purpose of tunnel construction, are under way.

The current work, including lot surveys for private owners and municipal departments, surveys for street work, public and private, surveys for the Board of Supervisors, Board of Public Works, Board of Education, Playgrounds Commission, City Architect, City Attorney, Building Inspectors, Superintendent of Public Buildings, etc., have been kept up without complaint or delays.

#### PRECISE LEVELS

Precise levels have been run, bench marks established or checked during the fiscal year ending June 30, 1912, as follows:

Fifty Vara .....	255	B. M.s
One Hundred Vara .....	563	"
Mission .....	340	"
Horner's Addition .....	75	"
Potrero .....	113	"
Richmond .....	220	"
Sunset .....	108	"
Western Addition .....	609	"
Total .....	2,283	"
Total blocks covered .....	1,242	"
Total crossings covered .....	823	"
Total miles of levels .....	128	"

RECEIPTS OF CITY ENGINEER'S OFFICE—STREET AND LOT SURVEYS,  
1911-1912.

Fees for surveying streets and lots were received and delivered to the City and County Treasurer, as follows:

## CURRENT WORK.

## STREET AND SEWER CONSTRUCTION—FISCAL YEAR 1911-1912.

During the fiscal year 1911-1912, the total cost of permanent improvements done under public and private contracts was \$1,464,363.21. This work was performed under 544 private contracts and 149 public contracts and is divided between these two classes of work as follows:

## SEWERS.

Public Contracts .....	14,095.46 lin. ft.	\$ 42,117.91
Private Contracts .....	99,513.39 lin. ft.	324,628.96
Total .....	113,608.85 lin. ft.	\$366,746.87

or 21.516 miles of sewers, including appurtenances, manholes, drains, wyes, etc., (Bond issue sewers not included and previously reported.) The summaries of this work are shown in the appended tables.

## PAVING.

Paving, excluding temporary broken rock pavements and wooden curbs cost as follows:

## Public Contracts.

Pavements (permanent) 175,131.82 square feet .....	\$46,210.73
Curbs, 8,209.16 lineal feet .....	8,669.48
Gutters, 375.76 square feet .....	183.60
Sidewalks, 75,188.29 square feet.....	12,256.48
Grading, Coping .....	6,933.40
Total .....	\$74,253.69

## Private Contracts.

Pavements (permanent) 2,727,587.69 square feet with gutters, sidewalks and grading .....	\$1,023,362.65
--	----------------

These expenditures are given in the appended tables and are shown in greater detail upon the records of this Bureau.

## CASHIER'S REPORT

---

To the Honorable, The Board of Public Works,

Of the City and County of San Francisco.

Gentlemen:—I submit herewith the Annual Report of the Cashier's Office for the fiscal year 1911-1912, showing amount of moneys received from Fees, Permits, Deposits, etc., and total amount of disbursements during the same period.

Also Comparative Statement, showing cash receipts for the past eleven years, beginning July 1st, 1901 to and inclusive of June 30, 1912.

Respectfully submitted,

J. T. DONAHUE,

Cashier, Board of Public Works.

### ANNUAL STATEMENT OF CASHIER, BOARD OF PUBLIC WORKS, FOR FISCAL YEAR ENDING JUNE 30, 1912.

J. T. DONAHUE, Cashier.

Showing Total Amount of Moneys Received from all Sources from July 1st, 1911, to and Inclusive of June 30th, 1912.

Permits Issued.	RECEIPTS.	
2,254	From Street Space Permits .....	\$ 53,585.00
658	From Sidewalk Permits .....	13,280.00
165	From Sub-sidewalk Permits .....	18,238.50
46	From House Moving Permits .....	1,790.00
2,452	From House Building Permits (Fees) .....	31,158.40
<b>Receipts</b>		
Issued.		
2,122	From Side Sewer Deposits (2,374 Sewers) .....	92,098.15
120	From Balance due on 120 Sewers, underestimated.....	2,636.00
726	From Bureau of Engineering, fees collected for Surveys, etc.	22,591.70
152	From Advertising Charges .....	5,408.60
2,258	From Municipal Water Works .....	3,592.58
1	From Miscellaneous .....	226.90
<hr/> 10,954	Total .....	<hr/> \$244,605.83

## TABLE OF RECEIPTS

## DEPOSITS.

With the City and County Treasury During the Fiscal Year Ending June 30,  
1912 (as per Receipts.)

To the Credit of—

Special Permit Fund .....	\$ 85,103.50
Tearing Up Streets Fund .....	94,734.15
House Moving Fund .....	1,790.00
General Fund .....	31,385.30
Unapportioned Fee Fund .....	22,591.70
Advertising Fund .....	5,408.60
Water Works Fund .....	3,592.58
<b>Total .....</b>	<b>\$244,605.83</b>

The foregoing statement does not include moneys received in the Cashier's Office and deposited with the City and County Treasurer in Special Funds, for Assessments paid by property owners for the "Widening and Opening of North Stanyan Street from Fulton to McAllister" (\$6,420.29); and the "Opening of Stanyan Street from McAllister to Turk" (\$10,989.07).

Total Amount Paid—\$17,409.36.

The sum of \$39.05 was collected from H. L. Hatch on January 25th, 1912, and deposited in the City and County Treasury to the credit of the "Geary Street Railway" Fund for damage to trolley wires in moving a building.

The sum of \$200.00 was deposited in the City and County Treasury on December 11, 1911 in the "General Fund" same being amount collected by the Board of Public Works for damage to the Third Street Bridge.

CASHIER'S REPORT

\* Bureau of Chimney Inspection abolished September 30, 1907.

LIGHT AND WATER INSPECTION

San Francisco, Cal., September 17, 1912.

To the Honorable Board of Public Works,  
City and County of San Francisco.

Gentlemen:—I have the honor to file herewith a report upon the operations of the Bureau of Light and Water for the fiscal year ending June 30, 1912.

The report will be very incomplete for the reason that when the writer took charge of the Bureau, on March 1, this year, there was to be found nothing to show prior transactions, with the exception of water meter tests, a record of which had been kept. Nothing was found to indicate the number of gas meter tests, or the number and results of tests made to determine heat values, candle power, etc. of gas.

WATER INSPECTION SERVICE.

With reference to the water supply the duties of the Bureau are: (1) To test consumers' meters, and to adjust disputes as to charges arising between consumers and water company. (2) To investigate complaints of consumers as to the state and quality of water supplied. Wherever defective conditions of this kind have been found to exist, they have been followed up and, where possible, remedied.

The number of water meters tested on request of consumers from July 1, 1911 to February 28, 1912, was.....	249
From that date to the end of fiscal year the number tested was.....	144
<b>Total .....</b>	<b>393</b>
Of the number tested during the latter period:	
52 registered correctly.	
63 registered "fast".	
26 registered "slow."	
3 failed to register.	

The average percentage of error of the "fast" meters was.....	1.7
The average percentage of error of the "slow" meters was.....	2.5

Since the reorganization of the staff of the Bureau practically all of the school meters have been tested.

Quite a number of complaints have been received from consumers in different parts of the city that the water supplied them contained impurities or sediment of different kinds. All of these complaints have been called to the attention of the water company who have had their mains in such locality "blown" out, and this operation has been continued until the water again became clean.

GAS AND ELECTRIC SERVICE.

Gas inspection service has consisted in (1) testing consumers' meters and (2) taking heat values, candle power and pressure records.

From March 1 to June 30, the number of meters tested for private consumers was 12, of which 6 were "fast", but only 2 more than 2%; 4 registered correctly, and 3 were "slow", but only 1 more than 2%.

Following are some of the calorific measurements made prior to the end of the fiscal year:

Month-Day	No. of Tests	Avg. in B. T. U. (gross.)
June 26.....	3	666
June 27.....	3	672
June 28.....	3	686
June 29.....	3	673

LIGHT AND WATER INSPECTION

CANDLE POWER TESTS.

Month-Day	No. of Tests	Avg. C. P.
June 15.....	3	19.96
June 20.....	2	19.76
June 24.....	2	19.94
June 28.....	2	20.19
June 30.....	2	19.75

Pressure records have been taken regularly at the Bureau's laboratory, and recording pressure gauges have also been disposed in different parts of the city to check up the pressure.

The Bureau has also been called upon to examine into all applications of electric light and power companies and telephone companies for permits to erect poles upon the streets. Up to July 1, this year, no record was kept of the number of such applications examined, but after that date all reports have been classified and kept on file.

The Bureau has also been employed by the Light Committee of the Board of Supervisors to examine into petitions on the part of citizens for new street lamps and general improvement in city street lighting. The Water Rates Committee of said Board has also commissioned the Bureau to make investigations into matters affecting the water supply within the city.

The monthly demands of the Pacific Gas and Electric Co., for street lighting and for lighting public buildings as well as the bills of the Spring Valley Water Company are examined and checked up by the Bureau. A record is being kept of the consumption of electricity, gas and water in all public institutions. Likewise a record is being kept of all street lamp outrages from reports furnished by the police department.

Among other matters to which the Bureau has given attention is the location of poles owned by electric light, street traction and telephone companies. In many places such poles have been found in cess-pool positions, or in too close proximity to street lamp posts and fire hydrants. In other places they have been found either outside or inside the curb line. Whenever poles have been found in such positions the attention of the owners has been called to the matter with request that they be removed to proper positions. It is due to these companies to say that in every such case they have given our request prompt attention.

Respectfully submitted,

R. HAMPTON,  
Light and Water Inspector.

## BUILDING INSPECTION

San Francisco, September 16, 1912.

To the Honorable, The Board of Public Works.

Gentlemen:—I have the honor to submit the following as an annual report upon all private building operations in this City and County during the past fiscal year ending June 30, 1912:

Class "A" Buildings.....	15	\$ 2,564,097.00
Class "B" buildings .....	15	1,957,400.00
Class "C" Buildings.....	265	7,548,687.00
Frame Buildings .....	2,500	8,370,718.00
Additions, Alterations, Repairs—General.....	3,371	1,976,204.00
	<hr/>	
Total .....	6,166	\$22,417,106.00
The fees collected upon the above amounted to \$31,158.40.		

In addition to the above more important matters this Bureau received applications, as follows:

To raze structures .....	300
To move buildings .....	106
Applications filed and withdrawn .....	134
Applications rejected .....	24
General complaints received and attended to.....	700
	<hr/>

Total number of general applications filed..... 6,684

I wish to further report that I found it necessary to disapprove and reject approximately 3,700 applications for various permits owing to implied infractions of the Building Law and impractical construction. The majority of these were subsequently revised and corrected so as to meet with all requirements under instructions and interpretation issued from this office, and the balance withdrawn from the files.

I consider it important at this time to report that over and above the voluntary tearing down and removal of the great number of "temporary buildings" throughout the city, the system recently adopted by the Board of Supervisors in passing resolutions containing lists of temporary structures within the Fire Limits and ordering their immediate demolition has met with success, since nearly all of those listed and notified have complied or expressed an intention to do so within a reasonable time.

I find that owners, Architects and builders are now more thoroughly conversant with the requirements of the State Tenement House Law and consequently this Bureau meets with much less difficulty in enforcing strict compliance.

During the year the entire force in the Bureau was kept busy owing to the volume of building operations throughout the city and the outlook is promising for an increase during the ensuing fiscal year.

No improvements were made in this Bureau with the exception of a telephone extension.

Respectfully submitted,

JOHN P. HORGAN,  
Chief Building Inspector.

## BOARD OF PUBLIC WORKS

San Francisco, Cal., Sept. 19, 1912.

To the Honorable, the Board of Public Works,  
City and County of San Francisco.

Gentlemen:—The following is the yearly report of the Bureau of Buildings, Board of Public Works, of the amount of moneys expended for the fiscal year 1911-1912, in the School Department, Police Department, Fire Department and in General Repairs to Public Buildings.

Respectfully submitted,

T. A. REARDON,  
Superintendent Public Buildings.

## BUREAU OF STREETS

---

San Francisco, July 1st, 1912.

To the Honorable The Board of Public Works,  
of the City and County of San Francisco.

Gentlemen:—I have the honor to transmit herewith the annual report of the operations of the Bureau of Streets for the fiscal year commencing July 1st, 1911, and ending June 30th, 1912, being the thirteenth annual report presented since the inauguration of the Bureau.

The work performed by this department is reported herein under the following classifications:

1. Assessments for street work.
2. Resolutions of intention and Notices of Street Work.
3. Register of Street Work Proceedings.
4. House Numbering.
5. Side Sewer Construction.
6. Inspection of Corporation Trench Work.
7. Sidewalk Inspection.

One hundred and twenty assessments were issued for street work in the total cost of \$135,072.02.

Twelve hundred and forty-one Notices of Street Work were prepared and posted along the line of the proposed work, and 2165 copies of the resolutions of intention were mailed to owners of property liable for the cost of the proposed work.

Three thousand six hundred and twenty-eight certificates designating official house numbers were issued to applicants. The buildings along 208 blocks were re-numbered and 797 notices were served requiring the removal of improper numbers and their replacement with official numbers.

Two thousand three hundred and sixty-nine side sewers were constructed. Eleven thousand one hundred and forty-nine street openings were made by the Public Service Corporations.

Three thousand five hundred and seventy-eight Street Space permits were reported on for use of streets during building construction.

Six hundred and forty-nine thousand, four hundred and ninety-nine square feet of sidewalks were laid pursuant to notices served by our inspectors.

Respectfully submitted,

A. J. DONOVAN,  
Office Deputy, Board of Public Works.

### ASSESSMENTS FOR STREET WORK.

One hundred and twenty assessments were prepared and issued for the cost of street work performed under public contract.

The total cost of the street work as shown by these assessments amounted to \$135,072.02.

These assessments were issued to the contractors and a copy of each was recorded in the Street Assessment Records in the Bureau of Streets, together with the returns made thereon.

Cancellations of the above assessments were recorded in the Assessment Records upon receipt of communications from the contractors and receipted bills from the property owners.

The following exhibit presents the character of street work performed, the name of the contractor and the cost of the work as shown by these assessments:

Work Performed.	Cost of Work.
Chestnut Street, crossing of Laguna Street— Paving, Etc.,—Raisch Improvement Co., Contractor.....	\$ 2,146.00
Kansas Street crossing of Sixteenth Street— Paving, etc.—Stanley J. Fay, Contractor .....	1,519.54
Judah Street between Fourteenth and Fifteenth Avenues and crossing of Judah Street and Fifteenth Avenue— Sewer, etc.—Sunset Construction Co., Contractor.....	815.75
Geary Street crossing of 35th Avenue— Sewer, etc.—Peter McHugh, Contractor .....	349.45
Anza Street crossing of 11th Avenue— Paving, etc.—G. W. McGinn & Co., Contractors.....	1,452.18
Balboa Street crossing of 7th Avenue— Paving, etc.—G. W. McGinn & Co., Contractors.....	1,422.60
Mississippi Street between 18th and 19th Streets— Granite curbs and Basalt Block Gutters, where not already con- structed—J. A. De La Fontaine, Contractor .....	317.05
Westerly one-half (½) of the intersection of Dolores and Jersey Sts.,— Paving, etc.—J. G. Harney, Contractor.....	1,267.17
London Street from Excelsior Avenue to its northeasterly termi- nation— Sewer, etc.—William Heafey, Contractor .....	665.75
Tara Street from the southerly line of Geneva Avenue to the center line of Ocean Avenue— Sewer, etc.—William Heafey, Contractor .....	1,946.74
Nevada Street from the center line of Cortland Avenue to a point 25 feet southerly from Powhattan Street— Sewer, etc.—P. H. Mahoney, Contractor.....	1,138.85
Vermont Street from the center line of 16th Street to a point 25 feet northerly from 17th Street— Sewer, etc.—Stanley J. Fay, Contractor .....	1,004.85
Moultrie Street from the southerly line of Eugenia Street to a point 20 feet southerly from Powhattan Avenue— Sewer, etc.—P. H. Mahoney, Contractor .....	1,112.54
Prospect Avenue crossing of Virginia Avenue— Paving, etc.—G. W. McGinn & Co., Contractors.....	1,845.26
Northeasterly one-half (½) of the intersection of Lundy's Lane and Virginia Avenue— Paving, etc., G. W. McGinn & Co., Contractors .....	615.35
Twenty-first Street between Hampshire and York Streets, where not already— Sidewalks—City Street Improvement Co., Contractor .....	173.10
Clement Street crossing of 16th Avenue— Paving, etc.—J. J. Dowling & Co., Contractors .....	1,239.57
Alvarado Street crossing of Hoffman Avenue— Paving, etc.—J. J. Dowling & Co., Contractors .....	1,372.06
Twenty-sixth Avenue between California and Lake Streets where not already.... Paving, etc.—Barber Asphalt Paving Co.—Contractor .....	1,112.60
Howard Street between 12th and 13th Streets, where not already— Artificial Stone Sidewalks—City Street Improvement Co.,—Con...	1,404.19
Lundy's Lane from Esmeralda Avenue to a point 350 feet northerly therefrom— Grading—John Kelso, Contractor .....	2,538.00
Railroad Avenue between Wallace Avenue and Williams Avenue—In- tersection of Railroad Avenue and Williams Avenue and the inter- section of Railroad Avenue, Van Dyke Avenue and Lane Street— Sewer, etc.—F. C. Dowling, Contractor .....	1,780.53

Work Performed.	Cost of Work.
Lake Street between 25th and 26th Avenues, where not already— Paving, etc.—Barber Asphalt Paving Co., Contractor.....	810.58
Easterly one-half ( $\frac{1}{2}$ ) of the crossing of Lake Street and 13th Ave.— Paving, etc.—Flinn & Treacy, Contractors.....	987.34
Cabrillo Street between 35th and 36th Avenues— Broken Rock Pavement—Owen McHugh, Contractor .....	1,161.56
California Street between 20th and 21st Avenues, where not already— Paving, etc.—City Street Improvement Co., Contractor.....	448.25
Geary Street between 33rd Avenue and the westerly line of 34th Avenue— Sewer, etc.—Felix McHugh, Contractor .....	942.95

#### RESOLUTIONS OF INTENTION AND NOTICES OF STREET WORK.

According to Chapter 2, Article 6 of the Charter, providing for the method of procedure for the improvement of streets under Charter proceedings, it is necessary to prepare Resolutions of Intention recommending to the Supervisors the ordering of said work, prepare and post along the line of said contemplated improvements "Notice of Street Work" and obtain from the Assessment Roll and the City Directory the names and addresses of the owners liable for the cost of the proposed street work and addressing and mailing to each of said owners copies of the Resolution of Intention.

The following table shows the number of resolutions prepared, the separate pieces of work affected by said resolution and the number of notices prepared, posted, addressed and mailed in accordance with Charter provisions.

Resolutions No.	Separate Pieces of Work.	Crossings		Notices Posted	Notices Mailed.
		Blocks.	or Intersections.		
12484	9	6	4	72	150
13079	10	8	10	95	200
13357	10	10	2	60	100
13931	15	12	3	88	156
14412	8	4	4	74	126
14760	13	13	1	60	100
15050	9	8	5	60	110
15518	10	7	7	98	200
15732	10	7	5	80	130
16120	12	7	7	80	140
16474	12	7	7	110	250
16882	6	2	5	58	145
17237	8	8	6	97	112
17618	11	9	3	62	83
17983	7	5	6	72	98
18213	8	4	3	75	65
16	158	117	80	1241	2165

## REGISTER OF STREET WORK PROCEEDINGS.

A record of all street work proceedings is kept in the Bureau of Streets, which is consulted every day by representatives of the Title Insurance Companies, searchers of records, attorneys and property owners. This requires the investigation and recording of all resolutions of the Board of Public Works, Ordinances of the Board of Supervisors, Private Contracts of Street Work, Certificates of Satisfactory Completion and publications in the official newspaper pertaining to work, of which there were the following number during the fiscal year.

Resolutions of Board of Public Works .....	6224
Private Contracts of Street Work .....	752
Certificates of Satisfactory Completion .....	741
Proposals for Street Work .....	149
Awards of Contracts .....	103
Ordinances of Supervisors .....	46
Resolutions of Intention .....	16

## PUBLIC WORK.

In addition to the above there were prepared and posted several hundred "Notices of Public Work" for proposed work or improvement according to Resolutions of Intention passed by the Board of Supervisors, as follows:

Resolution No.	Date.	Location.	Char. of Work.
8818.....	Nov. 6, 1911	Stockton Street	Tunnel
8838.....	Nov. 13, 1911	14th and 15th Avenues between Lawton and Moraga Streets	Closing Streets
8966.....	Nov. 27, 1911	Turk Street between Masonic & Parker Aves.	Clos. portion of street
9047.....	Dec. 11, 1911	Jarboe Avenue	Closing
9351.....	Mar. 18, 1912	Twin Peaks Dist.	Tunnel
9362.....	Mar. 18, 1912	Molloy Street	Closing

## HOUSE NUMBERING.

During the fiscal year 3628 certificates were issued for new house numbers.

The buildings along 208 blocks were re-numbered and 797 notices were served upon property owners requesting them to change their old house numbers to conform with the ordinance now in force.

The following is a tabulation of the work performed monthly:

Month.	Certificates Issued.	Blocks Renumbered.	Notice to Remove Old Nos.
July, 1911 .....	320	28	78
August, 1911 .....	270	32	84
September, 1911 .....	289	18	110
October, 1911 .....	350	12	65
November, 1911 .....	255	17	81
December, 1911 .....	410	23	57
January, 1912 .....	312	12	82
February, 1912 .....	318	14	47
March, 1912 .....	260	9	34
April, 1912 .....	289	19	28
May, 1912 .....	330	14	59
June, 1912 .....	225	10	72
	<hr/> 3628	<hr/> 208	<hr/> 797

## SIDE SEWER CONSTRUCTION.

The Bureau of Streets constructed 2369 side sewers during the fiscal year. The cost of the work was apportioned as follows:

Wages of Side Sewer Men.....	\$35,278.00
Inspector and Time Keeper's Salaries and Buggy Hire.....	5,030.00
Teaming .....	2,570.70
Materials, tool sharpening, cribbing, etc. ....	1,241.28
Restoring pavement over side sewer trenches.....	13,667.54

Total .....\$57,787.52

Side sewers were constructed during each month of the fiscal year as follows:

July, 1911 .....	181
August, 1911 .....	227
September, 1911 .....	162
October, 1911 .....	271
November, 1911 .....	189
December, 1911 .....	162
January, 1912 .....	170
February, 1912 .....	190
March, 1912 .....	193
April, 1912 .....	217
May, 1912 .....	195
June, 1912 .....	212

Total .....2369

## INSPECTION OF CORPORATION TRENCH WORK.

There are three inspectors whose principal duties are the supervision of pavement restoration over the trenches opened in the streets by the public service corporations.

In addition to the above work these inspectors report on the condition of streets upon the completion of building operations. Deposits of money are refunded upon their favorable reports for street space permits, sub-sidewalk permits, and house moving permits. The construction of bulkheads, removal of street obstructions, repair of side sewers, etc., and all general complaints are matters that receive the attention of these inspectors.

## REPORT OF INSPECTOR JAMES RIORDAN.

DISTRICT—North of Market Street and East of Taylor Street to the waters of the bay, South of Market Street East of Ninth Street, and including the Potrero.

Examinations and reports made upon the following matters:

Street space and sub-sidewalk permits .....	772
Complaints .....	86
Notices served (street and sub-sidewalk space).....	114
Notices served (miscellaneous) .....	53
Side Sewer Repair notices served .....	6
House moving examinations and reports .....	5
Blasting petitions—fixing bonds .....	8
Regrading street approaches .....	17
Removal of buildings from public streets .....	3

Total ..... 1,064

Street openings for Main and Service pipes and conduits by Public Service Corporations:

Pacific Gas and Electric Company—mains; blocks .....	166
Pacific Gas and Electric Company—mains; crossings .....	76
Pacific Gas and Electric Company—services .....	1,598
Pacific Gas and Electric Company—steam, mains, blocks.....	26
Pacific Gas and Electric Company—steam, mains, crossings.....	14
Pacific Gas and Electric Company—steam, services .....	4
City Electric Company—mains, blocks .....	32

#### REPORT OF INSPECTOR D. J. O'BRIEN.

DISTRICT—East line of Taylor Street to Ocean Boulevard, and center of Haight Street to North Water Line of the bay.

Examinations and reports made upon the following matters:

Street space permits .....	1,514
House moving examinations and reports .....	14
Petitions .....	30
Notices to construct bulkheads .....	70
Notices to remove obstructions .....	51
Notices—Miscellaneous complaints .....	156
Notifications to repair side sewers .....	14
Inspection—Corporation trench openings .....	3,512
	<hr/>
Total .....	5,361

Street openings for Main and Service pipes and conduits by Public Service Corporations:

Pacific Telephone and Telegraph Company—mains .....	63
Home Telephone Company—mains .....	15
City Electric Company—mains .....	23
City Electric Company—services .....	43
Equitable Light and Power Company .....	5
Pacific Gas and Electric Company—mains .....	145
Pacific Gas and Electric Company—services .....	3,047
Spring Valley Water Company—services .....	1,557
Metropolitan Light and Power Company—services .....	163
<b>Total trench openings .....</b>	<b>5,061</b>

#### REPORT OF INSPECTOR EDWARD BARRON.

(July 1, 1911 to February 8, 1912.)

DISTRICT—West of Ninth Street and South of Haight Street, comprising the Mission, Noe Valley, Ashbury Heights, Sunset, Parkside, Ingleside, Ocean View, San Bruno, South San Francisco, 48th Avenue and to the ocean.

Examinations and Reports made upon the following matters:

Street space permits .....	734
House Moving permits .....	3
Notices to repair side sewers .....	1
Complaints acted on .....	17
Petitions acted on .....	11
<b>Total .....</b>	<b>766</b>
Street Openings for main and service pipes by Public Service Corporations:	
Pacific Gas and Electric Company .....	581
Spring Valley Water Company .....	196
City Electric Company .....	7
Pacific Telephone and Telegraph Company .....	2
<b>Total trench openings .....</b>	<b>786</b>

#### REPORT OF INSPECTOR O'CONNOR.

(February 8, 1912 to June 30, 1912.)

Inspector Edward Barron was succeeded by Inspector Richard W. O'Connor, February 8th, 1912.

Examinations and Reports made upon the following matters:

Street space permits .....	558
House moving permits .....	6
Notices to repair side sewers .....	3
Notices to construct bulkheads .....	24
Notices to remove obstructions .....	37
Notices—Miscellaneous; written and oral .....	50
Investigation and adjustment of complaints .....	88
Investigation of petitions .....	22
<b>Total .....</b>	<b>788</b>

Street openings for main and service pipes and conduits by Public Service Corporations:

Pacific Gas and Electric Company—services .....	1,612
Pacific Gas and Electric Company—mains .....	104
Spring Valley Water Company—services .....	326
City Electric Company—services .....	5
Pacific Telephone and Telegraph Company—services .....	3
<b>Total trench openings .....</b>	<b>2,050</b>

## SIDEWALK INSPECTION.

There were four inspectors whose principal duties were the preparation and service of notices requiring property owners to construct or repair sidewalks, in conformity with Section 16 of Chapter II, Article VI of the Charter.

During the year there were 649,499 square feet of sidewalks laid by property owners through the efforts of these inspectors.

The other duties performed are set forth in the following reports of the work accomplished by each inspector.

## REPORT OF INSPECTOR ANTHONY FLYNN.

From July 1st, 1911 to July 1st, 1912.

## REPAIRS TO AND PAVING OF ASPHALT AND BITUMINOUS STREETS—

RECAPITULATION OF WORK DONE BY THE MUNICIPAL  
 ASPHALT PLANT JULY 1, 1911,  
 TO JUNE, 1912.

Work at Plant	Cubic feet of Mixture	Cost of Material Incorporated
Wearing surface .....	288422.4	\$ 63,780.53
Binder .....	42840	5,997.60
Labor at Plant as per monthly statement.....		27,211.89
Labor at Plant (closed down) repair work.....		571.75
Repairs, fuel, power, etc., per monthly statement		9,999.58
Repairs and equipment not included in statement		3,845.34
Total cost of material at Plant.....		\$111,406.69
Total number of square feet laid.....		1,747,691.95
Cost per square foot for material .....		.0637

## WORK ON STREETS.

	Cost of Labor and teams	Square feet laid
Miscellaneous repairing and repaving including all locations .....	\$79,593.89	1,747,691.95
Cost per square foot for labor.....	.0455	

## SUMMARY.

Cost per square foot for material delivered from Plant .....	\$ .0637
Cost per sq. ft. for labor and teaming in streets	.0455
Total average cost per square foot.....	\$ .1092

The initial cost of the Asphalt Plant (built in 1909) was, with equipment, approximately \$17,000. All new equipment subsequently purchased and all repairs and incidental expenses have been charged to and have become a part of the average cost scheduled monthly in the reports as submitted.

Were we to estimate the average cost per square foot yearly for depreciation and interest the rate of increases would be but nominal. Allowing 10% for depreciation and 6% per annum for interest, we would obtain a total of \$2,720.00 which would necessarily be prorated to the square foot. This is too minute to be considered. The overhead office expenditure is no greater than when this class of work was done under contract.

REPAIRS TO—CONSTRUCTION AND RECONSTRUCTION OF BUILDINGS.

BOOKKEEPER'S REPORT

Purpose Intended	Appropriation	Expended.	Surplus	Overdraft	Remarks.

## STREET CLEANING

### ANNUAL REPORT OF THE STREET CLEANING DEPARTMENT

#### BOARD OF PUBLIC WORKS.

To The Honorable The Board of Public Works,  
Michael Casey, President, City Hall.

Gentlemen: The following is a report of the work performed by the Street Cleaning Department (including sweeping, sprinkling, flushing and washing of public streets) the expenses, the average number of street sweepers employed, and the number of teams employed by said department of the Board of Public Works, for the fiscal year beginning July 1st, 1911, and ending June 30th, A. D. 1912.

The foregoing report is made from the records kept in the street cleaning department (Board of Public Works) during the year 1911-1912.

The report of streets swept in the Central District includes all the work done by the men regularly stationed at certain blocks or streets and called "Block men".

The hand sweeping also includes the work of the gang that accompanies the street sweeping machines for the purpose of sweeping by hand.

Respectfully submitted,

PETER J. OWEN,  
Superintendent of the Street Cleaning Department, Board of Public Works, City and County of San Francisco, State of California.

## SEWER DEPARTMENT

San Francisco, Cal., September 17, 1912.

To the Honorable, The Board of Public Works,  
of the City and County of San Francisco.

Gentlemen:—I have the honor to submit herewith the report of the operations of the Sewer Department, for the fiscal year, from July 1, 1911, to June 30, 1912.

The principal work of the Department is reported under the following classifications:

- Sewer Reconstruction and Repairs.
- Sewer Cleaning.
- Cesspool Cleaning.
- Sewer and Cesspool flushing.
- Carpenter Work.
- Repairs to Fire Cisterns.

Respectfully submitted,

J. C. LINEHAN,  
Superintendent of Sewers.

### SEWER REPAIRS AND RECONSTRUCTION.

There were 384 sewer breaks during the fiscal year from July 1, 1911 to June 30, 1912. Of this number 238 were repairs to iron stone pipe sewers, 146 were repairs to brick sewers, 94 manholes and 164 cesspools were constructed, 156 manholes and 366 cesspools were repaired. A large number of old granite rims and defective castings were replaced by new ones.

There were 16,243½ feet of iron stone pipe sewers, and 10,475 lineal feet of brick sewers reconstructed during the fiscal year.

In the performance of the above work the following quantities of material were used.

- 17,228 lineal feet of iron stone pipe.
- 368,375 brick.
- 6,527 sacks cement.
- 148 manhole rims and covers.
- 222 horseshoe frames and grates.

The principal reconstruction work was performed at the following locations:

- Geary, between Polk and Van Ness.
- Van Ness, between Fell and Market.
- Duboce, between Fillmore and Steiner.
- Alvarado, between Hoffman and Douglass.
- Harriet, off Bryant Street.
- Sacramento and Baker streets.

## CARPENTER WORK.

The carpenter employed in the sewer department constructs and places all danger barricades, constructs sewer forms, windlass frames, and performs all the general jobbing, makes repairs to plank roadways, and timbers dangerous sewer trenches.

In addition to the above work the following are the principal items of construction and repair work performed.

20th Ave. and Lincoln Way constructed 4x4 wooden box sewer 50 feet long.

35th Ave. and Lincoln Way constructed 4x6 wooden box flume 230 feet long.

Foot of Larkin street extended 4x4 wooden box sewer 50 feet.

Filbert Place and Montgomery street repaired 60 feet of wooden box sewer.

Green, between Kearny and Vincent street repaired 30 feet of wooden box sewer.

Commercial, between Drumm and Embarcadero repaired wooden box sewer.

Foot of Folsom street repaired wooden box sewer.

Foot of Washington street repaired wooden box sewer.

## FIRE CISTERNS.

The sewer repair and cleaning forces of the Sewer Department pumped out, cleaned and made repairs to the following water cisterns of the Fire Department.

20th and Howard street.

Washington and Stockton street.

Grant Ave. and Green street.

Grant Ave. and Washington street.

Powell and Green street.

Grant Ave. and Union street.

Pacific and Powell street.

Pacific and Powell street.

Pacific and Sansome street.

Kearny and Sacramento street.

Post and Kearny street.

22nd and Shotwell street.

Stevenson and Ecker street.

Pacific and Kearny street.

Jackson and Powell street.

Cumberland and Guerrero street.

Filbert and Powell street.

Broadway and Powell street.

16th and Dolores street.

## REPORT OF CITY ARCHITECT

### INTRODUCTION.

The Bureau of Architecture was in charge of Alfred I. Coffey as Chief Architect, until April 8, 1912. Upon the resignation of Mr. Coffey, the work of the Bureau was taken up by the Advisory Board of Consulting Architects, appointed March 28, 1912, by the Board of Public Works.

The following gentlemen were appointed:

JOHN GALEN HOWARD,  
FREDERICK H. MEYER,  
JOHN RIED, JR.

The total cost of work contracted for during the fiscal year 1911-1912 is as follows:

San Francisco Hospital .....	\$ 443,749.60
School Buildings .....	520,171.00
Police Stations .....	25,514.50
Fire Stations .....	23,940.00
Hall of Justice .....	2,300.00
City and County Jail .....	25,480.00
	\$1,041,155.10

The details of this work are given in the following statements and totals:

#### SAN FRANCISCO HOSPITAL (22d and Potrero).

\$ 25,514.50

This station comprises two structures, namely, Station and Stable buildings and are of Class "C" construction. The exterior walls are of concrete and brick finished with a white cement plaster. The interior finish throughout is of selected Oregon pine. A modern system of steam heating provides heat for all rooms and offices. The ground floor of station building contains an assembly room, business office with public lobby, private offices for Captain and Lieutenant, Sergeant's room, booking office and detention cells for prisoners.

The second floor contains a spacious locker room for convenience of officer's, a rifle storage room and toilet room with tiled floor and walls.

The stable building furnishes accommodations for fifteen horses used by the mounted police and patrol wagon service. The loft portion is utilized for the storage of hay and grain with convenient quarters for the hostler in charge. The floor throughout is finished with bitumen pavement laid on a concrete base. Stalls are all equipped with automatic hay racks and dirt-proof feed boxes.

The buildings are so arranged that driveways occur on both sides of the station buildings while a wide court separates the station and stable buildings.

## ENGINE HOUSE, NO. 28, (Stockton, near Greenwich).

Contract	Date Awarded	Contractor	Contract Price.
General .....	May 17, 1912	O. C. Holt .....	\$ 23,940.00

This fire station is of Class "C" construction and contains all of the latest ideas in fire house construction where automobile apparatus is installed. The exterior walls are of brick, the front being laid up in pressed brick with granite bases, sills, etc. The entire first floor will be covered with vitrified paving brick set on a concrete base in selected patterns. The main floor will accommodate four pieces of automobile fire apparatus. Two 360 gallon tanks for gasoline storage will be set in concrete pits under sidewalk at curb. Supply pipes are carried concealed in walls to a point opposite each piece of apparatus where the gasoline can be safely and conveniently handled.

The walls to a height of eight feet above floor line will be faced with enameled brick.

The second story provides quarters with connecting bath for the Battalion Chief, quarters for Captain and Lieutenant and a large well ventilated dormitory. Three slide poles are conveniently located to give rapid egress when required.

The rear portion of this floor contains a general lobby, a sitting room, toilet and baths with hot and cold showers.

## GIRL'S HIGH SCHOOL (Scott St., bet. Geary &amp; O'Farrell).

\$ 363,394.00

This second story and basement school building is of Class "C" construction and fronts on three streets as follows: On Scott street 264 feet, on O'Farrell street 277 feet and on Geary street 147 feet, built on the "U" shaped plan with large open court in center, containing 40 rooms used as class rooms, study rooms, science rooms and laboratories, together with large locker rooms, teachers' and principal's rooms and offices, toilets and lavatories, furnace room and janitor's room. The assembly hall which is located on the east end of the south wing has a seating capacity of 1125 persons.

**Plumbing:**

The most modern school plumbing system.

**Heating:**

The most modern system of steam plenum heating and ventilation with automatic regulation for maintaining a uniform temperature.

**CLOCKS:**

The most up to date program clock system.

**LIGHTING:**

Provided for complete lighting facilities both gas and electricity.

**ARRANGEMENT:**

**Basement**—Contains a large gymnasium with dressing rooms, showers and lockers, domestic science and lunch rooms, large recreation room, general locker rooms, work rooms, store rooms, out closet and space for heating and ventilating plant.

**First floor**—Twelve large class rooms, study rooms and lecture halls, principal's and teachers' rooms and offices and the auditorium.

**Second floor**—Ten large class rooms, balcony for auditorium, science laboratories and lecture rooms, also large library and study room.

**EVERETT SCHOOL ANNEX (Sanchez Street, between 16th and 17th).**

Contract	Date Awarded	Contractor	Contract Price
General.....	Jan. 16, 1912	Lange & Bergstrom .....	\$ 6,989.00

This building consists of a frame annex to the Everett School. The first floor contains a large assembly room with a seating capacity of 300. The second floor is divided into two large rooms to be used for Manual Training and Domestic Science work. These rooms are finished with surfaced lumber and are fitted out with all modern equipment.

**DENMAN GRAMMAR (YARD WORK), Pierce, between Hayes and Fell.**

Contract	Date Awarded	Contractor	Contract Price
General.....	July 12, 1911	Henning & Burke .....	\$ 30,888.00

**JUNIPERO SIERRA SCHOOL (Holly Park Ave., between Highland and West Park).**

Yard Work.....	Nov. 1, 1911	Flinn & Treacy .....	1,994.00

## CLEMENT SCHOOL (30th and Day Streets).

Removing supls earth....Nov. 1, 1911 Henning & Burke ..... 1,773.00

## POLYTECHNIC HIGH SCHOOL, (Academic Bldg., Frederick, bet. 1st Ave. and Willard).

Ex. and Foundation .....Mar. 4, 1912 J. W. Carr ..... 29,893.00  
Structural Steel .....Nov. 24, 1911 Dyer Bros. .... 71,475.00

The construction of this building will be Class "A" —a steel carrying frame for all floor and exterior wall loads. Floor joists will be of concrete and partitions will be of metal with metal lath and hardwall plaster. All stairways will be fireproofed. The facades are to be faced with pressed brick with common brick back walls. All trimming to be of terra cotta.

## BASEMENT FLOOR.

This floor has three direct entrances from Frederick street with four stairways leading to first floor. On this floor are located at either end of building the boys' and girls' general locker and toilet rooms, general heating plant, store rooms, lunch rooms, with necessary appurtenances, and large gymnasium.

## FIRST FLOOR.

This floor is provided with ample stairways, two elevators and convenient exits and so planned as to accomodate the science department, with the required laboratories, store rooms, dark rooms, work rooms and lecture rooms, etc., the principal and teachers' rooms, general toilet rooms and the main floor of the auditorium. The auditorium is planned to accommodate 1800 people.

## SECOND FLOOR.

This floor is reached by three main staircases and two elevators. On this floor there are sixteen class rooms, general toilets and the balcony of the auditorium.

## THIRD FLOOR AND ATTIC.

These floors, with the exception of four class rooms, are partitioned off for the Domestic Art and Drawing Department, consisting of all the necessary rooms, store rooms and closets required for this department.

Contracts awarded previous to July 1, 1911, on which construction work was carried or completed during the fiscal year 1911-1912:

## CLEMENT SCHOOL (YARD WORK) (30th and Day Streets).

Contract.	Date of Completion	Contractor	Contract Price
Yard Work .....	Oct. 13, 1911	Henning & Burke .....	\$ 24,840.00

## WORK IN OFFICE FOR WHICH DRAWINGS ARE BEING PREPARED.

## SAN FRANCISCO HOSPITAL—

General drawings and specifications are being prepared for floors, interior finish and other items necessary to complete the buildings.

## POLYTECHNIC HIGH SCHOOL—

Drawings and specifications being prepared for plumbing, heating and electrical work. Alternate plans being prepared for the general construction providing concrete floors and column fireproofing.

## NORTH END POLICE STATION (Greenwich, near Scott Street).

Appropriation—\$35,000.00.

Revised plans and specifications for this building are about 50% completed. Expect to have same completed and ready for advertising within two months.

## CHEMICAL ENGINE HOUSE NO. 12 (19th Avenue, near Quintara.)

Appropriation—\$8,500.00.

Working drawings and specifications well under way. Expect that same will be entirely completed by August 1.

## LE CONTE SCHOOL (Norwich and Alabama.)

Appropriation—\$52,500.00.

Sketch plans being prepared for a 12-classroom frame building.

## DANIEL WEBSTER SCHOOL (19th and Arkansas Streets.)

Sketch plans being prepared for a 16-classroom frame building.

## STARR KING SCHOOL (25th and Utah Streets.)

Appropriation—\$52,500.00.

Sketch plans for a 12-classroom frame building have been approved by the Board of Education. Expect to have plans and specifications entirely completed and ready for advertising by October 15.

## PATRICK HENRY SCHOOL (Vermont, near 18th Street.)

Appropriation—\$60,000.00.

Plans and specifications for this 12-classroom frame building are about 95% completed. Expect to receive bids for the construction work not later than August 1.

## ENGINE HOUSE NO. 46 (12th Avenue, near Geary Street.)

Appropriation—\$37,000.00.

Plans and specifications for this building entirely completed and bids have been received. Actual construction work will begin within two weeks.

## CIVIC CENTER AND CITY HALL.

In February, the studies for the Civic Center were begun with the so-called old site as a nucleus, within the area bounded by Van Ness Avenue, McAllister street, Market and Grove streets. At the same time a program for the competition for the selection of an architect for the new City Hall was prepared. On April 6, this program was issued and 73 competitors submitted drawings on June 15, 1912. The winners of the first prize, Bakewell & Brown, entered into a contract with the Board of Public Works, as architects for the new City Hall, and immediately began work upon that project. In addition to the first prize, twenty other prizes were awarded.

For the Civic Center plan two schemes were developed. The one with the new City Hall facing on Van Ness Avenue was officially adopted by the Board of Supervisors. This scheme comprises an area of about nine blocks of land, the greater part of which is being acquired under condemnation proceedings. Beside the City Hall, the key building for this plan, there are five sites for monumental buildings: The municipal auditorium, municipal opera house, public library, a State building, and another building not as yet assigned. In addition there will be available four smaller sites which will probably be allotted to the Board of Health, police station, engine house, etc.

In the realization of this Civic Center, San Francisco will have a great grouping of municipal buildings without equal in any other city of the United States.

# Assessor's Report

San Francisco, July 25th, 1912.

Hon. James Rolph,

Mayor of San Francisco.

Dear Sir:—In conformity with the provision of Sec. 9 of Art. XVI of the Charter, I beg to submit my annual report for the fiscal year ending June 30th, 1912.

The increased expenses of the city as shown in the budget, amounting to about \$1,000,000 more than last year's, would have necessitated an increase in the tax rate for City and County purposes from \$2.00 the rate of last year, to \$2.23 for this year, if the assessment roll had remained the same.

By a thorough equalization of the assessment of property, made to keep pace with the advancing prices of real estate, and as a result of the large number of new buildings erected during the last year, the assessment roll for this year for City and County purposes, has been increased to a total of \$511,194,525, or an increase of \$49,344,500 over last year's roll. This total roll largely exceeds the estimate of \$500,000,000 used by the finance committee in making up the budget, and as a result there will be about \$229,487 collected in excess of the budget figures.

At the time provided in the Charter for making up the budget and fixing the tax rate, it is impossible to give a close estimate of the Assessment Roll, and it is advisable to amend the Charter so the total of the roll may be definitely known, before the rate is fixed by the Board of Supervisors. The provisions of the one-twelfth act could be adjusted for the month of July, by limiting the expenses of that month to the amount expended during the same month of the previous year.

The total roll on which the tax for the Panama-Pacific International Exposition State Bond tax is levied, which includes operative property of quasi-public corporations and other corporations taxed exclusively for State purposes, is \$605,488,153. In 1910, the last year the City and County was assessed for State purposes, the total roll was \$515,028,064. This is equivalent to a withdrawal from the assessment roll for City and County purposes of \$90,460,089. At the city rate of \$2.05 this would indicate a loss of \$1,854,431 of city revenue. If the State tax rate for 1910 of \$0.353 for State purposes, is computed on the total roll of this year (\$605,488,153) it gives \$2,137,373 which the taxpayers of this city would have to pay under the old revenue system. This would indicate that the real gain this year to the taxpayers through the segregation of State taxes from City and County taxes is \$282,942.

In conclusion, I would state that this office has collected \$760,469.50 taxes on unsecured personal property and \$104,532 for poll taxes.

Under Section 1¼ of Art. XIII of the Constitution exempting veterans who had served in war from taxation on \$1,000 worth of property, 509 exemptions were granted amounting to \$353,041.

Respectfully submitted,

WASHINGTON DODGE, Assessor.

# Report of Justices' Court

San Francisco, Cal., July 23rd, 1912.

To the Hon. James Rolph Jr., Mayor,  
and to the Honorable, the Board of Supervisors of the  
City and County of San Francisco, Cal.

Gentlemen:—Pursuant to the provisions of Section 9 of Article XVI of the Charter of the City and County of San Francisco, I herewith submit the following figures showing the receipts and disbursements of the Justices Courts and Clerks office for the fiscal year ending June 30, 1912.

## RECEIPTS.

Fees received for filing complaints, entering up judgments, etc., and paid into the City and County Treasury as follows to-wit:

For the month of July, 1911.....	\$ 1,688.00
For the month of August, 1911.....	2,026.00
For the month of September, 1911.....	2,056.25
For the month of October, 1911.....	2,193.75
For the month of November, 1911.....	1,995.25
For the month of December, 1911.....	2,003.75
For the month of January, 1912.....	2,325.00
For the month of February, 1912.....	2,086.75
For the month of March, 1912.....	2,021.75
For the month of April, 1912.....	2,224.00
For the month of May, 1912.....	2,206.50
For the month of June, 1912.....	2,071.25
	<hr/>
	\$24,898.25

## DISBURSEMENTS.

Salaries of Justices of the Peace (five at \$3,600.00 each).....	\$18,000.00
Salaries of Clerk and five assistants.....	10,650.00
	<hr/>
Total.....	\$28,650.00

Respectfully submitted,

ROBERT W. DENNIS,

Justices' Clerk of the City and County of  
San Francisco, State of California.

# Report of Playground Commission

San Francisco, August 12, 1912.

To the Honorable Board of Supervisors, City and County.

Gentlemen:—Pursuant to Section 9, Article XVI, of the Charter of the City and County of San Francisco, the Playground Commission herewith presents the report for the fiscal year 1911-1912.

Very truly yours,

JOSEPH R. HICKEY, Secretary.

The first Playground Commission created with the inception of the department in January 1908, entered its fourth and concluding year with an appropriation of \$75,000.00 for 1911-1912, which was later increased by an addition of \$2,500.00 making a total for the fiscal term of \$77,500.00.

#### EXCELSIOR HOMESTEAD PURCHASE.

Satisfying the petitions from residents in the Excelsior Homestead District, \$21,000.00 was expended in the purchase of a site 300x250 feet for a municipal playground in the far Mission. Development of the Excelsior Homestead playground was delayed however until 1912-1913 when additional funds would be available.

#### HAMILTON SQUARE.

The demand for a playground in the neighborhood of Hamilton Square resulted in the transfer of the western half of the park from the jurisdiction of the Park Commission to the Playground Commission. This play area has filled a long desired want in the district adjacent to Fillmore Street. An appeal from the Board of Education for space on which to locate the temporary Girls' High School has impeded the entire development of this playground property. With the removal of the school building within the next few months the playground Commission anticipates the completion of the original plans adopted for Hamilton Square.

#### JACKSON PARK PLAYGROUND.

Jackson Park playground located at Seventeenth, Arkansas, Carolina and Mariposa Streets occupied the concentrated efforts of the Playground Commission during 1911-1912. Lack of sufficient funds prevented the completion of this site which is arranged to represent the best equipped play space in the City and County. Additional funds in 1912-1913 will permit the operation of Jackson Park by September 1, 1912.

#### PUBLIC BATH AT NORTH BEACH.

Increased operating expenses and the demand for playgrounds in other parts of the city resulted in another delay of the proposed Bathhouse at North Beach playground. The inadvisability of a frame building for bath purposes resulted in a high estimate for a concrete structure. Revised plans have now been offered as a means of finishing this feature of the North Beach Playground during 1912-1913.

#### JUNIOR DEPARTMENT.

The possibilities within the scope of the Playground Commission have been well exploited during the initial term of its existence. It is the junior department of municipal regulations, and while it is really enjoying its infancy it is destined to be one of great importance to the people and the general welfare of the community.

#### SUPERVISION.

The demand for increased play facilities for children has reached great proportions in the knowledge of organized games and the general effect of supervised play. An essential factor in connection with the playgrounds provided in the administration of public recreation, is the necessity of leadership at all times by trained directors. Without it the playground will fail to compete with the excitement of the streets nor realize its possibilities as a factor in civic and moral training. The success of the playground leaders indicated by the large number of children drawn to them, is striking and conclusive, that it is the personality of the play leaders which demonstrates success as much as ex-

## PLAYGROUND COMMISSION

pensive apparatus. A playground without a director is a source of continued expenditures, disorder and general objectionable features.

## OBJECTS OF THE PLAYGROUND.

Three factors are pronounced in the success of a playground which are essential in justification of the system, as follows:

First to keep the children off the street.

Second to give them wholesome play without compulsion and,

Third to develop a law abiding spirit to offset the widespread gang movement which cannot be adjusted by police methods.

These objects can only be obtained when within the ability of the directors who understand children and their activities and who enter into them with a sympathetic spirit.

## ATTENDANCE.

The following tables show the attendance on the playgrounds operated by this department during 1911-1912.

## NORTH BEACH.

	Boys	Girls	Total	Average
1911—July .....	15,500	10,345	25,845	862
August .....	7,940	6,077	14,017	467
September .....	7,760	6,030	13,790	460
October .....	8,605	6,380	14,985	499
November .....	7,160	5,565	12,725	424
December .....	7,180	4,850	12,030	401
1912—January .....	4,505	5,580	10,085	336
February .....	6,810	5,325	12,135	405
March .....	6,150	4,670	10,820	361
April .....	7,095	4,970	12,065	402
May .....	8,075	5,345	13,420	447
June .....	6,015	4,520	10,535	351

## HAMILTON SQUARE.

	Boys	Girls	Total	Average
1911—September .....	4,240	1,445	5,685	190
October .....	3,190	1,820	5,010	134
November .....	4,740	2,720	7,460	249
December .....	4,945	2,545	7,490	250
1912—January .....	5,440	2,925	8,365	279
February .....	6,020	3,740	9,760	325
March .....	6,330	3,940	10,270	342
April .....	7,080	4,040	11,120	271

May .....	5,470	2,050	7,520	251
June .....	3,680	1,755	5,435	148

## PETITIONS FOR PLAYGROUNDS.

This Commission has received petitions from twenty-five different sections of the city during the past year requesting that playgrounds as provided for North Beach and Southside, in the bond issue of 1903 be duplicated as the conditions of the City demand.

In view of the many districts unprovided with playground areas and the limited appropriation annually made by the Supervisors it is not within the possibilities of the Playground Commission to purchase the necessary property.

## EXPENDITURES.

The following is a list of expenditures made by the Playground Commission during 1911-1912.

## ADMINISTRATION AND GENERAL EXPENSES.

Construction and Materials .....	\$	109.35	
Labor .....		12.00	
Operating Supplies .....		561.62	
Play Supplies .....		8.53	
Salaries .....		4,807.50	
Stationery .....		27.95	\$ 5,526.95

## EXCELSIOR HOMESTEAD PLAYGROUND SITE.

Purchase Price .....	\$21,000.00	
Negotiating Lease .....	35.00	\$21,035.00

## HAMILTON SQUARE PLAYGROUND.

Construction and Material .....	\$	1,051.12	
Labor .....		550.25	
Operating Supplies .....		400.21	
Play Supplies .....		176.04	
Salaries .....		2,117.50	\$ 4,295.12

## PLAYGROUND COMMISSION

## SOUTHSIDE PLAYGROUND.

Construction and Materials .....	\$ 1,337.20	
Furnishings .....	15.70	
Labor .....	512.75	
Operating Supplies .....	826.70	
Play Supplies .....	275.22	
Salaries .....	3,740.00	\$ 6,707.57

## JACKSON PLAYGROUND.

Construction and Materials .....	\$22,067.40	
Labor .....	5,229.64	
Operating Supplies .....	80.45	
Salaries .....	1,967.50	\$29,344.99

## PRESIDIO HEIGHTS PLAYGROUND.

Construction and Materials .....	\$ 690.00	
Furnishings .....	22.22	
Labor .....	179.50	
Operating Supplies .....	94.45	
Play Supplies .....	100.03	
Salaries .....	1,603.50	\$ 2,689.70

## NORTH BEACH PLAYGROUND.

Construction and Materials .....	\$ 2,169.44	
Furnishings .....	9.57	
Labor .....	775.50	
Operating Supplies .....	710.28	
Play Supplies .....	301.59	
Salaries .....	3,930.00	\$ 7,896.38

## APPROPRIATION AND EXPENDITURES 1911-1912.

## Expenditures—

Construction and Material .....	\$27,424.51	
Furnishings .....	47.49	
Labor .....	7,259.64	
Operating Supplies .....	2,673.71

# Deceased Soldiers and Sailors

San Francisco, Cal., July 1, 1912.

Hon. James Rolph, Jr., Mayor City and County of San Francisco.

Sir:—I have the honor to report the following Applications, Allowances, and Rejections for the year ending June 30, 1912, made in accordance with the provisions of the Act of the Legislature of the State of California, entitled "An Act to provide for the burial of honorably discharged ex-Union soldiers, sailors, and marines who may hereafter die in this State without leaving sufficient means to defray funeral expenses;" approved March 15, 1889; amended March 13, 1901, to include ex-U. S. soldiers, sailors, and marines, and amended March 24, 1911, to include the widows of such who die in indigent circumstances.

Total number of Applications for burial .....	57
Total number of Applications allowed .....	45
Total number of Applications rejected .....	12

## REASONS FOR REJECTION.

Left sufficient means to defray funeral expenses .....	5
Insufficient record of military or naval service .....	2
Died outside City and County of San Francisco .....	5 12

Very respectfully,

EDWARD A. BULLIS,

Superintendent of Interment of ex-U. S. soldiers, sailors,  
and marines, for the City and County of San Francisco.

# Municipal Statistics

## APPENDIX

## Deceased Soldiers and Sailors

# APPENDIX

# Municipal Statistics

San Francisco is a consolidated city and county, governed by a freeholder's charter adopted May 26, 1898 and approved by the legislature January 26, 1899. It was amended by amendments approved February 5, 1903, November 22 and 23, 1907 and February 17, 1911.

San Francisco has a population of 416,912 according to the census of 1910; the present population is estimated at 460,000.

The area is  $46\frac{1}{2}$  square miles.

There are 32 parks and squares of 1,398.6 acres; Golden Gate park contains 1,013 acres.

Market Street is 120 feet wide.

The assessed value of property is \$604,810,464.

The total rate of taxes, State and municipal is \$2.094 on each \$100.

Bonded debt, September 1, 1912, \$26,995,300.

The recent municipal improvements comprise:

A high pressure water system consisting of over 50 miles of extra heavy pipe, 60 cisterns each with a capacity of 75,000 gallons, two fire boats, a reservoir at an elevation of 755 feet with a capacity of 10,000,000 gallons, two smaller reservoirs at a lower elevation and a salt water pumping station. The cost was in excess of \$5,500,000.

Additions to the sewer system costing \$5,000,000.

Thirty new school buildings, costing over \$5,000,000.

A hospital (nearly completed) costing over \$2,000,000.

A Hall of Justice, costing over \$1,000,000.

Two garbage incinerators (under construction) costing nearly \$1,000,000.

A municipal street railway (nearly completed) which will cost nearly \$2,000,000.

A bond issue of \$8,800,000 has been authorized for the construction of a new City Hall and the establishment of a Civic Center. The Civic Center will contain in addition to the City Hall, an auditorium, an opera house, a public library and a State building.

A bond issue of \$45,000,000 has been authorized for a municipal water system.

The city owns its own asphalt paving plant.

Building contracts 1911 were \$24,495,168.

Imports 1911; \$56,075,324; exports \$43,427,033.

Custom House receipts \$6,811,020.

Real Estate sales, 1911; \$35,268,661.

# Board of Supervisors

The following constituted the Board of Supervisors on July 1, 1912.

HON. JAMES ROLPH, JR.  
Mayor and Ex-officio President

## MEMBERS.

Four Year Term.

Paul Bancroft .....	731 Market Street
Geo. E. Gallagher .....	148 Kearny Street
J. Emmet Hayden .....	34 Market Street
Oscar Hocks .....	558 Guerrero Street
Thomas Jennings .....	440 Bryant Street
William H. McCarthy .....	156 Second Street
Charles A. Murdock .....	68 Fremont Street
Henry Payot .....	968 Ellis Street
Alexander T. Vogelsang .....	20 Montgomery Street

Two Year Term.

Guido E. Caglieri .....	205 Columbus Avenue
Andrew J. Gallagher .....	418 Oak Street
*A. H. Giannini .....	Bank of Italy
Fred L. Hilmer .....	129 Davis Street
Adolf Koshland .....	244 California Street
Byron Mauzy .....	250 Stockton Street
Ralph McLeran .....	1554 McAllister Street
Daniel C. Murphy .....	712 Mutual Bank Building
Edward L. Nolan .....	3719a Seventeenth Street

\*A. H. Giannini was appointed January 8, 1912, to fill the term of J. B. Bocarde who was elected at the regular preceding municipal election, but died before the commencement of his term of office.

John S. Dunnigan .....Clerk.  
John W. Rogers.....Chief Assistant.

## STANDING COMMITTEES.

- Electricity—McLeran, Giannini, McCarthy.
- Expositions—McCarthy, Bancroft, Hayden, Jennings, Vogelsang.
- Finance—Jennings, McCarthy, Murphy.
- Fire—Giannini, Mauzy, McLeran.
- Judiciary—Murphy, McLeran, Vogelsang.
- Lands and Tunnels—Mauzy, Bancroft, Andrew J. Gallagher.

- Supplies—Koshland, Hilmer, Murdock.
- Telephones and Rates—Hilmer, Hayden, Hocks.
- Water Service and Rates—Andrew J. Gallagher, Caglieri, Mauzy.

## MAYOR'S INAUGURAL ADDRESS.

Upon his taking office on January 8, 1912. Mayor James Rolph, Jr., delivered the following address to the Board of Supervisors:

San Francisco, January 8, 1912.

To the Members of the Board of Supervisors:

We now assume the duties and responsibilities for which we were chosen by the people.

Since election we have informally assembled for deliberation and preparation.

We are now ready for action.

Our official terms have no space for wasted time, if we are to achieve the things required by the City and expected by the people.

This administration must hold public confidence by common honesty, common sense and results.

In the great forward movement it has one friend only to consider—the City of San Francisco.

The Nation has selected our city as the place for the celebration of the opening of the Panama Canal.

In choosing this as the appropriate place, the Federal Government has thereby signified to the peoples of the world that our City is most directly benefited by this, the mightiest geographical change ever effected by man: that, as far as American Pacific interests are concerned, San Francisco is practically the commercial terminus of the canal.

The world will come and we must be ready. The Exposition must be not merely a conventional success; of it the City must necessarily be the largest part.

The Exposition has united our people, and the spirit of municipal unity is capable of marvels. The people expect us to make San Francisco greater, better and more beautiful.

That we may achieve our hopes we must proceed systematically from one essential to another. Some sacrifice may be necessary in details to produce concentration on the really great requirements.

The three important measures appealing to immediate attention are:

A new City Hall.

A public water system, and

Improved street car transportation.

## A NEW CITY HALL.

Visitors receive their impressions of a city largely from its public buildings. These are accepted by mankind as architectural symbols which represent the character of the people and their physical activities and artistic ideals.

It is all important, for the convenient administration of public business, and for the impression which we shall make upon the world; that, prior to the opening of the Exposition, there shall be completed a City Hall that shall extend every convenience to the citizen, and, at the same time, be the City's chief architectural adornment. Our first duty is to choose a definite and immediately available site, and to select desirable plans for the building. Thereafter should be submitted to the voters, without delay, a bond issue covering the requirements. The subject of a site has been under discussion for more than six years. It has been made obvious that to secure a new location in the heart of the City by purchase or condemnation would consume years.

San Francisco cannot afford nor need it suffer such loss of time. The architectural commission, considering the Civic Center, will report within a few days. Although my personal views may yield to any report that covers the requirements of the occasion as to rapid action, central location and attractive situation, I believe the time opportune to express my present conviction, appreciating at the same time that this matter must be determined by the legislative branch of our municipal government.

The site of the old City Hall is close to every other point that has been suggested. The City owns the land. Its position is central, accessible and otherwise convenient.

The acceptance of this site commends itself to every practical consideration, and only by building there can we be ready within the limited time. If the growth of the City, or its artistic development, shall demand greater expense, let the additional land be acquired when needed; but wisdom demands beginning with the City's present property.

The Exposition officials have declared that, if the City will provide a site, they will erect thereon a great public auditorium, which shall become the property of the municipality without further expense.

This offer should be accepted.

Land adjacent to the City Hall, suitable for initiating plans for a Civic Center, should be acquired by purchase or condemnation.

In the construction of such a building the City Architect and the Exposition Architectural Commission should co-operate, so that its architectural features and those of the City Hall shall harmonize.

#### A PUBLIC WATER SUPPLY.

Our City is, to its standing reproach, one of the few large municipalities not owning and operating its own water service.

Public health, one of the greatest concerns of municipal government, directly rests upon a supply of pure and abundant water.

A city cannot provide its inhabitants with healthful conditions without all the water supply and service being under its exclusive control.

To the extent that a municipality is dependent in this essential it is incapable of performing its chief duty.

This condition should be immediately remedied.

Ultimately our water must come from the Lake Eleanor and Hetch Hetchy supply in the Sierras. Nothing that can hasten the bringing of this Sierra water to our inhabitants must be left undone. But, pending their arrival, and preparatory thereto, the entire properties of the Spring Valley system should be acquired.

Negotiations should at once be opened with the owners of Spring Valley.

It is to be hoped that the owners of the Spring Valley properties, being largely interested otherwise in San Francisco, and sharing the feelings of other citizens, and imbued with the progressive spirit of San Francisco, will meet us on reasonable terms, and that the City may purchase these properties for a compensation that will be fair to the people.

#### STREET CAR TRANSPORTATION.

The inadequacy of our street car system is one of the evils which needs a speedy remedy.

A very considerable portion of San Francisco is not within the reach of the present car service. The eventual remedy for such conditions is municipal ownership of public utilities. But this remedy is not yet available in all instances—existing franchises holding for many years.

The Geary Street Railroad must be completed, expanded and extended as expeditiously as the City's finances will permit. Our law officers should press the suit to extend the Sutter Street line to the Ferry to as early a conclusion as may be possible, and, if the suit is decided in favor of the City, the Geary Street Road should be promptly extended to the Ferry.

The construction and operation of railways by private capital, subject to the right of acquisition by the City on payment of cost and a reasonable bonus, under the Charter provision recently adopted, should be encouraged.

By this method private funds would be used to create railway properties which, at the will of the people, would become public properties.

To make this Charter provision of practical use, it becomes necessary to repeal another Charter clause providing that ". . . no street railway franchise shall extend beyond twenty-five years."

Such an automatic ending of a franchise is unnecessary in case the City has the power to acquire a street railway whenever it is ready to own and operate it. The building of the railway by private enterprise, coupled with the power of the City to own and control it when it is ready, offers a partial solution of the street railway problem.

Indeterminate franchises are permissible under our state constitution. It may be reasonably expected that private capital, under a system of indeterminate franchises, will be induced to extend the existing railroads as the public needs require. But, should we be disappointed in this expectation, nothing remains but the building of an adequate system before the opening of the Exposition by the City itself.

To meet probable conditions of the future, the article in the Charter providing that bond issues shall not exceed fifteen per cent of the assessed valuation of the taxable property should be amended.

There is no sound reason why bond issues for the purchase of utilities that will be at least self-sustaining and, in most instances, profitable, should be included within the fifteen per cent limit.

To assure the most successful solution of this and other great problems, we must secure the best talent in scientific and artistic lines wherever it may be found. The principle of encouragement of home industry should have no application to the employment of expert talent by the City.

The best talent, wherever found, is not too good for San Francisco.

We must open our doors to it instead of closing them. Hence the Charter provision, requiring one year's previous residence as a qualification for City employment should be amended so as to exclude experts and scientific men from its scope.

That we may move with full information it is prudent to learn what means the City has placed in our hands when we take up our work.

We must familiarize ourselves with present financial resources. The facts should be ascertained and made known to the people as soon as known to ourselves.

The books of the City should be audited under the direction of the finance committee and the results published without delay.

From these remarks, gentlemen, I would not have the public suppose that the three great problems first presented are the only matters of pressing importance.

They are not.

Others, vital to the City's welfare, must engage our attention.

The reconstruction and cleaning of our streets, improving our park system, increase of playgrounds, the creation of an esplanade along our beach, improved and extended sewer system, the completion of the salt water auxiliary fire system and all other unfinished work; definite action for the building of tunnels, the addition of San Mateo County to San Francisco, and the improvement of

all the roads in the outlying sections of San Francisco. All of these require careful study and should be taken up as rapidly as financial power and legislative action will permit.

But I believe that every one will concede that the three first mentioned are conspicuous necessity, and are within the range of early accomplishment.

Lincoln, in his address on the field of Gettysburg, said: "The world will little note, nor long remember what we say here, but it can never forget what they did here." Brother officials, let us now say: "Our City may little note, nor long remember, what we say here, but let us so conduct our administration that it can never forget what we will have done here."

JAMES ROLPH, JR., Mayor.

# Water Rates

PROCEEDINGS OF THE BOARD OF SUPERVISORS IN THE MATTER OF  
FIXING RATES TO BE CHARGED BY ANY PERSON OR CORPORA-  
TION SUPPLYING WATER TO THE CITY AND ITS INHABITANTS  
FOR THE YEAR ENDING JUNE 30, 1913.

The Board of Supervisors, pursuant to the requirements of the Constitution of the State of California, of the Act of the Legislature, approved March 7, 1881, and of Section 1, Chapter II, Article II of the Charter of the City and County and in compliance therewith, obtained statements from the corporations engaged in the business of supplying water during the year 1910, showing their receipts and expenditures and nature and character of properties, and after consideration and investigation, fixed the rates to be collected for furnishing water during the year commencing July 1, 1912, and ending June 30, 1913.

As preliminary to commencing the investigation of water rates for the year commencing July 1, 1911, and ending June 30, 1912, the Board of Supervisors adopted the following resolutions in order to procure the information necessary to enable it to act intelligently and fairly in fixing such rates:

Resolutions Nos. 9107 and 9110 (New Series) requiring statements to be filed by all persons, companies or corporations engaged in the business of supplying water to the inhabitants of the City and County.

Resolution No. 9108 (New Series), directing the Board of Public Works to make an appraisement of certain properties of the Spring Valley Water Company.

## THE INVESTIGATION.

The Board of Supervisors met as a committee of the whole for the purpose of investigating matters relating to rates on February 26, May 15, May 23, June 7 and 8, at which meetings testimony was taken and exhibits filed. The following are the principal exhibits:

SPRING VALLEY WATER COMPANY.

INVENTORY OF PROPERTIES NOT NOW ACTUALLY USED IN SUPPLY-  
ING SAN FRANCISCO WITH WATER, SOME OF WHICH ARE CAPABLE  
OF DEVELOPMENT INTO A SOURCE OF WATER SUPPLY FOR THE  
CITY AND COUNTY IN THE FUTURE.

JANUARY 1, 1911.

Alameda County—

- Arroyo Valle Lands, about 4,400 acres available for future supply.
- Land on Alameda Creek—134.65 acres available for future supply.
- Lands known as Poorman Tract—577.75 acres available for future supply.
- Tract of land near Niles, 10.65 acres may be available for future supply.

San Mateo County—

- Three lots on Pilarcitos Pipe Line not necessary for future supply.
- Baden and other Rights of Way may be available for future supply.
- Locks Creek Lands, available for future supply.
- Polhemus Tract—775.77 acres. Not directly used for supply. Purchased to obtain 43 acres of land necessary for water shed and for diversion of road caused by Crystal Springs Dam.
- Tract on Newhall Ranch. Interest in 65.95 acres—Intended for future supply.
- Portola Lands—939 acres. Of value for future supply.
- Camp Howard Tract—640 acres. Probably not of value for future use.
- Land on Pescadero Creek—40 acres and Riparian Rights on Pescadero Creek of value for future use.
- Ravenswood Lands and Rights of Way of value for future supply.

Marin County—

- Sausalito Lots not required for supply.

Santa Clara County—

Lands on and about Coyote Creek—about 11,472 acres—of value for future use.

Land on Stevens Creek—240 acres; not of value for future use in San Francisco.

Land forming part of Rancho Laguna Seca—30 acres—for future use.

Santa Clara and San Benito Counties—

Tequesquito Lands—953.27 acres; of value for future supply.

City and County of San Francisco—

Market Street Lot.

Precita Valley Lot.

Fulton Street Lot.

Industrial School Reservoir Site.

The above are of value for future supply.

Lobos Creek—

Of value for future use.

San Miguel Lots—

Of value for future supply.

## ESTIMATE OF THE CITY ENGINEER OF THE PROPERTY OF THE SPRING VALLEY WATER COMPANY.

San Francisco, June 7, 1912.

To the Honorable, The Board of Public Works,  
Of the City and County of San Francisco.

Gentlemen:—I am required by Resolution No. 9108 to make an estimate of the value of the investment in the Spring Valley Water Company properties which are in actual use in supplying water to the City and County of San Francisco and which shall form the basis for fixing the rates to be charged for water during the fiscal year of 1912-1913.

The following appraisal is based upon the recent decision of Judge Farrington in the United States Circuit Court, which fixes a valuation of the property in use during the years 1903-1904, and upon the statements of the Spring Valley Water Company concerning the cost of properties added from year to year as found in the Municipal Reports of the City of San Francisco. From the appraisal thus made I have deducted the depreciation of the physical properties calculated upon the basis fixed by Judge Farrington.

Your attention is directed to the fact that the following estimate contains no allowance for the appreciation of value of properties appraised by Judge Farrington nor any allowance over their original cost for properties purchased since 1903-1904. The valuation given in this estimate is therefore to be considered as the value for rate fixing purposes only and should not be considered as an estimate of the amount which it would be reasonable for the City to pay in the event of their desiring to purchase the properties of the Spring Valley Water Company in their entirety.

## JUDGE FARRINGTON'S DECISION.

The valuation summarized by the Court after exhaustive study is as follows:

## SUMMARY OF VALUE OF PROPERTIES.

The value of complainant's properties used in supplying defendants with water in 1903-1904 was as follows:

1	1,880 acres reservoir land .....	\$ 1,880,000
2	40,379.52 acres watershed .....	3,947,712
3	2,730 acres Lake Merced property .....	3,382,600
4	Water rights .....	2,100,000
5	Rights of way .....	200,000
6	City Reservoir Sites:—	
	Lake Honda .....	\$ 165,000
	University Mound .....	36,300

Total Real Estate .....		12,393,398
Meters and stock on hand .....		420,000
Total .....		\$28,694,522
23 Less Depreciation .....		2,922,538
Total Value of Property .....		\$25,771,984
From this total of .....		\$25,771,984
There should be deducted the value of property not in use, as follows:—		
Item No. 9, Office Lot and Building.....	\$ 179,217	
Item No. 14, Pilarcitos Pipe Line.....	303,235	
Lake Honda Tank .....	4,000	
Ocean House Flume .....	9,233	
Item No. 16, College Hill Aerator .....	1,772	
Item No. 20, City Pipe System, Estimated damage by earthquake of April 18, 1906, (See Municipal Re- ports 1905-1906 and 1906-1907, page 822).....	200,000	\$ 697,457
From which we have as the value in 1903 of property which is in use today .....		\$25,074,527
The Court fixed the annual depreciation upon the plant then in use as follows:		
‘I find the annual depreciation of this plant to be one per cent per annum for cast iron pipe; 2 per cent for wrought iron pipe; 2.5 per cent for pump engines, flumes and wooden structures; and 5 per cent for boilers. Thus I have ascertained the annual depreciation to be \$212,983.’		
In order to arrive at the annual depreciation of the prop- erties which are in use today we should deduct from this .....		\$212,983.00
the depreciation of properties which have been elim- inated from the above estimate as follows:		
Pilarcitos Pipe Line .....	\$6,064.70	
Lake Honda Tank .....	100.00	
Ocean House Flume .....	130.80	
College Hill Aerator .....	44.30	
City Pipe System .....	2,000.00	
Total .....		8,339.80
Leaving an annual depreciation of.....		\$204,643.20
Subtracting from .....		\$25,074,527.00
the depreciation for 8 years at \$204,643.00, or.....		1,637,144.00
We have .....		\$23,437,383.00

as the present value of property now in use and included in Judge Farrington's valuation of 1903-1904.

Properties added during the calendar year 1904:

Referring to the Municipal Reports of San Francisco for the years 1904-1905, City Engineer's Report pages 473, 474, 475, 476 and 477; Exhibit No. 8, pages 479 and 480; and Exhibit No. 11, pages 481 and 482, and eliminating items not at present in use, we have the following:

New construction, extensions to City Pipe Line.....	\$197,975.21
Real Estate .....	101,286.00
New Alameda Pipe Line .....	10,880.00
Lombard Street Reservoir .....	7,353.71

Exchange of property from Niles to Dumbarton.....	3,888.52
<b>Total .....</b>	<b>\$191,427.21</b>

From which should be deducted the depreciation for one year, as follows:

City pipe system .....	\$ 362.02
Meters .....	385.12
City pumps .....	25.68
Pilarcitos pipe line .....	119.06
<b>Total .....</b>	<b>891.88</b>

Leaving .....

as the present value of properties added by the Spring Valley Water Company during the year 1910. **\$190,535.33**

Betterments during the calendar year 1911:—In the early part of the year 1912 the Spring Valley Water Company filed with the Board of Supervisors a statement of permanent improvements added to the property of the Company during the year as follows:

Real Estate .....	\$2,078,825.03
City pipe system .....	2,298.43
Meters installed .....	25,344.81
Calaveras improvements .....	44,679.25
Crystal Springs Reservoir .....	13,403.30
Belmont pumps .....	1,031.80
Central pumps .....	102,504.44
Central pumps supply main .....	22,009.36
Central pumps force main .....	53,569.46
Millbrae pumps .....	4,537.59
Pilarcitos pipe line .....	1,734.97
Crystal Springs pipe line .....	1,817.36
San Andreas pipe line .....	2,249.09
<b>Total .....</b>	<b>\$2,354,104.89</b>

From this should be deducted the value of the Calaveras improvements .....

Leaving .....

**44,679.25**

**\$2,309,425.64**

WATER RATES

as the present value of properties.

The depreciation on this property is estimated as follows:

City pipe system .....	\$ 22.98
Meters .....	253.45
Belmont pumps .....	45.79
Central pumps .....	2,562.61
Central pump supply main .....	440.18
Central pump force main .....	1,071.39
Millbrae pumps .....	113.44
Pilarcitos pipe line .....	34.70
Crystal Springs pipe line .....	36.35
San Andreas pipe line .....	44.98

Total ..... \$ 4,625.87

Since 1903-1904 the Spring Valley Water Company have raised the height of the Crystal Springs Dam, thus increasing the area of the reservoir by some 214 acres and under the principles laid down in Judge Farrington's decision (see Page 46 of Judge Farrington's decision), reservoir lands should be valued at \$1,000 per acre and watershed lands at \$100 per acre. These 214 acres have now become reservoir lands, therefore this value should be increased by \$900 per acre, or \$192,600.

SUMMARY.

The following is a summary of the above:

Estimated present value of lands in use in 1903-4 .....	\$23,437,383.00
Present value of betterments:	
During the year 1904.....	339,657.59
1905.....	405,490.47
1906.....	309,247.30
1907.....	704,067.85
1908.....	222,282.01
1909.....	242,888.98
1910.....	190,535.33
1911.....	2,309,425.64
Increased value of lands due to their being used as reservoir site .....	192,600.00
Total .....	\$28,162,904.17

The annual depreciation of this property is estimated as follows:

Depreciation of property in use in 1903-4 as per Judge Farrington's decision .....	\$ 204,643.00
During the year 1904.....	2,925.31
1905.....	2,477.08
1906.....	2,194.14
1907.....	21,692.07
1908.....	2,378.77
1909.....	462.13
1910.....	891.88
1911.....	4,625.87
Total .....	\$ 242,290.25

Respectfully submitted,

MARSDEN MANSON,  
City Engineer.

## COMMUNICATION FROM SPRING VALLEY WATER COMPANY. L. E. H.

San Francisco, Cal., May 20, 1912.

To the Water Rates Committee of the  
 Honorable, The Board of Supervisors of the  
 City and County of San Francisco, and  
 Andrew Gallagher, Esq., Chairman.

Dear Sirs:—To make clear the position of the Spring Valley Water Company in reference to matters that you have brought before it:

During the past ten years differences have existed between the Supervisors and the company regarding the proper basis for fixing of water rates. The most important of these questions have been definitely removed by decisions of the Circuit Court and Supreme Court of the United States. Your Board will now probably agree that rates should be established that will afford a fair return on the value of the property at the time it is being used for the public, provided such rates do not result in the imposition of an insupportable burden upon the rate payers; that established business or going concern is an element of value; and that depreciation is a necessary charge against revenue. Therefore any differences as to present value of property used in rendering service, or what constitutes a reasonable return on its value, becomes of little importance for the reason that the company will accept a rate now over which there should be no honest intelligent difference of opinion.

The Supreme Court of the United States decided six per cent as a reasonable rate of return in the Consolidated Gas Case, and the United States Circuit Court decided eight per cent to be reasonable in the Des Moines Water Case. No decision as to reasonable return was made in the Spring Valley 1903 Rate Case.

The reasonableness of the request that we here make is justified by the figures which follow and is based on the estimated results of the rates which we suggest. The operating expenses of the company for the four months ending April 30, 1912 were \$255,716.02, as compared with \$217,629.35 for the corresponding period of 1911. Operating expenses, depreciation, taxes, etc. for the calendar year 1911 were \$1,564,831. The operating expenses and taxes for the fiscal year 1912-1913 will increase over the corresponding items for 1911, and we estimate that operating, depreciation, taxes, etc. for 1912-1913 will be \$1,629,680 and that the net return under the rates we suggest will be \$1,585,720, which is

- 8% on \$19,821,500 (Des Moines Water Rate Decision);
- 7% on \$22,653,100 (Statutory legal rate in California);
- 6% on \$26,428,600 (U. S. Supreme Court Consolidated Gas);
- 5% on \$31,714,400.

The capital expenditures of the company for the calendar years 1902-12 were \$6,108,904. The estimated capital expenditures for six months of 1912, that is to say to July 1, 1912, are \$300,000, and during the rate year 1912-1913 large capital expenditures will be necessary.

To arrive at an estimate of value as of July 1, 1912, based on Judge Farrington's decision, it is necessary to consider the well-known increase in land value since 1903; the value of going concern or established business; property acquired since 1903 and property in use at this time but not then in use. For rate fixing purposes, the Lake Merced property was valued by Judge Farrington at \$3,382,600. It must be within your knowledge that the property is reasonably worth today in excess of ten million dollars.

When the testimony in the 1903 case was taken, there were many important reasons why the ownership of properties then belonging to the company

(titles to which were of record in other names) should not be disclosed. Judge Farrington states:

“In such matters its wishes were respected in the taking of testimony; consequently it is impossible to locate, describe or value all its holdings.”

In July 1912 our plant will be developed to supply in excess of 45 million gallons daily, whereas in 1903 we were not equipped to supply in excess of 35 million gallons daily; and in making his valuation Judge Farrington allowed for only thirty-five million gallons daily. Taking Judge Farrington's valuation for rate fixing purposes as a foundation, and giving consideration to the value of going concern, increased value of real estate, subsequent acquisitions, capital expenditures, etc., the value of the property now actually used in supplying San Francisco with water exceeds for rate fixing purposes the sum of \$40,000,000.

The company has for many years requested an increase of 25% on the 1902 rate, with a \$5 hydrant rate. It will, however, accept the rates now being collected, i. e. the 1902 rate plus 15% and a \$5 per month hydrant rate. It recedes from its previous position with the hope that harmonious relationship with the Board of Supervisors will be mutually beneficial to the city and the company.

In reply to your further question relating to low pressure and extension of mains: If the rates here requested are established, the company will expect an end to all existing litigation between the company and the city (as suggested by the City Attorney), and that the Supervisors will permit no increase in taxes (which now amount to over \$420,000 per year.) Harmonious relationship with the city will firmly re-establish the credit of the company, and it will be able to make and will make extensions and substitute larger mains in certain districts. It cannot undertake to lay mains to advance speculative real estate ventures or to high elevations requiring the installation and operation of special pumping plants, or extensions that might jeopardize the city's supply. But the company will undertake to make reasonable extensions.

These suggestions are made with the further understanding that the rates will be maintained for at least four years, and that if negotiations now in hand looking to the sale of the property to the city are not concluded, we reach a definite understanding relating to the necessary increased supply for 1914-15, with reasonable protection for future capital expenditures.

Respectfully,

SPRING VALLEY WATER COMPANY,

S. P. EASTMAN.

#### COMMITTEE REPORT.

On June 10, 1912, the matter was before the Board of Supervisors in regular session and the following committee report was presented:

San Francisco, June 10, 1912.

To the Honorable Board of Supervisors,  
of the City and County of San Francisco.

Gentlemen:—The Committee of the Whole, after four sessions at which the valuations of the Spring Valley Water Company, for rate fixing purposes, were considered, recommends the adoption of an ordinance continuing the existing rates for water.

Supervisor Andrew J. Gallagher dissents from this recommendation.

It is believed after careful inquiry and consideration of all elements, including depreciation and capital investment that the existing rates will yield

a reasonable, and in fact a liberal income to the Spring Valley Water Company. This rate allows for increased producing capacity, but does not take into consideration all of the capital investment claimed by the company, which capital investment has not as yet been put into actual use in the system which supplies water to the people of this City.

The Committee does not make an extensive tabulated report for the reason that negotiations are now pending with the Spring Valley Water Company looking toward the purchase of the entire system by the City. Because of these pending negotiations it was not deemed advisable to duplicate the work of the Advisory Committee and make extended expert investigations of the properties.

The Spring Valley Water Company filed its reports in the usual manner, and subsequently the City Engineer was called upon for a statement, estimating the value, for the purpose of fixing rates, of the Spring Valley water plant.

The Spring Valley Water Company requested an increase of 25 per cent over the 1902 rate based on valuation for water producing purposes of \$34,000,000 or \$35,000,000.

This estimate was carefully weighed, and while it is not wholly allowed it is partially granted.

The City Engineer estimated the values for water purposes of the Spring Valley water plant at \$28,162,904.17.

The annual reports of the Spring Valley Water Company show constant increases in the volume of business, which of course increases their net revenue. Your Committee took this average increase into consideration in the discussion prior to the recommendation of the passage of the existing rates.

It is hoped that this rate, which is deemed reasonable will be acceptable to the Spring Valley Water Company, and that negotiations now pending will be brought to a successful conclusion and the whole water problem submitted to the people for final settlement in the near future.

Respectfully yours,

By direction of the Committee of the Whole.

J. S. DUNNIGAN, Clerk.

#### Minority Report.

The following minority report was also presented and read:

San Francisco, June 10, 1912.

To the Honorable Board of Supervisors,  
of the City and County of San Francisco.

Gentlemen:—In dissenting from the recommendation of the Committee of the Whole in the matter of the re-enactment of the existing rates for water, I beg leave to recommend that the ordinance be changed so that the Spring Valley Water Company shall receive 5 per cent net on a valuation of \$26,000,000.

I believe that \$26,000,000 is a fair and reasonable valuation of the properties used and usable at this time for the purpose of supplying water to the City and County of San Francisco.

If the existing rates were cut 4 per cent horizontally it would yield the Spring Valley Water Company something over 5 per cent on \$26,000,000. This would be a net income on their water product, and allow for depreciation and income from other sources than from water. I therefore suggest that a 4 per cent deduction of existing rates be made.

The report of the Committee of the Whole, which recommends the adoption of existing rates in my opinion gives the Spring Valley Water Company too large an increase for appreciation and for capital investment. While it is no doubt true that the company has made investments of considerable sums for

property in Alameda County, these investments have not so far produced any appreciable increase in the volume of water delivered to the City.

In this connection I wish to call the attention of the Board of Supervisors to the fact that the Spring Valley Water Company reports an investment of approximately \$2,000,000 for lands in Alameda county, and at the same time the same report shows that they have spent approximately \$20,000 in extensions and new pipes in the City. It is therefore obvious that the investments on which the company now asks for an income have not been productive of an increased supply of water for this City.

I should be willing to allow the Spring Valley Water Company liberal values for appreciations and extensions if that company were to show a disposition to provide adequate water service to this community.

I do not believe that 5 per cent on \$26,000,000 is an unreasonably low allowance at this time, and I do believe the valuation is a fair estimate of the property actually employed in water service.

I take for the basis of my recommendation the opinion of Judge Farrington, wherein he says that less than 5 per cent is confiscatory, and I, therefore, after having the reports and testimony analyzed find that 5 per cent on \$26,000,000 would yield the company a net income, according to their own figures, of \$1,300,000 in round numbers, which is the amount the company received last year. When to this is added the increased volume of business for the next fiscal year, I think their income would be increased from \$50,000 to \$60,000 net.

Respectfully submitted,

ANDREW J. GALLAGHER.

#### ORDINANCE ADOPTED.

On June 17, 1912, the bill fixing water rates was before the Board of Supervisors for consideration and Supervisor A. J. Gallagher moved to amend the same by a horizontal reduction of four per cent. The amendment was defeated, Supervisors A. J. Gallagher and Edward L. Nolan voting aye and all the other supervisors voting against the amendment. The bill was thereupon passed to print and was finally passed on July 1, 1912. The following is the ordinance:

BILL NO. 2162. ORDINANCE NO. 1944. (New Series.) Regulating the monthly rates by compensation to be collected by any person, company or corporation engaged in the business of supplying water to the inhabitants of the City and County of San Francisco for family uses, for private purposes, for municipal uses and for all public purposes of said City and County for the year commencing July 1, 1912 and ending June 30, 1913.

Be it ordained by the People of the City and County of San Francisco as follows:

That the monthly rates of compensation for supplying water shall be as follows:

## GENERAL RATES.

Section 1. For buildings occupied by a single family covering a ground surface of (not including porches):

Square Feet.	One Story.	Two Stories.	Three Stories.	Four Stories.	Five Stories.
0 to 400.....	\$0.22	\$0.27	\$0.36	\$0.41	\$0.45
400 to 500.....	.27	.36	.41	.45	.54
500 to 600.....	.36	.41	.45	.54	.63
600 to 700.....	.41	.45	.54	.63	.68
700 to 800.....	.45	.54	.63	.68	.72
800 to 900.....	.54	.63	.68	.72	.76
900 to 1000.....	.63	.68	.72	.76	.86
1000 to 1200.....	.68	.72	.76	.86	.90
1200 to 1400.....	.72	.76	.86	.90	.94
1400 to 1600.....	.76	.86	.90	.94	.99
1600 to 1800.....	.86	.90	.94	.99	1.03
1800 to 2000.....	.90	.94	.99	1.03	1.08

The foregoing rates also apply to public buildings. No single rate less than twenty-two (22) cents.

For all houses one story in height, covering a greater area than two thousand square feet, there shall be added nine (9) cents for each additional two hundred square feet or fraction thereof, and the further sum of nine (9) cents for each additional story:

## ADDITIONAL FAMILIES.

Where a house or building is occupied by more than one family the general rate for each additional family shall be three-quarters ( $\frac{3}{4}$ ) of the foregoing rates, except:

First—Where a house or building is divided into flats, each flat having a separate entrance, and occupied by a separate family, the general rate charged shall be the same for each flat as for a single house of like dimensions.

Second—Where two or more families occupy the same floor the general rates for each family on such floor shall be the rate for the floor surface occupied by such family (the same as for a single one-story house), according to the foregoing table.

Note—The general rate includes water for general household purposes but does not include any of the following specified rates:

## SPECIAL RATES—BATHING TUBS.

Section 2. Bathing tubs in private houses, each tub \$0.32.

In public houses, boarding houses, lodging houses, hotels and bathing establishments where meters are not used, each tub, \$0.45.

## FOR HORSES AND COWS.

Section 3. For each horse, \$0.18; for each cow, \$0.09.

## BOARDING AND LODGING HOUSES, ETC.

Section 4. Boarding and lodging houses, not including water for baths, water closets and urinals or for water without the houses, shall be charged for each boarder and lodger within the same in addition to the rates for private families, \$0.07.

## IRRIGATION, PRIVATE GARDENS, ETC.

Section 5. Irrigation for private gardens and private grounds, one-half ( $\frac{1}{2}$ ) of a cent per square yard; no monthly charge to be less than fifteen (15) cents.

## WATER CLOSETS.

Section 6. For each valve closet for use of public building.....	\$0.45
For each valve closet for use of private dwelling.....	.22
Privy vaults (connected with sewer)—	
For use of public building, each seat.....	.41
For use of private dwelling, each seat.....	.22
All drain closets to be charged at the same rate as privy vaults.	

## URINALS AND STATIONARY WASHSTANDS.

Section 7. For use of public buildings, each .....	\$0.09
For use of private dwellings, each .....	.05

## BUILDING PURPOSES.

Section 8. Water furnished for building purposes:	
Each barrel of lime or cement .....	\$0.14
Each thousand of brick .....	.09

## STORES, BANKS, SALOONS, HOTELS, ETC.

Stores, banks, bakeries, offices, warehouses, saloons, groceries, eating houses, barber shops, butcher shops, book binderies, blacksmith shops, confectioneries, hotels, lodging houses, boarding houses, churches, halls, laundries, photograph galleries, printing offices, steam engines, greenhouses, markets, market stalls, horse troughs, soda fountains and other places of business, each to be charged according to the estimated quantity used, from eighty-one cents (\$0.81) to five and 40-100 dollars (\$5.40), or by meter at meter rates.

## FIRE PIPES.

Section 9. Meters shall be applied to all pipes used specially for fire protection, and monthly bills shall be charged for the same at regular meter rates, provided, however, that the monthly bill shall not be less than fifty (50) cents for each one-half ( $\frac{1}{2}$ ) inch of diameter of pipe used.

## METER RATES.

Section 10. Water furnished for any and all purposes not embraced in the above shall be supplied by meter at the following rates:

The first 2,000 cubic feet used (between 0 and 2,000 cubic feet) shall be charged for at the rate of twenty-five (25) cents per 100 cubic feet.

The next 2,000 cubic feet used (between 2,000 and 4,000 cubic feet) shall be charged for at the rate of twenty-four (24) cents per 100 cubic feet.

The next 2,000 cubic feet used (between 4,000 and 6,000 cubic feet) shall be charged for at the rate of twenty-two (22) cents per 100 cubic feet.

The next 2,000 cubic feet used (between 6,000 and 8,000 cubic feet) shall be charged for at the rate of twenty-one (21) cents per 100 cubic feet.

The next 2,000 cubic feet used (between 8,000 and 10,000 cubic feet) shall be charged for the at the rate of twenty (20) cents per 100 cubic feet.

The next 5,000 cubic feet used (between 10,000 and 15,000 cubic feet) shall be charged for at the rate of nineteen (19) cents per 100 cubic feet.

The next 5,000 cubic feet used (between 15,000 and 20,000 cubic feet) shall be charged for at the rate of eighteen (18) cents per 100 cubic feet.

The next 5,000 cubic feet used (between 20,000 and 25,000 cubic feet) shall be charged for at the rate of seventeen (17) cents per 100 cubic feet.

The next 5,000 cubic feet used (between 25,000 and 30,000 cubic feet) shall be charged for at the rate of sixteen (16) cents per 100 cubic feet.

The next 10,000 cubic feet used between 30,000 and 40,000 cubic feet) shall be charged for at the rate of fifteen (15) cents per 100 cubic feet.

The next 10,000 cubic feet used (between 40,000 and 50,000 cubic feet) shall be charged for at the rate of fifteen (15) cents per 100 cubic feet.

The next 10,000 cubic feet used (between 50,000 and 60,000 cubic feet) shall be charged for at the rate of fourteen (14) cents per 100 cubic feet.

The next 10,000 cubic feet used (between 60,000 and 70,000 cubic feet) shall be charged for at the rate of thirteen (13) cents per 100 cubic feet.

All water used in excess of 70,000 cubic feet per month to be charged for at the rate of twelve (12) cents per 100 cubic feet.

No monthly meter bill to be less than one and 80-100 dollars (\$1.80), except as hereinafter provided.

Upon application of any ratepayer the Board of Supervisors shall reserve the right, upon a proper showing of cause, to require the company to put in a meter and charge meter rates for any consumer of water, on such conditions as the Board may impose as to the rental when meter is not actually used.

#### METER RATES FOR SHIPPING.

Water shall be furnished and delivered by meter measurement to shipping lying alongside of the bulkhead or any of the wharves on the water front where water pipes or mains are laid, between the hours of 6 o'clock a. m. and 6 o'clock p. m., daily, upon application being made therefor, at the following rates: When supplied by reel and hose cart, \$1.50 per 1000 gallons. When supplied by connection with water pipes, at rates that shall not exceed double the regular meter rates established by Section 10. The minimum charge for each separate delivery to be fifty (50) cents.

No water boat furnishing and supplying water to shipping lying at anchor within the limits of the wharves of the City and County of San Francisco shall charge a rate to exceed three dollars (\$3.00) per 1000 gallons.

#### HYDRANT RATES.

Section 11. The rates of compensation to be collected for water supplied by and through hydrants to the City and County of San Francisco shall be two dollars and fifty cents (\$2.50) per month for each hydrant for fire purposes and flushing of sewers.

#### PREVENTION OF WASTE.

Section 12. Prevention of waste or excessive use:

In no case where the fixed rates above provided other than meter rates, are applicable, shall any charge for water be made by meter rates, it being the purpose of this Ordinance to provide for all dwelling houses a fixed monthly rate which shall not be increased by the person, company or corporation supplying water.

Provided, however, that for the purpose of discovering and repressing waste or excessive use, all persons, companies or corporations shall have the right in all cases to apply and maintain meters to measure the water used or consumed,

and to charge and collect for waste or excessive use under the condition and to the extent hereafter provided in this section, and not otherwise.

No consumer shall be deemed guilty of waste or excessive use unless the water used or consumed upon his premises in any month shall exceed by fifty (50) per cent the number of cubic feet which at regular meter rates amount to his rated bill, in which case such excess shall be deemed waste or excessive use.

Immediately after the discovery of any waste or excessive use, the consumer shall be notified thereof by the person, company or corporation supplying water by notice mailed to his address or to the agent or person to whom his water bills are presented for collection.

After such notice the consumer may be charged and there may be collected from him for any waste or excessive use thereafter occurring upon his premises at regular meter rates, but such charge or collection shall not exceed for the first month the sum of two dollars (\$2.00), for the second month the sum of four dollars (\$4.00), or for any following month the sum of five dollars (\$5.00).

#### BOARD OF PUBLIC WORKS TO EXAMINE COMPLAINTS, ETC.

It shall be the duty of the Board of Public Works, by its Gas, Water and Electrical Inspector of this City and County, to inquire into all cases of complaints by water consumers as to charges made against them for waste or excessive use under the foregoing provisions of this section, and to adjust such charge as follows:

Any water consumer against whom a water bill is presented containing a charge for waste or excessive use of water may within five days after such bill is presented to him (provided that he first pay the fixed rate charged on such bill, exclusive of the charge made for said alleged waste or excessive use) make complaint to said inspector that such charge is incorrect, whereupon the said inspector shall promptly inspect the premises of the consumer so complaining and cause a test to be made of the water meter upon said premises, and from such inspection and test and subsequent inspection and test as said inspector may see fit and proper to make shall determine as near as can be the amount of water used, consumed or wasted upon said premises during the period covered by said bill. As soon as such determination is made and within twenty (20) days after the said complaint is made said inspector shall make a certificate stating the amount of water so determined to have been used, consumed or wasted, and showing the true and correct amount, if anything, which may be charged against and collected from said consumer under the foregoing provisions of this section for waste or excessive use, and shall immediately transmit such certificate to the person, company or corporation supplying water, and also a copy thereof by mail to the water consumer.

The said certificate shall be conclusive between the water consumer and said person, company or corporation as to the amount if anything, which said person, company or corporation shall be entitled to collect from the consumer for waste or excessive use of water during the period covered by the bill of which complaint is made; provided, however, that if either the consumer or the water company is dissatisfied with the certificate of the water inspector appeal may be taken within five (5) days to the Committee on Water Rates of the Board of Supervisors, which shall, within five (5) days after such appeal, hear and finally determine the matter in dispute.

The said inspector shall keep in his office a proper record or records, showing the date of each complaint made to him, the name of the consumer complaining, the location of his premises, and stating briefly the inspection made by him of the premises and the tests applied to the meter, the time or times of such inspection and tests, and the results thereof, with the reading of the

meter at each test or inspection, and all other material facts connected therewith. Such records so kept to be open for public examination in his office.

#### RATES—WHEN PAYABLE.

Section 13. All water rates, except meter rates and City and County rates, are due and payable monthly in advance.

Meter and City and County rates are due and payable at the end of each month, and upon meter rates a deposit not exceeding three-fourths ( $\frac{3}{4}$ ) of the value of the estimated quantity of water to be consumed may be required.

#### NOTICE OF DISCONTINUANCE.

Section 14. Any consumer may at any time, upon payment of accrued rates, notify the company in writing to cut off or discontinue the water supply upon his premises, after which no charge shall be made for water for said premises until the use of water is resumed.

#### MAXIMUM RATES FIXED.

Section 15. This Ordinance fixes the maximum beyond which no person, company or corporation shall be permitted to charge for water supplied.

Section 16. This Ordinance shall take effect and be in force on and from July 1, 1912 to June 30, 1913.

Finally passed—Board of Supervisors, San Francisco, June 24, 1912.

Ayes: Supervisors Bancroft, Caglieri, G. E. Gallagher, Giannini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McLeran, Murdock, Murphy, Payot, Vogelsang.

Noes: Supervisors A. J. Gallagher, Nolan.

Absent: Supervisor McCarthy.

J. S. DUNNIGAN, Clerk.

# Gas and Electricity Rates

## Light, Heat, Etc.

The Charter of the City and County of San Francisco, Article II, Chapter II, Sec. 1, Sub. 14, empowers the Board of Supervisors "to fix and determine by Ordinance, in the month of February of each year, to take effect on the 1st day of July thereafter, the rates or compensation to be collected by any person, company or corporation in the City and County, for the use of water, heat, light, power, or telephonic service, supplied to the City and County, or to the inhabitants thereof, and to prescribe the quality of the service."

In order that the Board of Supervisors might obtain information upon which to intelligently fix the rates or compensation to be collected by any person, company or corporation, for the use of gas or electric light or power supplied to the City and County, or the inhabitants thereof, for the year commencing July 1, 1912, the Board, on December 11, 1912, adopted the following Resolution "requiring persons, companies and corporations furnishing heat, light or power, to furnish information as to the revenue derived, the expenditure and the costs of the plant, etc.," viz.:

### RESOLUTION NO. 9051. (New Series.)

RESOLVED, That the San Francisco Gas and Electric Company, the Metropolitan Light and Power Company, the Metropolitan Electric Light Company, the City Electric Company, the Standard Electric Light Company, the Alaska Light Company, the Equitable Light and Power Company, the Consumers' Light and Power Company, the South Side Light and Power Company, the Mutual Electric Light Company, the Pacific Light and Power Company, the Sierra and San Francisco Power Company, the United Railroads of San Francisco, the Sutro Baths and all other persons, companies or corporations supplying heat, light or power to this City and County or to the inhabitants thereof, be and they are hereby required to furnish this Board on or before February 12, 1912, with the following information, to wit:

First—A detailed statement showing all revenue derived by such person, company or corporation supplying heat, light or power, from all sources, for the year ending December 31, 1911.

Second—An itemized statement showing all expenditures made for the manufacture and supply of heat, light or power for the year ending December 31, 1911.

Third—The original cost and the estimated present value of the plant used for the manufacture and supply of heat, light and power.

Fourth—If it be a company or corporation the amount of the capital stock of the company or corporation outstanding, the amount of the bonds of the company or corporation outstanding, and the amount of the floating debt of the company or corporation.

The above statements to be verified by the oath of the president of such company or corporation, or of such person, as the case may be.

The object of this inquiry is in order that this Board may obtain information upon which to fix and determine, in the month of February, the rates

or compensation to be collected by any person, company or corporation in this City and County for the use of heat, light or power supplied to this City and County or to the inhabitants thereof, and to prescribe the quality of the service, as provided under the provisions of the new Charter of the City and County of San Francisco, Article II, Chapter II, Section 1, Subdivision 14, under the title 'Powers of the Supervisors.'

Further Resolved, That the Clerk of this Board be and he is hereby directed to forthwith serve a certified copy of this Resolution upon the president and secretary of each company or corporation, or upon such person hereinbefore mentioned, and upon all other companies or corporations, or such persons, as the case may be, furnishing heat, light or power to this City and County or to the inhabitants thereof.

#### REPORT OF THE INVESTIGATION.

The investigation was conducted by the Committee on Lighting and Rates, and a report was filed on June 13, which report is as follows:

To the Honorable Board of Supervisors,  
of the City and County of San Francisco:

Gentlemen:—Your Committee on artificial lighting and rates, to whom was referred by the Committee of the Whole the matter of preparing a report on rates for gas, electric light and power and heat for the fiscal year 1912-1913, begs leave to report as follows:

The Committee of the Whole held ten separate hearings on the following dates:

February 14, 1912, 8 o'clock p. m.  
February 28, 1912, 8 o'clock p. m.  
March 13, 1912, 8 o'clock p. m.  
March 20, 1912, 7:30 o'clock p. m.  
March 29, 1912, 7:30 o'clock p. m.  
March 29, 1912, 7:30 o'clock p. m.  
April 12, 1912, 7:30 o'clock p. m.  
April 26, 1912, 7:30 o'clock p. m.  
May 2, 1912, 8 o'clock p. m.  
June 11, 1912, 3 o'clock p. m.  
June 13, 1912, 2:30 o'clock p. m.

It interrogated the following witnesses:

John A. Britton, Vice-President and Manager of the Pacific Gas and Electric Company, which carries on the business formerly conducted by the San Francisco Gas and Electric Company.

Mr. Frederick G. Cartright, Director Consumers Light and Power Company, and of the Southside Light and Power Company, and of the Equitable Light and Power Company.

Mr. E. C. Jones, Chief Engineer of the gas division of the Pacific Gas and Electric Company.

Mr. William R. Morgan, Superintendent of Distribution of the Pacific Gas and Electric Company.

Mr. A. F. Hockenbeamer, Treasurer Pacific Gas and Electric Company.

Mr. George C. Holberton, District Manager Pacific Gas and Electric Company.

Mr. A. W. Bullard, Vice-President of the Great Western Power Company, and the City Electric Company.

Mr. Joseph D. Butler, Auditor Pacific Gas and Electric Company.

Mr. W. D. Brown, a citizen, asking for lower rates.

Numerous statements, reports, and arguments were filed with the Committee of the Whole, are herein referred to:

Exhibit No. 1.—Showing revenue for the year 1911, and original and present cost of plant, Pacific Gas and Electric Company.

Exhibit No. 2.—Southside Light and Power Company's statement, showing gross earnings, costs of manufacture, original cost of plant, etc.

Exhibit No. 3—Equitable Light and Power Company's statement, showing gross earnings, costs of manufacture, cost of plant, etc.

Exhibit No. 4—Consumers Light and Power Company's statement, showing gross earnings, costs of manufacture, original cost of plant, etc.

Exhibit No. 5—City Electric Company's statement, showing gross earnings, costs of manufacture, original cost of plant, etc.

Exhibit No. 6—Communication from the United Railroads of San Francisco, stating that its plants are used exclusively for supplying its own system, except in very limited quantities, and of a temporary nature.

Exhibit No. 7—Statement from the Alaska Commercial Building, showing revenue derived for the year 1911, cost of manufacture, and original cost of plant.

Exhibit No. 8—Memorandum of assessment reported by the Assessor—San Francisco Gas and Electric Company, Metropolitan Light and Power Company, Mutual Electric Light Company, Southside Light and Power Company, Municipal Light and Power Company.

Exhibit No. 9—City Electric Company, additional statement of operating expenses for the year 1911.

Exhibit No. 10—Metropolitan Light and Power Company—Statement of revenues, expenditures for manufacture and cost of plant.

Exhibit No. 11—The Municipal Light and Power Company—Statement of revenues, expenditures for manufacture and cost of plant.

Exhibit No. 12—Statement of the Telephone, and Heat, and Light, and Power rates of the City of Oakland.

Exhibit No. 13—Correspondence with 21 cities with reference to light and power.

Exhibit No. 14—Pacific Gas and Electric Company—Statement of actual replacement of gas properties for year 1911; itemized statement of property values, San Francisco District; rate of wages paid and cost of labor per cubic foot of gas; statement of income; statement of expenses; cubic feet of gas made; material used; service pipes; number of consumers.

Exhibit No. 15—Sierra Light and Power Company, stating it is not in position to furnish information as to business done by said company during the year 1912.

Exhibit No. 16—Statement showing operative and non-operative values of real estate, improvements, personal property and franchises of San Francisco Gas and Electric Company; Metropolitan Light and Power Company; City Electric Company; Mutual Electric Light Company; Southside Light and Power Company; Pacific Telephone and Telegraph Company; Home Telephone Company; Spring Valley Water Company.

Exhibit No. 17—United Railroads of San Francisco—Statement of current furnished by it for the year 1911.

Exhibit No. 18—Printed pamphlet issued by the Pacific Gas and Electric Company—value of properties, detail of costs, etc.

Exhibit No. 19—Pacific Gas and Electric Company—Statement of per cent of unaccounted for gas in San Francisco for years 1876 to 1911, inclusive.

Exhibit No. 20—Pacific Gas and Electric Company—Comparison statement for the years 1910-1911 of revenue and costs.

Exhibit No. 21—Pacific Gas and Electric Company—Statement of cost of gas manufactured by the Metropolitan Light and Power Company.

Exhibit No. 22—Circular by "The Edison Illuminating Company of Boston" referring to the price of electricity in Boston, Mass.

Exhibit No. 23—Woman's Political League of California, protesting against the raising of gas and electric rates in San Francisco.

Exhibit No. 24—Communication from Pacific Gas and Electric Company, referring to contract for oil for the year 1912, and stating that the price of oil contracted for, for the year 1912, as being 68½ cents per barrel.

Exhibit No. 25—Communication from "Residents of the Mission Road," referring to charge for service pipes by the Pacific Gas and Electric Company.

The Committee will first consider in this report the rates to be charged for gas.

The only gas producing company in San Francisco at this time is the Pacific Gas and Electric Company. They absorbed during December, 1911, the properties of the Metropolitan Light and Power Company, which had theretofore been a competitor in the gas business in the City of San Francisco.

The Committee very seriously considered the method by which gas rates should be fixed. It has been stated on behalf of the company, and it has been the custom in the past, that rates should be fixed upon the consideration of the actual sum of money earned by the company, and a comparison of this sum with the amount of money invested. To a very great extent this method of fixing the rate is mere guesswork, inasmuch as that with the expert, intricate system of bookkeeping in vogue in many of the large corporations and with the frequently excessive charges upon the books of such corporations for depreciation, and the placing of such items into operating accounts, and into expenses, when they should be properly placed to Plant Investment charges, it becomes exceedingly difficult for the rate-making body to proceed upon this basis.

No mistake, however, can be made if a scientific method of preparing a rate is developed, if the basis of calculation for rate making purposes is the actual unit cost of the commodity, and all other items of cost and necessary revenue are constructed and added thereon. The Committee proceeded upon this line, and it finds that its conduct is borne out by the accepted theories of the most advanced rate makers. The important factors then to be considered in the making of a rate for artificial gas are:

1. Cost of the product to the company.
2. The value of the property actually in use, and actually needed in the carrying on of the business.
3. What rate of investment return should be allowed thereon.
4. An allowance for depreciation.

Ad. 1. In estimating the cost of one thousand cubic feet of gas as made by the Pacific Gas and Electric Company, the Committee relies mainly upon the statement, and the testimony offered by the Company. The cost of gas is made up from the following factors:

(a) Manufacture. This includes cost of oil from which the gas is made; the labor and material necessary in the manufacture of gas and repairs to generating plant.

The report for 1911 shows a production of 3,700,320,000 cubic feet. It accounts for gas sold and on hand to the amount of 3,212,257,500 cubic feet—leaving unaccounted for 488,062,500 cubic feet. This amount of gas was manufactured from 747,953.13 barrels of oil, for which the Company says it paid 83 cents per barrel. Testimony has been introduced showing that a greater production than the one thus indicated is possible, and is looked for by improved methods; and the testimony also indicates a production at different times of vastly more gas from each barrel than the average above would indicate. At the same time the company claims to be unable to account for the vast number of feet mentioned above, namely 488,062,500, and ascribes this

leakage to a disturbed condition of their distributing system. This leakage would indicate an unusual percentage when compared with the allowances for "unaccounted for gas" in other communities; for instance, the Committee understands that, in Massachusetts, and in Wisconsin, the percentage allowed is 7 per cent; that, in other States it is even smaller. It is shown by the report of the Metropolitan Light and Power Company, in the statement of their operations, up to December 11, 1911 (See Exhibit No. 21), that their leakage of unaccounted for gas in 1911 amounted to only about  $4\frac{1}{2}$  per cent, which is proven by the following figures: Amount of gas produced by that company, 456,232,000 cubic feet; amount of gas sold during the same period, 436,831,800 cubic feet. At the same time, this company reports that it paid only 52 cents per barrel for its oil, as against the 83 cents per barrel paid by the Pacific Gas and Electric Company.

In view of this the Committee is of the opinion that no more than 7 per cent should be allowed for "unaccounted for gas;" that a greater percentage would be a heavy and unreasonable burden on the consumer, and entirely unjustified by conditions; and it is hoped and desired that, if a leakage of more than 7 per cent should really occur, inasmuch as it can then be due only to negligence on the part of the company, that this allowance of a more normal percentage for leakage and unaccounted for gas, will have the tendency of making this company keep its system of distribution in the best condition possible.

The statement of the Pacific Gas and Electric Company shows the cost of gas in the holder in 1911 to have been 27,046 cents per thousand cubic feet.

(b) Distribution—This item includes labor, material and repairs involving the distributing system and amounted, according to the statement of the company, to 13,744 cents per thousand cubic feet.

The Third important factor in the cost:

(c) Administration—This includes Labor, Material, Legal Expenses, Fire Insurance, Bad Debts, Advertising, Damages to Persons, Rents, Taxes, and Interest on Floating Debt.

The Committee is not at this time eliminating any of these items, although it is no doubt a debatable point as to whether such items as "Legal Expense, Bad Debts, Advertising, Damages to Persons" are properly chargeable to the consumers of the community. If these charges were eliminated they would reduce the cost of Administration by about 1.7 cents per thousand cubic feet. While the committee will not eliminate these charges at this time, it does not wish to allow the insertion of these charges to become an established precedent by this acquiescence at this time.

The Company estimated a considerable item for Depreciation, which will be discussed later on, but its actual cost of Administration, according to the figures submitted, amounted to 12,889 cents per thousand cubic feet. So that, summed up, the total cost of gas during 1911 amounted to—

Manufacture .....	27.046	cents.
Distribution .....	13.474	"
Administration .....	12.889	"
	<hr/>	
Total .....	53.409	"

It is interesting to note that the statement of the Metropolitan Light and Power Company for 1911, in the same items, shows the cost to that Company to have been as follows:

(a) Manufacture .....	23.65	cents.
(b) Distribution .....	13.70	"
(c) Administration .....	13.93	"
	<hr/>	

Or a total of..... 51.28 "

and this in spite of the fact that the Metropolitan Company had a much smaller output, and a much smaller plant. A closer comparison shows that the expense for repairs to the distributing system of the Pacific Gas and Electric Company is proportionately more than twice that of the Metropolitan Light and Power Company. One should also think that, the cost for administration of the Company producing about eight times as much gas, would be proportionately smaller, but this does not seem to be the case.

For the year 1912, it is stated, the Company is getting its oil at 68½ cents per barrel. Taking the same number of barrels of oil as were used in 1911, namely 750,000 barrels, at 68½ cents per barrel, the cost of oil to the Company would be \$513,750.

Assuming that the Company again produced 3,700,000,000 cubic feet of gas, and that we allow them to lose by leakage or otherwise 7 per cent, which would roughly be 260,000,000 cubic feet—this should leave the Company 3,440,000,000 cubic feet—costing for oil 14.937 cents per thousand cubic feet.

Assuming that the Company spends the same sum for other items, of labor and repairs, etc. at the generating plant, namely, \$225,699.96; this would be 6.561 cents per thousand cubic feet—making the gas in the holder cost the Company 21.498 cents.

Again assuming that the same expense would be incurred in distribution—this item would cost 12.582; and on the same basis the cost of administration would be 12.036 cents per thousand cubic feet; making a total cost of transacting every phase of the business connected with the manufacture and sale of 46.116 cents per thousand cubic feet.

As above indicated, these figures include debatable items, and they do not take into consideration the fact that the business of the Company is growing. The Company admits a growth in consumption of gas of at least three per cent, and states that it has a growth of about twelve per cent in the number of its consumers.

The Committee also finds in the testimony that a considerable portion of the gas manufactured is used for cooking and fuel purposes.

It is reasonable to assume that, while the income of the Company increases by reason of the added number of consumers and the greater consumption, that proportionately the cost of distribution and of administration becomes smaller as the business grows.

It is fair, then, in view of all these factors, to say that the total cost will be no more than 45 cents per thousand cubic feet; and the Committee entertains considerable doubt as to the justification of charges named for repairs, amounting to \$190,696.01—part of which was for renewals, and as such, might properly have been charged to Capital Investment instead of to Operating Expenses.

#### Values of Properties Used in the Manufacture of Gas.

The Company's statement, and which they acknowledge to be misleading, shows a book valuation for these properties of \$16,840,606.67; and a further statement is submitted by the Company (Exhibit No. 18), containing a report from the firm of J. G. White and Company, estimating the total value of the gas division, as of December 31, 1911, which of course includes the Metropolitan Light and Power Company, of \$13,993,887.

Considerable time and attention was given to the investigation of the need of the San Francisco Gas and Electric Company to acquire at this time the properties of the Metropolitan Light and Power Company; and while the San Francisco Gas and Electric Company claims to have needed this property, sufficient testimony was adduced to show that the capacity of the works of the San Francisco Company was and is sufficiently great to be able to take care of any demand—even a most abnormal one of lengthy period—to be able to get along without the investment in so considerable a property operated by a rival concern.

The fact is deeply impressed upon this Committee, that this purchase was unnecessary and was made, rather for the purpose of buying off or removing a competitor.

It is true that the pipes and other distributing system of the Metropolitan Company are partly in use at this time, but the purchase was unnecessary as far as the public was concerned and had the former owners of the Metropolitan Company continued their ownership, that separate ownership would have proved beneficial to the community.

The fact that the purchase of the Metropolitan Company was unnecessary is proven, since the Pacific Gas and Electric Company shut down the Metropolitan works—practically immediately after purchase, and easily managed to supply all the needs of the whole community, including that which was theretofore supplied by the Metropolitan, from its own works; namely, the Pacific works, and this despite the fact that the daily production and sale of the Metropolitan amounted to about one and a half million feet—being about 12 per cent of the average daily output of the Pacific before the purchase. And the fact that the purchase of the Metropolitan on the part of the Pacific was entirely unnecessary is further proven by the statement of the representatives of the Pacific, that the growth in the gas consumption in San Francisco is only about three per cent per annum—that this was the growth in 1911, and that it is about the growth for the first quarter of 1912.

The statements made, and those submitted by the Company, and the investigation on the part of this Committee, show that the works of the Pacific Company were capable of development far above their present output; and the Committee does not hesitate to say that the Potrero works of the Pacific Gas and Electric Company could easily produce quite a number of million of feet of gas per day more than it did prior to the purchase of the Metropolitan Company; and that, furthermore, the Company possessed a property of its own right across the County line in San Mateo county, which, in case of an emergency, could have been put into use.

The Committee determined, referring to the testimony given by Engineer Jones on page 201 of the transcript—from which it is reasonable to assume that the total capacity of the Potrero plant is easily 18 to 20 million cubic feet per day, and under pressure for short periods, the generators could no doubt be made to do more. So that an enlargement of the works, or any addition to the generating capacity would have been necessary only after from 6 to 10 years according to the present rate of growth in consumption. The Company would have been fully able to take care of the added demand by constructing additional holders if its present holders were not sufficient. It is reasonable therefore to exclude from any consideration, as far as investment return is concerned, the property acquired from the Metropolitan Company; and the Committee calls this matter to the attention of future rate making committees so that the duplication of plant equipment and of distribution system may well be borne in mind in the allowance of a sufficient income on investment actually in use and needed.

This brings us to a discussion of the rate of income which should be allowed upon property necessary in the business of the Company. Arguments have been made on behalf of the Company that it has entered into an agreement with bond holders that it would earn at least one and one-half times the interest on its outstanding bonds. Inasmuch as these bonds carry 5 per cent interest, and are issued in the amount of \$10,999,000.00 outstanding on December 31, 1911, the Company need have absolutely no fear as to not earning enough from whatever rate this Committee will allow—particularly, if it is borne in mind that the bonds underlie the gas as well as the electric properties.

The amount of capital stock on December 31, 1911, was \$17,098,433.33.

The Committee finds that a proper and safe and a very liberal return would be found in the allowance of 7 per cent.

The Wisconsin State Railroad Commission deemed an allowance of 7½ per cent on a gas plant, in which was included the depreciation item, a full and fair return. So that this Committee is extremely liberal in allowing a 7 per cent return. And the New York Commission states that a return of 8 per cent, which included depreciation, would be a full and fair return on a gas property. English rate-making bodies are allowing but 5 per cent income even on the electric properties.

The Committee will allow a rate per thousand cubic feet of gas to be charged to the consumers in San Francisco, which will yield to the Company a return of 7 per cent on the value of the property actually in use and needed for the manufacture and distribution of gas to the inhabitants of San Francisco.

By reason of supplying the Metropolitan's customers from the works of the Pacific Company at this time through the distributing system in part of the Metropolitan, the annual amount of gas sold by the Metropolitan previous to their sale might be considered in comparison with the cost of distribution through the Metropolitan system.

Testimony shows that the extent of the Metropolitan system of distribution was about 51 miles of pipe; and the Committee here refers to the testimony given by Mr. Morgan, Superintendent of Distribution, as to the cost and value of pipe in the ground.

Inasmuch as the Metropolitan plant was unnecessary to be acquired by the Pacific Company, and inasmuch as independent distribution over the Metropolitan system did not cost the consumer any more than the distribution in the Pacific's system, we may completely eliminate any portion of the Metropolitan system in plant valuation.

The Committee then finds that a full and complete valuation of all the property needed and to be used by the Pacific Gas and Electric Company is \$12,000,000.00. It finds 7 per cent of this sum would amount to \$840,000.00, which, when divided by the number of feet of gas which the Pacific Company would generate upon the basis named above, would amount to 24.418 cents per thousand cubic feet.

If it should be claimed that the Pacific Company is now supplying consumers of the Metropolitan Company with gas, this would mean that they are producing approximately 500,000,000 feet per annum more than they did in 1911; and if they should claim they were justly entitled to a return upon the distributing system of the Metropolitan which they are using for supplying gas, it might be granted that there is merit in this contention. In that case we might assume the properties rightly in use amount to in value—\$13,500,000.00; but against that we would have to figure the increased number of feet distributed by the Pacific Company, and our factor would become about 3,940,000,000 cubic feet. In fact, it might well be calculated at 4,000,000,000 cubic feet, in view of the additional increase in consumption. So, that the needed return upon the investment—figuring the same at 7 per cent, would in no case exceed the item of 24.418 cents per thousand cubic feet. On the contrary, this item should probably fall below 24 cents per thousand cubic feet, and on a basis of 4,000,000,000 cubic feet would be 23½ cents. The Committee, however, will allow 24.418 cents per thousand cubic feet.

It might be claimed that the allowance of 7 per cent should be a sufficient return on the investment to enable the Company to take care of depreciation. The Committee, however, is desirous of being extremely liberal with the Company, and wishes to allow the Company a certain amount to take care of depreciation. At this point the Committee will introduce a statement showing the manner in which the Pacific Gas and Electric Company computed the item of \$689,096, which they claim to be depreciation for 1191.

## PACIFIC GAS AND ELECTRIC COMPANY, SAN FRANCISCO DISTRICT.

## DEPRECIATION OF GAS PROPERTIES, YEAR 1911.

Classes of Property.	Value		Depreciation Amount.
	12/31/10	%	
Automobiles .....	\$ 10,315.00		
Gas mains .....	4,490,695.00	2%	\$ 89,813.90
Services .....	2,471,964.00	10%	247,196.00
Meters .....	1,026,509.00	20%	205,301.80
Lamp posts .....	172,614.00	10%	17,261.00
Buildings .....	542,693.00	2%	10,853.00
Pumps .....	72,363.00	10%	7,236.00
Oil tanks .....	85,323.00	2%	1,706.00
Water tanks and connections .....	10,000.00	10%	1,000.00
Generators and connections .....	725,055.00	2%	14,501.00
Lampblack separators .....	25,714.00	20%	5,143.00
Purifiers and connections .....	237,281.00	5%	16,369.00
Scrubbers and connections .....	191,083.00	2%	3,822.00

Office equipment .....	23,818.00	5%	1,191.00
	<u>\$12,044,620.00</u>		<u>\$689,096.00</u>

This item of \$689,096.00 is plainly excessive. Testimony has been given, that the life of a gas property is taken to be 33 years. We are informed that it is estimated variously to run from 35 to 45 years. This Committee is of the opinion that depreciation should be computed by a sinking fund method, and it finds that, if we take the life of the gas property to be 35 years, and if we put the value of the properties for the purpose of a depreciation fund to be \$14,000,000.00; that a sum of \$155,008.00 at the end of each year, and compounded annually at the rate of 5 per cent would, at the end of 35 years, amount to \$14,000,000.00.

The Committee believes that a computation at 5 per cent is fair inasmuch as the testimony of the Company shows that they have always been reinvesting their depreciation funds in the properties of the Company itself; and, since the bonds of the Company bear 5 per cent interest, and income on its property is greater than that, the sinking fund for depreciation should carry also 5 per cent; and the Committee is willing to allow the sum of \$155,008 in this wise as depreciation. This sum, when divided by the divisor representing the number of cubic feet of gas, namely, 3,440,000,000, would indicate 4.506 cents per thousand cubic feet.

The Committee thus allows a full valuation of the property as it exists at this time.

It is interesting to note that, on December 31, 1911, there appeared upon the books of the Company a depreciation fund of \$3,976,574.43; while this depreciation reserve on March 31, 1912, appears upon the books of the Company as amounting to only \$839,000.

The testimony of Mr. George C. Holberton shows that this vast depreciation reserve had been accumulated inside of four years upon the properties of the Gas and Electric works, and the difference, no doubt, was transferred to other accounts—probably as Plant Investment, or as charges to Capital account; thus increasing, the book values of the properties as they may appear at subsequent hearings and in subsequent statements. This form of absorbing accumulated undivided profits seems to have been the custom among great corporations; however, it is unfair and should not be tolerated. It proves that greater sums have been calculated for depreciation than the risks of the business called for, and the surplus thus created is, at a later date, taken out of the account and used either for the payment of dividends when the fund is carried separately in the form of Plant Investment, or it takes the form of Stock Dividends when the money may have been reinvested in the Company itself, or the account may be juggled in some other manner unfair both to the gas consumers of the years when this surplus was claimed and allowed in the rate, or to the Stockholders of previous years who did not then get the full benefit of that year's gain.

Mains and pipes in use in the distribution of gas have a probable life of 100 years or more. Meters have a life of at least ten years. It will thus be seen, with a comparison of the depreciation statement showing the Company's calculation that their method of calculating depreciation is excessive on the very face of it.

Some rate making bodies, instead of creating a sinking fund for depreciation and obsolescence, or instead of allowing a separate annual sum continuously, set aside a greater percentage for a short period of years, or until this depreciation reserve fund has attained to a certain sum previously definitely ascertained. At that time the company is obliged to insure its own depreciation thereafter by using this accumulative fund as a reserve, or sinking, or investment fund, which in time will grow to the full value of the initial property. The percentage allowed, and the sum to which it is allowed to accrue by the community, are based upon the same theory as the one which this Committee follows and no doubt the life of the plant, and the accumulation of compound interest is taken into consideration. There may be one advantage to this latter method, and that is this—until the fund attains to the sum stipulated, which may be about 20 per cent of the plant value, the fund is inviolate; thereafter it may be considered sufficiently large to be allowed to be reinvested in the Company's own plant—the element of a great loss being eliminated to a considerable extent by that time.

Under the system which this Committee advocates the Company may, as it has done heretofore, invest in its own plant such sums as are properly liable for this sinking fund. The Company no doubt found this highly profitable and advantageous heretofore, and it appears likely to this Committee that the Company will find it profitable to do so in the future.

The items which thus make up the rate properly chargeable for Gas will appear as follows:

1. Cost of gas as produced, delivered and collected for per thousand cubic feet, 45 cents .....	45
2. Investment return 24.418 .....	24.418
3. For Depreciation Sinking Fund, 4.506 .....	4.506
<hr/>	
A total of 73.924 cents .....	73.924
cents per 1000 cubic feet.	

In order to provide for any further contingencies, the Committee allows an additional 1.076 cents per thousand cubic feet; thus making the maximum charge allowable in San Francisco for the fiscal year 1912-1913, 75 cents per thousand cubic feet of gas.

With reference to the quality of gas furnished, the Committee is of the opinion that a candle power of 18 minimum per cubic foot would be sufficient. The ordinance now in effect prescribes a minimum of 600 British Thermal Units and the Committee is of the opinion that this minimum should be maintained.

The Committee also recommends that the gas furnished to the people of San Francisco should contain no sulphuretted hydrogen, and that it may not contain more than 25 grains of sulphur per hundred cubic feet; nor more than five grains of ammonia per hundred cubic feet. We recommend, furthermore, that the pressure shall not be less than two inches nor more than nine inches water in height against atmospheric pressure.

This Committee has carefully considered all the arguments to put forth in behalf of the Company, as well as for the people. It desires to be eminently fair to all concerned. It takes pleasure in stating that the quality of gas served the community is of a very high grade and very satisfactory; and it believes that the departmental heads of the Company are men of very rare and exceptional technical skill and knowledge. And the Committee, furthermore, recognizes that the relations of a great public service corporation and the community are in the nature of a partnership—that one depends upon the other, and that they must mutually assist each other.

We desire, therefore, to state that we have wished to fix a true and scientific basis of calculations for rate making purposes; and that we believe that the rate so fixed yields a very liberal and fair income to the Company—securing it in the growth, and development, and the safe-guarding of its interests, and giving to the community at the same time that small benefit which the growth of the community itself and the natural advantages of the situation contribute to. The saving in the cost of gas to the community in round numbers is estimated at about \$150,000 to \$200,000.

#### ELECTRIC CURRENT.

As in the matter of gas rates, this Committee wishes to state that it considers of prime importance the actual cost of the electric energy produced. This must form the basic item of the rate to be determined; whatever is added thereto must be to give the company a safe return on its investment, and to enable it to keep its investment secure and protected in depreciation and obsolescence.

From the statements and testimony submitted, we find that there are several companies operating in the manufacture and sale of electric energy and light—some of them operating with a small capital and in a very limited territory; others, like the City Electric Company and the Pacific Gas and Electric Company, with a considerable plant investment, and over a more extended field.

With reference to the City Electric Company, their statement shows a particularly favorable condition—they produce electric energy at a cost of .550 cents per kilowatt-hour, distributing at a cost of .061 cents per kilowatt-hour, with an administration expense of .301 cents per kilowatt-hour, or a total of .912 cents per kilowatt-hour, sold; against which they have obtained a price of 1.909 cents per kilowatt-hour, sold. This company states the original cost of its plant to be approximately \$7,700,000. Inasmuch as this company has placed its business upon a very unusual and exceptionally remunerative basis, by reason of the fact that it has entered into a contract for the sale of a very considerable quantity of power to one customer, it would be unfair to take the condition of this company as the basis for fixing rates. The committee will therefore take the condition of the Pacific Gas and Electric Company as that of a representative concern.

The firm of J. G. White & Co. places a valuation, as of December 31, 1911, upon the electric properties of the Pacific Gas and Electric Company in San

Francisco at \$11,152,006. In its statement submitted to the Board of Supervisors, the Pacific Gas and Electric Company estimates the depreciation which occurred in its plant during 1911, or the amount properly chargeable therefor, as .709 cents per kilowatt-hour, or a total sum of \$543,268.16. This item the Committee will, at this time, eliminate, in order to take it up later on.

The statement then shows the following items of cost of electric energy:

Generating .....	1.060
Distribution .....	.505
Administration .....	.582
	<hr/>
A total of .....	2.147

cents per K. W. H.

The Committee wishes to allow the company a full and fair return on the property in use, and it takes the valuation placed upon it by J. G. White & Co., disregarding at this time, without prejudice, for further consideration, the possibility that the acquisition of the Mutual Electric Company plant for the sum of \$1,294,230 during the year 1911 was unnecessary, and the further possibility that these properties are not completely in use or needed for the purpose of furnishing the community with electricity.

On the basis of the number of kilowatt-hours sold during 1911, namely, approximately 68,800,000 kilowatt-hours, and allowing an income of 7 per cent upon \$11,000,000, the apportionment per kilowatt-hour would be 1.119 cents.

Depreciation.—The Committee, upon the best information which it could obtain, estimates the life of an electric plant at twenty years. It takes the ground that the public service corporation should be protected against the growth of obsolescence and necessary replacement of its properties. As it did in the gas rate it will follow the method of providing a sum for a sinking fund which, with compound interest at 5 per cent, would, at the end of twenty years produce the total value of the property as it now appears, namely, \$11,000,000. This sum is found to be \$332,673, and the Committee considers this a very full and ample figure, particularly in view of the fact that it takes a valuation of \$11,000,000, although, for rate fixing purposes, possibly a much smaller sum should suffice. This sum for a depreciation sinking fund, when apportioned over the number of kilowatts sold during 1911, would give the figure .483 cents per kilowatt-hour; and adding all these items together, the company should be entitled to a rate or rates for electric current, for lighting and power, equivalent to the sum of these items, namely:

Representing actual cost .....	2.147
Representing investment return .....	1.119
Representing depreciation sinking fund allowance.....	.483
	<hr/>
Total .....	3.749

cents per K. W. H.

The testimony of the company shows, furthermore, that its cost of generating electricity will be reduced henceforth through the lower cost of oil, and possibly through improved methods of manufacture. The company will also extend its use of hydro-electric energy, which is decidedly cheaper than steam generated electric energy; and the company will furthermore benefit very materially by the natural great growth in consumption of electric energy in this city.

It has recently entered into a contract with the municipality for furnishing a considerable quantity of electric power, and it has again obtained the contract for lighting public buildings, streets, parks, etc., both of which will mean

a substantial increase in the income of the company, this increase representing practically a clear profit to the company without large additional expense to them.

In view of all these circumstances the Committee recommends a reduction in the rates charged for electric current, for lighting and for power, from the rates now in existence.

The present rate charged for electric light current is a graduated rate with a top rate for the smallest consumption, of 9 cents per kilowatt-hour. Special attention has been given to the claim of the company, and of other experts that this rate of 9 cents for the smallest consumption is not excessive; but the Committee finds that the graduated rate scale is irregular, calling for interpretation on the part of the public, and that the present rates may, in full justice to the company, be lowered materially for the various classes of consumers, according to the quantity consumed; and it desires to establish a flat basis of rates, as follows:

\$1.00 per month minimum charge for up to 1250 W. H.

8 cents on from 1250 to 2000 W. H. per 16 C. P. incandescent lamp per month.

7 cents on from 2000 to 3000 W. H. per 16 C. P. incandescent lamp per month.

6 cents on from 3000 to 5000 W. H. per 16 C. P. incandescent lamp per month.

5 cents on from 5000 to 9000 W. H. per 16 C. P. incandescent lamp per month.

4 cents on from 9000 W. H. upwards per 16 C. P. incandescent lamp per month.

This shows the following reductions:

9c reduced to 8c.

8.55c reduced to 7c.

8.10c and 7.65c reduced to 6c.

7.20c, 6.75c, 6.30c and 5.85c reduced to 5c.

5.40c reduced to 4c.

The Committee does not desire to disturb the present minimum charge of \$1 per month for the maintenance of a meter to any consumer whose bill for current furnished during such month does not exceed \$1, inasmuch as it considers this a reasonable and legitimate charge.

The Committee recommends the following rates for arc lights:

For each arc light burning twenty-four hours, \$5 per week.

For each arc light burning from sunrise to sunset, \$3 per week.

For each arc light burning from sunset to sunrise, \$2.25 per week.

For each arc light burning from sunset to midnight, \$1.75 per week.

For each arc light burning for six nights from sunset to 9:30 p. m., \$1.40 per week.

The Committee believes that a lowering of the 9-cent rate for the smallest consumption will be conducive to an increase in the consumption of electricity, and that whatever loss in income the company might anticipate on this account it would amply be reimbursed for by the added consumption of electric current; however, until it can make further investigation it hesitates to put a radically lower rate for the minimum quantity into operation; but it is desirous, nevertheless, of securing to the smaller consumer the benefit of a lower rate, and it has therefore fixed the maximum rate at 8 cents for the consumption of from 1250 to 2000 watt-hours, which reduction secures to the consumer a lower rate than heretofore.

The argument of the Company appears to be reasonable. We realize that it must install a lighting service, and a distributing system, and current sufficient for a possible peak load—the consumer using their equipment, and their current but a very small portion of the time than which they must hold themselves in readiness for service to him, is not entitled to as low a basis of rate as the consumer who helps them to use up a greater portion of their output, and who helps them to earn an income on their investment.

#### HEAT AND POWER.

The Committee recommends the same maximum rates for electric current used for heat or power as for that used for lighting, each horsepower of motor capacity connected being considered as equivalent to 12½ sixteen candle power incandescent lamps.

The Committee believes to have found a measurably good solution of the question of rates for electric current, and presents this report in the full conviction that the rates named herein are fair to the Company and favorable to the community, inasmuch as they should effect a saving to the community of fully \$200,000 per annum on electricity. We wish to point out that the schedule of rates here proposed benefits all classes of consumers, but particularly the users of electricity in households and in domestic purposes.

#### CONCLUSION.

In summing up our work we will say that we have aimed to be liberal and fair throughout in all the calculations made. In many instances items of value have been taken into account which are at least debatable, and a return has been allowed to the Company on properties which the Committee strongly believes are not in use and unnecessary in the conduct of the business. We would refer for instance to a portion of the gas distributing system. Testimony shows that a portion of this system, consisting of old mains and pipes, is neither needed nor used for the distribution of gas. At the same time it presumably has received a valuation in the estimate made by J. G. White and Company.

We also wish to point out that in calculating depreciation of the gas properties we have allowed a valuation of \$14,000,000 as for properties necessary or in use, which is clearly a greater sum than could justly be even claimed, inasmuch as it includes real estate which should properly be excluded.

The Committee has allowed to the Company full reimbursement for all the money spent for repairs, renewals and maintenance, both in the naming of the gas rate, as well as in the naming of the rate for electricity.

It might therefore have been possible for the Committee to reduce the rates still lower, but the Committee believes that these rates will be of such great benefit to the community that the community can well afford to continue to encourage its public service corporations in the development and extension of their service, both with regard to the physical properties as well as with an eye to the efficiency thereof.

Respectfully submitted,

E. L. NOLAN, Chairman.  
HENRY PAYOT,  
ADOLF KOSHLAND.

The following are the principal exhibits filed in this matter:

## EXHIBIT NO. 1.

STATEMENT OF THE PACIFIC GAS AND ELECTRIC COMPANY  
SAN FRANCISCO DISTRICT.

To his Honor Mayor Rolph, and  
The Honorable Board of Supervisors,  
Of the City and County of San Francisco.

Gentlemen:—Pursuant to your request the PACIFIC GAS AND ELECTRIC COMPANY, SAN FRANCISCO DISTRICT, begs to submit the following statement for the year 1911.

First:

## GAS.

Revenue:		
From sales of gas .....	\$ 2,820,531.68	
COSTS: .....	2,404,724.84	
	<hr/>	
Gain for year—Sales of Gas .....		\$ 415,806.84

## ELECTRIC.

Revenue:		
From sales of current .....	2,730,247.96	
COSTS: .....	2,019,859.86	
	<hr/>	
Gain for year—Sales of Current.....		710,388.10
Total Gain for year—Gas and Electricity .....		<hr/> \$ 1,126,194.94

## Revenue from all other sources:

Gas .....	\$ 82,644.70	
Electric .....	58,794.83	
Steam .....	30,238.20	111,201.33
	<hr/>	
		\$ 1,237,396.27
Deduct Bond Interest and Sinking Fund.....		542,637.76
		<hr/>
Gain for Year .....		\$ 694,758.51

Second:

## ORIGINAL COST OF PLANT.

Gas .....	\$16,803,639.88	
Electric .....	6,535,216.85	\$23,338,856.73
	<hr/>	

## PRESENT COST OF PLANT.

Gas.....	Plant .....	\$12,311,267.30	
	Pipes .....	7,972,882.30	
	Meters .....	1,076,313.31	
	Lamps & Posts.....	186,713.00	\$21,547,175.91
		<hr/>

EXHIBIT NO. 5.

## STATEMENT OF THE CITY ELECTRIC RAILWAY.

February 9th 1912.

The Honorable Board of Supervisors,

City and County of San Francisco, California.

Gentlemen:—Pursuant to your resolution No. 9051 (New Series, we respectfully submit herewith, statement of City Electric Company, for the year ending December 31st, 1911:

First:

Gross earnings—Sales of current .....	\$ 931,800.88	
Steam service.....	480.55	\$ 932,281.43

Second:

Maintenance .....	\$ 40,293.18	
Operation .....	241,076.52	
Distribution .....	27,259.75	
General office expense .....	101,947.11	
Taxes .....	29,892.53	
Bad Debts .....	4,658.13	
Bond interest .....	85,000.00	
Depreciation .....	120,000.00	\$ 650,127.22

Third:

Original cost .....	7,707,801.91
---------------------	--------------

Fourth:

Capital stock issued .....	5,000,000.00
Bonds Issued .....	2,400,000.00
Floating debt .....	259,280.06

Respectfully submitted,

CITY ELECTRIC COMPANY,

C.E.M.—B.

By E. W. FLEISHHACKER, President.

EXHIBIT NO. 6.

## STATEMENT OF UNITED RAILROADS OF SAN FRANCISCO.

San Francisco, December 20, 1911.

Mr. W. R. Hagerty, Clerk of the Board of Supervisors,  
San Francisco, Calif.

Dear Sir:—In your communication of the 16th inst., you direct the attention of this Company to the provisions of Resolution No. 9051 (New Series) of the Board of Supervisors.

In reply I will say that this Company is not engaged in the business of nor operating its plants for the sale of electric power, heat or light to the City and County or to the inhabitants thereof. Its plants are used exclusively in supplying light, heat and power in the operation of its street railway system. It does not, nor never has furnished light, heat, or power to any of the inhabitants of this City and County, excepting on a few occasions it has furnished electric power, in very limited quantities, and as a special accommodation to a few parties who were temporarily unable to obtain same from the regular lighting and power companies.

Respectfully yours,

GEORGE B. WILLICUTT, Secretary and Controller.

EXHIBIT NO. 7.

STATEMENT OF ALASKA COMMERCIAL BUILDING.

San Francisco, Feb. 6, 1912.

W. R. Hagerty, Esq., Clerk, Board of Supervisors,  
70 Eddy St., San Francisco, California, U. S. A.

Sir:—Replying to your letter December 16, 1911, enclosing copy of Resolution No. 9051 (New Series), and in compliance we herewith give you the following figures:

First: The revenue derived by us for the year ending December 31, 1911, was:

For Steam Heat.....	\$ 3,786.00
For Power and Light .....	9,597.04
A total of .....	<u>\$13,383.04</u>

Second:

Expended for manufacture and supply, including payroll, fuel oil, maintenance, water and supplies .....	13,102.70
---	-----------

Third:

The original cost of the plant .....	61,609.18
Present value of plant .....	60,000.00

Trusting this will comply with the requirements of the Resolution, we are,

Very respectfully,

ALASKA COMMERCIAL BUILDING,

E.K.P.

LOUIS GREENBAUM, Secretary.

## STATEMENT OF METROPOLITAN LIGHT AND POWER COMPANY.

San Francisco, Cal., January 29, 1912.

To the Honorable Board of Supervisors,  
of the City and County of San Francisco,  
State of California.

Gentlemen:—Referring to your Resolution No. 9051 (New Series) adopted December 11th, 1911, the Metropolitan Light & Power Company begs to submit the following statement as required by said Resolution:

## ANSWER NO. 1.

The following is a detailed statement showing all revenue derived by such Corporation from all sources for the year ending December 31st, 1911:

Gas Revenue .....	\$ 364,092.83
Other Revenues .....	3,350.19
Excess Department Revenue .....	39,664.15
Total .....	\$ 407,107.17

## ANSWER NO 2.

The Metropolitan Light & Power Company submits an itemized statement showing all expenditures made for the manufacture and supply of Gas for the year ending December 31st, 1911:

Manufacturing Expense .....	\$ 105,552.28
Maintenance of Works .....	4,302.45
Distribution .....	31,310.12
Commercial Expense .....	21,065.17
General Expense .....	37,103.29
New Business Expense .....	11,317.85
Storeroom Expense .....	1,981.51
Total .....	\$ 212,632.67

## ANSWER NO. 3.

The Metropolitan Light & Power Company submit as the original cost and the estimated value of the Plant on December 31st, 1911, the following:

A—Original Cost of Plant.....	\$6,853,807.79
B—Estimated present value of Plant.....	6,853,807.79

## ANSWER NO. 4.

The Metropolitan Light & Power Company submits the amount of Capital Stock of the Company outstanding, the amount of Bonds of the Company outstanding, and the amount of Floating Indebtedness to be as follows:

A—Amount of Capital Stock Outstanding.....	\$5,000,000.00
B—Amount of Bonds Outstanding .....	1,625,000.00
C—Amount of Floating Indebtedness.....	21,777.80

Respectfully submitted,

METROPOLITAN LIGHT & POWER CO.

CHAS. G. LYMAN, Secretary.

CITY AND COUNTY OF SAN FRANCISCO. }  
STATE OF CALIFORNIA, } SS

CHARLES G. LYMAN being first duly sworn, deposes and says; That he is the Secretary of the Metropolitan Light & Power Company, and that the foregoing statements for the first eleven months and eleven days of the year 1911 are true and correct to the best of his knowledge and belief.

CHAS. G. LYMAN, Secretary.

Subscribed and sworn to before this 23d day of February, A. D. 1912.

R. J. CANTRELL.

Notary Public in and for the City and County  
of San Francisco, State of California.

## EXHIBIT NO. 11.

OPERATION STATEMENT OF THE MUNICIPAL LIGHT AND POWER  
COMPANY FOR THE YEAR ENDING DECEMBER 31, 1911.

## First—Revenue Derived:

Rent of Street Arc Lamps.....	\$	56.60
Sale of Current by Meter (Incandescent and Arc Lights) .....		68,385.82
Sale of Current by Meter (Motors and Mixed Service) .....		28,340.63
Elevator Service to Claus Spreckels Building and San Francisco "Call" .....		6,246.00
Sales of Water, Steam and Hot Water.....		7,309.85
		<hr/>
Total .....		\$110,338.90

Second—Expenditures Made for the Manufacture and  
Supply of Heat, Light, or Power:

## Manufacturing as per Record—

	Misc. Service	Elect. Service	
Fuel .....	\$3,840.00	\$29,874.79	
Water .....	600.00	1,187.45	
Oil and Waste.....	150.00	358.68	
Labor .....	1,134.00	12,537.89

## STATEMENT OF UNITED RAILROADS OF SAN FRANCISCO.

San Francisco, March 7th, 1912.

Mr. J. S. Dunnigan, Clerk, Board of Supervisors,  
San Francisco, Calif.

Dear Sir:—Replying to your favor of the 26th ultimo addressed to the United Railroads of San Francisco, regarding statement of electric power, would

advise that outside of railroad purposes, for the year 1911, this Company furnished current as follows:

San Francisco Gas & Electric Co., cluster of lights at 35th Ave. and Sloat Boulevard .....	\$ 50.00
Mrs. T. Nelcke, 471 K. W. H. @ .07.....	33.04
Calif. M. E. Church, Minimum charge \$1.00 per mo. ....	12.00
Calvary Church, 549 K. W. H. @ .07.....	38.46
Sutro Estate, 2178½ K. W. H. @ .07 .....	152.53
Park Commissioners, (Golden Gate Park) 2546 K. W. H. @ .07. Minimum charge of \$1.00 per 4 months .....	196.92
Western Addition M. H. Ass'n, 2903½ K. W. H. @ .07 .....	203.28
C. L. Harris (Company Depot-Land End) 2099 K. W. H. .03 less 50% .....	31.51
City Elec. Co.—for Chutes, 640 K. W. H. @ .03 .....	19.20
St. Paul's Church, Minimum charge of \$1.00 per mo. ....	5.00
Williams Bros. & Henderson, 560 K. W. H. @ .07 .....	39.20
Bluxome & Co., 395½ K. W. H. @ .07, Minimum charge of \$1.00 for 1 month .....	28.73

Respectfully yours,

UNITED RAILROADS OF SAN FRANCISCO,  
By GEO. B. WILLCUTT, Secretary.

#### EXHIBIT NO. 20.

#### COMPARATIVE STATEMENT 1910-1911.

Gas sold in 1911 .....	3,212,257,500 c. f.
Gas sold in 1910 .....	3,115,439,500 c. f.
Increase .....	96,798,000 c. f.

A gain of 3 1/10 %.

On the assumption that sales for the year 1912, will increase in the same proportion, the total sales for 1912 will therefore be 3,311,837,700 c. f.

Revenue from sales .....

\$2,820,531.68

An average rate of .....

87,805 cents

It must be borne in mind that the maximum rate for the first six months of 1911, was 92½ cents per thousand, and for the last six months, 85 cents per thousand, and that the maximum rate for 1912, will be 80 cents per thousand. The low rate given to the City, and other large consumers, will reduce this maximum to an average of at least 78.5 cents, and on this basis, and allowing for increase in sales as above, the gross revenue will be \$2,599,792.35, a decrease of \$220,739.09.

The cost of Gas in the holder in 1911 was as follows:

	Cents per M.	Totals.
Oil used .....	17,484	\$ 561,642.73
Labor .....	5.339	171,470.25
Material .....	2.535	81,440.37
Repairs to plant .....	1,688	54,229.71
Total .....	27.046	\$ 868,783.06

The cost of Gas for distribution was:

	Cents per M.	Totals.
Labor .....	6.545	\$ 211,194.35
Material .....	.962	30,913.25
Repairs .....	5.937	190,696.01
Total .....	13.474	\$ 432,803.61

The cost of Administration was:

	Cents per M.	Totals.
Labor .....	5.344	\$ 171,642.93
Material .....	1.981	53,775.30
Legal Expenses .....	0.456	14,655.31
Fire Insurance .....	0.104	3,207.47
Bad debts .....	0.747	24,000.00
Advertising .....	0.168	5,387.51
Damages to persons .....	0.063	2,031.38
Rents .....	0.104	3,351.04
Taxes .....	3.787	121,660.17
Interest on floating debt .....	0.135	4,331.06
<b>Total .....</b>	<b>12.889</b>	<b>\$4,149,042.17</b>

TOTALS.

	Cents per M.	Totals.
Manufacture .....	27.046	\$ 868,783.06
Distribution .....	13.474	432,803.61
Administration .....	12.889	414,042.17
	53.409	\$1,715,628.84

In 1912, the price of oil will be at the rate of 68.5 per barrel, and on this basis above costs will be reduced \$108,743.20, it is safe to assume that all other expenses will remain the same except taxes which will be reduced \$8,829.64, therefore result of 1912 would be:

Manufacture .....	\$ 760,039.86
Distribution .....	432,803.61
Administration .....	405,212.53
<b>Total per M .....</b>	<b>\$1,598,656.00</b>
<b>Revenue will be .....</b>	<b>2,599,792.59</b>
<b>Profit .....</b>	<b>\$1,001,636.59</b>

EXHIBIT NO. 21.

## ORDINANCES ADOPTED.

The ordinances fixing rates for gas and electricity were passed to print on June 17, finally passed on June 24, 1912, and are as follows:

**BILL NO. 2164. ORDINANCE NO. 1941, (New Series.)** Fixing the minimum standard quality and illuminating power of gas and the maximum rate and price to be charged therefor, for the year commencing July 1, 1912, and ending June 30, 1913.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The minimum standard quality and illuminating and heating power of gas to be furnished by any person, company or corporation, to be used in the City and County of San Francisco, is hereby established at nineteen (19) candles, with a minimum heat value of 600 British thermal units.

The pressure shall not be less than two (2) inches nor more than nine (9) inches of water in height against the atmospheric pressure, said candle and heating power and pressure to be determined by the Board of Public Works of the City and County of San Francisco.

Section 2. The maximum rate and price to be charged and collected therefor from consumers by any such person, company or corporation for the year commencing July 1, 1912, and ending June 30, 1913, is hereby fixed and established at Seventy-five (75) Cents per one thousand cubic feet.

Section 3. The maximum rate and price to be charged by any person, company or corporation for furnishing gas for lighting public buildings for the year commencing July 1, 1912, and ending June 30, 1913, is hereby fixed at Seventy-five (75) Cents per one thousand cubic feet.

Section 4. The maximum rate and price to be charged by any person, company or corporation for furnishing incandescent gas lamps for lighting the public streets, parks or squares for the year commencing July 1, 1912, and ending June 30, 1913, is hereby fixed at Eight (8) cents per lamp per night, including

care, lighting and extinguishing, each lamp to be kept burning from thirty (30) minutes after sunset until thirty (30) minutes before sunrise on the next day, and the number of such gas lamps may be increased or diminished by the Board of Supervisors, and subject to any moonlight schedule the Board may adopt provided that the price of incandescent gas lamps of three lights each is hereby fixed at Fifteen (15) Cents a cluster lamp per night.

Section 5. The maximum rate and price to be charged by any person, company or corporation for furnishing gas for heating purposes for the year commencing July 1, 1912, and ending June 30, 1913, is hereby fixed at Seventy-five (75) cents per one thousand cubic feet.

Section 6. All ordinances and parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

Section 7. Any person company or corporation, or any officer or agent of any person, company or corporation, violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding five hundred (\$500) dollars, or by imprisonment not exceeding six (6) months, or by both, such fine and imprisonment, and such person, company or corporation, or officer or agent of any such person, company or corporation, shall be guilty of a separate offense for every day that such violation shall continue, and shall be subject to the penalty imposed by this section for each and every separate offense.

Section 8. This ordinance shall take effect and be in force on the first day of July, 1912.

Finally Passed—Board of Supervisors, San Francisco, June 24, 1912.

Ayes: Supervisors Bancroft, Caglieri, A. J. Gallagher, G. E. Gallagher, Giannini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McLeran, Murdock, Murphy, Nolan, Payot, Vogelsang.

Absent: Supervisor McCarthy.

J. S. DUNNIGAN, Clerk.

Approved, San Francisco, June 29, 1912.

JAMES ROLPH, Mayor

**BILL NO. 2165. ORDINANCE NO. 1940. (New Series.)** Fixing the maximum rate and price to be charged for incandescent and electric lights, and for electricity for heat and power purposes for the year commencing July 1, 1912, and ending June 30, 1913.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The maximum rate and price to be charged by any person, company or corporation for furnishing incandescent electric light to the City and County of San Francisco and the inhabitants thereof for the year commencing July 1, 1912, and ending June 30, 1913, is hereby fixed per one thousand watt hours, as follows:

On a consumption per 16 candle power incandescent lamp to 2000 watt hours in one month, eight (8) cents.

On a consumption per 16 candle power incandescent lamp of 2000 to 3000 watt hours in one month, seven (7) cents.

On a consumption per 16 candle power incandescent lamp of 3000 to 5000 watt hours in one month, six (6) cents.

On a consumption per 16 candle power incandescent lamp of 5000 to 9000 watt hours in one month, five (5) cents.

On a consumption per 16 candle power incandescent lamp of 9000 or more watt hours in one month, four (4) cents.

In estimating the amount of current used, one arc lamp shall be equivalent to two sixteen incandescent lamps for each ampere of current used by said arc lamp.

Section 2. The maximum rate and price to be charged by any person, company or corporation for furnishing electricity for heat and power purposes to the City and County of San Francisco and the inhabitants thereof for the year commencing July 1, 1912, and ending June 30, 1913, is hereby fixed per one thousand watt hours, as follows:

On a consumption per 16 candle power incandescent lamp to 2000 watt hours in one month, eight (8) cents.

On a consumption per 16 candle power incandescent lamp of 2000 to 3000 watt hours in one month, seven (7) cents.

On a consumption per 16 candle power incandescent lamp of 3000 to 5000 watt hours in one month, six (6) cents.

On a consumption per 16 candle power incandescent lamp of 5000 to 9000 watt hours in one month, five (5) cents.

On a consumption per 16 candle power incandescent lamp of 9000 or more watt hours in one month, four (4) cents.

In estimating the amount of current used each horse-power of motor capacity connected, being considered as equivalent to twelve and one-half sixteen candle power incandescent lamps.

Section 3. The maximum rate and price to be charged by any person, company or corporation for furnishing arc lights of 7 amperes and pressure at each lamp of not less than 70 volts, or lamps of equal wattage, to the City and County of San Francisco and the inhabitants thereof for the year commencing July 1, 1912, and ending June 30, 1913, is hereby fixed as follows:

For each arc light burning twenty-four hours, \$5.00 per week.

For each arc light burning from sunrise to sunset, \$3.00 per week.

For each arc light burning from sunset to sunrise, \$2.25 per week.

For each arc light burning from sunset to midnight, \$1.75 per week.

For each arc light burning for six nights from sunset to 9:30 p. m., \$1.40 per week.

Section 4. A charge of \$1.00 for the maintenance of a meter during any month may be made to any consumer whose bill for current furnished during such month does not exceed \$1.00, but in the event of such charge being made, no further charge shall be made for current furnished during said month to said consumer.

Section 5. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

Section 6. Any person, company or corporation, or any officer or agent of any person, company or corporation, violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding five hundred (\$500) dollars, or by imprisonment not exceeding six (6) months, or by both such fine and imprisonment, and such person, company or corporation shall be guilty of a separate offense for every day that such violation shall continue, and shall be subject to the penalty imposed by this section for each and every separate offense.

Section 7. This ordinance shall take effect and be in force on the first day of July, 1912.

Finally Passed—Board of Supervisors, San Francisco, June 24, 1912.

Ayes: Supervisors Bancroft, Caglieri, A. J. Gallagher, G. E. Gallagher, Gianini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McLeran, Murdock, Murphy, Nolan, Payot, Vogelsang.

Absent: Supervisor McCarthy.

J. S. DUNNIGAN, Clerk.

Approved, San Francisco, June 29, 1912.

JAMES ROLPH, JR., Mayor.

# Telephone Rates

## TELEPHONE RATES FOR 1912-13.

The Charter of the City and County of San Francisco was amended in 1907 so as to permit the Board of Supervisors to fix the rates to be charged and collected for telephonic service.

Subdivision 14 of Chapter II of Article II of The Charter is as follows:

14. To fix and determine by ordinance in the month of February of each year, to take effect on the first day of July thereafter, the rate or compensation to be collected by any person, company or corporation in the City and County, for the use of water, heat, light, power or telephonic service, supplied to the City and County, or to the inhabitants thereof, and to prescribe the quality of the service.

Under the authority of the above provision the Board of Supervisors in February commenced an investigation preliminary to the fixing of rates for telephonic service for the year commencing July 1, 1912, and ending June 30, 1913.

By the provisions of Ordinance 342 (New Series) all persons and corporations engaged in the business of furnishing telephonic communication are required to file statements during the month of January in each year showing in detail the receipts and expenditures for the previous year; also an itemized inventory of all property used in such business. In compliance with the requirements of this ordinance communications were received from the companies engaged in the telephone business.

### INVESTIGATIONS BY SUPERVISORS.

Meetings of the Board of Supervisors were held on February 7, 1912, and at several dates thereafter for the purpose of considering the matter of fixing telephone rates and the committee on Telephones and Telephone Rates was charged with the duty of conducting a further investigation and to report the necessary ordinance. During the hearings the following exhibits were filed:

#### EXHIBIT A.

## COMMITTEE REPORT.

On June 17, 1912, the Committee submitted the following report:

San Francisco, June 10, 1912.

To the Honorable Board of Supervisors,  
City and County of San Francisco.

Gentlemen:—Your Committee on Telephone and Rates to whom was entrusted the duty of preparing a bill fixing and determining the maximum rates or compensation to be charged for telephonic service during the coming fiscal year, respectfully, reports, that after careful consideration of the testimony given and the exhibits filed during the telephone rates hearings, it recommends for passage the bill herewith submitted fixing and determining the maximum rates to be collected and the quality of the telephone service to be furnished during the fiscal year beginning July 1, 1912, and ending June 30, 1913.

The changes made by the Bill presented from the rates at present in operation are as follows:

## BUSINESS MEASURED SERVICE.

The complement of exchange switches included with the \$5.00 per month rate is increased from 75 to 80 switches.

The complement of exchange switches included with the \$7.50 per month rate is increased from 175 to 185 switches.

The complement of exchange switches included with the \$9.15 per month rate is increased from 240 to 250 switches.

The complement of exchange switches included with the \$12.47 rate per month is increased from 380 to 390 switches.

The complement of exchange switches included with the \$15.00 per month rate is increased from 530 to 540 switches.

The complement of exchange switches included with the \$17.48 per month rate is increased from 750 to 780 switches.

The complement of exchange switches included with the \$19.57 per month rate is increased from 1080 to 1100 switches.

Your Committee also decided that the following paragraph in Section 2 of the Ordinance now in effect should be eliminated:

“It shall be the duty of the telephone company to advise their subscribers by written notice if it is found that for three consecutive months the schedule charged is higher than the number of contract switches shown. Said notice to state:

- “1. The rate charged.
- “2. The number of contract switches.
- “3. The number of excess switches.
- “4. Advice as to average number monthly switches.
- “5. Advice as to what proper schedule subscriber should be under.”

Before arriving at this decision, your Committee became satisfied that the above duty imposed on the company furnishing telephonic service does not result in material benefit to the subscriber. The subscriber each month receives a bill showing the number of switches used in excess of the complement allowed under the rate paid for thus has all needed information as to the proper schedule he should be under.

The testimony of telephone officials was that from 5000 to 5500 of these notices have been sent out each quarter, with practically little result, as the reply notices received making change in the rate taken do not average more than 100 each month. Under this condition your Committee felt that the company could be relieved of the duty imposed without working any injury to the subscriber.

While your Committee has been unable to determine what effect the increases allowed in the complement of switches will have on the revenue of company, it has been informed and believes that a saving of between \$30,000 and \$35,000 to telephone subscribers will be made during the coming year.

Your Committee was anxious to bring about a reduction in the rates collected for residence telephones, but found, owing to limited time, that it was unable to secure the necessary data upon which to base an intelligent reduction. It was stated by the telephone company officials that a reduction in residence telephone rates would result in a loss to the company, the amount of which could not be foretold. Your Committee is of the opinion that the rates for residence telephones should be revised, but this revision cannot be intelligently made until after the books and physical properties of the company have been examined by an expert. To make this examination would require weeks of close and careful study and your Committee recommends that before the next annual rate fixing investigation your Honorable Body authorize the employment of an expert to conduct such an investigation.

In the matter of the increase in the complement of switches allowed with each rate of business measured service, your Committee became satisfied from the statements of the company that subscribers are using more than the complement of switches allowed them under the present ordinance and that the number could be increased with advantage to the patrons and without serious loss to the corporation.

Your Committee is of the opinion that a flat rate with unlimited switching would prove of great advantage to all classes of subscribers, but is not in possession of the data required to determine what rate would be equitable and fair to both the patron and the company. Now that the public service corporations are required to make statements to the State Railroad Commission, your Committee believes that much valuable data relating to the telephone service will be available for use by your Honorable Board when the next rates investigation is commenced.

The Pacific Telephone and Telegraph Company some years ago entered into an agreement by the terms of which the city was to be allowed 600 free telephones for use of the various municipal officers, departments and bureaus. This complement of telephones has proved insufficient, owing to the growth of the city's business and at the present time the municipality is using approximately 230 more telephones than are called for in the agreement. While the company has never raised objection to this excess, your Committee deemed it advisable to take up the matter with the company officials, to the end that a new agreement be reached. The officials of the company have agreed with your Committee that they will continue this service and allow any additional telephones that may be required by the city. The company is planning to erect a station for the use of the municipality in the Civic Center area, or immediately adjacent thereto, and expects to have it in operation when the new City Hall is occupied. With the operation of this station the company expects to reduce the number of phones required by the city and at the same time give an improved service. Until this time the new agreement for city telephones will remain in operation.

Respectfully submitted,

FRED L. HILMER, Chairman.

J. EMMET HAYDEN,

OSCAR HOCKS,

Telephone and Rates Committee.

Thereupon, Supervisor Hilmer presented:

Bill No. 2161, Ordinance No. — (New Series), entitled, "Fixing and determining the maximum rates or compensation to be collected for telephonic service in the City and County of San Francisco for the year commencing July 1, 1912, and ending June 30, 1913, and prescribing the quality of said telephonic service during said year."

#### Motion.

Supervisor Giannini moved to amend as follows:

#### Business Rates.

Reduce \$5.00 rate to \$4.00, increase switches from 75 to 100.  
 Reduce \$7.50 rate to \$6.00, increase switches from 175 to 200.  
 Reduce \$9.15 rate to \$7.50, increase switches from 240 to 275.  
 Reduce \$12.47 rate to \$10.00, increase switches from 380 to 425.  
 Reduce \$15.00 rate to \$12.50, increase switches from 530 to 650.  
 Reduce \$17.48 rate to \$15.00, increase switches from 750 to 1000.  
 Reduce \$19.57 rate to \$17.50, increase switches from 1080 to 1350.

**Amendment Lost.**

Whereupon, the question being taken on Supervisor Giannini's amendment, same was lost by the following vote:

Ayes—Supervisors Bancroft, Caglieri, George E. Gallagher, Giannini, Jennings, Koshland, McCarthy, Murphy, Payot—9.

Noes—Supervisors Andrew J. Gallagher, Hayden, Hilmer, Hocks, Mauzy, McLeran, Murdock, Nolan, Vogelsang—9.

**Passed for Printing.**

Whereupon, the above entitled bill was passed for printing by the following vote:

Ayes—Supervisors Caglieri, Andrew J. Gallagher, Hayden, Hilmer, Hocks, Mauzy, McLeran, Murdock, Murphy, Nolan, Payot, Vogelsang—12.

Noes—Supervisors Bancroft, George E. Gallagher, Giannini, Jennings, Koshland, McCarthy—6.

**ORDINANCE FINALLY PASSED.**

The ordinance was finally passed on June 24, and is as follows:

BILL NO. 2161. ORDINANCE NO. 1942. (New Series.)

Fixing and determining the maximum rates or compensation to be collected for telephonic service in the City and County of San Francisco for the year commencing July 1, 1912, and ending June 30, 1913, and prescribing the quality of said telephonic service during said year.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The maximum rates or compensation to be collected by any person, company or corporation for telephonic service supplied to the City and County of San Francisco, or to the inhabitants thereof, for the year commencing July 1, 1912, and ending June 30, 1913, shall be as follows:

**Business and Professional Rates.**

The following maximum charges shall be made for business or professional measured service:

For a single party line telephone, business or professional, including 80 exchange switches, \$5.00 per month, and for all exchange switches in excess of the number included in this rate a sum not to exceed 5 cents each.

For a single party line telephone, business or professional, including 185 exchange switches, \$7.50 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 4 cents each.

For a single party line telephone, business or professional, including 250 exchange switches, \$9.15 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 3½ cents each.

For a single party line telephone, business or professional, including 390 exchange switches, \$12.47 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 3 cents each.

For a single party line telephone, business or professional, including 540 exchange switches, \$15.00 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 2½ cents each.

For a single party line telephone, business or professional, including 780 exchange switches, \$17.48 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 2 cents each.

For a single party line telephone, business or professional, including 1100 exchange switches, \$19.57 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 1½ cents each.

**Business or Professional Service, With Coin-Collecting Attachment.**

The following maximum charges shall be made for business or professional measured service with coin or token-collecting attachment:

For a single party line telephone, business or professional, including 60 exchange switches, \$5.50 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 5 cents each.

For a two-party line telephone, business or professional, including 60 exchange switches, \$4.50 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 5 cents each.

For a single party line telephone, business or professional, including five exchange switches per day, 25 cents per day, and for each exchange switch in excess of the number included in this rate, a sum not to exceed 4 cents each.

For a two-party line telephone, business or professional, including four exchange switches per day, 20 cents per day, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 5 cents each.

For a four-party line telephone, business or professional, including two exchange switches per day, 10 cents per day, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 5 cents each.

For a four-party line telephone, business or professional, \$1.00 per month, and for each exchange switch a sum not to exceed 5 cents.

**Extension Telephones.**

For each extension telephone on a business or professional line the maximum charge shall be a sum not to exceed 50 cents per month.

**Private Branch Exchange and Extension Service.**

The following charges shall be made for private branch exchanges and for extension telephones connected with said exchanges and equipped and installed: **MONTHLY RENTAL RATES**—For each switchboard and operator telephone, a sum not to exceed \$5.00 per month.

For each trunk line connecting a private exchange with the telephone company exchange, a sum not to exceed \$2.50 per month.

For each additional telephone connected with a private exchange and installed in the same premises (except in hotels), a sum not to exceed 50 cents per month.

For each additional telephone installed in hotels and connected with the private exchange therein:

50 cents per month each for the first fifty telephones or less.

25 cents per month each for telephones over fifty.

For each desk set in place of wall set, 10 cents per month in addition to the above rates.

**MONTHLY SWITCHING RATES**—For exchange switching over trunk lines of private branch exchanges, a sum not to exceed 2½ cents per month for the first 1,000 exchange switches, or less, made in any one month; for the second and third thousand exchange switches, or less, made in any one month, a sum not to exceed 2 cents per switch; and for all exchange switches in excess of 3,000 made in any one month, a sum not to exceed 1½ cents per switch, except that in the case of hotels the charge shall not exceed 2½ cents for each and every exchange switch.

**Public Telephone Service.**

The charge for a single exchange switch from any telephone located in the City and County shall not exceed 5 cents, and all persons, companies or corporations engaged in the business of supplying telephonic service in the City and County are hereby expressly forbidden to authorize or permit any of their

lessees, subscribers or patrons to charge any person more than the rate above described; provided, however, that from any telephone in a hotel room connected with a hotel private branch exchange the charge for a single exchange switch shall not exceed 10 cents.

#### **Residence Rates—Unlimited Exchange Switching.**

The following maximum charges shall be made for residence flat rate service:

For a single-party line residence telephone, including unlimited exchange switching, \$3.50 per month.

For a two-party line residence telephone, including unlimited exchange switching \$3.00 per month.

For a four-party line residence, telephone, including unlimited exchange switching \$2.50 per month.

#### **Residence Measured Service.**

For a single-party line residence telephone, including 125 exchange switches, \$3.00 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 3 cents each.

#### **Residence Service With Coin-Collecting Attachment.**

The following maximum charges shall be made for residence measured service with coin or token-collecting attachment:

For a two-party line residence telephone, including two exchange switches per day, 7½ cents per day, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 5 cents each.

For a four-party line residence telephone, including one exchange switch per day, 5 cents per day, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 5 cents each.

#### **Extension Telephones.**

For each extension telephone on a residence telephone line the maximum charge shall be a sum not to exceed 50 cents per month.

#### **Names in Telephone Directory.**

Any person, company or corporation supplying telephonic service in this City or County shall at least three times a year furnish free of charge to each subscriber a complete directory of all subscribers in San Francisco, and an additional copy of said directory for each extension telephone; provided, however, that for every name listed in said directory under the telephone number of a subscriber in excess of the number of main and extension telephones installed on the premises of the subscriber, a sum not to exceed 25 cents per month for each such name shall be charged.

#### **Private Lines.**

The following maximum charges shall be made for private telephones and lines not connected with a telephone exchange:

For private-line telephones, a sum not to exceed 50 cents per month each.

For private lines, a sum not to exceed \$2.50 per mile per month.

#### **Quality of Service.**

Section 2. The term "Telephone" as used in this Ordinance is hereby declined to mean both a transmitter and a receiver. It shall be optional with the person demanding telephonic service to elect to take or use either portable or stationary telephonic apparatus and it shall be the duty of the person, company or corporation supplying telephonic service in the City and County to furnish such apparatus without additional cost, except as in this Ordinance provided.

The term "Exchange Switch," as used in this Ordinance, is hereby defined to mean an availing call, that is to say, a call whereby an outgoing conversation

or message is transmitted from one telephone station within the City and County and received at another telephone station within the City and County.

No switching charge shall be made for an unavailing call, and when a nickel or token is deposited in the coin-collecting attachment for an unavailing call the same shall be returned to the person by whom it was deposited. Single conversations on party lines shall not exceed five minutes.

Upon application in writing of the owner or occupant of any building or premises distant not more than 300 feet from any underground conduit or pole line of the person, company or corporation furnishing telephonic service, and payment by the applicant of all money due from him, the person, company or corporation must within thirty days supply telephonic service as required for such building or premises, and cannot refuse on the ground of any indebtedness of any former owner or occupant thereof, unless the applicant has undertaken to pay the same.

No restriction shall be placed by any company, person or corporation supplying telephonic service upon the right of subscribers to employ operators, provided that any operator or substitute operator be employed and paid by the subscriber shall conform to the reasonable rules and regulations pertaining to the service of such person, company or corporation.

No contract shall be exacted, made or enforced that will exclude or in any manner prohibit or restrict any patron or subscriber from receiving telephonic service from any other person or corporation engaged in such business, or from installing and using in any manner that may be desired the telephones or instruments of two or more different telephone systems; nor shall telephonic service be refused for the reason that the person requesting same is a patron of another person or corporation, or using another or different telephone system.

The telephone company shall print on the reverse side of their billheads their schedules, showing the various grades of monthly rental, contract switching and excess switching, so the same can easily be understood by their subscribers, and on the front of such billheads shall appear in large type the words, "See Schedule of Rates on Other Side."

Upon demand of any person, company or corporation using business or professional measured telephonic service (excepting prepayment service) every person, company or corporation supplying telephonic service within the City and County shall install and maintain in connection with each such measured service line, a meter which shall prove effective in actual use for accurately and correctly recording the number of outgoing messages and conversations over said line, and said meter shall be subject to inspection at all reasonable times by the subscriber upon whose line the same is installed.

Section 3. Any person, company or corporation, or any officer or agent of any person, company or corporation, violating any of the provisions of this Ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding five hundred (\$500) dollars, or by imprisonment not exceeding six (6) months, or by both such fine and imprisonment, and such person, company or corporation, or officer or agent of any such person, company or corporation, shall be guilty of a separate offense for every day that such violation shall continue, and shall be subject to the penalty imposed by this section for each and every separate offense.

Section 4. This Ordinance shall take effect and be in force from and after July 1, 1912.

Finally Passed—Board of Supervisors, San Francisco, June 24, 1912.

Ayes—Supervisors Caglieri, A. J. Gallagher, Hayden, Hilmer, Hocks, Mauzy, McLeran, Murdock, Murphy, Nolan, Payot, Vogelsang.

Noes—Supervisors Baneroff, G. E. Gallagher, Giannini, Jennings, Koshland.

J. S. DUNNIGAN, Clerk.

Approved, San Francisco, June 29, 1912.

JAMES ROLPH, JR., Mayor.

# Acquisition of Water Supply

## REFERENCES TO FORMER REPORTS.

The efforts of San Francisco to acquire a municipal water supply have been detailed from time to time in the Municipal Reports. In the Reports of 1909-10 the progress is detailed to July 1, 1910 (pages 1228 to 1275).

The report of the City Engineer for the year 1910-11 details the progress on the Hetch Hetchy system (pages 893-895), investigations of other sources of water supply (895-897), Report suggesting value of property of Spring Valley Water Co. (pages 898-902); Report on the proposition of Sierra Blue Lakes Water and Power Company (pages 903-918).

The report of the City Attorney for 1910-11, page 1205, contains a reference to litigation connected with the acquisition of a water supply.

## PROGRESS DURING 1911-12.

The work done in the matter of securing a municipal water supply during the fiscal year 1911-12 included the sale of a portion of the bonds authorized at the election held January 14, 1910, the purchase of Cherry Creek lands from the Tuolumne Water Supply Company and the preparation of the data required by the order of the Secretary of the Interior, made May 27, 1910 (Municipal Reports 1909-10 page 1266).

## SALE OF WATER BONDS.

A sale of Water Bonds (sometimes referred to as Hetch Hetchy Bonds) to the amount of \$1,125,000, was advertised to take place on April 24, 1912. Only one bid was received and that for \$15,000 of bonds, which bid was accepted by resolution No. 7707 (New Series). The remaining portion of the bonds was ordered placed on sale at the Treasurer's office, to be disposed of at private sale at par. Small sales were made from time to time and sufficient funds were realized to meet necessary expenses. The purchase of lands and water rights on Cherry Creek was consummated by the sellers of the property taking up bonds equal to the purchase price. During December, 1911, and January, 1912, all of the remaining bonds authorized to be sold were finally disposed of.

## PURCHASE OF LANDS AND WATER RIGHTS ON CHERRY CREEK.

Under the terms of an agreement with the Tuolumne Water Supply Company, set forth in full in Ordinance No. 1125 (New Series), (Municipal Reports 1909-10 page 1268) the City and County of San Francisco secured an option on the purchase of lands and water rights described in said agreement as being located in Cherry Creek Valley, Tuolumne County.

On March 20, 1911, the Supervisors adopted a resolution in favor of taking up the option referred and directing the Public Utilities Committee of the Board to submit a contract for the sale to the City of the property described. It was found that it would be unnecessary to execute a contract of sale, and that a deed of the property would be the proper step to be taken, and therefore resolutions were adopted authorizing the Mayor to accept a deed to the property. The resolution on this subject was adopted July 10, 1911, and is as follows:

ACQUISITION OF WATER SUPPLY

RESOLUTION NO. 8109. (NEW SERIES).

Whereas, Under Resolution No. 7528 (New Series), the Public Utilities Committee of this Board was authorized and directed to take up the option now held by the City on the Cherry Creek lands and rights and to have prepared and submit to this Board a contract of sale of said properties by the Tuolumne Water Supply Company to the City and County of San Francisco, and

Whereas, The said Public Utilities Committee has arranged with said Tuolumne Water Supply Company for the purchase and sale of said properties by the purchase on behalf of the said Tuolumne Water Supply Company of a sufficient number of the Water Bonds now offered for sale by the Treasurer of this City and County, and

Whereas, It is impossible, under the terms of the Charter, for the said Public Utilities Committee to enter into a valid contract, as contemplated by said Resolution, until sufficient moneys to carry out the terms of said contract are in the Treasury and in a condition to be devoted to such purposes, and that by reason thereof it is greatly to the interest of the City and County of San Francisco that such a contract be not entered into, but that in lieu thereof a deed conveying all of said properties and rights to the City and County be accepted by the City and County upon the payment of the full purchase price therefor.

Now, Therefore, be it Resolved, That said Resolution No. 7528 (New Series), be and the same is hereby rescinded, and

Be it further Resolved, That the Mayor of this City and County be and he hereby is authorized to accept a deed from the said Tuolumne Water Supply Company conveying to the City and County of San Francisco all of the said lands, properties and rights for the full purchase price of six hundred and fifty-two thousand (\$652,000) dollars, as follows:

For the lands, properties and rights .....	\$600,000.00
Interest upon \$600,000.00 from date of option as provided for in said option .....	36,000.00
Moneys expended by the Tuolumne Water Supply Company in pro- tection and development of its lands, properties and rights.....	16,000.00
<hr/>	
Total .....	\$652,000.00

Further Resolved, That Resolution No. 8099 (New Series) be and the same is hereby rescinded.

This Resolution was followed by another adopted October 2, 1912, as follows:

RESOLUTION NO. 8579 (NEW SERIES).

Resolved, That an expenditure of \$652,000.00 be and the same is hereby authorized to be made out of the "Water Construction Fund," bond issue of July 1, 1910, in payment to the Tuolumne Water Supply Company as purchase price of lands and rights on Cherry Creek as follows, to-wit:

For the lands, properties and rights .....	\$600,000.00
Interest upon \$600,000.00 from date of option, as provided for in said option .....	36,000.00
Moneys expended in protection and development of said lands, prop- erties and rights .....	16,000.00
<hr/>	
Total .....	\$652,000.00

A delay occurred in the proceedings at this point, the claim having been made that the property to be transferred was incumbered by adverse water appropriations, which the Auditor required should be investigated and the legality of the transaction established to his satisfaction. This was done and in December, 1912, the transaction was consummated by the purchase of Water Bonds to the amount of \$652,000 by the Tuolumne Water Supply Company and the payment of that sum for the properties and the conveyance of the same to the City and County.

## PREPARATION OF DATA FOR BOARD OF ARMY ENGINEERS.

As recited in previous reports, an order was made by R. A. Ballinger, Secretary of the Interior, in January, 1909, for the City to show cause why the Hetch Hetchy Valley Reservoir site should not be eliminated from the so-called "Garfield Permit," and by a subsequent order the matter was referred to an Advisory Board of Army Engineers to investigate the subject matter and make its findings and recommendations thereon to the Secretary of the Interior. By a subsequent order made on May 23, 1912, the Secretary specified an order of presentation of the City's case, by which order July 15th was fixed as the date when the City should file its comprehensive plans and explanations as to the proposed use and development of the Hetch Hetchy and Lake Eleanor valleys and watersheds, all in sufficient detail to present clearly what the City proposed to do.

For the purpose of preparing the statement required by the order above stated, John R. Freeman, a distinguished engineer with an international reputation, was employed to make the necessary studies and present to the engineering board a complete report covering the entire subject, to include detailed plans showing the City's intentions as to the manner of utilizing the water resources of the region.

During the past two years Mr. Freeman has devoted a great deal of time in making the necessary detailed studies of the matter and has brought to bear a wide experience gained as consulting engineer on similar large projects at Los Angeles, Boston, New York and other cities.

His report was filed with the Board of Army Engineers July 15, and comprises a volume of 400 printed pages. Owing to its length and mass of details it is impossible to present more than a summary of Mr. Freeman's report.

#### The Broad Viewpoint.

The subject is treated from the viewpoint, not alone of San Francisco, but of all the bay region, including the cities of Richmond, Berkeley, Oakland, Alameda, San Jose, Palo Alto, Redwood, San Mateo, and the numerous smaller communities intervening. Also taken into account is the need of water for agricultural purposes, particularly for such forms of intensive farming as will be productive of those products required for immediate consumption by a metropolitan community with a view thereby to minimize the cost of living.

The ultimate requirement for water is figured to the end of the century. At that time it is estimated that the population will be 3,362,000, which will require a daily water supply of 441 million gallons. The ultimate area of irrigated land will be 95,000 acres, requiring an additional supply of about 100 million gallons a day. All sources of local supply will have been exhausted long before this time is reached, making recourse to a Sierra supply imperative. Wisdom dictates that a supply for all future needs should be secured at an early date.

#### The Plan of Development.

1. A dam 300 feet high at the dam site at Hetch Hetchy by which the floor of the valley will be flooded to a depth of 270 feet.
2. A wagon road to Hetch Hetchy Valley equal in point of construction to the state highways and no grade to exceed eight per cent.
3. Scenic road in Hetch Hetchy Valley on both sides of the lake. This will make available the wonderful attractions of a region now inaccessible and in doing this work the city would be following lines of activity engaged in by other large cities of the world.
4. The Hetch Hetchy aqueduct from the valley to San Francisco. This would be largely in the form of a tunnel about ten feet in finished diameter mostly deeply below the surface of the ground along the approximate route, extending down stream from the proposed reservoir to the easterly edge of the San Joaquin Valley. Thence continuing westward across the valley the projected aqueduct will be composed first of one steel pipe 7 feet 6 inches in

diameter, and ultimately of two steel pipes side by side about 45 miles in length. At the westerly side of the San Joaquin Valley the steel portion is to end about eight miles westerly from the San Joaquin River. From this point the aqueduct proceeds westerly, mostly in the form of tunnels about 12 or 13 feet in diameter, to a point near the village of Irvington, at which point a terminal chamber and gate house will be built and branch aqueducts lead off as desired to Oakland, San Jose, San Francisco and other communities. From this point the aqueduct would proceed in the form of a steel pipe, submerged in the portion across the Dumbarton narrows near the head of the bay (or it could be carried on dry ground around the head of the bay) to a suitable point in San Mateo county, where it could discharge by gravity flow at a considerable elevation through a new tunnel into Crystal Springs reservoir, with branch lines leading to neighboring communities and with the main aqueduct line leading directly to San Francisco.

5. The proposed aqueduct between Hetch Hetchy and the Irvington gate house would be designed to deliver by force of gravity without pumping a quantity somewhat in excess of 400 million gallons daily (equivalent to 620 cubic feet per second). All the tunnels will from the first be built to their full size and smoothly lined with concrete. (The advantage of making the tunnels full size is clearly set forth in the report.) During the early years with only a single pipe line across the San Joaquin Valley, the delivery of the aqueduct would be in excess of 200 million gallons daily—possibly 240 millions. The branch line to supply the San Francisco peninsula will have a capacity of about 100 millions.

The communities to be immediately supplied require for domestic and municipal purposes less than one-half of what a single pipe line will bring, but since the surplus will flow without the cost of pumping, it is proposed to bring all the water the pipe line will carry and make the surplus available for irrigation, principally for intensive farming and truck gardens very much as it is proposed to use the surplus capacity of the Los Angeles aqueduct; all of this use tending to the prosperity of those districts and tending to a cheapening of the food supply.

6. The portion of the tunnel about twelve miles in length next downstream from Hetch Hetchy dam would be delayed in construction for some years and meanwhile the City proposes to divert the water from the main Tuolumne River by a temporary dam at a point about one and one-half miles above Cherry Creek. This point will be called the "Early Intake." Close to this at some future time the City will build Power House No. 2.

7. The City desires to acquire rights of way for the aqueduct, etc.

8. The City proposes to construct a tunnel eight feet in diameter from Hetch Hetchy reservoir to the reservoir site in Cherry Valley, passing beneath the Lake Eleanor reservoir site with intake shafts at Cherry Creek and Lake Eleanor for the purpose of diverting their waters into the Hetch Hetchy reservoir.

9. Small and inexpensive dams will be constructed at Cherry Creek and Lake Eleanor.

10. Perhaps fifty years hence the City will replace these dams with high masonry dams for additional storage purposes.

11. In the distant future other dams in other localities may be desirable.

12. Wagon roads will be constructed to Lake Eleanor and Cherry Valley.

13. The City does not contemplate immediate development of hydroelectric power.

14. There is only one power-drop in the aqueduct line first to be constructed. The site for this is at Moccasin Creek, 141 miles from San Francisco along the aqueduct line. The capacity of the line at this point is 620 cubic feet per second. The elevation of the tail water at this place will be 890 feet. The water level at the intake will be 2,315 feet and the gross fall is 1,425 feet. This should produce 70,500 horsepower.

15. When the upstream aqueduct is completed another power drop will become available and 75,000 horsepower can be developed.

16. From the Cherry-Eleanor conduit another power development can be had, which though small might be worth saving. It would approximate 12,500 horsepower.

17. The total possible power development would be 157,500 horsepower.

#### Sanitary Control.

The report deals minutely with the matter of sanitary control of the water sheds, with a conclusion that few additional restrictions to those now in force in the Yosemite Park will be found to be necessary. In fact the region can be used as a pleasure ground and will be made available by means of the City's roads and trails.

#### Irrigation Use.

The rights of the Modesto and Turlock irrigation districts will be fully observed, and there will always be an abundance of water for irrigation use. In seasons of extreme drought it may be possible for the City to relieve the necessities of the districts by liberating a portion of the stored waters.

#### Quality of Water.

A report of Allen Hazen furnishes the information as to the quality of the water of the Tuolumne, the measures to be taken to preserve its purity. It is exceptionally pure and much more desirable than that at present supplied or that could be obtained by the filtration of river water.

#### Objections of Nature Lovers.

The ostensible objectors to the use by the City of the Hetch Hetchy Valley as a water storage reservoir have been the so-called nature lovers. A large portion of Mr. Freeman's report is devoted to answering their objections. He cites numerous examples in this country and in Europe where the conversion of valleys into lakes has wonderfully added to scenic effects and afforded additional opportunities for pleasure and sightseeing. This would be the case in the region of the Hetch Hetchy should the City be accorded the opportunity for its development.

#### Local and Other Sources.

The report gives the results of an exhaustive examination into the local sources of water supply and other sources that might be used in lieu of the Tuolumne River.

In regard to local sources it says: "It appears certain that the future supply which must be brought into this district from a distance should be fully 400 million gallons daily, and if 500 million gallons daily is available in the Upper Tuolumne River the City should make certain of securing this quantity against future needs. Fortunately we find proof that this requirement can be met throughout the driest years from the surplus run off of Hetch Hetchy, Eleanor and Cherry."

As to available sources other than the Tuolumne, the conclusion is that the latter is the best for the City.

#### Other Data.

In addition to the report of Mr. Freeman supplemental reports have been furnished to the Board of Engineers as follows:

An investigation of the sources now under the control of the People's Water Company, by J. H. Dockweiler.

The estimation of the quantity available from sources on the western shore of the peninsula by C. E. Grunsky, and a similar report on the supply south of the county line by Professor C. D. Marks.

The yield of Alameda Creek and Livermore Valley by Cyril Williams Jr.

A report on geological conditions by Professor Branner.

Elaborate appendices and estimates of costs conclude the report.

# Financial Condition

## RESOLUTION NO. 9730. (NEW SERIES.)

RESOLVED, That the following statement showing the financial condition of the City and County of San Francisco be and is hereby approved, and the Clerk is hereby directed to transmit a copy thereof to the State Controller:

### FINANCIAL STATEMENT OF THE CITY AND COUNTY OF SAN FRANCISCO, ON THE 1st DAY OF OCTOBER, 1912.

Bonded debt at 3½ per cent interest .....	\$ 3,050,300.00
Bonded debt at 5 per cent interest .....	20,246,000.00
Bonded debt at 4½ per cent interest .....	3,781,000.00
 Total Bonded Debt .....	 \$ 27,077,300.00
Less Sinking Funds .....	18,035.88
	\$ 27,059,264.12

### VALUE OF PROPERTY.

# Report of Stationery Department

OF THE

## BOARD OF SUPERVISORS

FOR THE FISCAL YEAR 1911-1912.

---

San Francisco, August 6, 1912.

To the Honorable,

The Board of Supervisors of the City and County of San Francisco.

Gentlemen:—I respectfully submit the following report of the amount expended for stationery, printing, books, postage stamps, directories, rebinding books, and other supplies delivered to the various departments of the city government from the Stationery Department of the Board of Supervisors during the fiscal year 1911-1912. Also a statement showing the conditions of the various funds of this department on July 1, 1912.
